Investment Policy and Strategy

The Fund is a feeder fund and it invests in a single CIS, i.e. Franklin Biotechnology Discovery Fund ("Target Fund"). The Fund may also invest in liquid assets for liquidity purpose.

In order to achieve its investment objective, the Fund will invest at least 95% of its NAV in the Target Fund; a portfolio established on 3 April 2000 under the Franklin Templeton Investment Funds ("FTIF"). The Fund may also invest up to 5% of its NAV in liquid assets for liquidity purpose.

The Fund will be actively rebalanced from time to time to meet sales and withdrawals transactions. This is to enable a proper and efficient management of the Fund. As this is a feeder fund that invests predominantly in the Target Fund, we do not intend to take temporary defensive position for the Fund during adverse market, economic and/or any other conditions. This is to allow the Fund to mirror the performance of the Target Fund in either bullish or bearish market conditions. However, the Target Fund Investment Manager may take temporary defensive position when deemed necessary.

We do not employ risk management strategy on the portfolio of the Target Fund. However, the Target Fund Investment Manager will employ a risk management process in respect of the Target Fund that enables the Target Fund Investment Manager to monitor and measure at any time the risk of the positions and their contribution to the overall risk profile of the Target Fund. You may refer to page 8 under the "Investment Objective and Investment Strategies of the Target Fund" for more information.

We will employ risk management strategy at the Fund level, where we will continuously monitor the investment objective, performance and suitability of the Target Fund to ensure that it is in line with the investment objective of the Fund. If we are of the opinion that the Target Fund no longer meets the Fund's investment objective, we may, with your approval, replace the Target Fund with another CIS that is in line with the Fund's objective. In such circumstances, we will withdraw our investment in the Target Fund and invest in another CIS on a staggered basis for a smooth transition, if the Target Fund imposes any conditions in relation to withdrawal of units or if the manager of the newly identified target fund exercises its discretion to apply anti-dilution levy* in relation to the applications for units. Thus, the time frame required to perform the transition will depend on such conditions, if any, imposed by the Target Fund as well as any conditions associated with a dilution adjustment that may be made by the newly identified target fund. Hence during the transition period, the Fund's investments may differ from the stipulated investment objective, investment strategies and/or investment restrictions and limits. The Fund also may, with the concurrence of the Trustee, hold more than 5% of liquid assets on a temporary basis to meet withdrawal requests and to manage expenses of the Fund.

Currently, the Fund invests in Class I (Accumulation) of the Target Fund, which is denominated in USD. The Fund may change its entire investment into another class of the Target Fund (which must be denominated in the same currency) if we are of the opinion that the change is in the interest of the Unit holders. If we wish to effect such change, we will seek concurrence from the Trustee and you will be notified before implementation. You may refer to page 8 under the "About Franklin Biotechnology Discovery Fund ("Target Fund")" for more information.

If the Fund is eligible to be invested via the EPF-MIS, investments made by the Fund will be subject to the EPF's requirements. Please note that there may be changes to the status of the eligibility of the Fund under the EPF-MIS from time to time. Please refer to our website at www.principal.com.my or www.kwsp.gov.my for updated information.

Note:

* *Anti-dilution levy is an allowance for fiscal and other charges that is added to the NAV per unit to reflect the costs of investing application monies in underlying assets of the Target Fund or newly identified target fund.*

1.2. PERMITTED INVESTMENTS

Subject to the Deed, the investment policy and strategy of the Fund, the requirements of the SC and any other regulatory body, we have the absolute discretion as to how the assets of the Fund are to be invested. Under the Deed and provided always that there are no inconsistencies with the objective of the Fund, the Fund can invest in the following instruments:

- One CIS (local or foreign);
- Liquid assets such as Deposits and money market instruments;
- Derivative instruments, including but not limited to options, futures contracts, forward contracts and swaps for the purpose of hedging; and
- Any other form of investments as may be permitted by the SC from time to time that is in line with the Fund's objectives.

The formulation of the investment policies and strategies of the Fund is based on the Fund's objective after taking into consideration the regulatory requirements outlined in the GUTF, with such exemptions or variations (if any) as permitted by the SC.

1.3. INVESTMENT RESTRICTIONS AND LIMITS

The Fund is subject to the following investment restrictions and limits:

CIS: The Fund must invest in one (1) CIS (local or foreign). The target fund must not be a fund-of-funds or a feeder fund or any sub-fund of an umbrella fund which is a fund-of-funds or a feeder fund.

Liquid asset: The Fund may invest up to 5% of the NAV of the Fund in liquid assets.

- Deposits must be placed with financial institution.
- Money market instruments held by the Fund must be traded in or under the rules of an eligible market. In addition, the Fund's investment in money market instruments must not exceed 10%* of the instruments issued by any single issuer.

Note: **The limit does not apply to money market instruments that do not have a pre-determined issue size.*

The Fund may, with the concurrence of the Trustee, hold more than 5% of liquid assets on a temporary basis to meet withdrawal requests and to manage expenses of the Fund.

Derivative: The Fund's exposure from derivatives positions for hedging purposes should not exceed the Fund's NAV. Further,

- the exposure to the underlying assets must not exceed the investment spread limits stipulated in the GUTF;
- the value of the Fund's OTC derivative transaction with any single counterparty must not exceed 10% of the Fund's NAV;
- the Fund's exposure from derivatives position should not exceed the Fund's NAV at all time; and
- the counterparty of an OTC derivative is a financial institution with a minimum long-term rating provided by any domestic or global rating agency that indicates strong capacity for timely payment of financial obligations.

In respect of the above investment restrictions and limits, the GUTF provides for an allowance of 5% from the restrictions and limits due to appreciation or depreciation of the NAV of the Fund (whether as a result of an appreciation or depreciation in

value of the Fund's investments, or as a result of repurchase of units or payment made out of the Fund). If the Fund is not within the investments restrictions and limits, we should not make any further acquisitions in relation to the relevant restrictions and limits and we must rectify as soon as practicable (maximum three (3) months from the date of occurrence).

1.4. APPROVALS AND CONDITIONS

On 3 September 2021, we have obtained the approval from the SC for a variation to Paragraph 10.16(a) and Paragraph 11.06 of the GUTF which allow us to pay Unit holder within fifteen (15) Business Days due to the following condition:

- (a) Withdrawal request of the Target Fund is deferred; or
- (b) The Target Fund's NAV suspended during any period.

1.5. BORROWINGS/ FINANCING

The Fund may not obtain cash financing or borrow other assets in connection with its activities. However, the Fund may obtain cash financing for the purpose of meeting withdrawal requests for units and for short term bridging requirements, subject to the requirements of the GUTF.

1.6. SECURITIES LENDING

The Fund may participate in the lending of securities within the meaning of the Guidelines on Securities Borrowing and Lending issued by the SC when we find it appropriate to do so with a view of generating additional income for the Fund with an acceptable degree of risk.

The lending of securities is permitted under the Deed and must comply with the above mentioned as well as with the relevant rules and directives issued by Bursa Malaysia Securities Berhad, Bursa Malaysia Depository Sdn. Bhd. and Bursa Malaysia Securities Clearing Sdn. Bhd.

1.7. RISK FACTORS

1.7.1. GENERAL RISKS OF INVESTING IN A FUND

Any investment carries with it an element of risk. Therefore, prior to making an investment, you should consider the following risk factors in addition to the other information set out in this Prospectus.

Returns not guaranteed

The investment of the fund is subject to market fluctuations and its inherent risk. There is **NO GUARANTEE** on the investment which includes your investment capital and returns, nor any assurance that the Fund's objective will be achieved.

Market risk

This risk refers to the possibility that an investment will lose value because of a general decline in financial markets, due to economic, political and/or other factors, which will result in a decline in the Fund's NAV.

Inflation risk

This is the risk that your investment in the fund may not grow or generate income at a rate that keeps pace with inflation. This would reduce your purchasing power even though the value of the investment in monetary terms has increased.

Loan financing risk

This risk occurs when you obtain loan/financing to finance your investment. The inherent risk of investing with money obtained from borrowing/financing includes you being unable to service the loan/financing payments. In the event units are used as collateral and if the prices of units fall below a certain level due to market conditions, you may be required to pay additional amounts on top of your normal instalment. If you fail to comply within the time prescribed, your units may be sold at an unfavourable price and the proceeds thereof will be used towards the settlement of your loan/financing.

1.7.2. SPECIFIC RISKS RELATED TO THE FUND

There are specific risks associated with the investment portfolio of the Fund, which include but are not limited, to the following:

Fund manager risk

Since the Fund invests into a CIS that is managed by another manager, the Target Fund Investment Manager has absolute discretion over the Target Fund's investment technique and knowledge, operational controls and management. In the event of mismanagement of the Target Fund, the NAV of the Fund, which invests into the Target Fund, would be affected negatively. Although the probability of such occurrence is minute, should the situation arise, we reserve the right to seek for an alternative CIS that is consistent with the objective of the Fund, subject to your approval.

Country risk

As the Fund invests in the Target Fund, which is domiciled in Luxembourg, the Fund's investments in the Target Fund may be affected by risks specific to Luxembourg. Such risks include adverse changes in Luxembourg's economic fundamentals, social and political stability, laws and regulations and foreign investments policies. These factors may have an adverse impact on the price of the Target Fund and consequently the Fund.

Currency risk

You should be aware that currency risk is applicable to Class(es) which is in a different currency than the base currency of the Fund. The impact of the exchange rate movement between the base currency of the Fund and the currency denomination of the respective Class(es) may result in a depreciation of the value of your holdings as expressed in the currency denomination of the respective Class(es).

As for a hedged Class, the Class itself provides mitigation to the currency risk arising from the difference between the currency denomination of the Class and the base currency of the Fund. While we aim to fully hedge the currency risk for a hedged Class, you should note that it may not entirely eliminate currency risk. In addition, you should note that, as a result of hedging, a hedged Class will not be able to enjoy the full benefits of the currency movement in the event of a favourable movement of the currency denomination of the hedged Class against the base currency of the Fund. You should also note that hedging incurs costs, in which will impact the NAV of a hedged Class.

Sector risk

The Fund invests predominantly in the Target Fund which invests solely in the biotechnology sector. Given the nature of biotechnology sector, it requires an extensive research coverage as well as in-depth research to identify the growth opportunities of a company. In addition, the sector may be subject to greater government regulation than other sectors and, as a result, any significant changes to such government regulation may have an adverse impact on companies operating in the sector. On top of that, the investment in the sector may also be affected by the competition of new market entrants, patent considerations and product obsolescence. Investors should note that the Target Fund's performance may be impacted by all these sector-specific factors, and consequently impacting the performance of the Fund.

1.7.3. SPECIFIC RISKS RELATED TO THE TARGET FUND**Concentration risk**

The Target Fund have an investment policy which specifically states an intention to maintain a portfolio with holdings in a relatively limited number of issuers or a concentrated allocation to a given economic sector, market segment or geographical area. By being less diversified, the Target Fund may be more volatile than broadly diversified funds, or may be exposed to greater risk since under performance of one or a few positions, sectors or geographical areas will have a greater impact on the Target Fund assets. The Target Fund may be adversely affected as a result of such greater volatility or risk.

Foreign Currency risk

Since the FTIF values the portfolio holdings of the Target Fund in USD, changes in currency exchange rates adverse to US dollar may affect the value of such holdings and the Target Fund's yield thereon.

Since the securities, including cash and cash equivalents, held by the Target Fund may be denominated in currencies different from its base currency, the Target Fund may be affected favourably or unfavourably by exchange control regulations or changes in the exchange rates between such reference currency and other currencies. Changes in currency exchange rates may influence the value of the Target Fund's shares, and also may affect the value of dividends and interests earned by the Target Fund and gains and losses realised by the Target Fund. If the currency in which a security is denominated appreciates against the base currency, the price of the security could increase. Conversely, a decline in the exchange rate of the currency would adversely affect the price of the security.

To the extent that the Target Fund or any share class seeks to use any strategies or instruments to hedge or to protect against currency exchange risk, there is no guarantee that hedging or protection will be achieved. Unless otherwise stated in the Target Fund's investment policy, there is no requirement that the Target Fund seeks to hedge or to protect against currency exchange risk in connection with any transaction.

Currency management strategies may substantially change the Target Fund's exposure to currency exchange rates and could result in losses to the Target Fund if currencies do not perform as the Target Fund Investment Manager expects. In addition, currency management strategies, to the extent that they reduce the Target Fund's exposure to currency risks, may also reduce the Target Fund's ability to benefit from favourable changes in currency exchange rates. There is no assurance that the Target Fund Investment Manager's use of currency management strategies will benefit the Target Fund or that they will be, or can be, used at appropriate times. Furthermore, there may not be perfect correlation between the amount of exposure to a particular currency and the amount of securities in the portfolio denominated in that currency. Investing in foreign currencies for purposes of gaining from projected changes in exchange rates, as opposed to hedging currency risks applicable to the Target Fund's holdings, further increases the Target Fund's exposure to foreign investment losses.

Securities Lending risk

The entering by the FTIF into securities lending transactions, as contemplated in Appendix B.4 of the Target Fund Prospectus "Use of Techniques and Instruments relating to Transferable Securities and Money Market Instruments" involves certain risks and there can be no assurance that the objective sought to be obtained from such use will be achieved.

