MARKET REVIEW (1 DECEMBER 2017 TO 30 NOVEMBER 2018)

The FBMS Index declined by 1,286.71 points or 10.0% to 11,633.44 points during the financial year under review.

In December 2017, the FBMS Index was up by 3.0% on the back of window dressing activities. For the period, the FBMS Index rose by 1,288.50 points or 10.72%, outperforming the conventional FBM Kuala Lumpur Composite Index ("FBMKLCI") which increased by 9.45%. Foreign investors were net buyers of RM10.3 billion in 2017 versus net sellers of RM3.2 billion in 2016. Brent crude oil price rose by 5.2% month-on-month ("m-o-m") or 17.7% year-on-year ("y-o-y") to USD67 per barrel, while the Malaysian Ringgit ("MYR") closed the period stronger at RM4.0465 against US Dollar ("USD"), up by 10% y-o-y.

FBMS Index had a strong start in January 2018 as it jumped by 2.7% on the back of a stronger MYR, higher oil prices, net foreign inflows, hike in overnight policy rate and overall stronger global economies. To note, foreign investors were net buyers of RM3.4 billion versus RM10.3 billion in the whole of 2017. Brent crude oil price closed at USD69.05 per barrel, while the MYR appreciated by 3.8% to close at RM3.8985 against USD.

February 2018 was a volatile month as investors began re-pricing more profit rate hikes in the US, earlier than expected, on the back of higher inflation expectations. In line with the global rout, the FBMS Index came off by 1.69%. To note, consumer price inflation eased in January 2018 to 2.7% (3.5% y-o-y in December 2017) due to currency gains and a higher base, as fuel prices and electricity tariffs were raised a period ago. In February 2018, foreign investors net sold RM1.1 billion bringing year-to-date ("YTD") net inflows to RM2.2 billion.

In March 2018, the FBMS Index declined by 1.5% amid US-China trade frictions. Large caps continued to outperform the broader market and small caps. For the first quarter of 2018, the FBMS Index was flattish, shedding by 0.5%, despite net foreign inflows of RM2.2 billion. The MYR strengthened by 4.5% in the first quarter of 2018. Bank Negara Malaysia ("BNM") kept Overnight Policy Rate ("OPR") unchanged at 3.25%. Meanwhile, the February 2018 Nikkei Purchasing Managers' Index ("PMI") fell to 49.9 versus 50.5 in January 2018.

MARKET REVIEW (1 DECEMBER 2017 TO 30 NOVEMBER 2018) (CONTINUED)

The FBMS Index continued to shed by 0.5% in April 2018. Foreigners turned net buyers of RM1.5 billion in April 2018 after being net sellers of RM0.1 billion in March 2018, bringing YTD net foreign inflows to RM3.5 billion. In April 2018, the MYR depreciated by 1.5%, while the 10-period Malaysian Government Securities (“MGS”) rose by 19 basis points (“bps”) to 4.13%. Brent crude oil rose by 7% to USD75 per barrel. Construction outperformed, while technology, consumer staples and telecommunications underperformed.

Heavy foreign selling dragged the FBMS Index down by 7.5% in May 2018 as investors re-priced policy risk. The bulk of the selling came after the 14th General Elections (“GE14”) which saw the FBMS Index falling by 6.9%. To note, foreigners net sold RM5.6 billion in May 2018, reversing YTD net foreign flows to -RM1.9 billion. During the month, the MYR depreciated by 1.4%, the 10-period MGS rose by 5 bps to 4.18%, while Brent crude oil gained by 3% to USD77 per barrel.

In June 2018, the FBMS Index continued to succumb to heavy foreign selling, falling by 0.68%. In June 2018, foreigners net sold RM4.9 billion, bringing the six months of 2018 total net foreign flows outflow of RM6.8 billion versus net inflow of RM10.8 billion in 2017. During the month, the MYR depreciated further by 1.47% to RM4.04 against USD, the 10-period MGS rose by 2 bps to 4.20%, while Brent crude oil gained by 2.4% to USD79.44 per barrel.

After two consecutive months of sold off post GE14, the FBMS Index bucked the downtrend in July 2018 and ended higher by 5.9% as local investors started to bargain-hunt. Nevertheless, foreigners remained net sellers for third consecutive months with cumulative net outflows of RM1.7 billion. However, this is much lower as compared to RM4.9 billion outflows in June 2018. During the month, the MYR weakened by 0.64% to close at RM4.06 against USD, the 10-period Government Investment Issues (“GII”) dropped by 11 bps to 4.20% and Brent crude oil weakened by 6.1% to USD74.25 per barrel.

The FBMS Index ended the month of August 2018 marginally lower by 0.02%. Foreigners continue to be selling in the market albeit smaller amount as compared to the previous months. Total outflow for the eight months of 2018 amounted to RM8.6 billion versus net inflow of RM10.8 billion in 2017. During the month, the MYR weakened by 1% to close at RM4.11 against USD, the 10-period GII dropped by 7 bps to 4.14% and Brent crude oil strengthen by 4.2% to USD77.42 per barrel.

