INVESTORS' LETTER

Dear Valued Investor,

As we begin 2020, allow me to wish you a Happy New Year! Selamat Tahun Baru!

2019 was a year of heightened risk velocity in markets, due to external factors - both globally and domestically, such as the US-China trade tensions, uncertainties in US monetary policy, China economic growth slowdown and weak earnings in Malaysia markets.

Going into 2020, we continue to see pockets of opportunities in the equity market. This is on the back of supportive central banks policies, stabilising earnings estimate and some progressive outcome coming from US and China trade tension.

We believe you should remain fully invested, focus on long-terms returns and look to diversify your investments across a full spectrum of asset classes depending on your risk appetite. We believe that fixed income returns will be more moderate and thus, we encourage diversifying allocations to assets like Asia Pacific equities, Global equities or Global REITs. Equity markets like ASEAN and Malaysia which have underperformed in 2019 may now set to improve in 2020.

Lastly, we wish to thank you for the trust you've put in us. We achieved much this year because of the trust you placed in us:

Serve over 1 million customers in Malaysia, Indonesia, Singapore and Thailand.

Manage over RM88.1 billion in assets.

Numerous awards -

- Five outstanding funds (based on performance and consistency of returns) -Fundsupermart.com
- Two outstanding funds Lipper Fund Awards from Refinitiv 2019
- Best Asset Management House in ASEAN and Fund Launch of the Year Asia Asset Management, 2019.
- Offer our Unit Trust Funds on EPF's i-Invest online platform with 0.0% sales fee. The online facility enables EPF i-Akaun members to invest in unit trust funds using their EPF savings anytime, anywhere.
- Rolled out several core funds, including Principal Global Sukuk Fund, Principal Global Real Estate Fund and Principal Greater Bay Fund. These Funds provided investors an opportunity to increase their investment potential with a diversified global portfolio.

As you consider your ongoing investment needs, we hope you continue to turn to us for guidance and solutions. Please check-out www.principal.com.my for information and consider following us on Facebook! @PrincipalAssetMY

INVESTORS' LETTER (CONTINUED)

In our effort to serve you better, we would like to encourage you to update us with your latest contact information. Please call our customer care hotline at 03-7718 3000 to speak to our representative.

Please be informed that effective 31 December 2019, the Fund has changed its name from CIMB Islamic Small Cap Fund to Principal Islamic Small Cap Opportunities Fund following the issuance of the replacement Master Prospectus (Islamic Funds) for the Fund on 31 December 2019.

Thank you once again for your continuous support and allowing us to help you achieve your financial goals and live your best life.

May 2020 be a good year for you!

Thank you.

Yours faithfully,

for Principal Asset Management Berhad

MANAGER'S REPORT

FUND OBJECTIVE AND POLICY

What is the investment objective of the Fund?

The objective of the Fund is to seek medium to long-term growth in capital by investing principally in emerging companies listed on Bursa Malaysia and this must be in accordance with the Shariah principles.

Has the Fund achieved its objective?

The Fund has achieved its objective of providing long-term capital growth.

What are the Fund investment policy and principal investment strategy?

The Fund may invest a minimum of 70% and up to a maximum of 98% of its Net Asset Value ("NAV") in Shariah-compliant stocks of emerging companies*. The investment policy and strategy of the Fund will therefore focus on investments in Shariah-compliant securities of such emerging companies* with potential growth and hands-on management policies but may be lacking in track records. The Fund may also invest up to 28% of its NAV in other permissible investments such as Shariah-compliant fixed income securities for the purpose of cash management. The Fund may also opt to seek investment exposure via Shariah-compliant collective investment scheme that is in line with the Fund's objective, subject to the requirements of the Securities Commission Malaysia ("SC") Guidelines. In addition, Shariah-compliant liquid assets may be strategically used if we feel that the market downside risk is high in the short-term.

