PRS PROVIDER’S REPORT

FUND OBJECTIVE AND POLICY

What is the investment objective of the Fund?

The Fund seeks to provide capital growth over the long-term by investing in the domestic market.

Has the Fund achieved its objective?

For the financial year under review, the Fund registered a gain of 11.41% which was above target return of 8% per annum.

What are the Fund investment policy and principal investment strategy?

The Fund is managed to achieve a defined target return over the long-term through investments in the domestic market. The Fund will invest between 70% to 99.8% (both inclusive) of the Fund’s Net Asset Value (“NAV”) in equities.

However, the Fund may take temporary defensive positions that may detract from the Fund’s prescribed asset allocation when we believe that the equity market is experiencing excessive volatility, expected prolonged declines or when the outlook of the equity market is unfavourable. Under these circumstances, the Fund may reduce its equity exposure and increase its investment in money market instruments to protect the Fund’s investment objective in bearish or non-performing equity market.

The asset allocation strategy for this Fund is as follows:

- Between 70% to 99.8% (both inclusive) of the Fund’s NAV will be invested in equities; and
- At least 0.2% of the Fund’s NAV will be invested in liquid assets for liquidity purpose.

Fund category/type

Equity

When was the Fund launched?

Name of Class	Launch Date
Class A	12 November 2012
Class C	12 November 2012
Class X	12 November 2012

What was the size of the Fund as at 31 January 2024?

RM14.37 million (23.71 million units)

What is the Fund’s benchmark?

The Fund has a target return of 8% per annum.

This is not a guaranteed return and is only a measurement of the Fund’s performance. The Fund may not achieve the target return in any particular financial year but targets to achieve this growth over the long-term.

Note: The Fund’s benchmark is for performance comparison purpose only. The risk profile of the Fund is not the same as the risk profile of the benchmark.

What is the Fund distribution policy?

The Fund is not expected to pay any distribution. All income earned by members will automatically be reinvested into the Fund.

What was the net income distribution for the financial year ended 31 January 2024?

There was no distribution made for the financial year ended 31 January 2024.

MARKET REVIEW (1 FEBRUARY 2023 TO 31 JANUARY 2024)

For the financial year under review, FTSE Bursa Malaysia KLCI (“FBMKLCI”) increased by 1.85% from 1,485.50 points (“pts”) to 1,512.98 pts.

FBMKLCI fell 2.11% (“month-on-month”) m-o-m in February 2023. Investors remained cautious leading up to Budget 2023 while renewed concerns over the US Federal Reserve (the “Fed”) staying hawkish given persistent inflation coupled with encouraging consumption and employment data in the US recently further weighed on sentiment. The rebound in the US Dollar (“USD”) also took flows out of Emerging Markets (“EM”).

MARKET REVIEW (1 FEBRUARY 2023 TO 31 JANUARY 2024) (CONTINUED)

The Index had continued to slip in March 2023, falling 2.17% m-o-m. Weakness was in line with the sell-off in regional markets as investors aggressively risked off following the collapse of several high-profile banks in the US and Europe, potentially triggering a global liquidity squeeze, and mounting worries that the Fed's aggressive tightening may have finally taken a toll on the US economy. The market, however, rebounded towards the later part of the month following Fed's decision to go ahead with a 25 basis points ("bps") hike, downplaying fears of a banking contagion and shifting attention back to inflation which has started to ease, albeit very gradually.

The market dropped for the 3rd consecutive month as FBMKLCI decreased 0.47% m-o-m in April 2023. Commodities, Telecommunication and Consumer Discretionary did well during the month, while Financials weakened further on lingering fear of potential banking contagion. Recent economic data out of the US were mixed. We have a lower first quarter of 2023 ("1Q2023") US Gross Domestic Product ("GDP") print of a mere 1%, down from 2.6% in fourth quarter of 2022 ("4Q2022"). On the other hand, the US consumer spending remains strong, up 3.7% over the same period (versus 1% in 4Q2022) on the back of low unemployment and solid wage gains. US Consumer Price Index ("CPI") cooled to 5% in March 2023, a lower end of the forecast, but core Personal Consumption Expenditure ("PCE") picked up from 3.5% in February 2023 to 3.6% in March 2023 no thanks to higher rents.

