MANAGER’S REPORT

FUND OBJECTIVE AND POLICY

What is the investment objective of the Fund?

The Fund aims to provide regular income as well as to achieve medium to long-term capital appreciation through investments primarily in Malaysian bonds.

Has the Fund achieved its objective?

The Fund has achieved its objective in investing in a diversified pool of fixed income securities which provided capital and regular income over the medium to long-term.

What are the Fund investment policy and principal investment strategy?

The Fund will invest between 70% to 98% (both inclusive) of the Fund’s Net Asset Value (“NAV”) in debt securities carrying at least a “BBB3” or “P2” rating by RAM Ratings (“RAM”) or equivalent rating by Malaysia Rating Corporation Berhad (“MARC”) or by local rating agency(ies) of the country of issuance or “BBB-” by Standard & Poor’s (“S&P”) or equivalent rating by any other international rating agencies. The Fund may invest up to 40% of its NAV in Unrated Debt Securities. The Fund may opt to seek investment exposure via collective investment scheme that is in line with the Fund’s objective, subject to the requirement of the Guidelines on Unit Trust Funds (“GUTF”). The rest of the Fund is maintained in the form of liquid assets to meet any withdrawal payments to you. In line with its objective, the investment strategy and policy of the Fund is to invest in a diversified portfolio of approved fixed income securities consisting primarily of bonds, aimed to provide a steady stream of income. To achieve its objective, the Fund may also invest in structured products and/or derivatives such as forward contracts, options, futures contracts and swap agreements, that are related/linked to fixed income securities.

The asset allocation strategy for this Fund is as follows:

- between 70% to 98% (both inclusive) of the Fund’s NAV in debt securities;
- up to 28% of the Fund’s NAV in other permissible investments;
- up to 40% of the Fund’s NAV in Unrated Debt Securities; and
- at least 2% of the Fund’s NAV in liquid assets.

MARKET REVIEW (1 JANUARY 2025 TO 31 DECEMBER 2025)

Malaysia’s economy stayed resilient in 2025, but the year was shaped by a clear “external headwinds versus domestic support” push-and-pull. Growth started softer—first quarter of 2025 Gross Domestic Product (“GDP”) expanded 4.4% Year on Year (“YoY”)—as weakness in mining and a cooling manufacturing cycle weighed, while services and construction remained the key growth engines. Momentum then steadied through mid-year (second quarter of 2025 still around 4.4% YoY) before a stronger third quarter of 2025 advance estimate of 5.2% YoY, helped by services, manufacturing improvement, and a rebound in mining output.

Inflation was notably contained throughout the year, generally sitting around ~1.1% to 1.5% YoY for headline Consumer Price Index (“CPI”) for much of 2025, even after cost pressures like the minimum wage increase earlier in the year. This gave policymakers room to support activity: Bank Negara Malaysia (“BNM”) held the policy rate at 3.00% through the first half of 2025, then delivered a 25 basis points (“bps”) cut to 2.75% in July 2025 the first cut since 2020—positioning it as a pre-emptive move amid a more uncertain global trade backdrop. Liquidity support was also strengthened via a 100 bps Statutory Reserve Requirement (“SRR”) cut (2% to 1%) in May 2025, boosting the banking system liquidity.

On the external side, trade performance reflected tariff-driven timing effects. Early and mid-year exports benefited from front-loading (notably Electrical and Electronics (“E&E”)), followed by periods of softer prints as that effect unwound. The year’s narrative also included shifting US tariff settings affecting Malaysia and peers, which influenced export sentiment and market volatility. Despite this, Malaysia maintained ongoing trade surpluses, and the ringgit saw periods of support from policy developments and shifting The Federal Reserve (the “Fed”) expectations later in the year.

Fiscal and structural reform remained a major theme. The government broadened revenue measures via revised Sales Tax and expanded Service Tax scope effective 1 July 2025, while also rolling out a targeted RON95 subsidy approach later in the year (with eligible groups receiving a subsidized quota at RM1.99 per litre). These moves were paired with cost-of-living support measures, aiming to balance reform credibility with household cushioning. Rating agencies remained broadly constructive (with sovereign rating affirmations during the year), reinforcing the “reform + resilience” frame even as global uncertainty rose.