Investors must notably be aware that in case of default, bankruptcy or insolvency of the borrower of securities lent by the Target Fund, there is a risk of delay in recovery (that may restrict the ability of the Target Fund to meet delivery obligations

under security sales or payment obligations arising from sale requests) or even loss of rights in collateral received, which risks are mitigated by a careful creditworthiness analysis of borrowers to determine their degree of risk for said borrowers to become involved in insolvency/bankruptcy proceedings within the timeframe contemplated by the loan. If the borrower of securities lent by the Target Fund fails to return these securities there is a risk that the collateral received may realise less than the value of the securities lent out, whether due to inaccurate pricing, adverse market movements, a deterioration in the credit rating of issuers of the collateral or the illiquidity on the market in which the collateral is traded.

The Target Fund may reinvest the cash collateral received from borrowers. There is a risk that the value or return of the reinvested cash collateral may decline below the amount owed to those borrowers, and those losses may exceed the amount earned by the Target Fund on lending the securities.

Market risk

The market values of securities owned by the Target Fund will go up or down, sometimes rapidly or unpredictably. Securities may decline in value due to factors affecting individual issuers, securities markets generally or particular industries or sectors within the securities markets. The value of a security may go up or down due to general market conditions which are not specifically related to a particular issuer, such as real or perceived adverse economic conditions, changes in the general outlook for revenues or corporate earnings, changes in interest or currency rates or adverse investor sentiment generally. They may also go up or down due to factors that affect an individual issuer, a particular industry or sector, such as changes in production costs and competitive conditions within an industry or a specific country. Unexpected events such as natural or environmental disasters (earthquakes, fires, floods, hurricanes, tsunamis) and other severe weather-related phenomena generally, or widespread disease, including pandemics and epidemics, have been and can be highly disruptive to economies of individual companies, sectors, industries, nations, markets and adversely impacting currencies, interest and inflation rates, credit ratings, investor sentiment, and other factors affecting the value of the Target Fund's investments. Given the interdependence among global economies and markets, conditions in one country, market, or region are likely to adversely affect markets, issuers, and/or foreign exchange rates in other countries. These disruptions could prevent the Target Fund from executing advantageous investment decisions in a timely manner and could negatively impact the Target Fund's ability to achieve its investment objective.

During a general downturn in the securities markets, multiple asset classes may decline in value. When markets perform well, there can be no assurance that securities held by the Target Fund will participate in or otherwise benefit from the advance. All investments in financial markets may decrease in value.

Counterparty risk

Counterparty risk is the risk to each party of a contract that the counterparty will fail to perform its contractual obligations and/or to respect its commitments under the term of such contract, whether due to insolvency, bankruptcy or other cause.

When OTC or other bilateral contracts are entered into (inter alia OTC derivatives, repurchase agreements, security lending, etc.), the FTIF may find itself exposed to risks arising from the solvency of its counterparties and from their inability to respect the conditions of these contracts.

Debt Securities risk

All funds that invest in debt securities or money market instruments are subject to interest rate risk, credit risk, default risk and may be exposed to specific risks including but not limited to sovereign risk, high yield securities risk, restructuring risk and risk related to the use of credit ratings.

A fixed income security's value will generally increase in value when interest rates fall and decrease in value when interest rates rise. Fixed income securities with longer-term maturities tend to be more sensitive to interest rate changes than shorter-term securities.

Variable rate securities (which include floating-rate debt securities) generally are less sensitive to interest rate changes than fixed rate debt securities.

The Target Fund may invest in debt securities on which the issuer is not currently making interest payments (defaulted debt securities). The Target Fund may buy defaulted debt securities if, in the opinion of the Target Fund Investment Manager and/or the Target Fund investment co-managers, it appears likely that the issuer may resume interest payments or other advantageous developments appear likely in the near future. These securities may become illiquid.

Sovereign debt securities can be subject to risks in addition to those relating to debt securities and foreign securities generally, including, but not limited to, the risk that a governmental entity may be unwilling or unable to pay interest and repay principal on its sovereign debt. There are generally no bankruptcy proceedings for sovereign debt. If a sovereign debtor defaults (or threatens to default) on its sovereign debt obligations, the indebtedness may be restructured. In the event of a default on sovereign debt, the Target Fund may have limited legal recourse against the defaulting government entity.

The Target Fund may invest in sovereign debt issued by governments or government-related entities from countries referred to as emerging markets or frontier markets, which bear additional risks compared to more developed markets due to such factors as greater political and economic uncertainties, currency fluctuations, repatriation restrictions or capital controls.

The Target Fund may invest in higher-yielding securities rated lower than investment grade. High-yield debt securities (including loans) and unrated securities of similar credit quality ("high-yield debt instruments" or "junk bonds") involve greater risk of loss, or delays of interest and principal payments, than higher-quality debt securities. Issuers of high-yield debt

instruments are not as strong financially as those issuing securities of higher credit quality. High-yield debt instruments are generally less liquid and their prices fluctuate more than higher-quality securities.

The Target Fund may also invest in the securities of companies involved in mergers, consolidations, liquidations and reorganisations (including those involving bankruptcy). Such corporate events could be disruptive to the business and management structure of the companies involved, which may expose the Target Fund to higher investment risk.

The use of credit ratings in evaluating debt securities can involve certain risks, including the risk that the credit rating may not reflect the issuer's current financial condition or events since the security was last rated by a rating agency. Credit ratings may be influenced by conflicts of interest or based on historical data that no longer apply or are accurate. Recently, legislation and regulations to reform rating agencies have been proposed and may adversely impact the Target Fund's investments or investment process.

Debt securities are subject to prepayment risk when the issuer can "call" the security, or repay principal, in whole or in part, prior to the security's maturity. When the Target Fund reinvests the prepayments of principal it receives, it may receive a rate of interest that is lower than the rate on the existing security, potentially lowering the Target Fund's income, yield and its distributions to shareholders. Securities subject to prepayment may offer less potential for gains during a declining interest rate environment and have greater price volatility. Prepayment risk is greater in periods of falling interest rates.

Liquidity risk

Liquidity risk takes two forms: asset side liquidity risk and liability side liquidity risk. Asset side liquidity risk refers to the inability of the Target Fund to sell a security or position at its quoted price or market value due to such factors as a sudden change in the perceived value or credit worthiness of the position, or due to adverse market conditions generally. Liability side liquidity risk refers to the inability of the Target Fund to meet a redemption request, due to the inability of the Target Fund to sell securities or positions in order to raise sufficient cash to meet the redemption request. Markets where the Target Fund's securities are traded could also experience such adverse conditions as to cause exchanges to suspend trading activities. Reduced liquidity due to these factors may have an adverse impact on the NAV of the Target Fund and, as noted, on the ability of the Target Fund to meet redemption requests in a timely manner.

Certain securities are illiquid due to a limited trading market, financial weakness of the issuer, legal or contractual restrictions on resale or transfer, or that are otherwise illiquid in the sense that they cannot be sold within seven days at approximately the price at which the Target Fund values them. Securities that are illiquid involve greater risk than securities with more liquid markets. Market quotations for such securities may be volatile and/or subject to large spreads between bid and ask prices. Illiquidity may have an adverse impact on market price and the Target Fund's ability to sell particular securities when necessary to meet the Target Fund's liquidity needs or in response to a specific economic event.

Smaller and Midsize Companies risk

While smaller and midsize companies may offer substantial opportunities for capital growth, they also involve substantial risks and should be considered speculative. Historically, smaller and midsize company securities have been more volatile in price than larger company securities, especially over the short term. Among the reasons for the greater price volatility are the less certain growth prospects of smaller and midsize companies, the lower degree of liquidity in the markets for such securities, and the greater sensitivity of smaller and midsize companies to changing economic conditions.

In addition, smaller and midsize companies may lack depth of management, be unable to generate funds necessary for growth or development, have limited product lines or be developing or marketing new products or services for which markets are not yet established and may never become established. Smaller and midsize companies may be particularly affected by interest rate increases, as they may find it more difficult to borrow money to continue or expand operations, or may have difficulty in repaying any loans which are floating-rate.

These risks are typically increased for securities issued by smaller companies registered or performing a significant part of their activities in developing countries and emerging markets, especially as the liquidity of securities issued by companies in emerging markets may be substantially smaller than with comparable securities in industrialised countries.

The above summary of risks does not purport to be an exhaustive list of all the risk factors relating to investments in the Fund and are not set out in any particular order of priority. You should be aware that an investment in a unit trust fund may be exposed to other risks from time to time. If in doubt, you should consult professional advisers for a better understanding of the risks.

Investment Objective and Investment Strategies of the Target Fund

The Target Fund’s investment objective is capital appreciation.

The Target Fund invests principally in equity securities of biotechnology companies and discovery research firms (including small to mid-sized companies) located in the US and other countries, and to a lesser extent in debt securities of any type of issuers worldwide.

For the Target Fund's investment purposes, a biotechnology company is one that has at least 50% of its earnings derived from biotechnology activities, or at least 50% of its net assets devoted to such activities based on the company's most recent fiscal year. Biotechnology activities are research, development, manufacture, and distribution of various biotechnological or biomedical products, services and processes. This may include companies involved with genomics, genetic engineering, and gene therapy. It also includes companies involved in the application and development of biotechnology in areas such as health care, pharmaceuticals, and agriculture.

To the extent that the Target Fund invests in debt securities, it generally buys securities that are rated investment grade or unrated securities that it determines to be of comparable quality. Investment grade debt securities are rated in the top four ratings categories by independent rating organisations such as Standard & Poor's Corporation or Moody's Investors Service, Inc.

The Target Fund anticipates that under normal conditions, it will invest more of its net assets in US securities than in those of any other single country although the Fund may have more than 50% of its net assets in non-US securities. The Target Fund

Investment Manager may take temporary defensive cash position when it believes the securities trading markets or the economies of countries where the Target Fund invests are experiencing excessive volatility or prolonged general decline or other adverse conditions.

 - the level of protection for unitholders in such other UCIs is equivalent to that provided for unitholders in a UCITS, and in particular that the rules on assets segregation, borrowing, lending, and uncovered sales of transferable securities and money market instruments are equivalent to the requirements of Directive 2009/65/EC of the European Parliament and of the Council of 13 July 2009,
 - the business of such other UCIs is reported in half-yearly and annual reports to enable an assessment of the assets and liabilities, income and operations over the reporting period,

- b) FTIF may invest up to 10% of the net assets of the Target Fund in transferable securities and money market instruments other than those referred to in (a) above;
- c) The Target Fund may hold ancillary liquid assets;
- d) (i) The Target Fund may invest no more than 10% of its net assets in transferable securities and money market instruments issued by the same body. The Target Fund may not invest more than 20% of its net assets in deposits made with the same body. The risk exposure to a counterparty of the Target Fund in an OTC derivative transaction may not exceed 10% of its assets when the counterparty is a credit institution referred to in 1. a) (vi) above or 5% of its net assets in other cases.
(ii) The total value of the transferable securities and money market instruments held in the issuing bodies in the Target Fund invests more than 5% of its net assets must not exceed 40 % of the value of its assets. This limitation does not apply to deposits and OTC derivative transactions made with financial institutions subject to prudential supervision.
Notwithstanding the individual limits laid down in paragraph 1. d) (i), the Target Fund may not combine:
- investments in transferable securities or money market instruments issued by a single body,
 - deposits made with a single body, and/or
 - exposures arising from OTC derivative transactions undertaken with a single body, in excess of 20% of its net assets.
- (iii) The limit laid down under the first sentence of paragraph 1. d) (i) above shall be of 35% where the Target Fund has invested in transferable securities or money market instruments issued or guaranteed by a Member State, by its local authorities, by a non-Member State or by public international bodies of which one or more Member States are members.
(iv) The limit laid down under the first sentence of paragraph 1. d) (i) above shall be of 25% for bonds issued by a credit institution which has its registered office in a Member State and is subject by law, to special public supervision designed to protect bondholders. In particular, sums deriving from the issue of these bonds must be invested in conformity with the law in assets which, during the whole period of validity of the bonds, are capable of covering claims attaching to the bonds and which, in case of bankruptcy of the issuer, would be used on a priority basis for the repayment of principal and payment of the accrued interest.
If the Target Fund invests more than 5% of its net assets in the bonds above and issued by one issuer, the total value of such investments may not exceed 80% of the value of the assets of the Target Fund.
(v) The transferable securities and money market instruments referred to in paragraphs 1. d) (iii) and 1. d) (iv) are not included in the calculation of the limit of 40% referred to in paragraph 1. d) (ii).
The limit set out above under 1. d) (i), (ii), (iii) and (iv) may not be combined, and thus investments in transferable securities or money market instruments issued by the same body, in deposits or derivative instruments made with this body carried out in accordance with section 1. d) (i), (ii), (iii) and (iv) may not exceed a total of 35% of the net assets of the Target Fund.
Companies which are included in the same group for the purposes of consolidated accounts, as defined in accordance with Directive 83/349/EEC or in accordance with recognised international accounting rules, are regarded as a single body for the purpose of calculating the limits contained under 1. d). The Target Fund may cumulatively invest up to 20% of its net assets in transferable securities and money market instruments within the same group.
(vi) Without prejudice to the limits laid down in paragraph e), the limits laid down in this paragraph d) shall be 20% for investments in shares and/or bonds issued by the same body when the aim of a Fund's investment policy is to replicate the composition of a certain stock or bond index which is recognised by the Luxembourg supervisory authority, provided
- the composition of the index is sufficiently diversified,
 - the index represents an adequate benchmark for the market to which it refers,
 - it is published in an appropriate manner.
- The limit laid down in the subparagraph above is raised to 35% where it proves to be justified by exceptional market conditions in particular in Regulated Markets where certain transferable securities or money market instruments are highly dominant provided that investment up to 35% is only permitted for a single issuer.
(vii) Where the Target Fund has invested in accordance with the principle of risk spreading in transferable securities and money market instruments issued or guaranteed by any EU Member State, its local authorities, or public international bodies of which one or more EU Member States are members, by any other State of the Organisation for Economic Cooperation and Development (“OECD”), by Singapore or any member state of the G20, FTIF may invest 100% of the assets of the Target Fund in such securities provided that the Target Fund must hold securities from at least six different issues and securities from one issue must not account for more than 30% of the Target Fund's net assets.
- e) FTIF or the Target Fund may not invest in voting shares of companies allowing it to exercise a significant influence in the management of the issuer. Further, the Target Fund may acquire no more than (i) 10% of the non-voting shares of any single issuing body, (ii) 10% of the debt securities of any single issuing body, (iii) 25% of the units of any single collective investment undertaking, (iv) 10% of the money market instruments of any single issuing body. However, the limits laid down under (ii), (iii) and (iv) may be disregarded at the time of acquisition if, at that time, the gross amount of the bonds or of the money market instruments or the net amount of the instruments in issue cannot be calculated.

