The Fund is established with a multi-class structure and is allowed to establish new Class(es) from time to time without your prior consent.

This is neither a capital protected fund nor a capital guaranteed fund.

### Product Suitability

The Fund best suits you if you:

- seek for capital appreciation by investing in equity securities;
- seek for a growth investment in the technology sector in the US and around the world; and/or
- can accept that returns may fluctuate over the investment period.

### Key Product Features

<b>Fund Category/Type</b>	Feeder Fund (Islamic) / Growth
<b>Base currency</b>	USD
<b>Benchmark</b>	<p>As this is a feeder fund, the Fund adheres to the benchmark of the Target Fund for performance comparison. The benchmark of the Target Fund is the S&amp;P Global 1200 Shariah Information Technology Index, which may be found on Key Investor Information Document of the Target Fund and available on <a href="http://www.franklintempleton.lu">www.franklintempleton.lu</a>.</p> <p><i>Note: Any changes to the Target Fund's benchmark will be updated in our website and/or the Fund's Product Highlights Sheet.</i></p>
<b>Investment Strategy</b>	<p>The Fund is a feeder fund that invests into a single Islamic CIS, i.e. the Target Fund. The Fund may also invest in Islamic liquid assets for liquidity purposes.</p> <p>In order to achieve its objective, the Fund will invest at least 85% of its NAV in the Target Fund; a fund established on 24 February 2022 under Franklin Templeton Shariah Funds. The Fund may also invest up to 15% of its NAV in Islamic liquid assets for liquidity purposes and Islamic derivative for the sole purpose of hedging arrangement.</p> <p>The Fund will be actively rebalanced from time to time to meet sales and withdrawal transactions. This is to enable a proper and efficient management of the Fund. As this is a feeder fund, we do not intend to take temporary defensive position for the Fund during adverse market, economic and/or any other conditions. This is to allow the Fund to mirror the performance of the Target Fund in either bullish or bearish market conditions. However, Franklin Advisers, Inc. ("the Target Fund Investment Manager") may take temporary defensive position when deemed necessary.</p> <p>We do not employ risk management strategy on the portfolio of the Target Fund. However, Franklin Templeton International Services S.à r.l ("the Target Fund Management Company") and/or the Target Fund Investment Manager will employ a risk management process in respect of the Target Fund that enables the Target Fund Management Company to monitor and measure at any time the risk of the positions and their contribution to the overall risk profile of the Target Fund.</p> <p>We will employ risk management strategy at the Fund level, where we will continuously monitor the objective, performance and suitability of the Target Fund to ensure that it is in line with the objective of the Fund. If we are of the opinion that the Target Fund no longer meets the Fund's objective, we may, with your approval, replace the Target Fund with another Islamic CIS that is in line with the Fund's objective. In such circumstances, we will redeem our investment in the Target Fund and invest in another Islamic CIS on a staggered basis for a smooth transition, if the Target Fund imposes any conditions in relation to redemption of units or if the manager of the newly identified target fund exercises its discretion to apply anti-dilution levy* in relation to the applications for units. Thus, the time frame required to perform the transition will depend on such conditions, if any, imposed by the Target Fund as well as any conditions associated with a dilution adjustment that may be made by the newly identified target fund. Hence during the transition period, the Fund's investments may differ from the stipulated objective, investment strategies and/or investment restrictions and limits. The Fund also may, with the concurrence of the Trustee, hold more than 15% of Islamic Deposits on a temporary basis to meet redemption requests and to manage expenses of the Fund.</p> <p>Currently, the Fund invests in USD I Class Accumulation Shares of the Target Fund, which is denominated in USD. The Fund may change its entire investment into another class of the Target Fund (which must be denominated in the same currency) if we are of the opinion that the change is in the interest of the Unit</p>

