How Does the Scheme Work?

PRS is a voluntary scheme designed to help you build your nest egg for retirement. You can personalize and select a combination of the Funds that best suits your risk and return preference. You decide how much, how often and what Fund to invest in based on your retirement goals.

Contribution

All contributions made by or on behalf of you will be split upon each contribution being made and maintained in two (2) separate sub-accounts as follows:

- Sub-account A holds 70% of all contributions made to any of the Funds.
- Sub-account B holds 30% of all contributions made to any of the Funds.

Investment Option

You may choose to:

- Do-It-Myself:** You can contribute to the Scheme by selecting any one or a combination of the Funds based on your preferred risk and return profile until retirement.
- Do-It-For-Me (Default Option):** This is the best choice if you are unsure which Fund suits you the most. We will allocate your contributions into one of the Core Funds based on your year of birth as listed in the table below. By this, you will be investing in a fund that offers an age-appropriate risk and return profile based on your current age.

Core Funds	Year of birth	Expected year of retirement*
RE60	1996 – 2005	2051 – 2060
RE50	1986 – 1995	2041 – 2050
RE40	1976 – 1985	2031 – 2040
RE30	1968 – 1975	2023 – 2030
REI	On or before 1967	N/A - Retired

* Based on the Retirement Age.

Cooling-Off Period

You have six (6) Business Days after your initial contribution (i.e. the date the complete application is received and accepted by us or our Distributors) to reconsider the appropriateness and suitability for your investment needs. Within this period, you may withdraw your investment at the same NAV per unit when the units were purchased or prevailing NAV per unit at the point of cooling-off (whichever is lower) ("Refund Amount"). We must obtain prior authorization of the PPA before proceeding with the refund. We will pay the Refund Amount including the Sales Charge (if any) to you in RM within seven (7) Business Days of receiving the authorization of the PPA. Please note that this cooling-off right is only given to a first time Member registered with PPA who is investing with any PRS provider. However, Principal Malaysia's staff, person(s) registered by a body approved by the SC to deal in PRS and contributions made to PRS by an employer on behalf of the employee are not entitled to the cooling-off right.

Permitted Withdrawals and Pre-Retirement Withdrawals

Subject to permitted reasons for withdrawals, you may not make a withdrawal from any of the Funds until you reach the Retirement Age. Upon reaching the Retirement Age, you shall be entitled to withdraw the full amount accumulated in the Funds held by you as Accrued Benefits without payment of any tax penalty. Request for payment for withdrawals from any of the Funds may be made for the following circumstances and as follows:

No	Circumstances for withdrawal	Sub-account	Extend of withdrawals	Subject to tax penalty
(a)	Upon reaching Retirement Age	A & B	Partial or full	No
(b)	Pre-retirement withdrawals	B	Partial or full	Yes
(c)	Death of Member	A & B	Partial or full	No
(d)	Permanent departure of a member from Malaysia	A & B	Full	No
(e)	Due to permanent total disablement, serious disease or mental disability of a member	A & B	Full	No
(f)	For healthcare purpose	B	Partial or full	No
(g)	For housing purpose	B	Partial or full	No

Upon receiving your request to withdraw some or all of the Accrued Benefits in any of the Fund, we and/or PPA may require you to provide evidence of the facts necessary to establish your right to withdraw moneys from any of the Fund. In relation to

- item (c), (e), (f) and (g) – we must obtain prior authorization from the PPA before issuing instructions to the Trustee to cancel Units.
- item (b), (f) and (g) – withdrawals may be requested by the member once every calendar year from each PRS provider (from one or multiple funds under any scheme managed by that PRS provider) provided that the individual has been a member of that scheme for at least one (1) year.
- item (b) – we will deduct an 8% tax penalty (or such other applicable tax penalty) from the withdrawn amount before making payment to you.
- item (f) – the withdrawal is only permitted for Member's ownself or immediate family on certain illnesses.

We will pay the withdrawal proceeds within seven (7) Business Days after we receive a complete withdrawal request from you and, where required, the authorization of the PPA.

Switching

Subject to our absolute discretion, you have the option to switch into any of the Funds under the Scheme or funds under Principal Islamic PRS Plus. Switching is limited to once a month only regardless of whether it is switching of funds under the Scheme or switching between funds of different PRS managed by Principal Malaysia and switching is not allowed between different classes. Ask about switching before you withdraw.

Transfer between PRS Providers

Prior to reaching the Retirement Age, you are allowed to transfer your accrued benefits of any amount from one (1) or multiple funds under the scheme(s) managed by that PRS provider once every calendar year to another PRS provider provided that:

- you have been a member of the scheme for at least one (1) year; and
- all the accrued benefit to be transferred from a fund must be transferred to one (1) other fund.

The above also applies if you transfer from any funds under schemes of other PRS providers into any Funds under the Scheme. All information required by the PPA is to be provided in the application for the transfer. Unless the context stated otherwise, all withdrawal and/or transfer transactions are only allowed for Vested Units.

What other taxes apply?