Budget 2026 also features fiscal consolidation with deficit targeted to narrow to 3.5% of GDP (from 3.8% in 2025), with an outlined path toward ~3% by 2028 and below 3% by 2030. The implications from this is that gross Malaysian Government Securities (“MGS”)/ Government Investment Issue (“GI”) issuance is projected to rise to RM183 billion (on higher maturities), but net supply expected to ease to RM75 billion, implying a more manageable net supply backdrop.

MARKET OUTLOOK*

We expect BNM to keep the Overnight Policy Rate (“OPR”) unchanged in the near term, supported by a stronger ringgit and contained inflationary pressures. While a rate cut is not our base case, we do not rule out a pre-emptive easing later in the year should growth momentum soften.

*This market outlook does not constitute an offer, invitation, commitment, advice, or recommendation to make a purchase of any investment. The information given in this article represents the views of Principal Asset Management Berhad (“Principal Malaysia”) or based on data obtained from sources believed to be reliable by Principal Malaysia. Whilst every care has been taken in preparing this, Principal Malaysia makes no guarantee, representation or warranty and is under no circumstances liable for any loss or damage caused by reliance on, any opinion, advice or statement made in this market outlook.

INVESTMENT STRATEGY

Asset allocation continues to favor corporate bonds, where carry remains attractive relative to government securities. We maintain a preference for high-quality, domestically oriented credits, as these issuers are better insulated from potential external risks, including evolving tariff dynamics and global trade uncertainty. Primary market opportunities remain a key focus, particularly where new issues offer incremental yield pick-up over the secondary market.

In the government bond space, movements are expected to be largely driven by external factors, including US rate developments and global risk sentiment. With government bond spreads to OPR already nearing five-year lows, we see limited near-term downside and remain cautious amid the prospect of increased government bond supply. As such, we will take profit on government bond rallies, while selectively participating in government securities for trading opportunities, supported by improved sentiment from a firmer ringgit.

Overall, we maintain a neutral to modestly overweight duration stance, balancing carry accumulation with active trading opportunities, while remaining disciplined amid valuation constraints and supply considerations.

SOFT COMMISSIONS AND REBATES

Principal Malaysia (the “Manager”) and the Trustee will not retain any form of rebate from, or otherwise share in any commission with, any broker or dealer in consideration for directing dealings in the investments of the Principal Malaysia Funds (“Funds”). Accordingly, any rebate or shared commission will be directed to the account of the Fund. The Manager may retain goods and services (soft commission) provided by any broker or dealer if the following conditions are met:

- (a) the soft commission brings direct benefit or advantage to the management of the Fund and may include research and advisory related services;
- (b) any dealings with the broker or dealer is executed on terms which are the most favourable for the Fund; and

SOFT COMMISSIONS AND REBATES (CONTINUED)

(c) the availability of soft commission is not the sole or primary purpose to perform or arrange transactions with such broker or dealer, and we and the fund the manager will not enter into unnecessary trades in order to achieve a sufficient volume of transactions to qualify for soft commission.

During the financial year under review, the Manager and the Trustee did not receive any rebates from the brokers or dealers but the Manager has retained soft commission in the form of goods and services for the benefit of the fund such as financial wire services and stock quotations system incidental to investment management of the Funds and there was no churning of trades.

SECURITIES FINANCING TRANSACTIONS

The Fund has not undertaken any securities lending or repurchase transactions during the financial year under review.

STATE OF AFFAIR OF THE FUND

The Fund had issued the Second Supplemental Master Prospectus dated 29 August 2025 and Third Supplemental Master Prospectus dated 18 December 2025. We are of view that the changes above do not affect the existing unit holder to stay invested in the Fund and it is not a significant change. Unit holders may refer to Appendix 1 for the detailed list of changes.

There were no significant changes in the state of affairs of the Fund during the financial year and up to the date of Manager's report, not otherwise disclosed in the financial statements.

CIRCUMSTANCES THAT MATERIALLY AFFECT ANY INTEREST OF UNIT HOLDERS

There were no circumstances that had materially affected the interest of the unit holders during the financial year under review.

CROSS TRADE

No cross-trade transactions have been carried out during the financial year under review.

UNIT SPLIT

No unit split exercise has been carried out during the financial year under review.

**INDEPENDENT AUDITORS' REPORT TO THE UNIT HOLDERS OF
PRINCIPAL LIFETIME BOND FUND**

Report on the audit of the financial statements

Opinion

We have audited the financial statements of Principal Lifetime Bond Fund (the "Fund"), which comprise the statement of financial position of the Fund as at 31 December 2025, and statement of comprehensive income, statement of changes in net assets attributable to unit holders and statement of cash flows of the Fund for the financial year then ended, and notes to the financial statements, including material accounting policy information, as set out on pages 7 to 52.