Between 70% to 98% (both inclusive) of the Fund's NAV will be invested in Shariah-compliant equities and/or other Shariah-compliant investments, with at least 2% of the Fund's NAV in Shariah-compliant liquid assets.

Note:

- * Emerging companies in this context refers to companies that are listed on Bursa Malaysia with market capitalisation of up to three (3) billion Ringgit Malaysia ("RM") at the point of purchase. However, should there be lack of liquidity or when we deem necessary to reduce volatility of the Fund, the Fund may invest up to 20% of its NAV in companies with market capitalization above three (3) billion RM but not more than five (5) billion RM at the point of purchase. #
- # With effective 1st September 2017, the Fund may invest up to 20% of its NAV in companies with market capitalization above three (3) billion RM but not more than five (5) billion RM at the point of purchase.

Fund category/type

Equity (small cap) (Shariah-compliant)/Growth

How long should you invest for?

Recommended three (3) years or more

When was the Fund launched?

30 April 2003

What was the size of the Fund as at 30 November 2019?

RM143.70 million (141.85 million units)

What is the Fund's benchmark?

Financial Times Stock Exchange ("FTSE") Bursa Malaysia ("FBM") Small Cap ("FBMSCAP") Index

Note: The Fund's benchmark is for performance comparison purpose only. Investors are cautioned that the risk profile of the Fund is higher than the benchmark.

FUND OBJECTIVE AND POLICY (CONTINUED)

What is the Fund distribution policy?

The Manager has the discretion to distribute part or all of the Fund's distributable income. The distribution (if any) may vary from period to period depending on the investment objective and the performance of the Fund.

What was the net income distribution for the six months financial period ended 30 November 2019?

There was no distribution made for the six months financial period ended 30 November 2019.

MARKET REVIEW (1 JUNE 2019 TO 30 NOVEMBER 2019)

For the financial period under review, the FBMSCAP Index decreased by 9.09% from 13,800.69 points to 12,546.52 points.

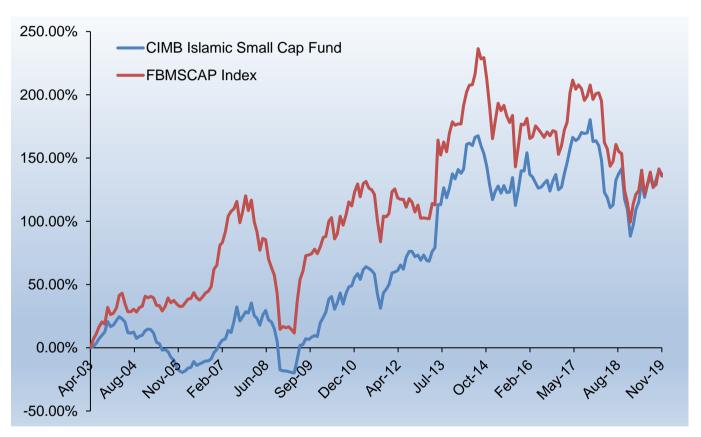

Following a sharp sell-down in the month of May 2019, Malaysian equities benefitted from relief rally in June 2019 stemming from expectation of the US Federal Reserve (the "Fed") rate cuts and de-escalation of US-China trade war. Domestic factors which also helped to boost the market include dissipating concern over regulatory risk particularly for airport operator Malaysia Airports Holdings Bhd ("MAHB") following the release of the latest consultation paper on the implementation of Regulatory Asset Base ("RAB") framework. The rally was led by FBMSCAP Index's gain of 3.6% in June 2019 which pointing to improving investors' risk appetite.