The limits under this section e) shall not apply to (i) transferable securities or money market instruments issued or guaranteed by a Member State, its local authorities, or public international bodies of which one or more Member States are members or by any other State, nor to (ii) shares held by the FTIF in the capital of a company incorporated in a State which is not a Member State investing its assets mainly in the securities of issuing bodies having their registered offices in that State, where under the legislation of that State such a holding represents the only way in which FTIF can invest in the securities of issuing bodies of that State, provided that, however, FTIF, in its investment policy, complies with the limits laid down in Articles 43 and 46 and in paragraphs (1) and (2) of Article 48 of the Law of 17 December 2010.

- f) (i) Unless otherwise provided in the investment policy of the Target Fund, the Target Fund will not invest more than 10% of its net assets in UCITS and other UCIs.
- (ii) In the case restriction f) (i) above is not applicable to the Target Fund, as provided in its investment policy, the Target Fund may acquire units of UCITS and/or other UCIs referred to in paragraph 1. a) (v), provided that no more than 20% of the Target Fund's net assets be invested in the units of a single UCITS or other UCI.
- For the purpose of the application of this investment limit, each compartment of a UCITS and/or other UCI with multiple compartments is to be considered as a separate issuer provided that the principle of segregation of the obligations of the various compartments vis-à-vis third parties is ensured.
- (iii) Investments made in units of UCIs other than UCITS may not in aggregate exceed 30% of the net assets of the Target Fund.
- (iv) When the Target Fund invests in the units of UCITS and/or other UCIs linked to the FTIF by common management or control, or by a substantial direct or indirect holding, no subscription or redemption fees may be charged to the FTIF on account of its investment in the units of such other UCITS and/or UCIs.
- In respect of the Target Fund's investments in UCITS and other UCIs linked to the FTIF as described in the preceding paragraph, the total management fee (excluding any performance fee, if any) charged to the Target Fund and each of the UCITS or other UCIs concerned shall not exceed 2% of the value of the relevant investments. FTIF will indicate in its annual report the total management fees charged both to the Target Fund and to the UCITS and other UCIs in which the Target Fund has invested during the relevant period.
- (v) The Target Fund may acquire no more than 25% of the units of the same UCITS and/or other UCI. This limit may be disregarded at the time of acquisition if at that time the gross amount of the units in issue cannot be calculated. In case of a UCITS or other UCI with multiple compartments, this restriction is applicable by reference to all units issued by the UCITS/UCI concerned, all compartments combined.
- (vi) The underlying investments held by the UCITS or other UCIs in which the Target Fund invest do not have to be considered for the purpose of the investment restrictions set forth under 1. d) above.
- g) The Target Fund may subscribe, acquire and/or hold shares to be issued or issued by one or more other funds without the Target Fund being subject to the requirements of the law of 10 August 1915 on commercial companies (as amended) with respect to the subscription, acquisition and/or the holding by a company of its own shares, under the conditions however that:
- (i) the destination fund does not, in turn, invest in the Target Fund invested in this destination fund; and
- (ii) no more than 10% of the assets that the destination fund whose acquisition is contemplated may be invested in units of UCITS and/or other UCIs; and
- (iii) voting rights, if any, attaching to the shares of the destination fund are suspended for as long as they are held by the Target Fund and without prejudice to the appropriate processing in the accounts and the periodic reports; and
- (iv) in any event, for as long as these shares are held by the Target Fund, their value will not be taken into consideration for the calculation of the net assets of the Target Fund for the purposes of verifying the minimum threshold of the net assets imposed by the Law of 17 December 2010; and
- (v) there is no duplication of management/entry or sale charges between those at the level of the Target Fund having invested in the destination fund, and this destination fund.
- h) FTIF may not (i) acquire for the benefit of the Target Fund securities which are partly paid or not paid or involving liability (contingent or otherwise) unless according to the terms of issue such securities will or may at the option of the holder become free of such liabilities within one year of such acquisition and (ii) underwrite or sub-underwrite securities of other issuers for the Target Fund.
- i) FTIF may not purchase or otherwise acquire any investment in which the liability of the holder is unlimited.
- j) FTIF may not purchase securities or debt instruments issued by the Target Fund Investment Manager or any connected person or by the Target Fund Management Company.
- k) FTIF may not purchase any securities on margin (except that the FTIF may, within the limits set forth in clause 2. e) below, obtain such short term credit as may be necessary for the clearance of purchases or sales of securities) or make uncovered sales of transferable securities, money market instruments or other financial instruments referred to above; except that the FTIF may make initial and maintenance margin deposits in respect of futures and forward contracts (and options thereon).

2.2.2. INVESTMENT IN OTHER ASSETS

- a) FTIF may not purchase real estate, nor acquire any options, rights or interest in respect thereof, provided that the FTIF may invest for the account of the Target Fund in securities secured by real estate or interest therein or in securities of companies investing in real estate.
- b) FTIF may not make investments in precious metals or certificates representing them.

- c) FTIF may not enter into direct commodities transactions or commodity contracts, except that the FTIF may, in order to hedge risk, enter into financial futures on such transactions within the limits laid down in clause 3 below.
- d) FTIF may not make loans to other persons or act as a guarantor on behalf of third parties or assume, endorse or otherwise become directly or contingently liable for, or in connection with, any obligation or indebtedness or any person in respect of borrowed monies, provided that for the purpose of this restriction:
 - (i) the acquisition of bonds, debentures or other corporate or sovereign debt obligations (whether wholly or partly paid) and investment in securities issued or guaranteed by a member country of the OECD or by any supranational institution, organisation or authority, short-term commercial paper, certificates of deposit and bankers' acceptances of prime issuers or other traded debt instruments shall not be deemed to be the making of a loan; and
 - (ii) the purchase of foreign currency by way of a back-to-back loan shall not be deemed to be the making of a loan.
- e) FTIF may not borrow for the account of the Target Fund, other than amounts which do not in aggregate exceed 10% of the net assets of the Target Fund, taken at market value and then only as a temporary measure. FTIF may, however, acquire foreign currency by means of a back-to-back loan.
- f) FTIF may not mortgage, pledge, hypothecate or in any manner transfer as security for indebtedness, any of the securities or other assets of the Target Fund, except as may be necessary in connection with the borrowings mentioned in clause e) above. The purchase or sale of securities on a when-issued or delayed-delivery basis, and collateral arrangements with respect to the writing of options or the purchase or sale of forward or futures contracts are not deemed the pledge of the assets.

2.2.3. FINANCIAL DERIVATIVE INSTRUMENTS

FTIF may use financial derivative instruments for investment, hedging and efficient portfolio management purposes, within the limits of the Law of 17 December 2010. Under no circumstances shall the use of these instruments and techniques cause the Target Fund to diverge from its investment policy.

The Target Fund may invest in financial derivative instruments within the limits laid down in clause 1. a) (vii) provided that the exposure to the underlying assets does not exceed in aggregate the investment limits laid down in clause 1. d) (i) to (v). When the Target Fund invests in index-based financial derivative instruments, these investments do not have to be combined in respect of the limits laid down in clause 1. d). When a transferable security or money market instrument embeds a derivative, the latter must be taken into account when complying with the requirements of this restriction.

FTIF on behalf of the Target Fund may only choose swap counterparties that are first class financial institutions selected by the Board of Directors and that are subject to prudential supervision and belonging to the categories approved by the Commission de Surveillance du Secteur Financier ("CSSF") for the purposes of OTC derivative transactions and specialised in these types of transactions.

As the case may be, collateral received by the Target Fund in relation to OTC derivative transactions may offset net exposure to the counterparty if it complies with the criteria set out in applicable laws, regulations and circulars issued by the CSSF from time to time notably in terms of liquidity, valuation, issuer credit quality, correlation, risks linked to the management of collateral and enforceability as further set out below. Collateral primarily consist of cash and highly rated sovereign bonds. Collateral value is reduced by a percentage (a "haircut") which provides for short term fluctuations in the value of the collateral. The types of asset used as eligible collateral exchanged will vary based on the agreement with each counterparty, and typically consist of cash, US Treasury bills or US government agency bonds supported by the full faith and credit of the US government and/or core Eurozone sovereign or agency debt. The eligible collateral and corresponding haircut used for each type of asset is consistent with the requirements of Commission Delegated Regulation (EU) 2016/2251 of 4 October 2016 supplementing Regulation (EU) No 648/2012 of the European Parliament and of the Council on OTC derivatives, central counterparties and trade repositories with regard to regulatory technical standards for risk-mitigation techniques for OTC derivative contracts not cleared by a central counterparty (more commonly referred to as the "EU uncleared OTC derivatives margin regulation"), as may be amended or supplemented from time to time. Net exposures are calculated daily by counterparty and are subject to the terms of the agreements, which include a minimum transfer amount which is typically less than Euro 500,000. The minimum transfer amount provides a threshold, below which, no collateral is exchanged. If the counterparty's net exposure to the Target Fund exceeds the minimum transfer amount, the Target Fund will be required to post collateral to the counterparty. Collateral levels may fluctuate between the Target Fund and the counterparty depending on the market movement of the exposure.

Non-cash collateral received is not sold, reinvested or pledged. Cash collateral may be reinvested if reinvestment is consistent with the provisions established in the Credit Support Annex ("CSA") of the International Swaps and Derivatives Association Master Agreement ("ISDA Master Agreement") executed with the relevant counterparty and provided that any reinvestment is consistent with the risk diversification requirements detailed in Appendix B "Investment Restrictions" of the Target Fund Prospectus in (a) shares or units issued by short term money market undertakings for collective investment as defined in MMFR, (b) deposits with credit institutional having its registered office in a Member State or with a credit institution situated in a non-Member State provided that it is subject to prudential rules considered by the CSSF as equivalent to those laid down in EU law, (c) high quality government bonds that are deemed eligible collateral according to the terms of the CSA of the ISDA Master Agreement, and (d) reverse repurchase agreement transactions provided the transactions are with credit institutions subject to the prudential supervision and the FTIF may recall at any time the full amount of cash on accrued basis. FTIF has policies with respect to the reinvestment of collateral (specifically, that

derivatives or other instruments that may contribute to leverage may not be used) such that it would not impact the global exposure calculation.

In accordance with the criteria laid down in the precedent paragraph, the Target Fund may be fully collateralised in different transferable securities and money market instruments issued or guaranteed by any EU Member State, its local authorities, or public international bodies of which one or more EU Member States are members, by any other State of the OECD, by Singapore or any member state of the G20, provided that the Target Fund holds securities at least from six different issues and that any single issue must not account for more than 30% of the Target Fund's net assets.

The global exposure relating to financial derivative instruments is calculated taking into account the current value of the underlying assets, the counterparty risk, foreseeable market movements and the time available to liquidate the positions.

FTIF shall ensure that the global exposure of the Target Fund relating to financial derivative instruments does not exceed the total net assets of the Target Fund. The Target Fund's overall risk exposure shall consequently not exceed 200% of its total net assets. In addition, this overall risk exposure may not be increased by more than 10% by means of temporary borrowings (as referred to in clause 2. e) above) so that it may not exceed 210% of the Target Fund's total net assets under any circumstances.

The funds under FTIF applies either the Value-at-Risk (VaR) or the commitment approach to calculate their global exposure, whichever is deemed to be appropriate.

Note: *The commitment approach is used to calculate the global exposure of the Target Fund.*

When the investment objective of the Target Fund indicates a benchmark against which the performance might be compared, the method used to calculate the Global Exposure may consider a different benchmark than the one mentioned for performance or volatility purposes in the Target Fund's investment objective.

Currency Hedging

FTIF may, in respect of the Target Fund, for the purpose of hedging currency risks, have outstanding commitments in forward currency contracts, currency futures, written call options and purchased put options on currencies and currency swaps either quoted on an exchange or dealt in on a Regulated Market or entered into with highly rated financial institutions.

Subject to the implementation of the currency hedging techniques below, commitments in one currency may not exceed the aggregate value of securities and other assets held by the Target Fund denominated in such currency (or other currencies that fluctuate in a substantially similar manner to such currency).