In our opinion, the accompanying financial statements give a true and fair view of the financial position of the Fund as at 31 December 2025, and of its financial performance and cash flows for the financial year then ended in accordance with MFRS Accounting Standards and IFRS Accounting Standards.

Basis for opinion

We conducted our audit in accordance with approved standards on auditing in Malaysia and International Standards on Auditing. Our responsibilities under those standards are further described in the *Auditors' responsibilities for the audit of the financial statements* section of our report. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Independence and other ethical responsibilities

We are independent of the Fund in accordance with the By-Laws (on Professional Ethics, Conduct and Practice) of the Malaysian Institute of Accountants ("By-Laws") and the International Code of Ethics for Professional Accountants (including International Independence Standards) ("IESBA Code"), and we have fulfilled our other ethical responsibilities in accordance with the By-Laws and the IESBA Code.

**INDEPENDENT AUDITORS' REPORT TO THE UNIT HOLDERS OF
PRINCIPAL LIFETIME BOND FUND (CONT'D.)**

Information other than the financial statements and auditors' report thereon

The Manager of the Fund (the "Manager") is responsible for the other information. The other information comprises the information included in the annual report of the Fund, but does not include the financial statements of the Fund and our auditors' report thereon.

Our opinion on the financial statements of the Fund does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements of the Fund, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements of the Fund or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Manager and the Trustee for the financial statements

The Manager is responsible for the preparation of financial statements of the Fund that give a true and fair view in accordance with MFRS Accounting Standards and IFRS Accounting Standards. The Manager is also responsible for such internal control as the Manager determines is necessary to enable the preparation of financial statements of the Fund that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements of the Fund, the Manager is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Manager either intends to liquidate the Fund or to cease operations, or have no realistic alternative but to do so.

The Trustee is responsible for overseeing the Fund's financial reporting process. The Trustee is also responsible for ensuring that the Manager maintains proper accounting and other records as are necessary to enable true and fair presentation of these financial statements.

**INDEPENDENT AUDITORS' REPORT TO THE UNIT HOLDERS OF
PRINCIPAL LIFETIME BOND FUND (CONT'D.)**

Auditors' responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements of the Fund as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with approved standards on auditing in Malaysia and International Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with approved standards on auditing in Malaysia and International Standards on Auditing, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements of the Fund, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Manager.
- Conclude on the appropriateness of the Manager's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial statements of the Fund or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements of the Fund, including the disclosures, and whether the financial statements of the Fund represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the Manager regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

NOTES TO THE FINANCIAL STATEMENTS FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2025

1. THE FUND, THE MANAGER AND ITS PRINCIPAL ACTIVITIES

Principal Lifetime Bond Fund (the “Fund”) is governed by a Principal Master Deed dated 15 May 2008, a Fourth Supplemental Master Deed dated 18 March 2009, a Thirteenth Supplemental Master Deed dated 26 June 2012, an Eighteenth Supplemental Master Deed dated 25 March 2015, a Twentieth Supplemental Master Deed dated 21 October 2019, a Twenty Third Supplemental Master Deed dated 27 June 2022, a Twenty Fourth Supplemental Master Deed dated 13 January 2023 (between Principal Asset Management Berhad (the “Manager”) and PB Trustee Services Berhad (the “ Previous Trustee”), a Twenty Fifth Supplemental Master Deed dated 26 May 2023 and Twenty Sixth Supplemental Master Deed dated 25 March 2025 (collectively referred to as the “Deeds”) between the Manager and HSBC (Malaysia) Trustee Berhad (the “Trustee”).

The Fund will invest between 70% to 98% (both inclusive) of the Fund’s NAV in debt securities carrying at least a “BBB3” or “P2” rating by RAM or equivalent rating by MARC or by local rating agency(ies) of the country of issuance or “BBB-” by S&P or equivalent rating by any other international rating agencies. The Fund may invest up to 40% of its NAV in Unrated Debt Securities. The Fund may opt to seek investment exposure via collective investment scheme that is in line with the Fund’s objective, subject to the requirement of the GUTF. The rest of the Fund is maintained in the form of liquid assets to meet any withdrawal payments to you. In line with its objective, the investment strategy and policy of the Fund is to invest in a diversified portfolio of approved fixed income securities consisting primarily of bonds, aimed to provide a steady stream of income. To achieve its objective, the Fund may also invest in structured products and/or derivatives such as forward contracts, options, futures contracts and swap agreements, that are related/linked to fixed income securities.