However, the rally did not last whereby FBM100 Index shed 3.79% in July 2019 and August 2019 combined and stayed range bound for the month of September 2019. Subsequently, risk appetite returned on the back of easing US-China trade war concern, and Fed's further monetary easing. In addition, financial results from companies related to 5G, Internet-of-Things and oil and gas are showing signs of recoveries, hence, the outperformance of FBMSCAP Index as compared to FBM Kuala Lumpur Composite Index ("FBMKLCI"). The latter's underperformance was due to the facts that financials, telecommunications and petrochemical companies were still showing margin compressions. However, the rally was dented towards the end of November 2019 due to driven by persisting concerns about a US-China trade deal and ongoing civil unrest in Hong Kong. Furthermore, Malaysia along with other Association of Southeast Asian Nations ("ASEAN") markets were facing fund outflows in November 2019 due to Morgan Stanley Capital International ("MSCI") rebalancing as the weightage for ASEAN was reduced to accommodate higher weightings for China and Saudi Arabia.

FUND PERFORMANCE

Average Total Return	N/A	13.46	1.80	0.75	5.35

For the financial period under review, the Fund increased by 8.45%, while the benchmark gained by 6.44%. As such, the Fund outperformed its benchmark by 2.01%.

Changes in NAV

	30.11.2019	31.05.2019	Changes
		Audited	%
NAV (RM Million)	143.70	146.37	(1.82)
NAV/Unit (RM)	1.0130	0.9341	8.45

The Fund's NAV per unit increased by 8.45% due to positive investment performance during the financial period under review.

Performance data represents the combined income and capital return as a result of holding units in the Fund for the specified length of time, based on NAV to NAV price. The performance data assumes that all earnings from the Fund are reinvested and are net of management and trustee fees. Past performance is not reflective of future performance and income distributions are not guaranteed. Unit prices and income distributions, if any, may fall and rise. All performance figures for the financial period have been extracted from Lipper.

PORTFOLIO STRUCTURE

Asset allocation

	30.11.2019	31.05.2019
(% of NAV)		Audited
Shariah-compliant quoted securities	69.75	74.87
Cash and other net assets	30.25	25.13
TOTAL	100.00	100.00

Asset allocation decreased from 74.87% as at 31 May 2019 to 69.75% as at 30 November 2019 to realise profit and protect the capital at the end of the financial period. In addition, there was cash injection during the financial period under review, hence, explained part of the higher cash level.

MARKET OUTLOOK*

Going into 2020, we expect Malaysian economic growth to remain moderate due to external headwinds from the ongoing US-China trade tension. That said, this will be mitigated by more growth-oriented Budget 2020 and accommodating monetary policy. While political and regulatory risks remain elevated, we do not believe that this will deteriorate further. Recent by-election loss of the ruling Government will potentially be the catalyst for more market friendly policies going forward. We expect Government-Linked Companies ("GLCs") reforms to take center stage again following a slew of leadership changes in Government-Linked Investment Companies ("GLICs") and GLCs since the general election in May 2018. Malaysia is also benefiting from trade diversion with the increase in foreign direct investments ("FDIs") flow, but the Government would need to do more to restore business and consumer confidence in order to boost both domestic investment and consumption. On corporate earnings, we take comfort from the stabilisation in consensus earnings expectation following earlier sharp cuts. In fact, we expect FBMKLCI earnings to rebound by 6.9% in 2020 driven by the banks and plantation sectors. Year-to-date ("YTD"), Malaysia saw the largest net outflow of USD2.39 billion among ASEAN markets. Positively, foreign shareholding in Malaysia has declined to 22.9% in September 2019, which is close to a 10-year low. This suggests that foreign net outflow should ease going forward.

INVESTMENT STRATEGY

Despite moderate growth outlook, we upgrade Malaysia to overweight as we turn constructively more positive going into 2020. FBMKLCI's valuation has now dipped to 15.4 times which is at -1 standard deviation. We believe earnings downside risk has narrowed significantly following recent cuts which is further supported by undemanding valuation now. As such, we take a barbell approach on high yield sectors like REITs, telecommunication-related and utilities-related and increasing our exposure on cyclical growth sectors like plantation, oil and gas and the technology sectors.