	<p>holders. If we wish to effect such change, we will seek concurrence from the Trustee and you will be notified before implementation.</p> <p><b>Note:</b> * <i>Anti-dilution levy is an allowance for fiscal and other charges that is added to the NAV per unit to reflect the costs of investing application monies in underlying assets of the Target Fund or newly identified target fund.</i></p> <p><b>Information on the Target Fund</b></p> <table border="1"> <tr> <td>Target Fund</td> <td>:</td> <td>Franklin Shariah Technology Fund</td> </tr> <tr> <td>Currency Denomination</td> <td>:</td> <td>USD</td> </tr> <tr> <td>Target Fund Management Company</td> <td>:</td> <td>Franklin Templeton International Services S.à r.l</td> </tr> <tr> <td>Target Fund Investment Manager</td> <td>:</td> <td>Franklin Advisers, Inc.</td> </tr> <tr> <td>Regulatory authority</td> <td>:</td> <td>Commission de Surveillance du Secteur Financier</td> </tr> </table>		Target Fund	:	Franklin Shariah Technology Fund	Currency Denomination	:	USD	Target Fund Management Company	:	Franklin Templeton International Services S.à r.l	Target Fund Investment Manager	:	Franklin Advisers, Inc. ## Key Risks

General risks of investing in a fund	
<b>Returns and capital not guaranteed</b>	The investment of the Fund is subject to market fluctuations and its inherent risk. There is <b>NO GUARANTEE</b> on the investment which includes your investment capital and returns, nor any assurance that the Fund's objective will be achieved. You should also note that the Fund is neither a capital guaranteed fund nor a capital protected fund. However, we reduce this risk by ensuring diligent management of the assets of the Fund based on a structured investment process.
<b>Market risk</b>	This risk refers to the possibility that an investment will lose value because of a general decline in financial markets, due to economic, political and/or other factors, which will result in a decline in the Fund's NAV.
<b>Inflation risk</b>	This is the risk that your investment in the Fund may not grow or generate income at a rate that keeps pace with inflation. This would reduce your purchasing power even though the value of the investment in monetary terms has increased.
<b>Financing risk</b>	<p>This risk occurs when you obtain financing to finance your investment. The inherent risk of investing with money obtained from financing includes you being unable to service the financing payments. In the event units are used as collateral and if the prices of units fall below a certain level due to market conditions, you may be required to pay additional amount on top of your existing instalment. If you fail to do so within the time prescribed, your units may be sold at an unfavorable price and the proceeds thereof will be used towards the settlement of your financing.</p> <p>Please note that financing is not encouraged. The Manager does not provide financing for the purchase of units of the Fund.</p>
<b>Manager risk</b>	This risk refers to the day-to-day management of the Fund by the Manager which will impact the performance of the Fund. For example, investment decisions undertaken by the Manager, as a result of any non-compliance with internal policies, investment mandate, the deed, relevant laws or guidelines due to factors such as human error or weaknesses in operational processes and systems, may adversely affect the performance of the Fund.
<b>Liquidity risk</b>	Liquidity risk refers to the ability to sell and convert the units held in the Islamic CIS into cash. This may be affected by the liquidity policy applied by the Islamic CIS (e.g. suspension of the Islamic CIS), which may negatively impact the Fund and unit holders may experience delay in the withdrawal process.
<b>Shariah non-compliance risk</b>	This refers to the risk of the Fund not conforming to Shariah Investment Guidelines due to investment in Shariah non-compliant instrument. In the event that the Manager is required to rectify any Shariah non-compliance by disposing the related instrument, any losses from disposal due to investment in Shariah non-compliant instrument will be borne by the Manager. In any circumstances, gain received from disposal shall be channeled to baitulmal and/or charitable bodies as approved by the Shariah Adviser.