In this context, the FTIF may, in respect of the Target Fund, engage in the following currency hedging techniques:

- hedging by proxy, i.e. a technique whereby the Target Fund effects a hedge of the reference currency of the Target Fund (or benchmark or currency exposure of the assets of the Target Fund) against exposure in one currency by instead selling (or purchasing) another currency closely related to it, provided however that these currencies are indeed likely to fluctuate in the same manner. Guidelines followed in determining that one currency moves in a substantially similar manner to another currency include the following: i) the correlation of one currency to another currency is proven over a significant period of time to be over 85%; ii) the two currencies are, by explicit government policy, scheduled to participate in European Monetary Union (Eurozone countries) on a set future date (which would include using the euro itself as a proxy for hedging bond positions denominated in other currencies scheduled to become part of the euro on a set future date); and iii) the currency used as the hedging vehicle against the other currency is part of a currency basket against which the central bank for that other currency explicitly manages its currency within a band or corridor that is either stable or sloping at a predetermined rate.
- cross-hedging, i.e. a technique whereby the Target Fund sells a currency to which it is exposed and purchases more of another currency to which the Target Fund may also be exposed, the level of the base currency being left unchanged, provided however that all such currencies are currencies of the countries which are at that time within the Target Fund's benchmark or investment policy and the technique is used as an efficient method to gain the desired currency and asset exposures.
- anticipatory hedging, i.e. a technique whereby the decision to take a position on a given currency and the decision to have some securities held in the Target Fund's portfolio denominated in that currency are separate, provided however that the currency which is bought in anticipation of a later purchase of underlying portfolio securities is a currency associated with those countries which are within the Target Fund's benchmark or investment policy.

Total return swaps transactions

If the Target Fund is authorised as per its investment policy to invest in total return swaps, but does not enter into such transactions as of the date of the Target Fund Prospectus, the Target Fund may however enter into total return swaps transactions provided that the maximum proportion of the net assets of the Target Fund that could be subject to such transactions does not exceed 30% and that the relevant section relating to the Target Fund is updated accordingly at the next available opportunity. In such cases, the counterparty to the transaction will be a counterparty approved and monitored by the Target Fund Management Company or the Target Fund Investment Manager. At no time will a counterparty in a transaction have discretion over the composition or the management of the Target Fund's investment portfolio or over the underlying of the total return swap. While there are no predetermined legal status or geographical criteria applied in the selection of the counterparties, these elements are typically taken into account in the selection process.

The following types of assets can be subject to total return swaps: equity, currency and/or commodity indices (such as, but not limited to Morgan Stanley Balanced Ex Energy Index, Morgan Stanley Balanced Ex Grains Index, Morgan Stanley Balanced Ex Industrial Metals Index, Morgan Stanley Balanced Ex Precious Metals Index or Morgan Stanley Balanced Ex Softs Index), volatility variance swaps as well as fixed income, most notably high yield corporate and bank loan related exposures.

The risk of counterparty default and the effect on investors returns are more fully described under section "Risk Considerations" of the Target Fund Prospectus.

Where the Target Fund enters into total return swaps transactions as of the date of the Target Fund Prospectus, the expected proportion of the Target Fund's net assets that could be subject to total return swaps transactions shall be calculated as the sum of notionals of the derivatives used and is set out in the "Fund Information, Objectives and Investment Policies" section of the Target Fund Prospectus. If and when the Target Fund enters into total return swaps transactions, it is for the purpose of generating additional capital or income and/or for reducing costs or risks.

All revenues arising from total return swaps transactions will be returned to the Target Fund, and the Target Fund Management Company will not take any fees or costs out of those revenues additional to the investment management fee for the Target Fund as set out under section "Investment Management Fees" of the Target Fund Prospectus.

2.2.4. USE OF TECHNIQUES AND INSTRUMENTS RELATING TO TRANSFERABLE SECURITIES AND MONEY MARKET INSTRUMENTS

a) Repurchase and reverse repurchase agreement transactions and securities lending transactions

(i) Types and purpose

To the maximum extent allowed by, and within the limits set forth in, the Law of 17 December 2010 as well as any present or future related Luxembourg laws or implementing regulations, circulars and the Luxembourg supervisory authority's positions (the "Regulations"), in particular the provisions of (i) article 11 of the Grand-Ducal regulation of 8 February 2008 relating to certain definitions of the Luxembourg Law of 20 December 2002 on undertakings for collective investment and of (ii) CSSF Circulars 08/356 and 14/592, the Target Fund may for the purpose of generating additional capital or income or for reducing costs or risks (A) enter, either as purchaser or seller, into optional as well as non-optional repurchase and reverse repurchase agreement transactions and (B) engage in securities lending transactions.

As the case may be, collateral received by the Target Fund in relation to any of these transactions may offset net exposure by the counterparty if it complies with the criteria set out in applicable laws, regulations and circulars issued by the CSSF from time to time notably in terms of liquidity, valuation, issuer credit quality, correlation, risks linked to the management of collateral and enforceability as further set out below.

The form and nature of the collateral will primarily consist of cash and highly rated sovereign fixed income securities that meets particular ratings criteria. Eligible collateral for securities lending transactions would be negotiable debt obligations (collectively "AA - Level Sovereign Bonds") issued by governments (such as Australia, Belgium, Canada, Denmark, France, Germany, the Netherlands, Norway, New Zealand, Sweden, Switzerland, the United States, the United Kingdom, etc.), having a credit rating of at least AA- from S&P and/or Aa3 from Moody's, respectively and denominated in the official currency of the relevant country and issued on the relevant domestic market (but excluding derivatives of other securities and inflation-linked securities). The collateral received by the FTIF in respect of repurchase agreements transactions may be US Treasury bills or US government agency bonds supported by the full faith and credit of the US government and/or core Eurozone sovereign or agency debt rated AA- or above. Acceptable tri-party collateral used in relation to the Custodial Undertaking in connection with the Master Repurchase agreement include, US Treasuries (Bill, Notes, and Bonds), and the following Government Sponsored Agencies: Federal National Mortgage Association (FNMA), Federal Home Loan Bank (FHLB), Federal Home Loan Mortgage Corp (FHLMC), and Federal Farm Credit System (FFCB).

The collateral shall have a final maturity of no more than 5 years from the date the repurchase transaction is entered.

The value of the securities received or posted as collateral shall also be equal to, or greater than, 102% of the amount of the repurchase, reverse repurchase or securities lending transaction. The additional collateral, above 100%, provides for short term fluctuations in the value of the collateral. Net exposures are calculated daily by the counterparty and subject to the terms of the agreements, including a minimum transfer amount. Collateral levels may fluctuate between the Target Fund and the counterparty depending on the market movement of the exposure.

Non-cash collateral received is not sold, reinvested or pledged.

Cash collateral received by the Target Fund in relation to any of these transactions may be reinvested in a manner consistent with the investment objectives of the Target Fund and with the risk diversification requirements detailed in Appendix B "Investment Restrictions" of the Target Fund Prospectus in (a) shares or units issued by short term money market undertakings for collective investment as defined in MMFR, (b) deposits with credit institutions having its registered office in a Member State or with a credit institution situated in a non-Member State provided that it is subject to prudential rules considered by the CSSF as equivalent to those laid down in EU law, (c) high quality government bonds, and (d) reverse repurchase agreement transactions provided the transactions are with credit institutions subject to the prudential supervision and the FTIF may recall at any time the full amount of cash on accrued basis. FTIF has policies with respect to the reinvestment of collateral (specifically, that derivatives or other instruments that may contribute to leverage may not be used) such that it would not impact the global exposure calculation.

In accordance with the criteria laid down in the precedent paragraph, the Target Fund may be fully collateralised in different transferable securities and money market instruments issued or guaranteed by any EU Member State, its local authorities, or public international bodies of which one or more EU Member States are members, by any other State of the OECD, by Singapore or any member state of the G20, provided that the Target Fund holds securities at least from six different issues and that any single issue must not account for more than 30% of the Target Fund's net assets.

(ii) Limits and conditions

- Securities lending transactions

Unless otherwise provided in the Target Fund's investment policy, the Target Fund may utilise up to 50% of its assets for securities lending transactions. The volume of the securities lending transactions of the Target Fund shall be kept at an appropriate level or the Target Fund shall be entitled to request the return of the securities lent in a manner that enables it, at all times, to meet its redemption obligations and that these transactions do not jeopardise the management of the Target Fund's assets in accordance with its investment policy. The counterparties to securities lending transactions are selected following an initial analysis, and subsequent annual review thereafter, of financial statements, company announcements, credit ratings and other market information which includes general market movements. While there are no predetermined legal status, credit rating or geographical criteria applied in the selection of the counterparties, these elements are typically taken into account in the selection process.

When entering into securities lending transactions, the Target Fund must also comply with the following requirements:

- (i) The borrower in a securities lending transaction must be subject to prudential supervision rules considered by the CSSF as equivalent to those prescribed by EU law;
- (ii) The Target Fund may lend securities to a counterparty directly (A) itself or (B) as part of a standardised lending system organised by a recognised clearing house or by a first-class financial institution subject to prudential supervision rules considered by the CSSF as equivalent to those provided by EU law and specialised in this type of transaction. Goldman Sachs International Bank and JPMorgan Chase Bank, N.A., London Branch, shall act as lending agents for securities lending on behalf of the Target Fund;
- (iii) The Target Fund may only enter into securities lending transactions provided that it is entitled at any time under the terms of the agreement to request the return of the securities lent or to terminate the agreement;

As of the date of the Target Fund Prospectus, equity securities is the only type of assets subject to securities lending transactions.

If the Target Fund enters into securities lending transactions as of the date of the Target Fund Prospectus, the expected proportion of the Target Fund's net assets that could be subject to securities lending transactions is set out in the "Fund Information, Objectives and Investment Policies" section of the Target Fund Prospectus.

If the Target Fund does not enter into securities lending transactions as of the date of the Target Fund Prospectus, it has therefore a 0% expected proportion of use into these transactions, it being noted that the Target Fund may however enter into securities lending transactions provided that the maximum proportion of the net assets of the Target Fund that could be subject to such transactions does not exceed 50% and that the relevant section relating to the Target Fund is updated accordingly at the next available opportunity.

The risks related to the use of securities lending transactions and the effect on investors returns are more fully described under section "Risk Considerations" of the Target Fund Prospectus.

- Repurchase and reverse repurchase agreement transactions

Unless otherwise provided in the Target Fund's investment policy, the Target Fund may utilise up to 50% of its assets for repurchase agreement transactions, but the Target Fund's exposure to any single counterparty in respect of repurchase agreement transactions is limited to (i) 10% of its assets where the counterparty is a credit institution having its registered office in an EU Member State or subject to equivalent prudential rules, and (ii) 5% of its assets in other cases. The counterparties to repurchase and reverse repurchase agreement transactions are selected following an initial analysis, and subsequent annual review thereafter, of financial statements, company announcements, credit ratings and other market information which includes general market movements. While there are no predetermined legal status, credit rating or geographical criteria applied in the selection of the counterparties, these elements are typically taken into account in the selection process. The volume of the repurchase and reverse repurchase agreement transactions of the Target Fund shall be kept at a level such that the Target Fund is able, at all times, to meet its redemption obligations towards shareholders. Further, the Target Fund must ensure that, at maturity of the repurchase or reverse repurchase agreement transactions, it has sufficient assets to be able to settle the amount agreed with the counterparty for the restitution of the securities to the Target Fund. Any incremental income generated from repurchase or reverse repurchase agreement transactions will be accrued to the Target Fund.

The following types of assets can be subject to repurchase or reverse repurchase agreement transactions: sovereign debt, corporate and government bonds, non-agency residential mortgage-backed securities and commercial mortgage-backed securities, possibly other asset-backed securities.

If the Target Fund enters into repurchase or reverse repurchase agreement transactions as of the date of the Target Fund Prospectus, the expected proportion of the Target Fund's net assets that could be subject to repurchase or reverse repurchase agreement transactions is set out in the "Fund Information, Objectives and Investment Policies" section of the Target Fund Prospectus.

If the Target Fund does not enter into repurchase or reverse repurchase agreement transactions as of the date of the Target Fund Prospectus, it has therefore a 0% expected proportion of use into these transactions, it being noted that the Target Fund may however enter into repurchase or reverse repurchase agreement transactions provided that the maximum proportion of the net assets of the Target Fund that could be subject to such transactions does not exceed 50% and that the Target Fund policy is updated accordingly at the next available opportunity.

- Costs and revenues of securities lending and/or repurchase and/or reverse repurchase agreement transactions
Direct and indirect operational costs and fees arising from securities lending transactions and/or repurchase and/or reverse repurchase agreement transactions may be deducted from the revenue delivered to the relevant Fund. These costs and fees shall not include hidden revenue. All the revenues arising from such transactions, net of direct and indirect operational costs, will be returned to the Target Fund. The annual report of the FTIF shall contain details of the revenues arising from securities lending transactions and/or repurchase agreement and/or reverse repurchase transactions for the entire reporting period together with the direct and indirect operational costs and fees incurred. The entities to which direct and indirect costs and fees may be paid include banks, investment firms, broker-dealers or other financial institutions or intermediaries and may be related parties to the Target Fund Management Company and/or the depositary bank.

All revenues arising from repurchase and/or reverse repurchase agreement transactions will be returned to the Target Fund, and the Target Fund Management Company will not take any fees or costs out of those revenues additional to the investment management fee for the relevant Fund as set out under section "Investment Management Fees" of the Target Fund Prospectus.

The securities lending agent receives a fee of up to 10% of the gross revenue generated as a result of the lent securities for its services, the remainder of the revenue being received and retained by the relevant lending fund. Any incremental income generated from securities lending transactions will be accrued to the Target Fund.

(iv) Conflicts of Interest

No conflicts of interest to note. The Target Fund Investment Manager does not intend to lend the securities of the Target Fund to its related corporations.