NOTES TO THE FINANCIAL STATEMENTS FOR THE SIX MONTHS FINANCIAL PERIOD ENDED 30 NOVEMBER 2019

1. THE FUND, THE MANAGER AND ITS PRINCIPAL ACTIVITIES

CIMB Islamic Small Cap Fund (the "Fund") is governed by a Principal Master Deed dated 15 May 2008, a Fourth Supplemental Master Deed dated 25 June 2008, a Sixth Supplemental Master Deed dated 14 July 2008, a Seventh Supplemental Master Deed dated 19 November 2008, a Fourteenth Supplemental Master Deed dated 26 June 2012 and a Seventeenth Supplemental Master Deed dated 25 March 2015 (collectively referred to as the "Deeds"), made between Principal Asset Management Berhad (formerly known as CIMB-Principal Asset Management Berhad) (the "Manager") (the "Manager") and Universal Trustee (Malaysia) Berhad (the "Trustee").

The Fund may invest a minimum of 70% and up to a maximum of 98% of its NAV in Shariah-compliant stocks of emerging companies. The investment policy and strategy of the Fund will therefore focus on investments in Shariah-compliant securities of such emerging companies with potential growth and hands-on management policies but may be lacking in track records. The Fund may also invest up to 28% of its NAV in other permissible investments such as Shariah-compliant fixed income securities for the purpose of cash management. The Fund may also opt to seek investment exposure via Shariah-compliant collective investment scheme that is in line with the Fund's objective, subject to the requirements of the SC Guidelines. In addition, Shariah-compliant liquid assets may be strategically used if we feel that the market downside risk is high in the short-term.

Between 70% to 98% (both inclusive) of the Fund's NAV will be invested in Shariah-compliant equities and/or other Shariah-compliant investments, with at least 2% of the Fund's NAV in Shariah-compliant liquid assets.

All investments are subjected to the SC Guidelines on Unit Trust Funds, SC requirements, the Deeds, except where exemptions or variations have been approved by the SC, internal policies and procedures and the Fund's objective.

The Manager, is a joint venture between Principal Financial Group®, a member of the FORTUNE 500® and a Nasdaq-listed global financial services and CIMB Group Holdings Berhad, one of Southeast Asia's leading universal banking groups. The principal activities of the Manager are the establishment and management of unit trust funds and fund management activities.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The following accounting policies have been used consistently in dealing with items which are considered material in relation to the financial statements:

(a) Basis of preparation

The financial statements have been prepared in accordance with the provisions of the MFRS and International Financial Reporting Standards ("IFRS").

The financial statements have been prepared under the historical cost convention, as modified by financial assets at fair value through profit or loss.

The preparation of financial statements in conformity with MFRS and IFRS requires the use of certain critical accounting estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reported period.

(a) Basis of preparation (continued)

It also requires the Manager to exercise their judgement in the process of applying the Fund's accounting policies. Although these estimates and assumptions are based on the Manager's best knowledge of current events and actions, actual results may differ.

The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements are disclosed in Note 2(i).

Standard that is effective and relevant:

The Fund has applied the following standard for the first time for the financial period beginning 1 June 2019:

(i) Financial year beginning on/after 1 June 2019

Amendments to MFRS 112 'Income Taxes' (effective from 1 January 2019) clarify that where income tax consequences of dividends on financial instruments classified as equity is recognised (either in profit or loss, other comprehensive income ("OCI") or equity) depends on where the past transactions that generated distributable profits were recognised.

Accordingly, the tax consequences are recognised in profit or loss when an entity determines payments on such instruments are distribution of profits (that is, dividends). Tax on dividend should not be recognised in equity merely on the basis that it is related to a distribution to owners.

There are no other standards, amendments to standards or interpretations that are effective for annual periods beginning on 1 June 2019 that have a material effect on the financial statements of the Fund.

(b) Financial assets and financial liabilities

Classification

The Fund classifies its financial assets in the following measurement categories:

- those to be measured subsequently at fair value through profit or loss, and
- those to be measured at amortised cost.

