Brief Information on Principal Islamic Enhanced Opportunities Fund

The Fund is a Shariah-compliant equity fund issued by Principal Malaysia. The Fund aims to earn reasonable returns for investors by investing in approved equities* listed on Bursa Malaysia as well as unlisted securities and other non-interest bearing assets acceptable under Shariah principles. The Fund is established with a multi-class structure and is allowed to establish new Class(es) from time to time without your prior consent.

* This refers to equities classified as Shariah compliant by the SAC of SC.

This is neither a capital protected fund nor a capital guaranteed fund.

Product Suitability

This Fund is suitable for investors who:

- have a long-term investment horizon;
- want a portfolio of investments that adhere to Shariah principles;
- seek capital appreciation over long-term.; and/or
- can accept that investment returns may fluctuate significantly over the short-term and may even be negative.

Key Risks

General risks of investing in a fund	
Returns and capital not guaranteed	The investment of the fund is subject to market fluctuations and its inherent risk. There is NO GUARANTEE on the investment which includes your investment capital and returns, nor any assurance that the fund's investment objective will be achieved. You should also note that the fund is neither a capital guaranteed fund nor a capital protected fund. However, we reduce this risk by ensuring diligent management of the assets of the fund based on a structured investment process.
Market risk	This risk refers to the possibility that an investment will lose value because of a general decline in financial markets, due to economic, political and/or other factors, which will result in a decline in the fund's NAV.
Inflation risk	This is the risk that your investment in the fund may not grow or generate income at a rate that keeps pace with inflation. This would reduce your purchasing power even though the value of the investment in monetary terms has increased.

Financing risk	This risk occurs when you obtain financing to finance your investment. The inherent risk of investing with money obtained from financing includes you being unable to service the financing payments. In the event units are used as collateral and if the prices of units fall below a certain level due to market conditions, you may be required to pay additional amounts on top of your existing instalment. If you fail to do so within the time prescribed, your units may be sold at an unfavourable price and the proceeds thereof will be used towards the settlement of your financing.
Manager risk	This risk refers to the day-to-day management of the fund by the manager which will impact the performance of the fund. For example, investment decisions undertaken by the manager, as a result of an incorrect view of the market or any non-compliance with internal policies, investment mandate, the deed, relevant law or guidelines due to factors such as human error or weaknesses in operational process and systems, may adversely affect the performance of the fund.
Liquidity risk	Liquidity risk refers to the ease of liquidating an asset without causing market dislocation. This depends on the supply and demand as well as the asset's volume or amount traded in the market. If the fund holds assets that are illiquid or difficult to dispose or liquidity policy applied by the Islamic CIS (e.g. suspension of the Islamic CIS), the value of the Fund and consequently the value of unitholders' investment in the fund may be negatively affected.
Shariah non-compliance risk	This refers to the risk of the fund not conforming to Shariah Investment Guidelines due to investment in Shariah non-compliant instrument or reclassification of Shariah status. In the event that the manager is required to rectify any Shariah non-compliance by disposing the related instrument, any losses from disposal due to investment in Shariah non-compliant instrument will be borne by the manager whereas any losses from disposal due to reclassification of Shariah status will be borne by the fund. In any circumstances, gain received from disposal shall be channeled to baitulmal and/or charitable bodies as approved by the Shariah Adviser.
Specific risks associated with the investment portfolio of the Fund	
Stock specific risk	Prices of a particular stock may fluctuate in response to the circumstances affecting individual companies such as adverse financial performance, news of a possible merger or loss of key personnel of a company. Any adverse price movements of such stock will adversely affect the Fund's NAV.
Risk associated with investment in Shariah-compliant warrants and/or Islamic options	There are inherent risks associated with investment in Shariah-compliant warrants and/or Islamic options. The value of Shariah-compliant warrants and/or Islamic options are influenced by the current market price of the underlying security, the exercise price of the contract, the time to expiration of the contract and the estimate of the future volatility of the underlying security's price over the life of the contract. Generally, the erosion in value of Shariah-compliant warrants and/or Islamic options accelerates as it approaches its expiry date. Like securities, we will undertake fundamental research and analysis on these instruments with an aim to mitigate its risks.
Interest rate risk	Interest rate risk refers to the impact of interest rate changes on the valuation of Sukuk and Islamic money market instruments. When interest rates rise, Sukuk and Islamic money market instruments prices generally decline and this may lower the market value of the Fund's investment in Sukuk and Islamic money market instruments. In managing the Sukuk, we take into account the coupon rate and time to maturity of the Sukuk with an aim to mitigate the interest rate risk. As for Islamic money market instruments, the typical tenor of these instruments are less than 12-month maturity and unlike Sukuk, any change to interest rate will only have a minor impact to the prices of these instruments. Please note that although Sukuk is a non-interest bearing instrument, its price movement is correlated to the movement in the interest rates. As such, investment in Sukuk will have an exposure to the movement of the interest rates. Even though the Fund does not invest in interest bearing instruments, the interest rate referred herein is to the general interest rate of the country, which may affect the value of the investment of the Fund.
Risk associated with investing in Islamic CIS	Since the Fund may invest into Islamic CIS, there is a risk of concentration into Islamic CIS, in which the Islamic CIS's management company has absolute discretion over the Islamic CIS's investment technique and knowledge, operational controls and management. In the event of mismanagement of the Islamic CIS and/or the management company, the NAV of the Fund, which invests into those Islamic CIS would be affected negatively. Should the situation arise, we will seek for another Islamic CIS that is consistent with the objective of the Fund.
Credit and default risk	The Fund will be exposed to a certain degree of credit and default risk of issuers or counterparties when the Fund invests in Sukuk, Islamic money market instruments and/or places in Islamic Deposits. Credit risk relates to the creditworthiness of an issuers or counterparties and their expected ability to make timely payment of profit and/or principal. Any adverse situations faced by the issuer or counterparties may impact the value as well as liquidity of the investments. In the case of rated Sukuk and Islamic money market instruments, this may lead to a credit downgrade. Default risk relates to the risk that an issuer or counterparties either defaulting on payments or failing to make payments in a timely manner which will in turn adversely affect the value of the investments. This could adversely affect the value of the Fund. We aim to mitigate this risk by performing bottom-up and top-down credit research and analysis to determine the creditworthiness of the issuers or counterparties, and