(v) Collateral

Collateral received by the Target Fund may be used to reduce its counterparty risk exposure if it complies with the criteria set out in applicable laws, regulations and circulars issued by the CSSF from time to time notably in terms of liquidity, valuation, issuer credit quality, correlation, risks linked to the management of collateral and enforceability. In particular, collateral should comply with the following conditions:

- (a) Any collateral received other than cash should be of high quality, highly liquid and traded on a Regulated Market or multilateral trading facility with transparent pricing in order that it can be sold quickly at a price that is close to pre-sale valuation;
- (b) It should be valued on at least a daily basis and assets that exhibit high price volatility should not be accepted as collateral unless suitably conservative haircuts are in place;
- (c) It should be issued by an entity that is independent from the counterparty and is expected not to display a high correlation with the performance of the counterparty;
- (d) It should be sufficiently diversified in terms of country, markets and issuers with a maximum exposure of 20% of the Target Fund's net asset value to any single issuer on an aggregate basis, taking into account all collateral received. By way of derogation, the Target Fund may be fully collateralised in different transferable securities and money market instruments issued or guaranteed by a EU Member State, one or more of its local authorities, a third country, or a public international body to which one or more EU Member States belong. In such event, the Target Fund should receive securities from at least six different issues, but securities from any single issue should not account for more than 30% of the Target Fund's net asset value;
- (e) It should be capable of being fully enforced by the Target Fund at any time without reference to or approval from the counterparty;
- (f) Where there is a title transfer, the collateral received will be held by the Depositary in accordance with the Depositary's safekeeping duties under the Depositary Agreement. For other types of collateral arrangements, the collateral can be held by a third party custodian which is subject to prudential supervision, and which is unrelated to the provider of the collateral.
- (g) Collateral received shall have a quality of credit of investment grade.

Collateral will be valued on each valuation day, using the last available market prices and taking into account appropriate discounts determined for each asset class based on the applicable haircut policy. The collateral will be marked to market daily and depending on the current market exposure and collateral balance, the collateral may be subject to margin movement when and if certain predetermined thresholds are crossed.

2.3. ADDITIONAL CHARACTERISTIC OF THE TARGET FUND

For the purpose of the investments in the Target Fund, the Target Fund Management Company has confirmed the following:

- 1) All investments of the Target Fund are limited to markets or country of issuance where the regulatory authority is an ordinary or associate member of the International Organization of Securities Commissions (IOSCO).
- 2) The value of the Target Fund's investments in transferable securities and money market instruments issued by any single issuer will not exceed 15% of the Target Fund's NAV.
- 3) The aggregate value of the Target Fund's investments in transferable securities, money market instruments, deposits, over-the-counter ("OTC") derivatives and structured products issued by or placed with, as the case may be, any single issuer/institution must not exceed 25% of the Target Fund's NAV.
- 4) The credit rating for the counterparty of OTC derivatives will be at least investment grade. In the event the rating of the counterparty falls below the minimum required, or the counter-party ceases to be rated, the Target Fund manager should, within 6 months or sooner, takes the necessary action to ensure that the requirements are complied with.
- 5) The Target Fund may borrow cash for the purpose of meeting repurchase requests for shares and for short-term bridging requirements only. The aggregate borrowings of the Target Fund will not exceed 10% of the Target Fund's NAV at the time the borrowing is incurred. The borrowing period will not exceed one month, and the Target Fund will only borrow from financial institutions.
- 6) The Target Fund will observe the concentration limits below:
 - The Target Fund's investments in transferable securities (other than debentures) must not exceed 10% of the securities issued by any single issuer.
 - The Target Fund's investments in debentures must not exceed 20% of the debentures issued by any single issuer.
 - Other than money market instruments that do not have a pre-determined issue size, the Target Fund's investments in money market instruments must not exceed 10% of the instruments issued by any single issuer.
 - The Target Fund's investments in CIS must not exceed 25% of the units/shares in any one CIS.
- 7) The Target Fund manager should not make any further acquisition to which the relevant limit is breached, and the Target Fund manager should, within reasonable period of not more than 3 months from the date of breach, take all necessary steps and action to rectify the breach. The 3 month period may be extended if the trustee or the internal compliance of the Target Fund manager is of the view that it is in the best interests of unit holders.
- 8) Where the Target Fund invests in another CIS that is operated by the same target fund manager or its related corporation, the Target Fund manager will ensure that-
 - (a) there is no cross-holding between the Target Fund and the other CIS;
 - (b) all initial charges on the other CIS is waived; and
 - (c) the management fee must only be charged once, either at the Target Fund or the other CIS.
- 9) The Target Fund will only undertake securities lending (including sale and repurchase and reverse repurchase) activities for the purpose of efficient portfolio management.
- 10) The Target Fund will only invest in derivatives where the global exposure of such derivatives is calculated using the commitment approach methodology.
- 11) The Target Fund's investments in other CIS will generally comply with the above investment limits.

2.4. SWING PRICING ADJUSTMENT

The Target Fund may suffer reduction of the NAV per share due to investors purchasing, selling and/or switching in and out of the Target Fund at a price that does not reflect the dealing costs associated with the Target Fund's portfolio trades undertaken by the Target Fund Investment Manager to accommodate cash inflows or outflows.

To counter this dilution impact and to protect shareholders' interests, a swing pricing mechanism may be adopted by the FTIF as part of its valuation policy.

The Target Fund operates a swing pricing mechanism which is applied when the total capital activity (aggregate of inflows and outflows) at the Target Fund level exceeds a pre-determined threshold, as determined as a percentage of the net assets of the Target Fund for the valuation day. The Target Fund can operate a full swing pricing mechanism where the threshold is set to zero or a partial swing pricing mechanism where the threshold is greater than zero.

Typically, such adjustment will increase the NAV per share when there are net inflows into the Target Fund and decrease the NAV per share when there are net outflows. The NAV per share of each share class in the Target Fund will be calculated separately but any adjustment will, in percentage terms, affect the NAV per share of each share class in the Target Fund identically. Swing pricing does not address the specific circumstances of each individual investor transaction.

The adjustments will seek to reflect the anticipated prices at which the Target Fund will be buying and selling assets as well as estimated transaction costs.

Investors are advised that the volatility of the Target Fund's NAV might not reflect the true portfolio performance as a consequence of the application of swing pricing.

The size of the adjustment impact is determined by factors such as the volume of transactions, the purchase or sale prices of the underlying investments and the valuation method adopted to calculate the value of such underlying investments of the Target Fund.

The swing pricing mechanism may be applied across all funds of the FTIF. The extent of the price adjustment will be reset by the FTIF on a periodic basis to reflect an approximation of current dealing and other costs. Such adjustment may vary from fund to fund and under normal conditions will not exceed 2% of the original NAV per share. The board of directors of the FTIF can approve an increase of this limit in case of exceptional circumstances, unusually large shareholders trading activities, and if it is deemed to be in the best interest of shareholders.

The Target Fund Management Company mandates authority to the Swing Pricing Oversight Committee to implement and on a periodic basis review, the operational decisions associated with swing pricing. This committee is responsible for decisions relating to swing pricing and the ongoing approval of swing factors which form the basis of pre-determined standing instructions.

The price adjustment is available on request from the Target Fund Management Company at its registered office.

On certain share classes, the Target Fund Management Company may be entitled to a performance fee, where applicable, this will be based on the unswung NAV.

Additional information on swing pricing can be found at: <https://www.franklintempleton.lu/investor/resources/investor-tools/swing-pricing>.

2.5. SUSPENSION OF NAV CALCULATION OF THE TARGET FUND

The FTIF may suspend the determination of the NAV of the shares of the Target Fund and the purchase and sale of the shares and the switch of shares from and to the Target Fund during:

- (a) any period when any of the principal stock exchanges or markets of which any substantial portion of the investments of the FTIF attributable to the Target Fund from time to time are quoted is closed, or during which dealings therein are restricted or suspended; or
- (b) the existence of any state of affairs which constitutes an emergency as a result of which disposal or valuation of assets owned by the FTIF attributable to the Target Fund would be impracticable; or
- (c) any breakdown or restriction in the means of communication normally employed in determining the price or value of any of the investments of the Target Fund or the current price or values on any stock exchange or market; or
- (d) any period when the FTIF is unable to repatriate funds for the purpose of making payments due on sale of such shares or any period when the transfer of funds involved in the realisation or acquisition of investments or payments due on sale of such shares cannot, in the opinion of the board of directors of the FTIF, be effected at normal rates of exchange; or
- (e) any period when the NAV of shares of the Target Fund may not be determined accurately; or
- (f) during any period when in the opinion of the board of directors of the FTIF there exists unusual circumstances where it would be impractical or unfair towards the investors to continue dealing in the shares of the Target Fund or circumstances where a failure to do so might result in the investors or the Target Fund incurring any liability to taxation or suffering other pecuniary disadvantage or other detriment which the investors or the Target Fund might not otherwise have suffered; or
- (g) if the FTIF or the Target Fund is being or may be wound-up, on or following the date on which such decision is taken by the board of directors of the FTIF or notice is given to shareholders of a general meeting at which a resolution to wind-up the FTIF or the Target Fund is to be proposed; or
- (h) in the case of a merger, if the board of directors of the FTIF deems this to be justified for the protection of the shareholders; or
- (i) in the case of a suspension of the calculation of the NAV of one or several underlying investment funds in which the Target Fund has invested a substantial portion of assets.

Any such suspension shall be publicised by the FTIF and shall be notified to shareholders requesting sale or switching of their shares by the FTIF at the time of the filing of the irrevocable written request for such sale or switch.

Should any of the above events occur, the Fund may not be able to pay the withdrawal proceeds to you within ten (10) days. Please refer to "Minimum Withdrawals" section at page 27 for further details.

2.6. TARGET FUND SOFT CLOSURE

The Target Fund, or its share class, may be closed to new investors or to all new subscriptions or switches in (but not to redemptions, switches out or transfers) if, in the opinion of the Target Fund Management Company, closing is necessary to protect the interests of existing shareholders. Without limiting the circumstances where closing may be appropriate, one such circumstance would be where the Target Fund has reached a size such that the capacity of the market and/or the capacity of the Target Fund Investment Manager has been reached, and where to permit further inflows would be detrimental to the performance of the Target Fund. The Target Fund, or its share class, may be closed to new investors or all new subscriptions or switches in without notice to shareholders.

Notwithstanding the above, the Target Fund Management Company may allow, at its discretion, the continuation of subscriptions from regular savings schemes on the basis that these types of flows present no challenge with respect to capacity.

Once closed, the Target Fund or its share class will not be re-opened until, in the opinion of the Target Fund Management Company, the circumstances which required closure no longer prevail. Shareholders and potential investors should confirm with the FTIF, the Target Fund Management Company or the distributor(s) or check the website for the current status of Target Fund or its share classes.

Note: If the Target Fund Management Company imposes soft closure on the Target Fund, we have the absolute discretion to suspend the application of units for the Fund accordingly. This information will be communicated to you via our website at www.principal.com.my.

2.7. LIQUIDATION OF THE TARGET FUND

The board of directors of the FTIF may decide to liquidate the Target Fund if the net assets of the Target Fund falls below USD50 million or if a change in the economic or political situation relating to the Target Fund concerned would justify such liquidation or if it is required by the interests of the shareholders of the Target Fund. The decision of the liquidation will be published or notified, if appropriate, by the FTIF prior to the liquidation and the publication and/or notification will indicate the reasons for, and the procedures of, the liquidation operations.

Note: If the FTIF decides to liquidate the Target Fund, we may replace the Target Fund with another CIS that is in line with the Fund's objective. However, should there be no suitable replacement CIS, we may proceed to terminate the Fund.

2.8. SPECIFIC RISKS OF THE TARGET FUND

3. FEES, CHARGES AND EXPENSES

3.1. CHARGES

The following describes the charges that you may **directly** incur when you buy or withdraw units of the Classes.

3.1.1. Application Fee

When applying unit of a Class, you may be charged an Application Fee based on the NAV per unit of the respective Class. Please refer to the Annexure of the respective Class for further information. If the Fund is an EPF-MIS approved fund and you invest via EPF-MIS, you may be charged an Application Fee of up to 3.00% of the NAV per unit, or such other rate as may be determined by the EPF.

Below is an illustration on how the Application Fee is calculated:-

	Class ABC (Denominated in MYR)	Class XYZ (Denominated in USD)
Investment amount	MYR 10,000	USD 10,000
NAV per unit	MYR 1.0000	USD 1.0000
Application Fee (NAV per unit)	5.00%	5.00%
Units issued to Unit holder = $\frac{\text{Investment amount}}{\text{NAV per unit}}$	= $\frac{\text{MYR 10,000.00}}{\text{MYR 1.0000}}$ = 10,000 units	= $\frac{\text{USD 10,000.00}}{\text{USD 1.0000}}$ = 10,000 units
Application Fee per unit = NAV per unit x Application Fee (%)	= MYR 1.0000 x 5.00% = MYR 0.050	= USD 1.0000 x 5.00% = USD 0.050
Total Application Fee	= 10,000 units x MYR 0.050 = MYR 500.00	= 10,000 units x USD 0.050 = USD 500.00

Note: Please note that the above example is for illustration purpose only. The Application Fee imposed will be rounded to two (2) decimal places.

3.1.2. Withdrawal Penalty

The Withdrawal Penalty is chargeable if a withdrawal is made within three (3) months from the Commencement Date of the respective Classes. Thereafter, no Withdrawal Penalty will be charged. All Withdrawal Penalty will be retained by the Fund. Please refer to the Annexure of the respective Class for further information.

3.1.3. Switching Fee

Switching is treated as a withdrawal from a Class and an investment into another Class or Principal Malaysia's fund (or its class). You may be charged a Switching Fee equal to the difference (if any) between the Application Fee of the Class and the Application Fee of the other Class or Principal Malaysia's fund (or its class). Switching Fee will not be charged if the Class or Principal Malaysia's fund (or its class) to be switched into has a lower Application Fee. In addition, you may be charged administrative fee for each switch. Please refer to the Annexure of the respective Class for further information.