The Fund classifies its investments based on both the Fund's business model for managing those financial assets and the contractual cash flow characteristics of the financial assets. The portfolio of financial assets is managed and performance is evaluated on a fair value basis. The Fund is primarily focused on fair value information and uses that information to assess the assets' performance and to make decisions. The Fund has not taken the option to irrevocably designate any equity securities as fair value through OCI.

The contractual cash flows of the Fund's debt securities are solely principal and profit. However, these securities are neither held for the purpose of collecting contractual cash flows nor held both for collecting contractual cash flows and for sale. The collection of contractual cash flows is only incidental to achieving the Fund's business model's objective. Consequently, all investments are measured at fair value through profit or loss.

(b) Financial assets and financial liabilities (continued)

Classification (continued)

The Fund classifies cash and cash equivalents, amount due from stockbrokers, amount due from Manager, and dividends receivable as financial assets at amortised cost as these financial assets are held to collect contractual cash flows consisting of the amount outstanding.

The Fund classifies amount due to stockbrokers, amount due to Manager, accrued management fee, amount due to Trustee, and other payables and accruals as financial liabilities measured at amortised cost.

Recognition and measurement

Regular purchases and sales of financial assets are recognised on the trade-date, the date on which the Fund commits to purchase or sell the asset. Shariah-compliant investments are initially recognised at fair value. Transaction costs are expensed in the statement of comprehensive income.

Financial liabilities are recognised in the statement of financial position when, and only when, the Fund becomes a party to the contractual provisions of the financial instrument.

Financial assets are derecognised when the rights to receive cash flows from the Shariahcompliant investments have expired or have been transferred and the Fund has transferred substantially all risks and rewards of ownership.

Financial liabilities are derecognised when it is extinguished, i.e. when the obligation specified in the contract is discharged or cancelled or expired.

Unrealised gains or losses arising from changes in the fair value of the financial assets at fair value through profit or loss are presented in the statement of comprehensive income within net gain or loss on financial assets at fair value through profit or loss in the financial period which they arise.

Dividend income from financial assets at fair value through profit or loss is recognised in the statement of comprehensive income as part of gross dividend income when the Fund's right to receive payments is established.

Shariah-compliant quoted securities in Malaysia are valued at the last traded market price quoted on Bursa Malaysia Securities Bhd ("Bursa Securities") at the date of the statement of financial position.

If a valuation based on the market price does not represent the fair value of the Shariah-compliant quoted securities, for example during abnormal market conditions or when no market price is available, including in the event of a suspension in the quotation of the Shariah-compliant quoted securities for a period exceeding 14 days, or such shorter period as agreed by the Trustee, then the Shariah-compliant quoted securities are valued as determined in good faith by the Manager, based on the methods or bases approved by the Trustee after appropriate technical consultation.

Shariah-compliant deposits with licensed Islamic financial institutions are stated at cost plus accrued profit calculated on the effective profit method over the period from the date of placement to the date of maturity of the respective deposits.

(b) Financial assets and financial liabilities (continued)

Recognition and measurement (continued)

Financial assets at amortised cost and other financial liabilities are subsequently carried at amortised cost using the effective profit method.

Impairment for assets carried at amortised costs

The Fund measures credit risk and expected credit losses ("ECL") using probability of default, exposure at default and loss given default. The Manager considers both historical analysis and forward looking information in determining any ECL. The Manager considers the probability of default to be close to zero as these instruments have a low risk of default and the counterparties have a strong capacity to meet their contractual obligations in the near term. As a result, no loss allowance has been recognised based on 12 month ECL as any such impairment would be wholly insignificant to the Fund.

Significant increase in credit risk

A significant increase in credit risk is defined by the Manager as any contractual payment which is more than 30 days past due.

Definition of default and credit-impaired financial assets

Any contractual payment which is more than 90 days past due is considered credit impaired.