In September 2018, the FBMS Index ended lower by 1.0%. September 2018 saw net buying from the foreign investors primarily due FTSE rebalancing exercise with cumulative foreign in flow amounted to RM66 million, the first time since April 2018. Despite net foreign inflow for the month, total outflow for the nine months of 2018 amounted to RM8.5 billion versus net inflow of RM10.8 billion in 2017. During the month, the MYR weakened by 0.7% to close at RM4.14 against USD, the 10-period GII higher by 2 bps to 4.15% and Brent crude oil skyrocketed to USD82.72 per barrel, higher by 6.8% m-o-m.

In-line with regional weakness on global growth concerns, the FBMS Index ended October 2018 lower by 7.15%. The release of the mid-term review of the austere 11th Malaysia Plan offered no reprieve as investors further locked in gains made due to rising economic risk and uncertainties. Local investors were concerned that the Government will unveil new taxes and announce higher fiscal deficits during the 2019 Budget. Telecommunication companies were the largest loser on the back of regulatory risk, while construction sector underperformed on Mass Rapid Transit (“MRT”) Line 2 project cost cut. During the month, the MYR weakened by 1.1% while the 10-period GII rose by 10 bps to 4.25%. Brent crude oil price fell to USD75 per barrel, down by 9% m-o-m.

MARKET REVIEW (1 DECEMBER 2017 TO 30 NOVEMBER 2018) (CONTINUED)

Finally, the FBMS Index ended November 2018 declining by 1.17%. During the month, the MYR was flat at RM4.18 against USD while the 10-period GII unchanged at 4.24%. Brent crude oil tumbled to USD58.71 per barrel, down by 22.20% m-o-m. November 2018 saw Khazanah Nasional Bhd (“Khazanah”) selling 16% of its stake in IHH Healthcare Bhd to Mitsui Group. This could be part of the rationalisation programs by Khazanah to increase its contribution to the Federal Government. Third quarter of 2018 Gross Domestic Product (“GDP”) came in lower than consensus forecast at 4.4% y-o-y, driven by domestic demand. Moody’s affirmed the A1 domestic issuer and foreign currency senior unsecured ratings of Petroliaam Nasional Berhad (“PETRONAS”), but changed its outlook to negative from stable.

Shariah-compliant quoted securities	86.53	96.21
Cash and other net assets	13.47	3.79

Asset allocation fell from 96.21% as at 30 November 2017 to 86.53% as at 30 November 2018. Post the GE14, we have embarked on capital preservation investment strategy and turn more cautious on the market given concerns on domestic earnings growth and global macro uncertainties.

MARKET OUTLOOK*

We continue to reiterate our cautious stance on the domestic market for rest of 2018 and 2019. We deemed the trade war truce between US and China following the Group of Twenty ("G20") meeting as a short-term reprieve for the market while additional time is sought to resolve the trade dispute between the two nations over 90 days from 1 January 2019. Risk of further escalation cannot be ruled out which will exacerbate the risk to moderating global economic growth amid tightening monetary conditions. Domestically, poor third quarter of 2018 earnings led to more downward revision by the Street for 2018 and 2019 estimates and this will add pressure to the FBMKLCI.

*This market outlook does not constitute an offer, invitation, commitment, advice or recommendation to make a purchase of any investment. The information given in this article represents the views of CIMB-Principal or based on data obtained from sources believed to be reliable by CIMB-Principal. Whilst every care has been taken in preparing this, CIMB-Principal makes no guarantee, representation or warranty and is under no circumstances liable for any loss or damage caused by reliance on, any opinion, advice or statement made in this market outlook.

INVESTMENT STRATEGY

On the back of all these uncertainties, we reiterated our capital preservation investment strategy with preference on big cap Government-Linked Companies (“GLCs”) and companies with strong fundamentals and solid cash flow and dividends in sectors such as Utilities & Renewable Energy, Consumer Staples and Industrials. We are also positive over the medium term on Exporters as US-China trade conflicts may benefit technology-related and Electronics Manufacturing Services (“EMS”) players in Malaysia.

**TRUSTEE'S REPORT TO THE UNIT HOLDERS OF
CIMB ISLAMIC DALI EQUITY THEME FUND**

We have acted as Trustee of CIMB Islamic DALI Equity Theme Fund ("the Fund") for the financial year ended 30 November 2018. To the best of our knowledge, CIMB-Principal Asset Management Berhad ("the Manager"), has operated and managed the Fund in accordance with the following:

- a) limitations imposed on the investment powers of the Manager and the Trustee under the Deeds, the Securities Commission's Guidelines on Unit Trust Funds, the Capital Markets and Services Act 2007 and other applicable laws;
- b) valuation/pricing is carried out in accordance with the Deeds and any regulatory requirements; and
- c) creation and cancellation of units are carried out in accordance with the Deeds and any regulatory requirements.

During this financial year, a total distribution of 2.00 sen per unit (gross) for MYR class and 10.36 sen per unit (gross) for SGD class have been distributed to the unit holders of the Fund respectively. We are of the view that the distribution is not inconsistent with the objective of the Fund.

