Fund Manager's Report

The Fund's performance for the month of May 2021 came in at 0.19%, outperforming the benchmark's return by 6bps. For the 12-months period ending 31 May 2021, the Fund delivered 2.00%, outperforming the benchmark by 32bps.

Malaysia's 1Q21 GDP rebounded 2.7% QoQ (or -0.5% YoY) primarily driven by stronger exports, global demand recovery and tech upcycle. Recent trade data in April-21 continue to see exports to grow – at 63% YoY – confirming our thesis that a strong global demand recovery will eventually benefit export-oriented country like Malaysia.

However, surging COVID-19 cases has prompted the Malaysian government to announce a two-weeks lockdown from 1st June. While the MoF has not officially guided a new GDP forecast taking into the consideration of the lockdown impact, most business economists are downgrading growth by 0.5 – 1.5% for 2021 (forecast range from 4.4% to 5.4% for 2021). Prime Minister Muhyiddin Yassin acknowledged that there is limited fiscal space to stimulate the economy.

BNM kept policy rate unchanged in the May-2021 meeting, with assessment of overall growth trajectory, current policy stance, and outlook for policy broadly similar to March-2021. However, with pandemic-related headwinds stronger than initial assumptions, policy action may be required in the next meeting. We believe that BNM is likely to keep its OPR at 1.75% for the time being as they deem the current monetary policies to be accommodative to support the recovery.

We remain cognizant that credit metrics for corporates may weaken in the near-term and we will continue our bottom-up approach on credit selection to avoid any risk on credit migration.

*Based on the fund's portfolio returns as at 15 May 2021, the Volatility Factor (VF) for this fund is 0.240 and is classified as "Very Low" (source: FIMM). The VF means there is a possibility for the fund in generating an upside return or downside return around this VF. The Volatility Class (VC) is assigned by FIMM based on quintile ranks of VF for qualified funds. VF is subject to monthly revision and VC will be revised every six months. The fund's portfolio may have changed since this date and there is no guarantee that the fund will continue to have the same VF or VC in the future. Presently, only funds launched in the market for at least 36 months will display the VF and its VC.

We recommend that you read and understand the contents of the Master Prospectus (Islamic Funds) dated 31 December 2019, which has been duly registered with the Securities Commission Malaysia, before investing and that you keep the said Master Prospectus (Shariah-Compliant Funds) for your records.
