Build a retirement-ready workforce with Corporate Private Retirement Scheme (PRS)

We all hope to enjoy our retirement without having to worry about finances. Employers play a vital role in initiating and motivating their employees to invest. This is now possible with Principal's Corporate Private Retirement Scheme, a new employee-benefit package which employers can adopt as a reward-retention scheme. Employers can now strengthen loyalty, boost productivity and achieve an ideal employee-replacement cycle. By championing the course of investment at work, your employees will invest their time in your business.

Corporate PRS is an essential tool to help employees close their savings gap and achieve longterm financial security.

Take the first step and reap long-lasting effects of a loyal and productive workforce.

Understanding PRS

Tax-Free Withdrawals

- On Death
- Permanent departure from Malaysia
- Permanent total disablement
- Serious disease
- Mental disability

Sub Account A

70% Locked until 55 years old

Sub Account B

30% Pre-retirement withdrawal allowed

Account B (30%) can be withdrawn subject to the following restrictions:

- After 1st year of initial investment
- Thereafter, once a year
- 8% Tax Penalty on amount withdrawn, except for withdrawal for healthcare and housing**

* Based on strategy B5 of Eleventh Malaysia Plan.

** The 2020 Budget Speech - 11 October 2019.

Step 1

Contact us to explore the scheme

Step 2

Offer payroll-deduction facility

Step 3

Reward your employees with PRS

Step 4

Promote compulsory attendance during PRS literacy sessions

Step 5

Encourage employees to top-up contribution every year

Retirement planning : Facts at a glance

Insufficient savings

MORE THAN **90%** of Malaysians aged 45 & above who want to retire in the next 5 years are unable to do so due to financial constraints.¹

68% EPF members aged 54 in 2014 have savings below **RM50,000.**²

50% of retirees exhausted their EPF savings within 5 years.²

Source:
 1 The Star, "HSBC Survey: Malaysians Not Saving Enough For Their Retirement", 30 Jan 2016.
 2 EPF, "EPF Savings and Your Retirement" 2015

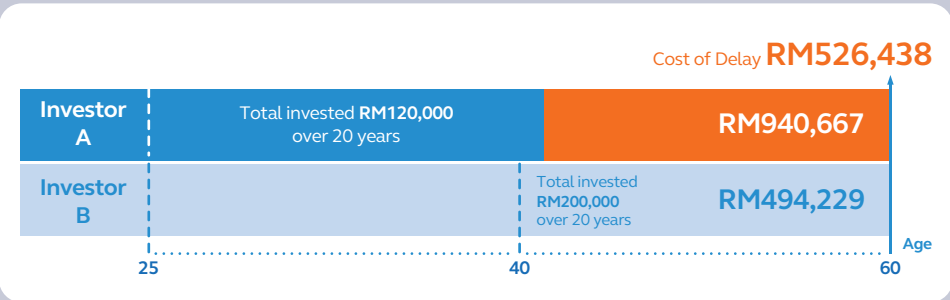

The power of compounding

Investor A invests RM6,000 annually from age 25 to 45 while **Investor B** decides to wait until he's 40 to start investing RM10,000 annually & saves until age 60.

Assuming a 8% annual return on investment, **Investor A**, who begins saving at age 25 & stops investing at 45, would have RM940,667 at age 60; **Investor B**, who begins investing at age 40 & stops at 60, would have RM494,229.

Projected Balance at Age 60

- CIMB Islamic PRS Plus Asia Pacific Ex-Japan Equity (Investments in the Fund are exposed to risks associated with investment in the Target Fund and Concentration risk. Target Fund’s risks include stock specific risk, counterparty risk, country risk, currency risk, risks associated with investment in warrants/options and reclassification of Shariah status risk)

[^] The name “PRS Plus” is the name of the private retirement scheme solution by the PRS Provider. It does not in any way connote or warrant that this Scheme will necessarily outperform other private retirement schemes or have additional features that may be lacking in other private retirement scheme solutions.

* Please note that although Sukuk is a non-interest bearing instrument, its price movement is correlated to the movement in the interest rates. As such, investment in Sukuk will have an exposure to interest rates. Even though the Fund does not invest in interest bearing instruments, the interest rate referred herein is to the general interest rate of the country which may affect the value of the investment of the Fund.