The asset allocation strategy for this Fund is as follows:

- between 70% to 98% (both inclusive) of the Fund’s NAV in debt securities;
- up to 28% of the Fund’s NAV in other permissible investments;
- up to 40% of the Fund’s NAV in Unrated Debt Securities; and
- at least 2% of the Fund’s NAV in liquid assets.

All investments are subjected to the GUTF, SC requirements, the Deeds, except where exemptions or variations have been approved by the SC, internal policies and procedures and the Fund’s objective.

The Fund had issued the Second Supplemental Master Prospectus dated 29 August 2025 and Third Supplemental Master Prospectus dated 18 December 2025.

The Manager is a joint venture between Principal Financial Group®, a member of the FORTUNE 500® and a Nasdaq-listed global financial services and CIMB Group Holdings Berhad, one of Southeast Asia’s leading universal banking groups. The principal activities of the Manager are the establishment and management of unit trust funds and fund management activities.

2. MATERIAL ACCOUNTING POLICY INFORMATION

The following accounting policies have been used consistently in dealing with items which are considered material in relation to the financial statements:

(a) Basis of preparation

The financial statements have been prepared in accordance with MFRS Accounting Standards as issued by the Malaysian Accounting Standards Board (“MASB”) and IFRS Accounting Standards as issued by the International Accounting Standards Board (“IASB”). The financial statements have been prepared under the historical cost convention, as modified by financial assets at fair value through profit or loss.

2. MATERIAL ACCOUNTING POLICY INFORMATION (CONTINUED)**(a) Basis of preparation (continued)**

The preparation of financial statements in conformity with MFRS Accounting Standards and IFRS Accounting Standards requires the use of certain critical accounting estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reported year.

It also requires the Manager to exercise their judgement in the process of applying the Fund's accounting policies. Although these estimates and judgement are based on the Manager's best knowledge of current events and actions, actual results may differ.

The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements are disclosed in Note 2(j).

There are no other standards, amendments to standards or interpretations effective for financial year beginning on 1 January 2025 that have a material effect on the financial statements of the Fund.

Other than MFRS 18: Presentation and Disclosure in Financial Statements (which will first become applicable for annual periods beginning on or after 1 January 2027), none of the standards, amendments to standards or interpretations that are effective for the financial year beginning on or after 1 January 2026 are applicable to the financial statements of the Fund. The Fund is still currently in the process of assessing the impact, if any, of MFRS 18: Presentation and Disclosure in Financial Statements.

(b) Financial assets and financial liabilities**Classification**

The Fund classifies its financial assets in the following measurement categories:

- those to be measured subsequently at fair value through profit or loss, and
- those to be measured at amortised cost.

The Fund classifies its investments based on both the Fund's business model for managing those financial assets and the contractual cash flow characteristics of the financial assets. The portfolio of financial assets is managed and performance is evaluated on a fair value basis. The Fund is primarily focused on fair value information and uses that information to assess the assets' performance and to make decisions.

The contractual cash flows of the Fund's debt securities are solely payment of principal and interest ("SPPI"). However, these securities are neither held for the purpose of collecting contractual cash flows nor held both for collecting contractual cash flows and for sale. The collection of contractual cash flows is only incidental to achieving the Fund's business model's objective. Consequently, all investments are measured at fair value through profit or loss.

The Fund classifies cash and cash equivalents, amount due from Manager as financial assets at amortised cost as these financial assets are held to collect contractual cash flows consisting of the amount outstanding.

All of the Fund's financial liabilities are measured at amortised cost.

2. MATERIAL ACCOUNTING POLICY INFORMATION (CONTINUED)**(b) Financial assets and financial liabilities (continued)**Recognition and measurement

Regular purchases and sales of financial assets are recognised on the trade-date, the date on which the Fund commits to purchase or sell the asset. Investments are initially recognised at fair value.

Financial instruments are recognised in the statement of financial position when, and only when, the Fund becomes a party to the contractual provisions of the financial instrument.

Financial assets are derecognised when the rights to receive cash flows from the investments have expired or have been transferred and the Fund has transferred substantially all risks and rewards of ownership.