3.1.4. Transfer Fee

You may be charged Transfer Fee for each transfer. Please refer to the Annexure of the respective Class for further information.

3.2. FEES AND EXPENSES

All expenses of the Fund will generally be apportioned to each Class currently available for sale based on the MCR except for Management Fee, and those that are related to the specific Class only, such as, the cost of Unit holders meeting held in relation to the respective Class. If in doubt, you should consult your professional advisers for better understanding.

The following describes the fees that you may **indirectly** incur when you invest in a Class.

3.2.1. Management Fee

Please note that the Management Fee is charged to the respective Class at the Class level, based on the NAV of the Class. Please refer to the Annexure of the respective Class for further information. The Management Fee shall be accrued daily and paid monthly.

Below is an illustration on how the Management Fee is calculated, assuming Management Fee of 1.80% per annum and USD150 million each for Class ABC and Class XYZ: -

	Class ABC (Denominated in MYR) (USD)	Class XYZ (Denominated in USD) (USD)
Management Fee	1.80% per annum	
NAV of the class	USD 150 million	USD 150 million
Management Fee for the day = NAV of the class x Management Fee rate for the class (%) / 365 days	= USD 150 million x 1.80% / 365 = USD 7,397.26	= USD 150 million x 1.80% / 365 = USD 7,397.26

Note: In the event of a leap year, the computation will be based on 366 calendar days.

Please note that although at least 95% of the Fund's NAV will be invested in another CIS, no additional Management Fee will be charged to the investor.

Note: The Management Fee will only be charged once at the Fund level. The management fee charged by the Target Fund will be paid out of the Management Fee charged at the Fund level. There will not be double charging of the Management Fee. Please refer to “Fees charged by the Target Fund” section at page 19 for details on the Target Fund’s management fee.

3.2.2. Trustee Fee

Please note that the Trustee Fee (including local custodian fee but excluding foreign sub-custodian fees and charges) charged to the Fund is based on the NAV of the Fund. The Trustee Fee shall be accrued daily and paid monthly.

The Trustee Fee is 0.04% per annum for the Fund.

Below is an illustration on how the Trustee Fee is calculated, assuming the NAV of the Fund is USD150 million:-

$$\begin{aligned}
 \text{Trustee Fee for the day} &= \text{NAV of the Fund} \times \text{annual Trustee Fee rate for the Fund (\%)} / 365 \text{ days} \\
 &= \text{USD150 million} \times 0.04\% \text{ per annum} / 365 \text{ days} \\
 &= \text{USD164.38}
 \end{aligned}$$

Note: In the event of a leap year, the computation will be based on 366 calendar days.

3.2.3. Other costs of investing in a feeder fund

4. TRANSACTION INFORMATION

4.1. VALUATION OF INVESTMENTS PERMITTED BY THE FUND

We will carry out the valuation of the Fund in a fair manner in accordance with applicable law and guidelines. The valuation bases for the investments permitted by the Fund are as below:

- **CIS**
The value of the unlisted CIS (i.e. the Target Fund) shall be determined by reference to the last published repurchase or redemption price for the Target Fund.
- **Deposit**
The value of Deposits shall be determined each day by reference to the principal value and the accrued income thereon for the relevant period.
- **Derivative**
The value will be determined by the financial institution that issued the instrument and that value will be the fair value as determined in good faith by us on methods or basis which have been verified by the auditor of the Fund and approved by the Trustee.

If the value of the Fund's assets is denominated in a currency other than USD, the assets are translated on a daily basis to USD based on the bid foreign exchange rate quoted by either Bloomberg or Reuters at UK time 4:00 p.m. on the same day (Malaysian time 11:00 p.m. or 12:00 a.m.), or such other time as stipulated in the IMS.

4.2. UNIT PRICING

We adopt a single pricing method for any transactions (i.e. applications, withdrawals, switches and/or transfers) based on forward prices. This means that we will process your transactions request based on the NAV per unit at the next valuation point after we receive the completed relevant transaction forms from you.

If the transactions are made by 4:00 p.m. on a Business Day, we will process the transactions using the unit pricing for that Business Day. For transactions made after 4:00 p.m. on a Business Day, we will process the transactions using the unit pricing on the next Business Day.

We will carry out the valuation for the Classes for each Business Day on the next Business Day (T+1) by 4:00 p.m. This is to cater for the foreign currency translation to the Fund's base currency based on the bid exchange rate quoted by Bloomberg or Reuters at UK time 4:00 p.m. on the same day (Malaysian time 11:00 p.m. or 12:00 a.m.), or such other time as stipulated in the IMS. The NAV per unit for a Business Day is available on our website at www.principal.com.my after 5:30 p.m. on the following Business Day (T+1).

Illustration:

For transaction request received by us by 4:00 p.m. on a Business Day

At the end of the Business Day on 2 December 2020, your units will be based on the unit price on 2 December 2020, which will be calculated on the next Business Day, that is, 3 December 2020. The unit price will be made known on our website after 5:30 p.m. on 3 December 2020.

For transaction request received by us after 4:00 p.m. on a Business Day

At the end of the Business Day on 2 December 2020, your units will be based on the unit price on 3 December 2020, which will be calculated two (2) days later, that is, 4 December 2020. The unit price will be made known on our website after 5:30 p.m. on 4 December 2020.

The Fund must be valued at least once every Business Day except during the initial offer period. The method of determining NAV per unit is calculated as follows:

$$\text{NAV per unit} = \frac{\text{NAV of the Class}}{\text{Number of units in issue of the Class}}$$

The NAV of the Fund is the sum of the value of all investments and cash held by the Fund (calculated in accordance with the Deed) including income derived by the Fund which has not been distributed to you, less all amounts owing or payable in respect of the Fund which also includes any provisions that may be made by us and the Trustee. For example, a provision may be made for possible future losses on an investment which cannot be fairly determined.

The valuation of the Fund is in the base currency i.e. USD. As such, all the assets and liabilities of each Class will be translated into USD for valuation purposes. The foreign exchange rate used for this purpose shall be the bid exchange rate quoted by Bloomberg or Reuters at UK time 4:00 p.m. (Malaysian time 11:00 p.m. or 12:00 a.m.), or such other time as stipulated in the IMS. The NAV per unit of each Class will be the NAV of the Fund attributable to each Class divided by the number of units in circulation of that Class, at the same valuation point.

Note: We will ensure the accuracy of the prices submitted to the Federation of Investment Managers Malaysia - Funds Malaysia System.

4.2.1. Multi-class Ratio (MCR)

MCR is the apportionment of the NAV of each Class over the Fund's NAV based on the size of each Class. The MCR is calculated by dividing the NAV (in USD) of the respective Class by the NAV of the Fund before income and expenses for the day. The apportionment is expressed as a ratio and calculated as a percentage.

Below is an illustration on computation of the NAV of the Fund:

	Fund (USD)	Class ABC (Denominated in USD) (USD)	Class XYZ (Denominated in MYR) (USD)
NAV of the Fund before income and expenses	185,942,897	173,342,897	12,600,000

4.2.2. Calculation of investment amount and units entitlement

The calculation below is for illustration only and does not represent the actual percentage/ amount that you may incur for in each Class. Please refer to the Annexure of the respective Class for the actual percentage/ amount of charges.

Illustration:

Calculation of number of units received, Application Fee and total amount payable by you

Assumptions:

NAV per unit of Class ABC denominated in MYR = RM1.0000 (truncated to 4 decimal places)
 Application Fee = 5.00%
 You wish to invest RM10,000 in the Fund through an IUTA.

Calculation of number of units you will receive*
 = Investment amount / NAV per unit of Class ABC
 = RM10,000.00 / RM1.0000
 = 10,000.00 units

Calculation of Application Fee you will incur (payable in addition to the amount invested)
 = NAV per unit of Class ABC x number of units received x Application Fee rate
 = RM1.0000 x 10,000.00 units x 5.00%
 = RM 500.00

Calculation of total amount that you will have to pay
 = Investment amount + Application Fee paid
 = RM10,000.00 + RM 500.00
 = RM10,500.00

* The number of units you will receive will be rounded down to two (2) decimal places

Calculation of investment value

Assuming you have 40,000 units Class ABC of the Fund and the NAV per unit of Class ABC for the day (which will be made known on the following Business Day) is RM1.0240 (truncated to 4 decimal places).

Calculation of investment value

= Number of units x NAV per unit of Class ABC
= 40,000.00 units x RM1.0240
= RM40,960.00

Calculation of withdrawal value and amount payable to you

Assuming you request for a 10,000 units withdrawal from your investment on the fifth month* from the Commencement Date. Your withdrawal request is received by us by 4:00 p.m. on a Business Day. The NAV per unit for that Business Day (which will be made known on the following Business Day) is RM1.0240 (truncated to 4 decimal places).

Calculation of amount payable to you

= Number of units withdrawn x NAV per unit of Class ABC
= 10,000 units x RM1.0240
= RM10,240.00

* The Withdrawal Penalty is chargeable if a withdrawal is made within three (3) months from the Commencement Date. Thereafter, no Withdrawal Penalty will be charged.

4.3. INCORRECT PRICING

We shall take immediate remedial action to rectify any incorrect valuation and/or pricing of the Fund or units of the Fund. Where such error has occurred, we shall reimburse the money in the following manner:

- (a) in the event of over valuation and/or pricing, we shall reimburse:
 - (i) the Fund for any withdrawal of units; and/or
 - (ii) you, if you have purchased units of the Fund at a higher price; or
- (b) in the event of under valuation and/or pricing, we shall reimburse:
 - (i) the Fund for any subscription of units; and/or
 - (ii) you, if you have withdrawn units of the Fund at a lower price.

Notwithstanding the above, unless the Trustee otherwise directs, we shall make the reimbursement as per IMS, only where an incorrect pricing:

- (i) is equal or more than 0.50% of the NAV per unit; and
- (ii) results in a sum total of RM10.00 or more to be reimbursed to a Unit holder for each sale or repurchase transaction.

We shall have the right to amend, vary or revise the abovesaid limits or threshold from time to time, subject to any regulatory or governing body's requirements.

4.4. INVESTING

You can also arrange a standing instruction with our Distributors to invest a pre-determined amount in the Class each month. You may cancel your RSP at any time by providing written instructions to the relevant Distributors to cancel your standing instruction.

4.4.4. Can the units be registered in the name of more than one (1) Unit holder?

We may register units in the name of more than one (1) Unit holder but we have the discretion not to allow registration of more than two (2) joint holders. All applicants must be at least eighteen (18) years of age.

You are advised not to make payment in cash to any individual agent or employee of Principal Malaysia when purchasing units of a fund.

- 4.4.6.** Please take note that if your investments are made through an IUTA via a nominee system of ownership, you would not be deemed as a Unit holder under the Deed and as a result, you may not exercise all the rights ordinarily conferred to a Unit holder (e.g. the right to call for Unit holders' meetings and the right to vote at a Unit holders' meeting).

4.5. MINIMUM INVESTMENTS

The minimum initial and additional investment for each Class may differ and may be determined by us from time to time. Please refer to the Annexure of the respective Class for further information.

4.5.1. Processing an application

If we receive a complete application by 4:00 p.m. on a Business Day, we will process it using the NAV per unit for that Business Day. If we receive the application after 4:00 p.m. on a Business Day, we will process it using the NAV per unit for the next Business Day. We will only process the completed applications with all the necessary information. The number of units you receive will be rounded down to two (2) decimal places.

4.6. MINIMUM WITHDRAWALS

The minimum withdrawal amount for each Class may differ and may be determined by us from time to time, unless you are withdrawing your entire investment. Please refer to the Annexure of the respective Class for further information. You may

withdraw by completing a withdrawal form and sending it to the relevant Distributor or Principal Malaysia's office. There is no restriction on the frequency of withdrawals. We will transfer the withdrawal proceeds to the bank account number or foreign currency bank account, as the case may be, in our records. If the Fund is an EPF-MIS approved fund and you have invested via EPF-MIS, your withdrawal proceeds will be paid to EPF. If we wish to increase the minimum withdrawals, we will consult with the Trustee and you will be notified of such changes before implementation.

4.6.1. Processing a withdrawal

If we receive a complete withdrawal request by 4:00 p.m. on a Business Day, we will process it using the NAV per unit for that Business Day. If we receive the withdrawal request after 4:00 p.m. on a Business Day, we will process it using the NAV per unit for the next Business Day (T+1). The amount that you will receive is calculated by the withdrawal value less the Withdrawal Penalty, if any. You will have to bear the applicable bank fees and charges, if any.

Under normal circumstances, you will be paid in the currency of the Class (e.g. Class MYR will be paid in MYR) within ten (10) days upon receipt of the complete withdrawal request. However, should any of the below events occur, we may not be able to pay the withdrawal proceeds to you within ten (10) days. The Fund has obtained approval from the SC for a variation to Paragraph 10.16(a), which allows us to pay the withdrawal proceeds to you within fifteen (15) Business Days when the following events occur:

- (i) redemption request of the Target Fund is deferred^{Note 1}; or
- (ii) the Target Fund's NAV suspended during any period^{Note 2}.