**SHARIAH ADVISER'S REPORT TO THE UNIT HOLDERS OF
CIMB ISLAMIC DALI EQUITY THEME FUND**

We have acted as the Shariah Adviser of CIMB Islamic DALI Equity Theme Fund (the "Fund") for the financial year ended 30 November 2018. Our responsibility is to ensure that the procedures and processes employed by CIMB-Principal Asset Management Berhad (the "Manager") are in accordance with Shariah and Shariah Investment Guidelines.

In our opinion, the Manager has managed and administered the Fund in accordance with the Shariah Investment Guidelines of the Fund and complied with applicable guidelines, rulings or decisions issued by the Securities Commission Malaysia pertaining to Shariah matters for the financial year ended 30 November 2018.

In addition, we confirm that the investment portfolio of the Fund comprises securities which have been classified as Shariah-compliant by the Shariah Advisory Council of the Securities Commission Malaysia ("SACSC") and, where applicable the Shariah Advisory Council of Bank Negara Malaysia with exception to Tasco Berhad. The disposal of the said security has yet to be completed due to the market value was lower than the investment cost. However, the holding of the security is still within the ambit of the Shariah Investment Guidelines of the Fund. For investments other than the abovementioned, we have reviewed the same and are of the opinion that these investments were in accordance with the rulings of the Shariah Adviser and the Shariah Investment Guidelines of the Fund.

This report is made solely to the unit holders of the Fund, as a body, and for no other purpose. We do not assume responsibility to any other person for the content of this report and we shall not be liable for any errors or non-disclosure on the part of the Manager.

In our opinion, the financial statements of CIMB Islamic DALI Equity Theme Fund (the "Fund") give a true and fair view of the financial position of the Fund as at 30 November 2018, and of its financial performance and its cash flows for the year then ended in accordance with Malaysian Financial Reporting Standards and International Financial Reporting Standards.

What we have audited

We have audited the financial statements of the Fund, which comprise the statement of financial position as at 30 November 2018, and the statement of comprehensive income, statement of changes in net assets attributable to unit holders and statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies, as set out on pages 18 to 55.

Basis for opinion

We conducted our audit in accordance with approved standards on auditing in Malaysia and International Standards on Auditing. Our responsibilities under those standards are further described in the "Auditors' responsibilities for the audit of the financial statements" section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence and other ethical responsibilities

We are independent of the Fund in accordance with the By-Laws (on Professional Ethics, Conduct and Practice) of the Malaysian Institute of Accountants ("By-Laws") and the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants ("IESBA Code"), and we have fulfilled our other ethical responsibilities in accordance with the By-Laws and the IESBA Code.

REPORT ON THE AUDIT OF THE FINANCIAL STATEMENTS (CONTINUED)

Information other than the financial statements and auditors' report thereon

The Manager of the Fund is responsible for the other information. The other information comprises Manager's report but does include the financial statements of the Fund and our auditor's report thereon.

Our opinion on the financial statements of the Fund does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements of the Fund, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements of the Fund or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Manager for the financial statements

The Manager of the Fund is responsible for the preparation of the financial statements of the Fund that give a true and fair view in accordance with Malaysian Financial Reporting Standards and International Financial Reporting Standards. The Manager is also responsible for such internal control as the Manager determines is necessary to enable the preparation of financial statements of the Fund that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements of the Fund, the Manager is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Manager either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

The Manager is also responsible for overseeing the Fund's financial reporting process.

**INDEPENDENT AUDITORS' REPORT TO THE UNIT HOLDERS OF
CIMB ISLAMIC DALI EQUITY THEME FUND (CONTINUED)**

REPORT ON THE AUDIT OF THE FINANCIAL STATEMENTS (CONTINUED)

Auditors' responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements of the Fund as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with approved standards on auditing in Malaysia and International Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with approved standards on auditing in Malaysia and International Standards on Auditing, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- (a) Identify and assess the risks of material misstatement of the financial statements of the Fund, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- (b) Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- (c) Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Manager.
- (d) Conclude on the appropriateness of the Manager's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial statements of the Fund or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- (e) Evaluate the overall presentation, structure and content of the financial statements of the Fund, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

**NOTES TO THE FINANCIAL STATEMENTS
FOR THE FINANCIAL YEAR ENDED 30 NOVEMBER 2018**

1. THE FUND, THE MANAGER AND ITS PRINCIPAL ACTIVITY

CIMB Islamic DALI Equity Theme Fund (the "Fund") is governed by a Principal Master Deed dated 15 May 2008, a Third Supplemental Master Deed dated 25 June 2008, a Sixth Supplemental Master Deed dated 14 July 2008, a Seventh Supplemental Master Deed dated 19 November 2008, a Fifteenth Supplemental Master Deed dated 21 September 2012, a Seventeenth Supplemental Master Deed dated 25 March 2015 all executed between the Management Company and the AmTrustee Berhad (hereinafter known as the "Previous Trustee"), and a Principal Master Deed dated 10 April 2015 (collectively referred to as the "Deeds"), between CIMB-Principal Asset Management Berhad (the "Manager") and HSBC (Malaysia) Trustee Berhad (the "Trustee").

The strategy of the Fund is to invest in sectors that are related to the prevailing domestic and/or global investment themes.

At least 70% of the Fund's NAV will be invested in equities listed on Bursa Malaysia that conform with Shariah principles and up to 28% of the Fund's NAV may be invested in other permissible investments. At least 2% of the Fund's NAV will be invested in Shariah-compliant liquid assets for liquidity purposes.