- (i) Tax relief up to RM3,000 per annum will be given for an individual's contribution to the PRS*.
- (ii) Employers will also be given tax deduction on contributions to PRS made on behalf of their employees of up to 19% of the employees' remuneration.

* For PRS contributions and deferred annuities effective from years of assessment 2012 to 2025, subject to terms and conditions and/or any amendment/modifications as may be imposed/required by the government or relevant authorities from time to time.

Key Risks

General risks of investing in the funds	
Returns and capital not guaranteed	The investment of the fund is subject to market fluctuations and its inherent risk. There is NO GUARANTEE on the investment which includes your investment capital and returns, nor any assurance that the fund's investment objective will be achieved. You should also note that the fund is neither a capital guaranteed fund nor a capital protected fund. However, we reduce this risk by ensuring diligent management of the assets of the fund based on a structured investment process.
Legal risk and regulatory risk	The value of the fund may be affected by uncertainties in the legal and regulatory environment. A change in law or regulation made by government or regulatory body will materially impact the value of securities, business, sector or even market as a whole. These amendments to the laws and regulations may increase the costs of operating a business and hence reduce the attractiveness of its related investments. For example, if the regulatory body imposes a limit on the amount of margin an investment account is able to have, the impact on the stock market would be material as this change may force the existing investors who are currently breaching the limit to sell off their margined positions. You should also note that laws and guidelines relating to PRS may change and this may affect your PRS account and/or your ability to access your account balance.
Market risk	Refers to the possibility that an investment will lose value because of a general decline in financial markets, due to economic, political and/or other factors, which will result in a decline in the fund's NAV.
Risk associated with Default Option	If you selected the Default Option, we will allocate you into one of the Core Funds based on your year of birth, which aims to match with the expected year of retirement. If you are allocated into a TDF, your investment balance will be automatically switched into the REI when the TDF matures on its Target Date. The NAV per unit of TDF may be lower at the point of switching than the NAV per unit when you initially contributed into the TDF. Hence, you may suffer losses relating to your investment costs upon disposal. We will notify you one (1) month before the TDF matures on its Target Date that your current investments will be automatically switched into the REI.
Liquidity risk	Liquidity risk refers to the ease of liquidating an asset without causing market dislocation. This depends on the supply and demand as well as the asset's volume or amount traded in the market. If the Fund holds assets that are illiquid, or are difficult to dispose of, the value of the Fund and consequently the value of member's investment in the Fund, will be negatively affected when the Fund has to sell such assets at unfavourable prices. In the case where the Fund is invested into unlisted CIS, the Fund may be negatively impacted due to liquidity policy applied by the CIS (e.g. suspension during exceptional situations).
Inflation risk	Your investment in the fund may not grow or generate income at a rate that keeps pace with inflation. This would reduce your purchasing power even though the value of the investment in monetary terms has increased. This risk can be mitigated by investing in securities that can provide a positive real rate of return.
Manager risk	This risk refers to the day-to-day management of the fund by the manager which will impact the performance of the fund. For example, investment decisions undertaken by the manager, as a result of an incorrect view of the market or any non-compliance with internal policies, investment mandate, the deed, relevant law or guidelines due to factors such as human error or weaknesses in operational process and systems, may adversely affect the performance of the fund. Although the occurrence of such events is very unlikely, we seek to reduce this risk by implementing a consistent and structured investment process, systematic operational procedures and processes along with stringent internal controls.
Financing risk	This risk occurs when you obtain financing to finance your investment. The inherent risk of investing with

	money obtained from financing includes you being unable to service the financing payments. In the event units are used as collateral and if the prices of units fall below a certain level due to market conditions, you may be required to pay additional amounts on top of your normal instalment. If you fail to comply within the time prescribed, your units may be sold at an unfavourable price and the proceeds thereof will be used towards the settlement of your financing.
--	--