Write-off

The Fund writes off financial assets, in whole or in part, when it has exhausted all practical recovery efforts and has concluded there is no reasonable expectation of recovery. The assessment of no reasonable expectation of recovery is based on unavailability of debtor's sources of income or assets to generate sufficient future cash flows to repay the amount. The Fund may write-off financial assets that are still subject to enforcement activity. Subsequent recoveries of amounts previously written off will result in impairment gains. There are no write-offs/recoveries during the financial period.

(c) Functional and presentation currency

Items included in the financial statements of the Fund are measured using the currency of the primary economic environment in which the Fund operates (the "functional currency"). The financial statements are presented in Ringgit Malaysia ("RM"), which is the Fund's functional and presentation currency.

(d) Income recognition

Dividend income is recognised on the ex-dividend date when the right to receive payment is established.

Profit income from Shariah-compliant deposits with licensed Islamic financial institutions is recognised on a time proportionate basis using the effective profit rate method on an accrual basis.

Realised gain or loss on disposal of Shariah-compliant quoted securities are accounted for as the difference between the net disposal proceeds and the carrying amount of Shariah-compliant quoted securities, determined on a weighted average cost basis.

(e) Cash and cash equivalents

For the purpose of statement of cash flows, cash and cash equivalents comprise bank balances and Shariah-compliant deposits held in highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

(f) Taxation

Current tax expense is determined according to Malaysian tax laws at the current rate based upon the taxable profit earned during the financial period.

Withholding taxes on investment income from investments are based on tax regime of the respective countries that the Fund invests in. Such withholding taxes are not "income tax" in nature and are recognised and measured based on the requirements of MFRS 137. They are presented within other expenses line in the statement of comprehensive income.

(g) Transactions costs

Transaction costs are costs incurred to acquire or dispose financial assets or liabilities at fair value through profit or loss. They include fees and commissions paid to agents, advisers, brokers and dealers. Transaction costs, when incurred, are immediately recognised in the statement of comprehensive income as expenses.

(h) Unit holders' capital

The unit holders' contributions to the Fund meet the criteria to be classified as equity instruments under MFRS 132 "Financial Instruments: Presentation". Those criteria include:

- the units entitle the holder to a proportionate share of the Fund's NAV;
- the units are the most subordinated class and class features are identical;
- there is no contractual obligations to deliver cash or another financial asset other than the obligation on the Fund to repurchase; and
- the total expected cash flows from the units over its life are based substantially on the profit or loss of the Fund.

The outstanding units are carried at the redemption amount that is payable at each financial period if unit holder exercises the right to put the unit back to the Fund.

Units are created and cancelled at prices based on the Fund's NAV per unit at the time of creation or cancellation. The Fund's NAV per unit is calculated by dividing the net assets attributable to unit holders with the total number of outstanding units.

(i) Amount due from/to stockbrokers

Amounts due from/to stockbrokers represent receivables for Shariah-compliant quoted securities sold and payables for Shariah-compliant quoted securities purchased that have been contracted for but not yet settled or delivered on the statement of financial position date respectively.

These amounts are recognised initially at fair value and subsequently measured at amortised cost. At each reporting date, the Fund measure the loss allowance on amounts due from stockbrokers at an amount equal to the lifetime ECL if the credit risk has increased significantly since initial recognition. If, at the reporting date, the credit risk has not increased significantly since initial recognition, the Fund shall measure the loss allowance at an amount equal to 12-month ECL. Significant financial difficulties of the broker, probability that the broker will enter bankruptcy or financial reorganisation, and default in payments are all considered indicators that a loss allowance may be required.

If the credit risk increases to the point that it is considered to be credit impaired, profit income will be calculated based on the gross carrying amount adjusted for the loss allowance. A significant increase in credit risk is defined by management as any contractual payment which is more than 30 days past due.

Any contractual payment which is more than 90 days past due is considered credit impaired.