All investments will be subjected to the Securities Commission Malaysia ("SC") Guidelines on Unit Trust Funds, SC requirements, the Deeds, except where exemptions or variations have been approved by the SC, internal policies and procedures and the Fund's objective.

The Manager, a company incorporated in Malaysia, is a subsidiary of CIMB Group Sdn Bhd and regards CIMB Group Holdings Berhad as its ultimate holding company. The Manager is also an associate of Principal International (Asia) Limited, which is a subsidiary of Principal Financial Group Inc. The principal activities of the Manager are the establishment and management of unit trust funds and fund management activities.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The following accounting policies have been used consistently in dealing with items which are considered material in relation to the financial statements:

(a) Basis of preparation

The financial statements have been prepared in accordance with the provisions of the MFRS and IFRS.

The financial statements have been prepared under the historical cost convention, as modified by financial assets at fair value through profit or loss.

The preparation of financial statements in conformity with MFRS and IFRS requires the use of certain critical accounting estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reported year.

It also requires the Manager to exercise their judgment in the process of applying the Fund's accounting policies. Although these estimates and assumptions are based on the Manager's best knowledge of current events and actions, actual results may differ.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(a) Basis of preparation (continued)

The areas involving a higher degree of judgment or complexity, or areas where assumptions and estimates are significant to the financial statements are disclosed in Note 2(m).

Standards, amendments to published standards and interpretations to existing standards that are effective:

The Fund has applied the following amendments for the first time for the financial year beginning 1 December 2017:

- Amendments to MFRS 107 “Statement of Cash Flows – Disclosure Initiative” (effective from 1 January 2017) introduce an additional disclosure on changes in liabilities arising from financing activities.

The adoption of these amendments did not have any impact on the current financial year or any prior financial year and is not likely to affect future years.

The standards, amendments to published standards and interpretations to existing standards that are applicable to the Fund but not yet effective and have not been early adopted are as follows:

(i) Financial year beginning on/after 1 December 2018

- MFRS 9 “Financial Instruments” (effective from 1 January 2018) will replace MFRS 139 “Financial Instruments: Recognition and Measurement”.

MFRS 9 retains but simplifies the mixed measurement model in MFRS 139 and establishes three primary measurement categories for financial assets: amortised cost, fair value through profit or loss and fair value through other comprehensive income (“OCI”). The basis of classification depends on the entity's business model and the contractual cash flow characteristics of the financial asset.

Investments in equity instruments¹ are always measured at fair value through profit or loss with an irrevocable option at inception to present changes in fair value in OCI (provided the instrument is not held for trading). A debt instrument² is measured at amortised cost only if the entity is holding it to collect contractual cash flows and the cash flows represent principal and interest³.

For liabilities, the standard retains most of the MFRS 139 requirements. These include amortised cost accounting for most financial liabilities, with bifurcation of embedded derivatives. The main changes are:

- For financial liabilities classified as FVTPL, the fair value changes due to own credit risk should be recognised directly to OCI. There is no subsequent recycling to profit or loss.
- When a financial liability measured at amortised cost is modified without this resulting in derecognition, a gain or loss, being the difference between the original contractual cash flows and the modified cash flows discounted at the original effective interest rate, should be recognised immediately in profit or loss.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(a) Basis of preparation (continued)

(i) Financial year beginning on/after 1 December 2018 (continued)

MFRS 9 introduces an expected credit loss model (“ECL”) on impairment that replaces the incurred loss impairment model used in MFRS 139. The expected credit loss model is forward-looking and eliminates the need for a trigger event to have occurred before credit losses are recognised.

The Fund has reviewed its financial assets and liabilities and has assessed the following impacts from the adoption of the new standard on 1 December 2018:

There will be no impact on the Fund’s accounting for financial assets as the Fund’s equity investments currently measured at fair value through profit or loss will continue to be measured on the same basis under MFRS 9.

There will be no impact on the Fund’s accounting for financial liabilities as the new requirements only affect the accounting for financial liabilities that are designated at fair value through profit or loss and the Fund does not have any such liabilities.

The new impairment model requires the recognition of impairment provisions based on ECL rather than only incurred credit losses as is the case under MFRS 139. It applies to financial assets classified at amortised cost. Based on the assessments undertaken to date, the Fund does not expect any loss allowance to be recognised upon adoption of MFRS 9.

¹ For the purposes of the investments made by the Fund, equity instruments and derivatives refers to Shariah-compliant equity instruments and Shariah-compliant derivatives.

² For the purposes of the investments made by the Fund, debt instruments refers to Sukuk.

³ For the purposes of this Fund, interest refers to profits earned from Shariah-compliant investments.

(b) Financial assets and financial liabilities

Classification

The Fund designates its investments in Shariah-compliant quoted securities as financial assets at fair value through profit or loss at inception.

Financial assets are designated at fair value through profit or loss when they are managed and their performance evaluated on a fair value basis.

Financing and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market and have been included in current assets. The Fund’s financing and receivables comprise cash and cash equivalents, amount due from stockbrokers, amount due from Manager and dividends receivable.