The Index dropped further by 2.04% m-o-m in May 2023. The sell-off was relatively broad-based, with select stocks within defensive sectors showing green, and we believe it was largely triggered by the recent weakness of the Malaysian Ringgit ("MYR/RM") on the back of poor Chinese data and consequently the depreciation of the Chinese Yuan Renminbi ("CNY"). Further aggravating the situation was the stronger USD. Encouraging payroll and wage, sticky inflation and recent rebound in job openings stoke bets on further rates hikes in the next Federal Open Market Committee ("FOMC") meeting.

In June 2023, the market had continued to be in jittery with FBMKLCI losing 0.75% m-o-m. Investors remain wary of the sustained weakness of the MYR/RM, a rather uninspiring 1Q2023 corporate results although they were broadly in line, and domestic political uncertainties caused by the upcoming State elections. Expectations of a US recession have now been pushed back to 2024 given the still buoyant data pts coming out of the US.

Reversing the loss sustained in previous months, FBMKLCI rebounded strongly by 6.01% m-o-m in July 2023. Sentiment was sharply lifted by the slump in the USD, benefiting the MYR/RM, and waning expectations of a US recession following recent favourable economic data pts – cooling inflation and still resilient jobs market. Gainers were broad-based, with mainly large caps forging ahead.

The market took a pause following a dizzying rally the previous month, pulling back 0.51% m-o-m in August 2023. Sentiment was dampened by rebound in the USD and rising US treasury yields on expectations of further interest rate hikes in the US as economic data pts remain strong.

The Index continued to drop 1.9% m-o-m in September 2023. The sell-off, which largely concentrated towards the last week of the month, was rather broad-based, led by Financials and Commodities. While there could be volatility caused by quarter-end rebalancing, investors were spooked by US treasury yields at a 16-year high and persistent USD strength affecting EM markets, in addition to the Fed's hawkish messaging on interest rates.

In October 2023, FBMKLCI gained 1.26% m-o-m. There were bargain hunting in Financials and Commodities following the steep sell-off in the previous month. Within the broader market, Construction performed better while Technology, Energy and Property languished. Overall sentiment remains clouded by the surge in US treasury yields which topped 5% last month and persistent USD strength affecting EM markets, coupled with tensions in the Middle East.

MARKET REVIEW (1 FEBRUARY 2023 TO 31 JANUARY 2024) (CONTINUED)

The Index gained 0.74% m-o-m in November 2023. Overall sentiment was lifted by expectations that the Fed may be done with rate hikes given the cooling inflation and recent economic data out of the US. The pullback in US treasury yields and the weaker USD lifted interest in EM markets.

The market ended 2023 higher as FBMKLCI rose by 0.13% m-o-m in December 2023. Investors rejoiced at the Fed's decision to hold rates and signalling the end of hikes given the cooling inflation data and recent economic data out of the US. Coupled with the weaker USD and falling treasury yields, investors were quick to lock in gains ahead of the year-end holidays.

The market had further strengthened in January 2024 with FBMKLCI rose 4.01% m-o-m. This marked the 4th consecutive month of gains, with Malaysia outperforming most ASEAN markets. Sentiment was lifted by Fed's communication on interest rates given the recent cooling inflation and economic data out of the US. The weaker USD and lower treasury yield that ensued favoured EM.

The use of FBMKLCI is purely to act as a point reference representing Malaysian market.

For the financial year under review, the Fund gained by 11.41% for Class A, Class C and Class X each. All three classes of the Fund outperformed the Benchmark by 3.41%.

FUND PERFORMANCE (CONTINUED)

Since Inception

* Performance of Class A, Class C and Class X are almost the same. Slight variation was due to different timing of units created for each of the class.

FBMKLCI is the key benchmark representing Malaysian stock market, added for illustration purpose only.

Changes in NAV

	31.01.2024	31.01.2023	Changes %

NAV/Unit (RM)	0.6062	0.5441	11.41

The NAV per unit for Class A, Class C and Class X increased by 11.41% each, due to the encouraging returns generated by the fund for the financial year under review. Coupled with fund inflows, the NAV increase by 12.06%, 27.52% and 21.47 % for A, C and X classes respectively.