	impose investment limits on exposures for issuers or counterparties with different credit profiles as a precautionary step to limit any loss that may arise directly or indirectly as a result of a defaulted transaction.

Risks associated with investment in Class D

Cyber security risk	This is the risk arising from cyber-attack on e-Wallet App. Should the e-Wallet App be compromised, it may result in unauthorised transactions pertaining to the Fund. Further to that, your investment-related information and personal data may be leaked. All transactions through e-Wallet App and/or the Fund may be temporarily suspended, in which you may not be able to transact through e-Wallet App or in the Fund due to cyber-attack.
Functionality risk	This is the risk that the e-Wallet App does not operate as intended due to factors including but not limited to connectivity and interface issues. If the e-Wallet App does not function as expected, your transaction through the e-Wallet App may not be correctly processed and/or completed.
Risk associated with discontinuation risk on e-Wallet Provider	As all the transactions are done through e-Wallet App developed by the e-Wallet Provider, the continuous operation of the e-Wallet Provider is crucial. The discontinuation of services provided by e-Wallet Provider may be due to but not limited to revocation of the license. Should such event happen, withdrawal from the Fund may be delayed.

The above summary of risks does not purport to be an exhaustive list of all the risk factors relating to investments in the Fund and are not set out in any particular order of priority. You should be aware that an investment in a unit trust fund may be exposed to other risks from time to time. If in doubt, you should consult professional advisers for a better understanding of the risks.

Note: If your investments are made through an IUTA via a nominee system of ownership, you would not be deemed to be a Unit holder under the Deed and as a result, you may not exercise all the rights ordinarily conferred to a Unit holder (e.g. the right to call for Unit holders' meetings and the right to vote at a Unit holders' meeting).

Note: We reserve our sole and absolute discretion without providing any reason whatsoever and at any time to accept, reject, amend, vary, waive and/ or reduce (as the case maybe): (i) your request for a lower amount or number of units when purchasing units (or additional units) or withdrawing units; and/ or (ii) the minimum balance. For increase in the number of units for minimum withdrawal and minimum balance, we will require concurrence from the Trustee and you will be notified of such changes.

We may for any reason and at any time, waive or reduce: (a) any fees (except for the Trustee Fee); (b) other charges payable by you to the Fund; and/or (c) transactional values including but not limited to the units or amount, for any Unit holder and/or investments made via any distribution channels or platform.

YOU SHOULD NOT MAKE PAYMENT DIRECTLY OR INDIRECTLY TO A UNIT TRUST SCHEME CONSULTANT/EMPLOYEE OF THE MANAGER OR ISSUE A CHEQUE IN THE NAME OF A UNIT TRUST SCHEME CONSULTANT/EMPLOYEE OF THE MANAGER WHEN PURCHASING THIS UNIT TRUST FUND.

Valuations

We will carry out the valuation for the Classes for a Business Day at the end of that Business Day (T day). The NAV per unit for a Business Day is available on our website at www.principal.com.my after 10:00 a.m. on the following Business Day (T+1).

Please refer to the “Unit Pricing” section of the Master Prospectus (Islamic Funds) for more information.

Avenues to Exit This Investment

To exit from this investment, you may withdraw, switch out (*when available*) or transfer (*when available*) your unit through e-Wallet App or such other channel (*where available*). You may withdraw your investment at the NAV per unit of the Business Day.

Withdrawals can be made from the Fund by completing a withdrawal application and submit it to the e-Wallet App or such other channel (*where available*). There is no restriction on the frequency of withdrawals and no Withdrawal Fee will be charged. Hence, the amount that you will receive is calculated by the withdrawal value less the Withdrawal Fee, if any. You will be paid in the currency of the Class (e.g. Class MYR will be paid in MYR) within seven (7) Business Days upon our receipt of the complete withdrawal request. You will have to bear the applicable bank fees and charges, if any.

For more information on the withdrawals, switching, transfer facility and cooling-off period, please refer to the “Transaction Information” chapter of the Master Prospectus (Islamic Funds). For more information on the fees and charges incur when you exit from this investment, please refer to “Fees, Charges and Expenses” chapter of the Master Prospectus (Islamic Funds).