Financial liabilities are classified according to the substance of the contractual arrangements entered into and the definitions of a financial liability.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**(b) Financial assets and financial liabilities (continued)**Classification (continued)

The Fund classifies amount due to stockbrokers, amount due to Manager, accrued management fee, amount due to Trustee and other payables and accruals as other financial liabilities.

Recognition and measurement

Regular purchases and sales of financial assets are recognised on the trade-date, the date on which the Fund commits to purchase or sell the asset. Shariah-compliant investments are initially recognised at fair value. Transaction costs are expensed in the statement of comprehensive income.

Financial liabilities, within the scope of MFRS 139, are recognised in the statement of financial position when, and only when, the Fund becomes a party to the contractual provisions of the financial instrument.

Financial assets are derecognised when the rights to receive cash flows from the Shariah-compliant investments have expired or have been transferred and the Fund has transferred substantially all risks and rewards of ownership.

Financial liabilities are derecognised when it is extinguished, i.e. when the obligation specified in the contract is discharged or cancelled or expired.

Unrealised gains or losses arising from changes in the fair value of the financial assets at fair value through profit or loss are presented in the statement of comprehensive income within net gain or loss on financial assets at fair value through profit or loss in the financial year which they arise.

Dividend income from financial assets at fair value through profit or loss is recognised in the statement of comprehensive income as part of gross dividend income when the Fund's right to receive payments is established.

Shariah-compliant quoted securities in Malaysia are valued at the last done market price quoted on Bursa Malaysia Securities Berhad ("Bursa Securities") at the date of the statement of financial position.

If a valuation based on the market price does not represent the fair value of the Shariah-compliant quoted securities, for example during abnormal market conditions or when no market price is available, including in the event of a suspension in the quotation of the Shariah-compliant quoted securities for a period exceeding 14 days, or such shorter period as agreed by the Trustee, then the Shariah-compliant quoted securities are valued as determined in good faith by the Manager, based on the methods or basis approved by the Trustee after appropriate technical consultation.

Shariah-compliant deposits with licensed Islamic financial institutions are stated at cost plus accrued profit calculated on the effective profit method over the period from the date of placement to the date of maturity of the respective deposits.

Financing and receivables and other financial liabilities are subsequently carried at amortised cost using the effective profit method.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**(b) Financial assets and financial liabilities (continued)**Impairment for assets carried at amortised costs

For assets carried at amortised cost, the Fund assesses at the end of the reporting year whether there is objective evidence that a financial asset or group of financial assets is impaired. A financial asset or a group of financial assets is impaired and impairment losses are incurred only if there is objective evidence of impairment as a result of one or more events that occurred after the initial recognition of the asset (a 'loss event') and that loss event (or events) has an impact on the estimated future cash flows of the financial asset or group of financial assets that can be reliably estimated.

The amount of the loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows (excluding future credit losses that have not been incurred) discounted at the financial asset's original effective profit rate. The asset's carrying amount is reduced and the amount of the loss is recognised in statement of comprehensive income. If 'financing and receivables' has a variable profit rate, the discount rate for measuring any impairment loss is the current effective profit rate determined under the contract.

As a practical expedient, the Fund may measure impairment on the basis of an instrument's fair value using an observable market price.

If, in a subsequent financial year, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognised (such as an improvement in the debtor's credit rating), the reversal of the previously recognised impairment loss is recognised in statement of comprehensive income.

When an asset is uncollectible, it is written off against the related allowance account. Such assets are written off after all the necessary procedures have been completed and the amount of the loss has been determined.

(c) Income recognition

Dividend income is recognised on the ex-dividend date when the right to receive payment is established.

Profit income from Shariah-compliant deposits with licensed Islamic financial institutions is recognised on a time proportionate basis using the effective profit method on an accrual basis.

Realised gain or loss on disposal of Shariah-compliant quoted securities is accounted for as the difference between the net disposal proceeds and the carrying amount of Shariah-compliant quoted securities, determined on a weighted average cost basis.

(d) Foreign CurrencyFunctional and presentation currency

Items included in the financial statements of the Fund are measured using the currency of the primary economic environment in which the Fund operates (the "functional currency"). The financial statements are presented in Ringgit Malaysia ("RM"), which is the Fund's functional and presentation currency.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(d) Foreign Currency (continued)

Functional and presentation currency (continued)

Due to mixed factors in determining the functional currency of the Fund, the Manager has used its judgement to determine the functional currency that most faithfully represents the economic effects of the underlying transactions, events and conditions and have determined the functional currency to be in RM primarily due to the following factors:

- i) Significant portion of the NAV is invested in investment denominated in RM.
- ii) Significant portion of the Fund's expenses are denominated in RM.
- iii) Significant portion of the units of the Fund are denominated in RM.

Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions or valuation where items are remeasured. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at year-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in statement of comprehensive income.

(e) Creation and cancellation of units

The unit holders' contributions to the Fund meet the definition of puttable instruments classified as financial liability under MFRS 132 "Financial Instruments: Presentation".