Performance data represents the combined income and capital return as a result of holding units in the Fund for the specified length of time, based on NAV to NAV price. The performance data assumes that all earnings from the Fund are reinvested and are net of management and trustee fees. Past performance is not reflective of future performance and income distributions are not guaranteed. Unit prices and income distributions, if any, may fall and rise. PORTFOLIO STRUCTURE

Asset allocation

(% of NAV)	31.01.2024	31.01.2023
Quoted securities	93.49	96.45
Cash and other assets	6.84	7.71

Total	100.00	100.00

Asset allocation in quoted securities decreased from 96.45% as at 31 January 2023 to 93.49% as 31 January 2024 as more profits were locked in and the Fund was repositioned for the next financial year.

MARKET OUTLOOK*

Malaysia's Purchasing Manager Index ("PMI") rose to a 16-month high of 49 pts versus 47.9 pts in December 2023. According to Standard & Poor's ("S&P") Global, overall optimism of Malaysian manufacturers picked up amid signs of demand improvement. Output and new orders moderated only modestly, while firms also saw smaller reductions in new export orders and backlogs. Notably, firms also reported further softening in price pressures, while job shedding was minimal. Manufacturers remain optimistic of demand conditions over the course of the next 12 months. The latest PMI suggests a slight pickup in GDP growth. To recap, Bank Negara Malaysia ("BNM") projects GDP to grow 4-5% in 2024, from an estimate of 3.8% in 2023.

BNM maintained Overnight Policy Rate ("OPR") at 3.00% in recent MPC meeting. We expect the OPR to maintain in 2024 given muted inflation and modest economic growth. Inflation was at 1.5% in December 2023, significantly undershooting BNM's revised target of 2.5% to 3.0% for 2023. Given the low base, there appears to be sufficient headroom to central bank's 2.1% to 3.6% CPI forecast for 2024 with the impending cut back in subsidies.

Malaysia's equity market valuation remains compressed with forward Price to Earning ("PE") of 13.5 times which is still ~1.5 Standard Deviation ("SD") below the historical mean. This is based on consensus earnings growth of 11% for 2024 and 6% for 2025. More clarity on the new Government's policy posture, in our view, should reduce the current extreme risk premiums applied to the market (yield gap of ~370 bps). We are also hopeful that the newly launched National Energy Transition Roadmap ("NETR") by the government would revitalize domestic investment and buoy consumption.

We see prospect for the FBMKLCI to rise to 1,600 pts by end-2024. We identify 4 key catalysts that could spur the market: 1) Fed pivot and further weakness in the USD, 2) Reallocation of portfolio investments domestically, 3) Lower risk premiums as a result of fiscal consolidation and policy continuity and 4) Corporate earnings sustaining with growth re-accelerating.

* This market outlook does not constitute an offer, invitation, commitment, advice or recommendation to make a purchase of any investment. The information given in this article represents the views of Principal Asset Management Berhad ("Principal Malaysia") or based on data obtained from sources believed to be reliable by Principal Malaysia. Whilst every care has been taken in preparing this, Principal Malaysia makes no guarantee, representation or warranty and is under no circumstances liable for any loss or damage caused by reliance on, any opinion, advice or statement made in this market outlook.

INVESTMENT STRATEGY

We are positive on the market. We are constructive on sectors that stand to gain from the NETR, including Utilities, Construction, and Property. Additionally, we remain optimistic on selective Technology due to the ongoing structural growth trends in the sector. We have also become more optimistic about selective Financials as we expect positive momentum to persist in 2024, primarily fuelled by better earnings outlook. Key risks are the derailment of Malaysia's macroeconomic recovery and corporate earnings growth due to the larger-than-expected impact of rising inflation, slower global economic growth, and heightened geopolitical risks.

SOFT COMMISSIONS AND REBATES

Principal Asset Management Berhad (the “PRS Provider”), the Sub-Manager and the Trustee will not retain any form of rebate from, or otherwise share in any commission with, any broker or dealer in consideration for directing dealings in the investments of the Fund. Accordingly, any rebate or shared commission will be directed to the account of the Principal Malaysia Funds (“Funds”). The PRS Provider may retain goods and services (soft commission) provided by any broker or dealer if the following conditions are met:

- (a) the soft commission brings direct benefit or advantage to the management of the Fund and may include research and advisory related services;
- (b) any dealings with the broker or dealer is executed on terms which are the most favourable for the Fund; and
- (c) the availability of soft commission is not the sole or primary purpose to perform or arrange transactions with such broker or dealer, and we will not enter into unnecessary trades in order to achieve a sufficient volume of transactions to qualify for soft commission.