Financial liabilities are derecognised when it is extinguished, i.e. when the obligation specified in the contract is discharged or cancelled or expired.

Unrealised gains or losses arising from changes in the fair value of the financial assets at fair value through profit or loss are presented in the statement of comprehensive income within net gain or loss on financial assets at fair value through profit or loss in the financial year which they arise.

Unquoted fixed income securities denominated in MYR" or "RM" are revalued on a daily basis based on fair value prices quoted by a Bond Pricing Agency ("BPA") registered with the SC as per the GUTF. Refer to Note 2(j) for further explanation.

Deposits with licensed financial institutions are stated at cost plus accrued interest calculated on the effective interest method over the period from the date of placement to the date of maturity of the respective deposits.

Financial assets at amortised cost and other financial liabilities are subsequently carried at amortised cost using the effective interest method.

Impairment on assets carried at amortised costs

The Fund measures credit risk and expected credit losses ("ECL") using probability of default, exposure at default and loss given default. The Manager consider both historical analysis and forward-looking information in determining any ECL. The Manager considers the probability of default to be close to zero as these instruments have a low risk of default and the counterparties have a strong capacity to meet their contractual obligations in the near term. As a result, no loss allowance has been recognized based on 12 months ECL as any such impairment would be wholly insignificant to the Fund.

Significant increase in credit risk

A significant increase in credit risk is defined by the Manager as any contractual payment which is more than 30 days past due.

Definition of default and credit-impaired financial assets

Any contractual payment which is more than 90 days past due is considered credit impaired.

2. MATERIAL ACCOUNTING POLICY INFORMATION (CONTINUED)**(b) Financial assets and financial liabilities (continued)**Write-off

The Fund writes off financial assets, in whole or in part, when it has exhausted all practical recovery efforts and has concluded there is no reasonable expectation of recovery. The assessment of no reasonable expectation of recovery is based on unavailability of debtor's sources of income or assets to generate sufficient future cash flows to repay the amount. The Fund may write-off financial assets that are still subject to enforcement activity. Subsequent recoveries of amounts previously written off will result in impairment gains. There are no write-offs/recoveries during the financial year.

(c) Income recognition

Interest income from deposits with licensed financial institutions and unquoted fixed income securities are recognised on a time proportionate basis using the effective Interest rate method on an accrual basis.

Interest income is calculated by applying the effective interest rate to the gross carrying amount of a financial asset except for financial assets that subsequently become credit impaired. For credit-impaired financial assets the effective interest rate is applied to the net carrying amount of the financial asset (after deduction of the loss allowance).

Realised gain or loss on disposal of unquoted fixed income securities are accounted for as the difference between the net disposal proceeds and the carrying amount of unquoted fixed income securities, determined on cost adjusted for accretion of discount or amortisation of premium.

(d) Functional and presentation currency

Items included in the financial statements of the Fund are measured using the currency of the primary economic environment in which the Fund operates (the "functional currency"). The financial statements are presented in MYR/RM, which is the Fund's functional and presentation currency.

(e) Cash and cash equivalents

For the purpose of statement of cash flows, cash and cash equivalents comprise bank balance and deposits with licensed financial institutions held in highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

(f) Taxation

Current tax expense is determined according to Malaysian tax laws at the current rate based upon the taxable profit earned during the financial year.

(g) Distribution

A distribution to the Fund's unit holders is accounted for as a deduction from realised reserve. A proposed distribution is recognised as a liability in the financial year in which it is approved by the Trustee.

2. MATERIAL ACCOUNTING POLICY INFORMATION (CONTINUED)**(h) Realised and unrealised portions of profit or loss after tax**

The analysis of realised and unrealised profit or loss after tax as presented on the statement of comprehensive income is prepared in accordance with GUTF.

(i) Unit holders' contributions

The unit holders' contributions to the Fund meet the definition of puttable instruments classified as financial liability under MFRS 132 "Financial Instruments: Presentation".

- the units entitle the holder to a proportionate share of the Fund's NAV;
- the units are the most subordinated class and class features are identical;
- there are no contractual obligations to deliver cash or another financial asset other than the obligation on the Fund to repurchase; and
- the total expected cash flows from the units over its life are based substantially on the profit or loss of the Fund.

The outstanding units are carried at the redemption amount that is payable at each financial year if unit holder exercises the right to put the unit back to the Fund. Units are created and cancelled at prices based on the Fund's NAV per unit at the time of creation or cancellation. The Fund's NAV per unit is calculated by dividing the net assets attributable to unit holders with the total number of outstanding units.