Specific risks associated with the investment portfolio of the Funds	
Stock specific risk	Prices of a particular stock may fluctuate in response to the circumstances affecting individual companies such as adverse financial performance, news of a possible merger or loss of key personnel of a company. Any adverse price movements of such stock will adversely affect the Fund's NAV. The impact is however reduced as the Fund invests in a wide portfolio of investments; thus, spreading the element of risk. Diversification can be achieved by investing in various companies across different industries or sectors that are uncorrelated. In addition, we will undertake an active bottom-up investment approach to ensure that the fundamentals of the stocks invested in are favourable.
Credit and default risk	The Fund will be exposed to a certain degree of credit and default risk of issuers or counterparties when the Fund invests in Deposits, debt securities, such as bonds, and/or conducts over-the-counter transactions. Credit risk relates to the creditworthiness of the securities issuers or counterparties and their expected ability to make timely payment of profit and/or principal. Any adverse situations faced by the issuer or counterparties may impact the value as well as liquidity of the investments. Default risk relates to the risk that a securities issuer or counterparties either defaulting on payments or failing to make payments in a timely manner which will in turn adversely affect the value of the investments. This could adversely affect the value of the Fund.
Interest rate risk	Interest rate risk refers to the impact of interest rate changes on the valuation of fixed income securities and money market instruments. When interest rates rise, fixed income instruments' prices will tend to fall and vice versa. Therefore, the NAV of the Fund may also tend to fall when interest rates rise or are expected to rise. However, you should be aware that should the Fund hold a fixed income instruments until maturity, such price fluctuations would dissipate as it approaches maturity.
Country risk	Investments of the Fund in any country may be affected by changes in the economic and political climate, restriction on currency repatriation or other developments in the law or regulations of the countries in which the Fund invests in. For example, the deteriorating economic condition of such countries may adversely affect the value of the investments undertaken by the Fund in those affected countries. This in turn may cause the NAV of the Fund or price of units to fall. To mitigate these risks, we will select securities that spread across various countries. The decision on diversification will be based on constant fundamental research and analysis of the global markets
Currency risk	This risk is associated with investments that are quoted and/or priced in foreign currency denomination. You should be aware that if the RM appreciates against the currencies in which the portfolio of the investment is denominated, this will have an adverse effect on the NAV of the Fund and vice versa. You should note that any gains or losses arising from the movement of the foreign currencies against the base currency of the Fund (i.e. RM) may therefore increase/decrease the capital gains/losses of the investment. The currency gains/losses are in addition to the capital gains/losses of the investment. Nevertheless, you should realise that currency risk is considered as one of the major risks to investments in foreign assets due to the volatile nature of the foreign exchange market. We may utilise a two-pronged approach in order to mitigate the currency risk; firstly, by spreading the investments across differing currencies (i.e. diversification) and secondly, by hedging the currencies when it is deemed necessary.
Risk associated with investment in CIS	Since the Fund may invest into CIS, there is a risk of concentration into CIS, in which the CIS's management company has absolute discretion over the CIS's investment technique and knowledge, operational controls and management. In the event of mismanagement of the CIS and/or the management company, the NAV of the Fund, which invests into those CIS would be affected negatively. Should the situation arise, we will seek for another CIS that is consistent with the objective of the Fund.

The above summary of risks does not purport to be an exhaustive list of all the risk factors relating to investments in the Funds and are not set out in any particular order of priority. If in doubt, you should consult professional advisers for a better understanding of the risks.

Trustee Fee	0.04% p.a. of the NAV of the Fund (Includes local custodian fees and charges but excludes foreign sub-custodian fees and charges)		

You can also compare the fees and charges of other PRS by visiting the Private PPA's website, www.ppa.my.

The above-mentioned fees and charges payable to us and/or the Funds are subject to:

- 1) any amendments as may be required/imposed by the regulatory authorities such as the SC and the PPA;
- 2) any discount/rebate/waiver during promotional period that may be determined by us, the Distributors and/or PPA from time to time. For information on the promotions, please contact us, the Distributors and/or PPA; and
- 3) any applicable taxes and/or duties as may be imposed by the government and/or the relevant authorities from time to time.

All the fees and charges above may be increased. A supplementary or replacement disclosure document disclosing the new fees and charges will be issued should the fees and charges be increased. A notice period of ninety (90) days will be given to the Members prior to the effective date of the new fees and charges, which is in accordance with the GPRS.

YOU SHOULD NOT MAKE PAYMENT DIRECTLY OR INDIRECTLY TO A PRS CONSULTANT/ EMPLOYEE OF PRINCIPAL MALAYSIA OR ISSUE A CHEQUE IN THE NAME OF A PRS CONSULTANT/ EMPLOYEE OF PRINCIPAL MALAYSIA WHEN PURCHASING UNITS OF PRS FUNDS.

Valuations

We will value the Fund for a Business Day on the next Business Day (T+1) by 4:00 p.m. This is to cater for the currency translation of the foreign securities/instruments to the Funds' base currency. Currently, the currency translation is based on the bid exchange rate quoted by Bloomberg/Reuters at UK time 4:00 p.m. on the same day (Malaysian time 11:00 p.m. or 12:00 a.m.), or such other time as stipulated in the IMS. The NAV per unit for a Business Day is available on our website at www.principal.com.my after 5:30 p.m. on the following Business Day (T+1). Please refer to the "Unit Pricing" section of the Disclosure Document for more information.

PRS-C: For the 1-year financial period, Class A, C and X gained 0.99%, 0.89% and 1.02%, respectively. Meanwhile, the benchmark appreciated by 1.70% over the same period. The underperformance of the Fund relative to its benchmark was driven mainly by the allocation into equity. The slight variation in the performance between Class A, Class C and Class X, if any, was due to different timing of units created for each of the class.

Note: All performance figures have been extracted from Lipper.

Basis of calculation and assumptions made in calculating the returns

Percentage growth	=	$\frac{\text{NAV on that day} - \text{NAV of previous day}}{\text{NAV of previous day}} * 100$	Average total return	=	$\frac{\text{Total returns of the years under review}}{\text{Number of years under review}}$