Note 1: *The Target Fund Management Company reserves the right not to be bound to accept the redemption on any valuation day more than 10% of the value of the shares of the Target Fund. In these circumstances the redemption of the shares may be deferred for a period not exceeding ten (10) Luxembourg business days. These instructions to redeem will be executed in priority to later instructions.*

Note 2: *If, in exceptional circumstances as described in "Suspension of NAV Calculation of the Target Fund" section at page 18, the liquidity of the Target Fund does not permit payment of redemption proceeds within three (3) Luxembourg business days from the relevant valuation day (or such other timeframe as set out in the local fund related documentation or applicable dealing guide), the redemption proceeds will be paid as soon as reasonably practicable but without interest. If in doubt, please consult your professional advisers.*

4.7. MINIMUM BALANCE

The minimum balance that must be retained in your account for each Class may differ and may be determined by us from time to time. Please refer to the Annexure of the respective Class for further information. If the balance (i.e. number of units) of an investment drops below the minimum balance units, further investment will be required until the balance of the investment is restored to at least the stipulated minimum balance. Otherwise, we can withdraw the entire investment and forward the proceeds to you.

Note: *We may, for any reason at any time, where applicable, reduce the minimum balance, either generally (for all investors) or specifically (for any particular investor, a group of investors or investments made via any digital platform) without prior notice to you. For increase in the number of units for minimum balance, we will require concurrence from the Trustee and you will be notified of such changes before implementation.*

4.8. COOLING-OFF PERIOD

You have six (6) Business Days after your initial investment (i.e. the date the complete application is received and accepted by us or our Distributors) to reconsider its appropriateness and suitability for your investment needs. Within this period, you may withdraw your investment at the same NAV per unit when the units were purchased. We will refund the investment amount including Application Fee (if any) to you in the currency of the respective Class within ten (10) days, from the date we receive the complete documentations. Please note that the cooling-off right is only given to first time investor investing with us or our Distributors. However, Principal Malaysia's staff and person(s) registered with a body approved by the SC to deal in unit trust are not entitled to the cooling-off right. In addition, if you have invested via the EPF-MIS (where available), your cooling-off right is subject to EPF's terms and conditions.

Should any of the below events occur, we may not be able to pay the investment amount to you within ten (10) days. The Fund has obtained approval from the SC for a variation to Paragraph 11.06, which allows us to pay the investment amount to you within fifteen (15) Business Days when the following events occur:

- (i) redemption request of the Target Fund is deferred^{Note 1}; or
- (ii) the Target Fund's NAV suspended during any period^{Note 2}.

Note 1: *The Target Fund Management Company reserves the right not to be bound to accept the redemption on any valuation day more than 10% of the value of the shares of the Target Fund. In these circumstances the redemption of the shares may be deferred for a period not exceeding ten (10) Luxembourg business days. These instructions to redeem will be executed in priority to later instructions.*

Note 2: *If, in exceptional circumstances as described in "Suspension of NAV Calculation of the Target Fund" section at page 18, the liquidity of the Target Fund does not permit payment of redemption proceeds within three (3) Luxembourg business days*

from the relevant valuation day (or such other timeframe as set out in the local fund related documentation or applicable dealing guide), the redemption proceeds will be paid as soon as reasonably practicable but without interest. If in doubt, please consult your professional advisers.

4.9. SWITCHING

Switching is available between the Classes of the Fund or between a Class and other Principal Malaysia's fund (or its classes) which should be denominated in the same currency. You may contact our Customer Care Centre at (03) 7718 3000 for more information on the availability of switching. Please also refer to the Annexure of the respective Class for further information.

To switch, simply complete a switch request form and send to the relevant Distributor or our head office. Currently, there is no restriction on the frequency of switches. However, we have the discretion to allow or to reject any switching into (or out of) the Fund or Class, either generally (for all investors) or specifically (for any particular investor, a group of investors or investments made via any digital platform).

4.9.1. Processing a switch

We process a switch as a withdrawal from one fund or class and an investment into another fund or class within Principal Malaysia's fund. If we receive a complete switch request by 4:00 p.m. on a Business Day, we will process the switch-out using the NAV per unit for that Business Day. If we receive the request after 4:00 p.m. on a Business Day, the switch-out will be processed using the NAV per unit for the next Business Day.

However, you should note that switch-in may be processed at a later Business Day, generally within one (1) Business Day to four (4) Business Days.

4.10. TRANSFER FACILITY

You may transfer your units to another investor subject to terms and conditions as may be stipulated in the Deed. You may be charged a Transfer Fee for each transfer. However, we may refuse to register any transfer of a unit at our absolute discretion. Please refer to the Annexure of the respective Class for further information.

4.11. TEMPORARY SUSPENSION

We and the Trustee may temporarily suspend the dealing in units of the Class or Fund, subject to the requirements in the GUTF and/or the Deed. Please note that during the suspension period, there will be no NAV per unit available and hence, we will not accept any transactions for the applications, withdrawals, switches and/or transfers of units. If we have earlier accepted your request for withdrawals and switches of units, please note that there may be delay in processing those transactions and you will be notified accordingly. You will also be notified once the suspension is lifted.

4.12. DISTRIBUTION PAYMENT

Depending on the distribution policy of the respective Class, distribution (if any) will be made at the end of each distribution period to the Class(es) according to its distribution policy. Each unit of the Class will receive the same distribution for a distribution period regardless of when those units were purchased. The distribution amount you will receive is calculated by multiplying the total number of units held by you in the Class with the distribution amount in cent per unit. On the distribution date, the NAV per unit will adjust accordingly. For information on the distribution policy of each Class, please see Annexure of the respective Class.

All distributions (if any) will be automatically reinvested into additional units in the Class at the NAV per unit of the Class on the distribution date (the number of units will be rounded down to two (2) decimal places), unless written instructions to the contrary are communicated to us and in which case that you shall have first furnished us with details of your bank account in the currency denomination of that Class into which all distribution payment shall be paid (the cost and expense will be borne by you). No Application Fee is payable for the reinvestment.

If units are issued as a result of the reinvestment of a distribution or other circumstance after you have withdrawn your investment from the Class, those additional units will then be withdrawn, and the proceeds will be paid to you.

You should note that distribution payments, if any, will be made in the respective currency for that Class. As such for each Class, the distribution amount may be different as a result of exchange rate movement between the base currency of the Fund and the denominated currency of each Class. Then the distribution will be paid into your bank account (which shall be in the currency of that specific Class) in our records (at your cost and expense).

Note: Please note that for Class(es) that provide distribution, we have the right to make provisions for reserves in respect of distribution of the Class. If the income available is too small or insignificant, any distribution may not be of benefit to you as the total cost to be incurred in any such distribution may be higher than the amount for distribution. We have the discretion to decide on the amount to be distributed to you. We also have the discretion to make income distribution on an ad-hoc basis, taking into consideration the level of its realised income and/or realised gains, as well as the performance of the Fund.

4.13. UNCLAIMED MONEYS

Any moneys payable to you which remain unclaimed after twelve (12) months as prescribed by Unclaimed Moneys Act 1965 (“UMA”), will be surrendered to the Registrar of Unclaimed Moneys by us in accordance with the requirements of the UMA. Thereafter, all claims need to be made by you with the Registrar of Unclaimed Moneys.

However, any income distribution payout to you by cheque, if any, which remain unclaimed for six (6) months will be reinvested into the Fund within thirty (30) Business Days after the expiry of the cheque’s validity period based on the prevailing NAV per unit on the day of the reinvestment in circumstances where you still hold units of the Fund. As for income distribution payout by bank transfer, if any, shall be transmitted to your valid and active bank account. If the bank transfer remained unsuccessful and unclaimed for six (6) months, it will be reinvested into the Fund within thirty (30) Business Days after the six (6) months period based on the prevailing NAV per unit on the day of the reinvestment in circumstances where you still hold units of the Fund. No Application Fee is payable for the reinvestment. If you no longer hold any unit in the Fund, the distribution money would be subject to the treatment mentioned in the above paragraph as prescribed by the UMA.

Unit prices and distributions payable, if any, may go down as well as up.

We have the discretion to amend the amount, rate and/or terms and conditions of the transaction information herein, subject to the requirements stipulated in the Deed. Where necessary, we will notify the Trustee and communicate to you on the amendments to the transaction information.

- costs of obtaining experts opinion by the Trustee and the Manager for the benefit of the Fund or Class;
- the costs of printing and dispatching to Unit holders the accounts of the Funds, tax certificates, distribution warrants, notices of meeting of unit holders, newspaper advertisement and such other similar costs as may be approved by the Trustee; and
- all costs and/or expenses associated with the distributions declared pursuant to this Deed and the payment of such distribution including without limitation fees, costs and/or expenses for the revalidation or reissuance of any distribution cheque or distribution warrant or telegraphic transfer.

We and the Trustee are required to ensure that any fees or charges payable are reasonable and in accordance with the Deed.

8.3. RETIREMENT, REMOVAL OR REPLACEMENT OF THE MANAGER

We must retire as the Manager when required to retire by law.

We may retire upon giving twelve (12) months' notice to the Trustee of our desire to do so, or such shorter notice as we and the Trustee may agree, in favour of another corporation.

We shall retire under the following circumstances:

- if a Special Resolution is duly passed by the Unit holders that the Manager be removed; or
- if we cease to be approved by the SC to be the Manager of unit trust schemes.

We may be removed by the Trustee under certain circumstances outlined in the Deed. These include:

- if we have gone into liquidation (except a voluntary liquidation for the purpose of reconstruction or amalgamation) or cease to carry on business or if a receiver shall be appointed in respect of the undertaking or assets of the Manager or if any encumbrances shall take possession of any of its assets; or
- if we cease to carry on business; or
- if the Trustee is of the opinion that we have, to the prejudice of the Unit holders, failed to comply with any provision or covenant under the Deed or contravened any of the provisions of the CMSA; or
- if we have failed or neglected to carry out its duties to the satisfaction of the Trustee and the Trustee considers that it would be in the interests of the Unit holders for it to do so, after the Trustee has given reasonable notice to it of that opinion and the reasons for that opinion, and has considered any representations made by us in respect of that opinion, and after consultation with the SC and with the approval of the Unit holders; or
- if a petition has been presented for the winding up against us (other than for the purpose of and followed by a reconstruction, unless during or following such reconstruction, we become or is declared insolvent).

In any of above said circumstances, we for the time being shall upon receipt of such notice by the Trustee cease to be the Manager and the Trustee shall by writing under its seal appoint another corporation to be the Manager of the Fund subject to such corporation entering into a deed(s) with the Trustee and thereafter act as Manager during the remaining period of the Fund.

We may be replaced by another corporation appointed as manager by Special Resolution of the Unit holders at a Unit holder's meeting convened in accordance with the Deed either by the Trustee or the Unit holders.

8.4. RETIREMENT, REMOVAL OR REPLACEMENT OF THE TRUSTEE

We and the Trustee may agree, and may by Deed appoint in its stead a new trustee approved by the SC.

The Trustee must retire as Trustee of the Fund when required to retire by law. The Trustee may retire by giving twelve (12) months' notice to us or any shorter notice we accept.

We may remove the Trustee and the Trustee covenants that it will retire or removed from the Fund constituted by or pursuant to the Deed if and when requested so to do by us if:

- the Trustee shall go into liquidation;
- the Trustee is placed under receivership, ceases to exist, fails or neglects its duties;
- the Trustee ceases to be approved by the SC to be a trustee for unit trust schemes;
- the Trustee is under investigation for conduct that contravenes the Trust Companies Act 1949, the Trustee Act 1949, the Companies Act 2016 or any securities law; or
- a Special Resolution is duly passed by the Unit holders that the Trustee be removed.

Additionally, we are legislatively empowered under Section 299 of the CMSA to remove the Trustee under specific circumstances set out therein.

The Trustee may be replaced by another corporation appointed as trustee by a Special Resolution of the Unit holders at a Unit holders' meeting convened in accordance with the Deed either by us or the Unit holders.

8.5. TERMINATION OF THE FUND AND/OR CLASS

The Fund and/or any of the Classes may be terminated or wound-up upon the occurrence of any of the following events:

- (a) the SC's authorization is withdrawn under Section 256E of the CMSA;
- (b) a Special Resolution is passed at a Unit holders' meeting of all the Unit holders of the Fund or the relevant Class to terminate or wind-up the Fund or that Class as the case may be, following the occurrence of events stipulated under Section 301(1) of the CMSA and the court has confirmed the resolution, as required under Section 301(2) of the CMSA;
- (c) a Special Resolution is passed at a Unit holders' meeting of all the Unit holders of the Fund or the relevant Class to terminate or wind-up the Fund or that Class as the case may be;
- (d) on reaching the Fund's or that Class' Maturity Date (if any); or
- (e) the effective date of an approved transfer scheme, as defined under the Guidelines, has resulted in the Fund, which is the subject of the transfer scheme, being left with no asset/property.

A Class may be terminated if a Special Resolution is passed at a Unit holders' meeting of that Class to terminate or wind-up that Class provided always that such termination or winding-up of that Class does not materially prejudice the interest of any other Class in that Fund.

8.6. MEETINGS OF UNIT HOLDERS

A Unit holders' meeting may be called by us, the Trustee and/or Unit holders.

Where we or the Trustee convenes a meeting, the notice of the time and place of the meeting and terms of resolution to be proposed shall be given to the Unit holders in the following manner:

- (a) by sending by post a notice of the proposed meeting at least fourteen (14) days before the date of the proposed meeting, to each Unit holder at the Unit holder's of the Fund or that Class, as the case may be, last known address or, in the case of Joint holders, to the Joint holder of the Fund or that Class, as the case may be, whose name stands first in our records at the Joint holder's last known address; and
- (b) by publishing, at least fourteen (14) days before the date of the proposed meeting, an advertisement giving notice of the meeting in a national language newspaper published daily and circulating generally throughout Malaysia, and in one other newspaper as may be approved by the SC.