(j) Critical accounting estimates and judgements in applying accounting policies

The Fund makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, rarely equal the related actual results. To enhance the information content of the estimates, certain key variables that are anticipated to have material impact to the Fund's results and financial position are tested for sensitivity to changes in the underlying parameters.

Estimates and judgement are continually evaluated by the Manager and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

Estimate of fair value of unquoted fixed income securities

In undertaking any of the Fund's investment, the Manager will ensure that all assets of the Fund under management will be valued appropriately, that is at fair value and in compliance with the GUTF.

MYR/RM-denominated unquoted fixed income securities are valued using fair value prices quoted by a BPA. Where the Manager is of the view that the price quoted by BPA for a specific unquoted fixed income securities differs from the market price by more than 20 bps, the Manager may use market price, provided that the Manager records its basis for using a non-BPA price, obtains necessary internal approvals to use the non-BPA price, and keeps an audit trail of all decisions and basis for adopting the use of non-BPA price.

3. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT OBJECTIVES AND POLICIES

Financial instruments of the Fund are as follows:

	Financial assets at fair value through profit or loss RM	Financial assets at amortised cost RM	Total RM
2025			
Cash and cash equivalents (Note 9)	-	58,038,134	58,038,134

Amount due from Manager	-	7,916,650	7,916,650
	<u>1,210,962,914</u>	<u>47,242,141</u>	<u>1,258,205,055</u>

All liabilities are financial liabilities which are carried at amortised cost.

The Fund aims to provide regular income as well as to achieve medium to long-term capital appreciation through investments primarily in Malaysian bonds.

The Fund is exposed to a variety of risks which include market risk (inclusive of price risk and interest rate risk), credit risk and liquidity risk.

Financial risk management is carried out through internal control process adopted by the Manager and adherence to the investment restrictions as stipulated in the Deeds and GUTF.

(a) Market risk

(i) Price risk

This is the risk that the fair value of an investment in unquoted fixed income securities will fluctuate because of changes in market prices (other than those arising from interest rate risk). The value of unquoted fixed income securities may fluctuate according to the activities of individual companies, sector and overall political and economic conditions. Such fluctuation may cause the Fund's NAV and prices of units to fall as well as rise, and income produced by the Fund may also fluctuate.

The price risk is managed through diversification and selection of unquoted fixed income securities within specified limits according to the Deeds.

The Fund is exposed to price risk arising from interest rate fluctuation in relation to its investments of RM2,092,942,187 (2024: RM1,210,962,914) in unquoted fixed income securities. The Fund's exposure to price risk arising from interest rate fluctuation and the related sensitivity analysis are disclosed in "interest rate risk" below.

3. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT OBJECTIVES AND POLICIES (CONTINUED)

(a) Market risk (continued)

(ii) Interest rate risk

In general, when interest rates rise, unquoted fixed income securities prices will tend to fall and vice versa. Therefore, the NAV of the Fund may also tend to fall when interest rates rise or are expected to rise. However, investors should be aware that should the Fund holds an unquoted fixed income securities till maturity, such price fluctuations would dissipate as it approaches maturity, and thus the growth of the NAV shall not be affected at maturity. In order to mitigate interest rates exposure of the Fund, the Manager will manage the duration of the portfolio via shorter or longer tenured assets depending on the view of the future interest rate trend of the Manager, which is based on its continuous fundamental research and analysis.

Investors should note that the movement in prices of unquoted fixed income securities and money market instruments are benchmarked against interest rates. As such, the investments are exposed to the movement of the interest rates.

This risk is crucial since unquoted fixed income securities portfolio management depends on forecasting interest rate movements. Prices of unquoted fixed income securities move inversely to interest rate movements, therefore as interest rates rise, the prices of unquoted fixed income securities decrease and vice versa. Furthermore, unquoted fixed income securities with longer maturity and lower yield coupon rates are more susceptible to interest rate movements.

Such investments may be subject to unanticipated rise in interest rates which may impair the ability of the issuers to meet the obligation under the instrument, especially if the issuers are highly leveraged. An increase in interest rates may therefore increase the potential for default by an issuer.

The table below summarises the sensitivity of the Fund's interest or loss and NAV to movements in prices of unquoted fixed income securities held by the Fund as a result of movement in interest rate at the end of each reporting year. The analysis is based on the assumptions that the interest rate changed by 1% with all other variables held constant. This represents management's best estimate of a reasonable possible shift in the interest rate, having regard to the historical volatility of the interest rate.