(j) Critical accounting estimates and judgements in applying accounting policies

The Fund makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, rarely equal the related actual results. To enhance the information content of the estimates, certain key variables that are anticipated to have material impact to the Fund's results and financial position are tested for sensitivity to changes in the underlying parameters.

Estimates and judgement are continually evaluated by the Manager and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

In undertaking any of the Fund's investment, the Manager will ensure that all assets of the Fund under management will be valued appropriately, that is at fair value and in compliance with the SC Guidelines on Unit Trust Funds.

However, the Manager is of the opinion that in applying these accounting policies, no significant judgement was required.

3. RISK MANAGEMENT OBJECTIVES AND POLICIES

The Fund aims to seek medium to long-term growth in capital by investing principally in emerging companies listed on Bursa Malaysia and this must be in accordance with the Shariah principles.

The Fund is exposed to a variety of risks which include market risk (inclusive of price risk and interest rate risk), credit risk and liquidity risk.

Financial risk management is carried out through internal control process adopted by the Manager and adherence to the investment restrictions as stipulated in the Deeds and SC Guidelines on Unit Trust Funds.

(a) Market risk

(i) Price risk

Price risk is the risk that the fair value of investment in Shariah-compliant quoted securities will fluctuate because of changes in market prices (other than those arising from interest rate risk). The value of Shariah-compliant quoted securities may fluctuate according to the activities of individual companies, sector and overall political and economic conditions. Such fluctuation may cause the Fund's NAV and prices of units to fall as well as rise, and income produced by the Fund may also fluctuate.

The price risk is managed through diversification and selection of Shariahcompliant quoted securities and other financial instruments within specified limits according to the Deeds.

(ii) Interest rate risk

Interest rate is a general economic indicator that will have an impact on the management of the Fund.

It does not in any way suggest that this Fund will invest in conventional financial instruments. All investment carried out for the Fund including placements and deposits are in accordance with Shariah requirements.

Fair value interest rate risk is the risk that the value of a financial instrument will fluctuate due to changes in market profit rates.

The Fund's exposure to fair value interest rate risk arises from Shariah-compliant deposits with licensed financial institutions. The interest rate risk is expected to be minimal as the Fund's investments comprise mainly short term Shariah-compliant deposits with approved licensed Islamic financial institutions.

Cash flow interest rate risk is the risk that the future cash flows of a financial instrument will fluctuate because of changes in market profit rates.

The Fund is not exposed to cash flow interest rate risk as the Fund does not hold any financial instruments at variable interest rate.

As at the end of each financial period, the Fund is not exposed to a material level of interest rate risk.

3. RISK MANAGEMENT OBJECTIVES AND POLICIES (CONTINUED)

(b) Credit risk

Credit risk refers to the risk that counterparty will default on its contractual obligation resulting in financial loss to the Fund.

The credit risk arising from placements of Shariah-compliant deposits in licensed Islamic financial institutions is managed by ensuring that the Fund will only place Shariah-compliant deposits in reputable licensed Islamic financial institutions.

For amount due from Manager, the settlement terms of the proceeds from the creation of units receivable from the Manager are governed by the SC Guidelines on Unit Trust Funds.

For amount due from stockbrokers, the settlement terms are governed by the relevant rules and regulations as prescribed by respective stock exchange. The credit risk is minimal as all transactions in Shariah-compliant quoted securities are settled/paid upon delivery using approved stockbrokers.

(c) Liquidity risk

Liquidity risk is the risk that the Fund will encounter difficulty in meeting its financial obligations.

The Manager manages this risk by maintaining sufficient level of liquid assets to meet anticipated payments and cancellations of the units by unit holders. Liquid assets comprise bank balances, Shariah-compliant deposits with licensed Islamic financial institutions and other instruments, which are capable of being converted into cash within 7 business days. Generally, all investments are subject to a certain degree of liquidity risk depending on the nature of the investment instruments, market, sector and other factors. For the purpose of the Fund, the Manager will attempt to balance the entire portfolio by investing in a mix of assets with satisfactory trading volume and those that occasionally could encounter poor liquidity. This is expected to reduce the risks for the entire portfolio without limiting the Fund's growth potentials.