We shall within twenty-one (21) days after an application is delivered to us at our registered office, being an application by not less than fifty (50), or one-tenth (1/10) in number, whichever is less, of the Unit holders of the Fund or a Class, as the case may be, to which this Deed relates, summon a meeting of the Unit holders:

- (i) by sending a notice by post of the proposed meeting at least seven (7) days before the date of the proposed meeting to each of those Unit holders of the Fund or that Class, as the case may be, at his/her last known address or in the case of joint Unit holder, to the joint Unit holder of the Fund or that Class, as the case may be, whose name stands first in our records at the joint Unit holder's last known address; and
- (ii) by publishing at least fourteen (14) days before the date of the proposed meeting, an advertisement giving notice of the meeting in a national language national daily newspaper and in one other newspaper as may be approved by the SC; and
- (iii) specify in the notice, the place, time and terms of the resolutions to be proposed,

for the purpose of considering the most recent financial statements of the Fund or relevant Class, or for the purpose of requiring the retirement or removal of the Manager OR the Trustee, or for the purpose of giving to the Trustee such directions as the meeting thinks proper, or for the purpose of considering any other matter in relation to this Deed.

The quorum for a meeting of Unit holders of the Fund or Class, as the case may be, is five (5) Unit holders of the Fund (irrespective of the Class) or Class, as the case may be present in person or by proxy, provided that for a meeting which requires a Special Resolution the quorum for that meeting shall be five (5) Unit holders of the Fund (irrespective of the Class) or Class, as the case may be, whether present in person or by proxy, holding in aggregate at least twenty five per centum (25%) of the units in issue of the Fund (irrespective of the Class) or Class, as the case may be, at the time of the meeting. If the Fund or Class, as the case may be, has five (5) or less Unit holders, the quorum required shall be two (2) Unit holders of the Fund (irrespective of the Class) or Class, as the case may be, whether present or by proxy and if the meeting requires a Special Resolution the quorum for that meeting shall be two (2) Unit holders of the Fund (irrespective of the Class) or Class, as the case may be, whether present in person or by proxy, holding in aggregate at least twenty five per centum (25%) of the units in issue for the Fund (irrespective of the Class) or Class, as the case may be, at the time of the meeting.

Voting is by a show of hands, unless a poll is duly demanded or the resolution proposed is required by this deed or by law to be decided by a percentage of all units. At any meeting of Unit holders of the Fund or of a particular Class, as the case may be, (save and except for a resolution for the winding-up of a Class to a Fund, as the case may be), one vote is granted to each unit, regardless of its NAV per unit. Each Unit holder of the Fund or of the Class present in person or by proxy has one vote on a show of hands (irrespective of the Class). On a poll, each Unit holder of the Fund or of a particular Class, as the case may be, present in person or by proxy has one vote for each whole fully paid unit held, proportionate to the value of unit held in the base currency as provided in the Deed. In the case of a Class meeting, on a poll, each Unit holder of that Class present in person or by proxy has one vote for each whole fully paid unit held in that Class. In the case of Joint holders, any one of such Joint holder may vote either personally or by proxy as comprised in the joint holding but if more than one of such Joint holder be present at any meeting either personally or by proxy, the Joint holder whose name stands first in the register shall alone be entitled to vote in respect thereof. Units held by us or by our nominees shall have no voting rights in any Unit holders' meeting of the Fund or of that Class.

Nothing herein shall preclude us from convening any Unit holders' meeting at more than one venue using any communication facility or technology or method available as we shall determine to enable the Unit holders to participate and to exercise their right to speak and vote at that meeting. Where such meeting is convened, any reference to a Unit holder being "present in person" in the Deed, meetings or resolutions shall include, where permitted by us, to that Unit holder being present either remotely or virtually and for the avoidance of doubt it is hereby agreed that the participation by a Unit holder in such meeting using the prescribed communication facility or technology or method shall be deemed as being present at that meeting notwithstanding that the Unit holder is not physically present at the main venue of that meeting.

Dear Sirs

Taxation of the unit trust fund and unit holders

This letter has been prepared for inclusion in this Prospectus Issue No. 1 in connection with the offer of units in the unit trust known as Principal Biotechnology Discovery Fund (hereinafter referred to as “the Fund”).

The purpose of this letter is to provide prospective unit holders with an overview of the impact of taxation on the Fund and the unit holders.

Taxation of the Fund

The taxation of the Fund is subject to the provisions of the Malaysian Income Tax Act 1967 (MITA), particularly Sections 61 and 63B.

Subject to certain exemptions, the income of the Fund comprising profits and other investment income derived from or accruing in Malaysia after deducting tax allowable expenses, is subject to Malaysian income tax at the rate of 24% with effect from the year of assessment 2016.

Tax allowable expenses would comprise expenses falling under Section 33(1) and Section 63B of the MITA. Section 33(1) permits a deduction for expenses that are wholly and exclusively incurred in the production of gross income. In addition, Section 63B allows unit trusts a deduction for a portion of other expenses (referred to as ‘permitted expenses’) not directly related to the production of income, as explained below.

“Permitted expenses” refer to the following expenses incurred by the Fund which are not deductible under Section 33(1) of the MITA:

- the manager’s remuneration,
- maintenance of the register of unit holders,
- share registration expenses,
- secretarial, audit and accounting fees, telephone charges, printing and stationery costs and postage.

These expenses are given a partial deduction under Section 63B of the MITA, based on the following formula:

$$A \times \frac{B}{4C}$$

where

A	is the total of the permitted expenses incurred for that basis period;
B	is gross income consisting of dividend ¹ , interest and rent chargeable to tax for that basis period; and
C	is the aggregate of the gross income consisting of dividend ¹ and interest (whether such dividend or interest is exempt or not) and rent, and gains made from the realisation of investments (whether chargeable to tax or not) for that basis period,

provided that the amount of deduction to be made shall not be less than 10% of the total permitted expenses incurred for that basis period.

¹ Pursuant to Section 15 of the Finance Act 2011, with effect from the year of assessment 2011, dividend income is deemed to include income distributed by a unit trust which includes distributions from Real Estate Investment Trusts.

Exempt income

The following income of the Fund is exempt from income tax:

- **Malaysian sourced dividends**
All Malaysian-sourced dividends should be exempt from income tax.
- **Malaysian sourced interest**
 - (i) interest from securities or bonds issued or guaranteed by the Government of Malaysia;
 - (ii) interest from debentures or *sukuk*, other than convertible loan stock, approved or authorized by, or lodged with, the Securities Commission;
 - (iii) interest from Bon Simpanan Malaysia issued by Bank Negara Malaysia;
 - (iv) interest derived from Malaysia and paid or credited by banks licensed under the Financial Services Act 2013 or the Islamic Financial Services Act 2013²;
 - (v) interest derived from Malaysia and paid or credited by any development financial institution prescribed under the Development Financial Institutions Act 2002²;
 - (vi) interest from *sukuk* originating from Malaysia, other than convertible loan stock, issued in any currency other than Ringgit and approved or authorized by, or lodged with, the Securities Commission or approved by the Labuan Financial Services Authority (LFSA)³; and
 - (vii) interest which is specifically exempted by way of statutory orders or any other specific exemption provided by the Minister.
- **Discount**
Tax exemption is given on discount paid or credited to any unit trust in respect of investments as specified in items (i), (ii) and (iii) above.

Foreign sourced income

Dividends, interest and other income derived from sources outside Malaysia and received in Malaysia by a resident unit trust is exempt from Malaysian income tax. However, such income may be subject to tax in the country from which it is derived.

Gains from the realisation of investments

Pursuant to Section 61(1) (b) of the MITA, gains from the realisation of investments will not be treated as income of the Fund and hence, are not subject to income tax. Such gains may be subject to real property gains tax (RPGT) under the Real Property Gains Tax Act 1976 (RPGT Act), if the gains are derived from the disposal of chargeable assets, as defined in the RPGT Act.

Implementation of Sales and Service Tax (“SST”)

Sales and Service Tax (“SST”) was re-introduced effective 1 September 2018. Sales Tax of 10% (most common rate) or 5% is charged by Malaysian manufacturers of taxable goods or upon importation into Malaysia of such taxable goods, unless specifically exempted under the Sales Tax (Goods Exempted From Tax) Order 2018. Service Tax at the rate of 6% is charged on certain prescribed taxable services performed by taxable persons as stipulated under Service Tax Regulations 2018. The input tax recovery mechanism under the previous GST regime does not apply to SST. Therefore, any SST incurred is not recoverable and will form a cost element for businesses.

Based on the Service Tax Regulations 2018, a unit trust fund is neither regarded as a taxable person nor as providing taxable services and is therefore not liable for SST registration. Where the Fund incurs expenses such as management fees, the management services provided by asset and fund managers are specifically excluded from the scope of Service Tax. As for other fees, such as trustee fees and other administrative charges, these may be subject to 6% service tax provided they fall within the scope of service tax (i.e. are provided by a “taxable person”, who exceeds the required annual threshold (in most cases RM 500,000 per annum) and the services qualify as “taxable services”).

Taxation of unit holders

For Malaysian income tax purposes, unit holders will be taxed on their share of the distributions received from the Fund.

The income of unit holders from their investment in the Fund broadly falls under the following categories:

1. taxable distributions; and
2. non-taxable and exempt distributions.

In addition, unit holders may also realise a gain from the sale of units.

The tax implications of each of the above categories are explained below:

² Effective from 1 January 2019, the income tax exemption for a unit trust fund, pursuant to Paragraph 35A, Schedule 6 of the Income Tax Act shall not apply to a wholesale fund which is a money market fund.

³ Effective from the year of assessment 2017, the exemption shall not apply to interest paid or credited to a company in the same group or interest paid or credited to a bank licensed under the Financial Services Act 2013 or the Islamic Financial Services Act 2013; or a development financial institution prescribed under the Development Financial Institutions Act 2002.

1. Taxable distributions

Distributions received from the Fund will have to be grossed up to take into account the underlying tax paid by the Fund and the unit holder will be taxed on the grossed up amount.

Such distributions carry a tax credit, which will be available for set-off against any Malaysian income tax payable by the unit holder. Should the tax deducted at source exceed the tax liability of the unit holder, the excess is refundable to the unit holder.

Please refer to the paragraph below for the income tax rates applicable to the grossed up distributions.

2. Non-taxable and exempt distributions

Tax exempt distributions made out of gains from the realisation of investments and exempt income earned by the Fund will not be subject to Malaysian income tax in the hands of the unit holders.

Rates of tax

The Malaysian income tax chargeable on the unit holders would depend on their tax residence status and whether they are individuals, corporations or trust bodies. The relevant income tax rates are as follows:

Unit holders	Malaysian income tax rates
<p>Malaysian tax resident:</p> <ul style="list-style-type: none">Individual and non-corporate unit holders (such as associations and societies)Co-operatives⁴Trust bodies	<ul style="list-style-type: none">Progressive tax rates ranging from 0% to 30%Progressive tax rates ranging from 0% to 24%24%

⁴ Pursuant to Paragraph 12(1), Schedule 6 of the MITA, the income of any co-operative society—
(a) in respect of a period of five years commencing from the date of registration of such co-operative society; and
(b) thereafter where the members' funds [as defined in Paragraph 12(2)] of such co-operative society as at the first day of the basis period for the year of assessment is less than seven hundred and fifty thousand ringgit,
is exempt from tax.

⁵ A company would not be eligible for the 17% tax rate on the first RM600,000 of chargeable income if:-
(a) more than 50% of the paid up capital in respect of the ordinary shares of the company is directly or indirectly owned by a related company which has paid up capital in respect of ordinary shares of more than RM2.5 million at the beginning of a basis period for a year of assessment;
(b) the company owns directly or indirectly more than 50% of the paid up capital in respect of the ordinary shares of a related company which has paid up capital in respect of ordinary shares of more than RM2.5 million at the beginning of a basis period for a year of assessment;
(c) more than 50% of the paid up capital in respect of the ordinary shares of the company and a related company which has a paid up capital in respect of ordinary shares of more than RM2.5 million at the beginning of a basis period for a year of assessment is directly or indirectly owned by another company.

⁶ The above excludes a business trust and a company which is established for the issuance of asset-backed securities in a securitization transaction approved by the Securities Commission.

Note 1:

Non-resident unit holders may be subject to tax in their respective countries depending on the provisions of the tax legislation in the respective countries and any existing double taxation arrangements with Malaysia.

Gains from sale of units

Gains arising from the realisation of investments will generally not be subject to income tax in the hands of unit holders unless they are insurance companies, financial institutions or traders / dealers in securities.

Unit splits and reinvestment of distributions

Unit holders may also receive new units as a result of unit splits or may choose to reinvest their distributions. The income tax implications of these are as follows:

- Unit splits – new units issued by the Fund pursuant to a unit split will not be subject to income tax in the hands of the unit holders.
- Reinvestment of distributions – unit holders may choose to reinvest their income distribution in new units by informing the Manager. In this event, the unit holder will be deemed to have received the distribution and reinvested it with the Fund.

We hereby confirm that, as at the date of this letter, the statements made in this letter correctly reflect our understanding of the tax position under current Malaysian tax legislation and the related interpretation and practice thereof, all of which are subject to change, possibly on a retrospective basis. We have not been retained (unless specifically instructed hereafter), nor are we obligated to monitor or update the statements for future conditions that may affect these statements.

The statements made in this letter are not intended to be a complete analysis of the tax consequences relating to an investor in the Fund. As the particular circumstances of each investor may differ, we recommend that investors obtain independent advice on the tax issues associated with an investment in the Fund.

Yours faithfully