% Change in interest rate	Impact on profit or loss/NAV	
	2025	2024
	RM	RM
+1%	(940,432,718)	(2,262,278)
-1%	(935,272,598)	(2,269,781)

Cash flow interest rate risk is the risk that the future cash flows of a financial instrument will fluctuate because of changes in market interest rates.

The Fund is not exposed to cash flow interest rate risk as the Fund does not hold any financial instruments at variable interest rate.

3. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT OBJECTIVES AND POLICIES (CONTINUED)

(a) Market risk (continued)

(ii) Interest rate risk (continued)

The Fund’s exposure to interest rate risk associated with deposits with licensed financial institutions is expected to be minimal as the deposits are held on short-term basis. The weighted average effective interest rate per annum is as follows:

	2025	2024
	%	%
Deposits with licensed financial institutions	3.00	3.30

(b) Credit risk

Credit risk refers to the risk that counterparty will default on its contractual obligation resulting in financial loss to the Fund.

Investment in unquoted fixed income securities may involve a certain degree of credit/default risk with regards to the issuers. Generally, credit risk or default risk is the risk of loss due to the issuer’s non-payment or untimely payment of the investment amount as well as the returns on investment.

This will cause a decline in value of the defaulted unquoted fixed income securities and subsequently depress the NAV of the Fund. Usually, credit risk is more apparent for an investment with a longer tenure, i.e. the longer the duration, the higher the credit risk.

Credit risk can be managed by performing continuous fundamental credit research and analysis to ascertain the creditworthiness of its issuer. In addition, the Manager imposes a minimum rating requirement as rated by either local and/or foreign rating agencies and manages the duration of the investment in accordance with the objective of the Fund. For this Fund, the unquoted fixed income securities investments must satisfy a minimum rating requirement at least a “BBB3” or “P2” rating by RAM or equivalent rating by MARC or by local rating agency(ies) of the country of issuance or “BBB-” by S&P or equivalent rating by any other international rating agencies.

The credit risk arising from placements of deposits in licensed financial institutions is managed by ensuring that the Fund will only place deposits in reputable licensed financial institutions.

For amount due from Manager, the settlement terms of the proceeds from the creation of units’ receivable from the Manager are governed by the GUTF.

3. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT OBJECTIVES AND POLICIES (CONTINUED)

Deposits with licensed financial institutions of the Fund have an average remaining maturity of 2 days (2024: 2 days).

3. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT OBJECTIVES AND POLICIES (CONTINUED)

(c) Liquidity risk

Liquidity risk is the risk that the Fund will encounter difficulty in meeting its financial obligations.

The Manager manages this risk by maintaining sufficient level of liquid assets to meet anticipated payments and cancellations of the units by unit holders. Liquid assets comprise bank balances, deposits with licensed financial institutions and other instruments, which are capable of being converted into cash within 7 business days.

Generally, all investments are subject to a certain degree of liquidity risk depending on the nature of the investment instruments, market, sector, and other factors. For the purpose of the Fund, the Manager will attempt to balance the entire portfolio by investing in a mix of assets with satisfactory trading volume and those that occasionally could encounter poor liquidity. This is expected to reduce the risks for the entire portfolio without limiting the Fund's growth potentials.

The table below summarises the Fund's financial liabilities into relevant maturity groupings based on the remaining year as at the end of the reporting year to the contractual maturity date. The amounts in the table are the contractual undiscounted cash flows.

3. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT OBJECTIVES AND POLICIES (CONTINUED)

(d) Capital risk management

The capital of the Fund is represented by equity consisting of unit holders' contributions of RM2,148,168,036 (2024: RM1,252,018,658). The amount of capital can change significantly on a daily basis as the Fund is subject to daily subscriptions and redemptions at the discretion of unit holders. The Fund's objective when managing capital is to safeguard the Fund's ability to continue as a going concern in order to provide returns to unit holders and benefits for other stakeholders and to maintain a strong capital base to support the development of the investment activities of the Fund.

(e) Fair value estimation

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e. an exit price).

The fair value of financial assets traded in active markets (such as trading securities) are based on quoted market prices at the close of trading on the financial year end date. The Fund utilises the last traded market price for financial assets where the last traded price falls within the bid-ask spread. In circumstances where the last traded price is not within the bid-ask spread, the Manager will determine the point within the bid-ask spread that is most representative of the fair value.

