Fund Manager's Report

The Fund delivered 0.27% in April 2026 which was outperforming the benchmark by 15bps, and delivered 3.32% in the 12-months period ending 30 April 2026, outperforming the benchmark by 186bps.

Malaysia's economy expanded 5.3% YoY in 1Q26, moderating from 6.3% in 4Q25, as activity slowed in some key sectors. Growth moderated across most sectors, including services (5.4% vs 6.3% in Q4), with performance anchored by the wholesale and retail trade sector. DOSM attributed this to sustained consumer spending, supported by a stable labour market, higher incomes, and ongoing household-focused initiatives. Output also rose at a softer pace in manufacturing (5.8% vs 6.1%), construction (7.8% vs 11.0%), and agriculture (2.8% vs 5.4%).

Headline inflation edged up to +1.7% YoY in March 2026 (February: +1.4%), while core inflation increased slightly to +2.1% YoY from +2.0%. The uptick was driven mainly by firmer prices in housing-related components, transport, insurance and personal services, while food inflation remained subdued, reflecting still-favorable supply conditions. Overall, inflation remains moderate and manageable, providing BNM with continued policy flexibility despite emerging cost pressures from external shocks.

Export growth moderated further to +8.3% YoY in March 2026 (February: +10.8% YoY), reflecting a broad-based slowdown. While manufacturing exports continued to drive growth, particularly electrical and electronics (E&E), momentum eased as external demand softened. Agricultural exports contracted more sharply, weighed down by weaker palm oil and rubber prices, while mining exports slipped amid lower LNG shipments.

Malaysia's labour market remained firm, with unemployment holding around 2.9%, as employment growth continued to outpace labour force expansion. Labour income and private consumption are expected to stay resilient in 2026, supported by civil service pay adjustments, steady private-sector wage growth, bonuses and ongoing cash assistance, although spillovers from global geopolitical developments remain a key downside risk to sentiment and hiring plans.

We limit our investment exposure to short-term deposit placements due to the very low risk nature of the Fund.

[^]Based on the fund's portfolio returns as at 15 April 2026, the Volatility Factor (VF) for this fund is 0.06 and is classified as "Very Low" (source: FIMM). The VF means there is a possibility for the fund in generating an upside return or downside return around this VF. The Volatility Class (VC) is assigned by FIMM based on quintile ranks of VF for qualified funds. VF is subject to monthly revision and VC will be revised every six months. The fund's portfolio may have changed since this date and there is no guarantee that the fund will continue to have the same VF or VC in the future. Presently, only funds launched in the market for at least 36 months will display the VF and its VC. We recommend that you read and understand the contents of the Principal Deposit Fund Prospectus Issue No. M1 dated 25 June 2021, which has been duly registered with the Securities Commission Malaysia, before investing and that you keep the said Master Prospectus for your records. Any issue of units to which the Master Prospectus relates will only be made upon receipt of the completed application form referred to in and accompanying the Master Prospectus, subject to the terms and conditions therein. Investments in the Fund are exposed to credit and default risk, interest rate risk. You can obtain a copy of the Master Prospectus from the head office of Principal Asset Management Berhad or from any of our approved distributors. Product Highlight Sheet ("PHS") is available and that investors have the right to request for a PHS; and the PHS and any other product disclosure document should be read and understood before making any investment decision. There are fees and charges involved in investing in the funds. We suggest that you consider these fees and charges carefully prior to making an investment. Unit prices and income distributions, if any, may fall or rise. Past performance is not reflective of future performance and income distributions are not guaranteed. You are also advised to read and understand the contents of the Financing for Investment in Unit Trust Risk Disclosure Statement/Unit Trust Loan Financing Risk Disclosure Statement before deciding to borrow to purchase units. Where a unit split/distribution is declared, you are advised that following the issue of additional units/distribution, the NAV per unit will be reduced from pre-unit split NAV/cum-distribution NAV to post-unit split NAV/ex-distribution NAV; and where a unit split is declared, the value of your investment in Malaysian Ringgit will remain unchanged after the distribution of the additional units.

Carefully consider a fund's objective, risks, charges and expenses.

Visit www.principal.com.my for a prospectus containing this and other information. Please read it carefully before investing.