(d) Capital risk management

The capital of the Fund is represented by equity consisting of unit holders' capital and retained earnings. The amount of capital can change significantly on a daily basis as the Fund is subject to daily subscriptions and redemptions at the discretion of unit holders. The Fund's objective when managing capital is to safeguard the Fund's ability to continue as a going concern in order to provide returns to unit holders and benefits for other stakeholders and to maintain a strong capital base to support the development of the investment activities of the Fund.

3. RISK MANAGEMENT OBJECTIVES AND POLICIES (CONTINUED)

(e) Fair value estimation

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e. an exit price).

The fair value of financial assets traded in active markets (such as trading securities) are based on quoted market prices at the close of trading on the financial period end date. The Fund utilises the last traded market price for financial assets where the last traded price falls within the bid-ask spread. In circumstances where the last traded price is not within the bid-ask spread, the Manager will determine the point within the bid-ask spread that is most representative of the fair value.

An active market is a market in which transactions for the asset or liability take place with sufficient frequency and volume to provide pricing information on an ongoing basis.

The fair value of financial assets that are not traded in an active market is determined by using valuation techniques.

(i) Fair value hierarchy

The table below analyses financial instruments carried at fair value. The different levels have been defined as follows:

- Quoted prices (unadjusted) in active market for identical assets or liabilities (Level 1)
- Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) (Level 2)
- Inputs for the asset and liability that are not based on observable market data (that is, unobservable inputs) (Level 3)

The level in the fair value hierarchy within which the fair value measurement is categorised in its entirety is determined on the basis of the lowest level input that is significant to the fair value measurement in its entirety. For this purpose, the significance of an input is assessed against the fair value measurement in its entirety.

If a fair value measurement uses observable inputs that require significant adjustment based on unobservable inputs, that measurement is a Level 3 measurement.

Assessing the significance of a particular input to the fair value measurement in its entirety requires judegment, considering factors specific to the asset or liability.

The determination of what constitutes 'observable' requires significant judgement by the Fund. The Fund considers observable data to be that market data that is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market.

3. RISK MANAGEMENT OBJECTIVES AND POLICIES (CONTINUED)

(e) Fair value estimation (continued)

(i) Fair value hierarchy (continued)

	Level 1 RM	Level 2 RM	Level 3 RM	Total RM

31.05.2019 Audited Financial asset at fair value through profit or loss: - Shariah-compliant quoted securities	109,588,994			109,588,994

Shariah-compliant investments whose values are based on quoted market prices in active markets, and are therefore classified within Level 1, include active listed equities. The Fund does not adjust the quoted prices for these instruments. The Fund's policies on valuation of these financial assets are stated in Note 2(b).

(ii) The carrying values of cash and cash equivalents, amount due from stockbrokers, amount due from Manager, dividends receivable, and all current liabilities are a reasonable approximation of their fair values due to their short term nature.

4. MANAGEMENT FEE

In accordance with the Deeds, the Manager is entitled to a maximum management fee of 3.00% per annum, calculated daily based on the NAV of the Fund.

For the six months financial period ended 30 November 2019, the management fee is recognised at a rate of 1.85% per annum (30.11.2018: 1.85% per annum).

There is no further liability to the Manager in respect of management fee other than amount recognised above.

5. TRUSTEE'S FEE

In accordance with the Deeds, the Trustee is entitled to a maximum fee of 0.06% per annum, calculated daily based on the NAV of the Fund.

For the six months financial period ended 30 November 2019, the Trustee's fee is recognised at a rate of 0.06% per annum (30.11.2018: 0.06% per annum).

There is no further liability to the Trustee in respect of Trustee's fee other than amount recognised above.