Specific risks related to the Fund	
<b>Currency risk</b>	<p>You should be aware that currency risk is applicable to Class(es) which is in a different currency than the base currency of the Fund. The impact of the exchange rate movement between the base currency of the Fund and the currency denomination of the respective Class(es) may result in a depreciation of the value of your holdings as expressed in the currency denomination of the respective Class(es).</p> <p>As for a hedged Class, the Class itself provides mitigation to the currency risk arising from the difference between the currency denomination of the Class and the base currency of the Fund. While we aim to fully hedge the currency risk for a hedged Class, you should note that it may not entirely eliminate currency risk. In addition, you should note that, as a result of hedging, a hedged Class will not be able to enjoy the full benefits of the currency movement in the event of a favourable movement of the currency denomination of the hedged Class against the base currency of the Fund. You should also note that hedging incurs costs, in which will impact the NAV of a hedged Class.</p>
<b>Target Fund Manager's risk</b>	<p>Since the Fund invests into an Islamic CIS that is managed by another manager, the Target Fund Investment Manager has absolute discretion over the Target Fund's investment technique and knowledge, operational controls and management. In the event of mismanagement of the Target Fund, the NAV of the Fund, which invests into the Target Fund, may be affected negatively. Although the probability of such occurrence is minute, should the situation arise, subject to your approval, we reserve the right to seek for an alternative Islamic CIS that is consistent with the objective of the Fund.</p>
<b>Country risk</b>	<p>As the Fund invests in the Target Fund, which is domiciled in Luxembourg, the Fund's investments in the Target Fund may be affected by risks specific to Luxembourg. Such risks include adverse changes in Luxembourg's laws and regulations and foreign investments policies. These factors may have an adverse impact on the price of the Target Fund and consequently the Fund.</p>
Specific risks related to the Target Fund	
<p>As the Fund invests predominantly in the Target Fund, the Fund also assumes the risks associated with the Target Fund, which include but not limited to the following:</p> <ul style="list-style-type: none"> <li>▪ General risk</li> <li>▪ Chinese market risk</li> <li>▪ Concentration risk</li> <li>▪ Counterparty risk</li> <li>▪ Emerging markets risk</li> <li>▪ Foreign currency risk</li> <li>▪ Liquidity risk</li> <li>▪ Market risk</li> <li>▪ Shariah compliance risk</li> <li>▪ Small and mid-sized companies risk</li> </ul>	
Risks associated with investment in Class D	
<b>Cyber security risk</b>	<p>This is the risk arising from cyber-attack on e-Wallet App. Should the e-Wallet App be compromised, it may result in unauthorised transactions pertaining to the Fund. Further to that, your investment-related information and personal data may be leaked. All transactions through e-Wallet App and/or the Fund may be temporarily suspended, in which you may not be able to transact through e-Wallet App or in the Fund due to cyber-attack.</p>
<b>Functionality risk</b>	<p>This is the risk that the e-Wallet App does not operate as intended due to factors including but not limited to connectivity and interface issues. If the e-Wallet App does not function as expected, your transaction through the e-Wallet App may not be correctly processed and/or completed.</p>
<b>Risk associated with discontinuation risk on e-Wallet Provider</b>	<p>As all the transactions are done through e-Wallet App developed by the e-Wallet Provider, the continuous operation of the e-Wallet Provider is crucial. The discontinuation of services provided by e-Wallet Provider may be due to but not limited to revocation of the license. Should such event happen, withdrawal from the Fund may be delayed.</p>
<p>For more details, please refer to "Risk Factors" section of the Prospectus. The above summary of risks does not purport to be an exhaustive list of all the risk factors relating to investments in the Fund and are not set out in any particular order of priority. You should be aware that an investment in a unit trust fund may be exposed to other risks from time to time. If in doubt, please consult your professional advisers for a better understanding of the risks.</p>	

**Note:** If your investments are made through an IUTA via a nominee system of ownership, you would not be deemed to be a Unit holder under the Deed and as a result, you may not exercise all the rights ordinarily conferred to a Unit holder (e.g. the right to call for Unit holders' meetings and the right to vote at a Unit holders' meeting).