The Fund issues cancellable units, in two classes of units, known respectively as the Class MYR and Class SGD which are cancelled at the unit holder's option. The units are classified as financial liabilities. Cancellable units can be put back to the Fund at any time for cash equal to a proportionate share of the Fund's NAV of respective classes. The outstanding units are carried at the redemption amount that is payable at the date of the statement of financial position if the member exercises the right to put back the unit to the Fund.

Units are created and cancelled at the unit holders' option at prices based on the Fund's NAV per unit of respective classes at the close of business on the relevant dealing day. The Fund's NAV per unit of respective classes is calculated by dividing the net assets attributable to members of respective classes with the total number of outstanding units of respective classes.

(f) Cash and cash equivalents

For the purpose of statement of cash flows, cash and cash equivalents comprise bank balances and Shariah-compliant deposits held in highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

(g) Taxation

Current tax expense is determined according to Malaysian tax laws at the current rate based upon the taxable profit earned during the financial year.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**(h) Transaction costs**

Transaction costs are costs incurred to acquire or dispose financial assets or liabilities at fair value through profit or loss. They include fees and commissions paid to agents, advisers, brokers and dealers. Transaction costs, when incurred, are immediately recognised in the statement of comprehensive income as expenses.

(i) Increase/decrease in net asset attributable to unit holders

Income not distributed is included in net asset attributable to unit holders.

(j) Amount due from/to stockbrokers

Amounts due from/to stockbrokers represent receivables for Shariah-compliant quoted securities sold and payables for Shariah-compliant quoted securities purchased that have been contracted for but not yet settled or delivered on the statement of financial position date respectively.

These amounts are recognised initially at fair value and subsequently measured at amortised cost using the effective profit method, less provision for impairment for amount due from stockbrokers. A provision for impairment of amount due from stockbrokers is established when there is objective evidence that the Fund will not be able to collect all amounts due from the relevant stockbroker. Significant financial difficulties of the stockbroker, probability that the stockbroker will enter bankruptcy or financial reorganisation, and default in payments are considered indicators that the amount due from stockbrokers is impaired. Once a financial asset or a group of similar financial assets has been written down as a result of an impairment loss, profit income is recognised using the rate of profit used to discount the future cash flows for the purpose of measuring the impairment loss.

(k) Distribution

A distribution to the Fund's unit holders is accounted for as a deduction from realised reserve. A proposed distribution is recognised as a liability in the financial year in which it is approved by the Trustee.

(l) Segment information

Operating segments are reported in a manner consistent with the internal reporting used by the chief operating decision-maker. The chief operating decision-maker is responsible for allocating resources and assessing performance of the operating segments.

(m) Critical accounting estimates and judgments in applying accounting policies

The Fund makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, rarely equal the related actual results. To enhance the information content of the estimates, certain key variables that are anticipated to have material impact to the Fund's results and financial position are tested for sensitivity to changes in the underlying parameters.

Estimates and judgments are continually evaluated by the Manager and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(m) Critical accounting estimates and judgments in applying accounting policies (continued)

In undertaking any of the Fund's Shariah-compliant investment, the Manager will ensure that all assets of the Fund under management will be valued appropriately, that is at fair value and in compliance with the SC Guidelines on Unit Trust Funds.

However, the Manager is of the opinion that in applying these accounting policies, no significant judgment was required.

3. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT OBJECTIVES AND POLICIES

Financial instruments of the Fund are as follows:

	Financial assets at fair value through profit or loss RM	Financing and receivables RM	Total RM
2018			
Cash and cash equivalents (Shariah-compliant) (Note 10)	-	86,775,924	86,775,924

	<u>1,026,898,549</u>	<u>62,003,413</u>	<u>1,088,901,962</u>

All current liabilities are financial liabilities which are carried at amortised cost.

The Fund aims to provide investors with medium to long-term capital appreciation through investments in securities of Malaysian companies that will benefit from prevailing investment themes and that conform to Shariah principles.

The Fund is exposed to a variety of risks which include market risk (inclusive of price risk, currency risk and interest rate risk), credit risk and liquidity risk.

Financial risk management is carried out through internal control process adopted by the Manager and adherence to the investment restrictions as stipulated in the Deeds and SC Guidelines on Unit Trust Funds.

3. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT OBJECTIVES AND POLICIES (CONTINUED)

(a) Market risk

(i) Price risk

This is the risk that the fair value of an investment in Shariah-compliant quoted securities will fluctuate because of changes in market prices (other than those arising from interest rate risk). The value of Shariah-compliant quoted securities may fluctuate according to the activities of individual companies, sector and overall political and economic conditions. Such fluctuation may cause the Fund's NAV and prices of units to fall as well as rise, and income produced by the Fund may also fluctuate.

The price risk is managed through diversification and selection of Shariah-compliant quoted securities and other financial instruments within specified limits according to the Deeds.

The Fund's overall exposure to price risk was as follows:

	2018 RM	2017 RM
Financial assets at fair value through profit or loss:		
- Shariah-compliant quoted securities	<u>621,831,886</u>	<u>1,026,898,549</u>

The table below summarises the sensitivity of the Fund's profit or loss and NAV to movements in prices of Shariah-compliant quoted securities at the end of each financial year. The analysis is based on the assumptions that the price of the Shariah-compliant quoted securities fluctuates by 5% with all other variables held constant. This represents management's best estimate of a reasonable possible shift in the Shariah-compliant quoted securities, having regard to the historical volatility of the prices.