An active market is a market in which transactions for the asset or liability take place with sufficient frequency and volume to provide pricing information on an ongoing basis.

The fair value of financial assets that are not traded in an active market is determined by using valuation techniques.

(i) Fair value hierarchy

The table below analyses financial instruments carried at fair value. The different levels have been defined as follows:

- Quoted prices (unadjusted) in active market for identical assets or liabilities (Level 1)
- Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) (Level 2)
- Inputs for the asset and liability that are not based on observable market data (that is, unobservable inputs) (Level 3)

The level in the fair value hierarchy within which the fair value measurement is categorised in its entirety is determined on the basis of the lowest level input that is significant to the fair value measurement in its entirety. For this purpose, the significance of an input is assessed against the fair value measurement in its entirety.

If a fair value measurement uses observable inputs that require significant adjustment based on unobservable inputs, that measurement is a Level 3 measurement.

Assessing the significance of a particular input to the fair value measurement in its entirety requires judgement, considering factors specific to the asset or liability.

3. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT OBJECTIVES AND POLICIES (CONTINUED)

(e) Fair value estimation (continued)

(i) Fair value hierarchy (continued)

The determination of what constitutes ‘observable’ requires significant judgement by the Fund. The Fund considers observable data to be that market data that is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market.

	Level 1 RM	Level 2 RM	Level 3 RM	Total RM
2025				
Financial assets at fair value through profit or loss:				
- Unquoted fixed income securities	-	2,092,942,187	-	2,092,942,187

	<u>-</u>	<u>1,210,962,914</u>	<u>-</u>	<u>1,210,962,914</u>

Financial instruments that trade in markets that are not considered to be active but are valued based on quoted market prices, dealer quotations or alternative pricing sources supported by observable inputs are classified within Level 2. These include unquoted fixed income securities.

As Level 2 instruments include positions that are not traded in active markets and/or are subject to transfer restrictions, valuations may be adjusted to reflect illiquidity and/or non-transferability, which are generally based on available market information. The Fund’s policies on valuation of these financial assets are stated in Note 2(b).

- (ii) The carrying values of cash and cash equivalents, amount due from Manager, and all current liabilities are a reasonable approximation of their fair values due to their short-term nature.

4. MANAGEMENT FEE

In accordance with the Deeds, the Manager is entitled to a maximum management fee of 1.00% per annum, calculated daily based on the NAV of the Fund.

For the financial year ended 31 December 2025, the management fee is recognised at a rate of 1.00% per annum (2024: 1.00% per annum).

There is no further liability to the Manager in respect of management fee other than the amount recognised above.

5. TRUSTEE FEE

In accordance with the Deeds, the Trustee is entitled to a maximum Trustee fee of 0.05% per annum calculated daily based on the NAV of the Fund. The Trustee fee includes local custodian fee but excludes the foreign sub-custodian fees and charges (if any).

For the financial year ended 31 December 2025, the Trustee fee is recognised at a rate of 0.03% per annum (2024: 0.03% per annum).

There is no further liability to the Trustee in respect of Trustee fee other than the amount recognised above.

6. DISTRIBUTIONS

Breakdown of distribution were as follows:

11. TOTAL EXPENSE RATIO (“TER”)

	<u>2025</u>	<u>2024</u>
	%	%
TER	<u>1.06</u>	<u>1.03</u>

TER is derived based on the following calculation:

$$\text{TER} = \frac{(A + B + C + D + E) \times 100}{F}$$

A = Management fee

B = Trustee fee

C = Audit fee

D = Tax agent’s fee

E = Other expenses

F = Average NAV of the Fund calculated on a daily basis

The average NAV of the Fund for the financial year calculated on a daily basis is RM1,605,767,894 (2024: RM1,232,462,003).

12. PORTFOLIO TURNOVER RATIO (“PTR”)

	<u>2025</u>	<u>2024</u>
PTR (times)	<u>0.68</u>	<u>0.56</u>

PTR is derived from the following calculation:

$$\frac{(\text{Total acquisition for the financial year} + \text{total disposal for the financial year}) \div 2}{\text{Average NAV of the Fund for the financial year calculated on a daily basis}}$$

where:

total acquisition for the financial year = RM1,560,403,205 (2024: RM854,020,406)

total disposal for the financial year = RM623,467,651 (2024: RM525,506,854)