% Change in price of Shariah-compliant quoted securities	Market Value RM	Impact on profit or loss/NAV RM

3. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT OBJECTIVES AND POLICIES (CONTINUED)

(a) Market risk (continued)

(ii) Currency risk

Currency risk is associated with Shariah-compliant cash holdings and receivables in foreign currency denomination. Foreign currency risk is the risk that the value of financial instruments will fluctuate due to changes in foreign exchange rates. The Manager will evaluate the likely directions of a foreign currency versus RM based on considerations of economic fundamentals such as interest rate differentials, balance of payments position, debt levels, and technical chart considerations.

The following table sets out the foreign currency risk concentrations arising from the denomination of the Fund's financial instruments in foreign currencies:

	Cash and cash equivalents RM	Amount due from Manager RM	Total RM
Financial assets

(ii) Currency risk (continued)

The table below summarises the sensitivity of the Fund's profit or loss and NAV to changes in foreign exchange movements at the end of each reporting year. The analysis is based on the assumption that the foreign exchange rate fluctuates by 5%, with all other variables held constant. This represents management's best estimate of a reasonable possible shift in the foreign exchange rate, having regard to historical volatility of this rate. Disclosures below are shown in absolute terms, changes and impacts could be positive or negative.

	Change in foreign exchange rate %	Impact on profit or loss/NAV RM
2018		
SGD	5	293
2017		
SGD	5	56

(iii) Interest rate risk

Fair value interest rate risk is the risk that the value of a financial instrument will fluctuate due to changes in market interest rates.

Interest rate is a general economic indicator that will have an impact on the management of the Fund.

It does not in any way suggest that this Fund will invest in conventional financial instruments. All investment carried out for the Fund including placements and deposits are in accordance with Shariah.

The Fund's exposure to fair value interest rate risk arises from Shariah-compliant investment in money market instruments. The interest rate risk is expected to be minimal as the Fund's investments comprise mainly Shariah-compliant short term deposits with approved licensed Islamic financial institutions. As at the end of each financial year, the Fund is not exposed to a material level of interest rate risk.

The Fund is not exposed to cash flow interest rate risk as the Fund does not hold any financial instruments at variable interest rate.

(b) Credit risk

Credit risk refers to the risk that a counterparty will default on its contractual obligation resulting in financial loss to the Fund.

The credit risk arising from placements of Shariah-compliant deposits in licensed Islamic financial institutions is managed by ensuring that the Fund will only place Shariah-compliant deposits in reputable licensed Islamic financial institutions.

3. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT OBJECTIVES AND POLICIES (CONTINUED)

(b) Credit risk (continued)

For amount due from stockbrokers, the settlement terms of the proceeds from the creation of units' receivable from the Manager are governed by the SC Guidelines on Unit Trust Funds.

For amount due from stockbrokers, the settlement terms are governed by the relevant rules and regulations as prescribed by respective stock exchange. The credit risk is minimal as all transactions in Shariah-compliant quoted securities are settled/paid upon delivery using approved stockbrokers.

The following table sets out the credit risk concentration of the Fund:

3. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT OBJECTIVES AND POLICIES (CONTINUED)

(c) Liquidity risk

Liquidity risk is the risk that the Fund will encounter difficulty in meeting its financial obligations.

The Manager manages this risk by maintaining sufficient level of liquid assets to meet anticipated payments and cancellations of the units by unit holders. Liquid assets comprise bank balances and, Shariah-compliant deposits with licensed Islamic financial institutions, which are capable of being converted into cash within 7 business days. This is expected to reduce the risks for the entire portfolio without limiting the Fund's growth potentials.

The table below summarises the Fund's financial liabilities into relevant maturity groupings based on the remaining period as at the statement of financial position date to the contractual maturity date. The amounts in the table are the contractual undiscounted cash flows.

* Outstanding units are redeemed on demand at the holder's option. However, the Manager does not envisage that the contractual maturity disclosed in the table above will be representative of the actual cash outflows, as holders of these instruments typically retain them for the medium to long term.

3. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT OBJECTIVES AND POLICIES (CONTINUED)

(d) Capital risk management

The capital of the Fund is represented by net assets attributable to unit holders of RM718,609,592 (2017: RM1,067,299,951). The amount of capital can change significantly on a daily basis as the Fund is subject to daily subscriptions and redemptions at the discretion of unit holders. The Fund's objective when managing capital is to safeguard the Fund's ability to continue as a going concern in order to provide returns to unit holders and benefits for other stakeholders and to maintain a strong capital base to support the development of the investment activities of the Fund.

(e) Fair value estimation

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e. an exit price).

The fair value of financial assets traded in active markets (such as trading securities) is based on quoted market prices at the close of trading on the financial year end date. The Fund utilises the last traded market price for financial assets where the last traded market price falls within the bid-ask spread. In circumstances where the last traded market price is not within the bid-ask spread, the Manager will determine the point within the bid-ask spread that is most representative of the fair value.

An active market is a market in which transactions for the asset or liability take place with sufficient frequency and volume to provide pricing information on an ongoing basis.

The fair value of financial assets that are not traded in an active market is determined by using valuation techniques.

(i) Fair value hierarchy

The table below analyses financial instruments carried at fair value. The different levels have been defined as follows:

- Quoted prices (unadjusted) in active market for identical assets or liabilities (Level 1)
- Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) (Level 2)
- Inputs for the asset and liability that are not based on observable market data (that is, unobservable inputs) (Level 3)

The level in the fair value hierarchy within which the fair value measurement is categorised in its entirety is determined on the basis of the lowest level input that is significant to the fair value measurement in its entirety. For this purpose, the significance of an input is assessed against the fair value measurement in its entirety.

If a fair value measurement uses observable inputs that require significant adjustment based on unobservable inputs, that measurement is a Level 3 measurement.

3. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT OBJECTIVES AND POLICIES (CONTINUED)

(d) Fair value estimation (continued)

(i) Fair value hierarchy (continued)

Assessing the significance of a particular input to the fair value measurement in its entirety requires judgment, considering factors specific to the asset or liability.

The determination of what constitutes ‘observable’ requires significant judgment by the Fund. The Fund considers observable data to be that market data that is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market.

	Level 1 RM	Level 2 RM	Level 3 RM	Total RM
2018				
Financial assets at fair value through profit or loss:				
- Shariah-compliant quoted securities	621,831,886	-	-	621,831,886
2017				
Financial assets at fair value through profit or loss:				
- Shariah-compliant quoted securities	1,026,898,549	-	-	1,026,898,549

Shariah-compliant investments which values are based on quoted market prices in active markets, and are therefore classified within Level 1, include active listed equities. The Fund does not adjust the quoted prices for these instruments. The Fund’s policies on valuation of these financial assets are stated in Note 2(b).

(ii) The carrying values of cash and cash equivalents, amount due from stockbrokers, amount due from Manager, dividends receivable and all current liabilities are a reasonable approximation of their fair values due to their short term nature.

4. PROFIT INCOME

	2018	2017

5. MANAGEMENT FEE

In accordance with the Deeds, the Manager is entitled to a maximum management fee of 3.00% per annum, calculated daily based on the NAV of the Fund.

For the financial year ended 30 November 2018, the management fee is recognised at a rate of 1.50% per annum (2017: 1.50% per annum).

There is no further liability to the Manager in respect of management fee other than the amount recognised above.

6. TRUSTEE'S FEE

In accordance with the Deeds, the Trustee is entitled to a maximum fee of 0.07% per annum calculated daily based on the NAV of the Fund. The Trustee's fee includes local/custodian fee but excludes foreign sub-custodian fees and charges.

For the financial year ended 30 November 2018, the Trustee's fee is recognised at a rate of 0.05% per annum (2017: 0.05% per annum).

There is no further liability to the Trustee in respect of Trustee's fee other than the amount recognised above.

12. MANAGEMENT EXPENSE RATIO ("MER")

	2018	2017
	%	%
MER	<u>1.62</u>	<u>1.66</u>

MER is derived from the following calculation:

$$\text{MER} = \frac{(A + B + C + D + E) \times 100}{F}$$

- A = Management fee
- B = Trustee's fee
- C = Audit fee
- D = Tax agent's fee
- E = Other expenses excluding Goods and Services Tax ("GST") on transaction costs
- F = Average NAV of the Fund calculated on a daily basis

The average NAV of the Fund for the financial year calculated on a daily basis is RM909,028,080 (2017: RM1,279,054,393).

13. PORTFOLIO TURNOVER RATIO (“PTR”)

	2018	2017
PTR (times)	<u>0.75</u>	<u>0.95</u>

PTR is derived based on the following calculation:

$$\frac{(\text{Total acquisition for the financial year} + \text{total disposal for the financial year}) \div 2}{\text{Average NAV of the Fund for the financial year calculated on a daily basis}}$$

where:

total acquisition for the financial year	=	RM527,310,897 (2017: RM1,104,131,877)
total disposal for the financial year	=	RM827,748,679 (2017: RM1,326,914,045)

16. SEGMENT INFORMATION

The internal reporting provided to the chief operating decision-maker for the Fund's assets, liabilities and performance is prepared on a consistent basis with the measurement and recognition principles of MFRS and IFRS. The chief operating decision-maker is responsible for the performance of the Fund and considers the business to have a single operating segment located in Malaysia. Asset allocation decisions are based on a single, integrated investment strategy and the Fund's performance is evaluated on an overall basis.

The Fund aims to provide investors with medium to long-term capital appreciation through investments in securities of Malaysian companies that will benefit from prevailing investment themes and that conform with Shariah principles. The reportable operating segment derives its income by seeking investments to achieve targeted returns consummate with an acceptable level of risk within the portfolio. These returns consist of profit income and dividend income earned from Shariah-compliant investments and gains on the appreciation in the value of Shariah-compliant investments, which are derived from Ringgit-denominated Shariah-compliant deposits with licensed Islamic financial institutions in Malaysia and Shariah-compliant quoted securities listed on the Bursa Securities, Malaysia.

There were no changes in reportable operating segment during the financial year.

17. APPROVAL OF FINANCIAL STATEMENTS