During the financial year under review, the PRS Provider, the Sub-Manager and Trustee did not receive any rebates from the brokers or dealers, but the PRS Provider has retained soft commission in the form of goods and services such as financial wire services and stock quotations system incidental to investment management of the Funds. The PRS Provider confirms that the goods and services received were for the benefit of the Fund, the trades were made on a best execution basis and there was no churning of trades.

SECURITIES FINANCING TRANSACTIONS

The Fund has not undertaken any securities lending or repurchase transactions during the financial year under review.

STATE OF AFFAIR OF THE FUND

We have issued the First Supplemental Disclosure Document dated 30 August 2023 for Principal PRS Plus. We are of view that the changes above do not affect the existing unit holder to stay invested in the Fund and it is not a significant change.

There were no significant changes in the state of affairs of the Fund during the financial year and up to the date of PRS Provider’s report, not otherwise disclosed in the financial statements.

CIRCUMSTANCES THAT MATERIALLY AFFECT ANY INTEREST OF MEMBERS

There were no circumstances that had materially affected the interest of the members during the financial year under review.

**INDEPENDENT AUDITORS' REPORT TO THE MEMBERS OF
PRINCIPAL PRS PLUS EQUITY**

Report on the audit of the financial statements

Opinion

We have audited the financial statements of Principal PRS Plus Equity (the "Fund"), which comprise the statement of financial position of the Fund as at 31 January 2024, and statement of comprehensive income, statement of changes in net assets attributable to members and statement of cash flows of the Fund for the financial year then ended, and notes to the financial statements, including material accounting policy information, as set out on pages 7 to 33.

In our opinion, the accompanying financial statements give a true and fair view of the financial position of the Fund as at 31 January 2024, and of its financial performance and cash flows for the year then ended in accordance with Malaysian Financial Reporting Standards and International Financial Reporting Standards.

Basis for opinion

We conducted our audit in accordance with approved standards on auditing in Malaysia and International Standards on Auditing. Our responsibilities under those standards are further described in the *Auditors' responsibilities for the audit of the financial statements* section of our report. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Independence and other ethical responsibilities

We are independent of the Fund in accordance with the By-Laws (on Professional Ethics, Conduct and Practice) of the Malaysian Institute of Accountants ("By-Laws") and the International Code of Ethics for Professional Accountants (including International Independence Standards) ("IESBA Code"), and we have fulfilled our other ethical responsibilities in accordance with the By-Laws and the IESBA Code.

Information other than the financial statements and auditors' report thereon

The PRS Provider of the Fund (the "PRS Provider") is responsible for the other information. The other information comprises the information included in the annual report of the Fund, but does not include the financial statements of the Fund and our auditors' report thereon.

Our opinion on the financial statements of the Fund does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements of the Fund, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements of the Fund or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the PRS Provider and the Trustee for the financial statements

The PRS Provider is responsible for the preparation of financial statements of the Fund that give a true and fair view in accordance with Malaysian Financial Reporting Standards and International Financial Reporting Standards. The PRS Provider is also responsible for such internal control as the PRS Provider determines is necessary to enable the preparation of financial statements of the Fund that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements of the Fund, the PRS Provider is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the PRS Provider either intends to liquidate the Fund or to cease operations, or have no realistic alternative but to do so.

The Trustee is responsible for overseeing the Fund's financial reporting process. The Trustee is also responsible for ensuring that the PRS Provider maintains proper accounting and other records as are necessary to enable true and fair presentation of these financial statements.

**INDEPENDENT AUDITORS' REPORT TO THE MEMBERS OF
PRINCIPAL PRS PLUS EQUITY (cont'd.)**

Report on the audit of the financial statements (cont'd.)

Auditors' responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements of the Fund as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with approved standards on auditing in Malaysia and International Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with approved standards on auditing in Malaysia and International Standards on Auditing, we exercise professional judgement and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements of the Fund, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the PRS Provider.
- Conclude on the appropriateness of the PRS Provider's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial statements of the Fund or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements of the Fund, including the disclosures, and whether the financial statements of the Fund represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the PRS Provider regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

**NOTES TO THE FINANCIAL STATEMENTS
FOR FINANCIAL YEAR ENDED 31 JANUARY 2024**

1. THE FUND, THE PRS PROVIDER AND ITS PRINCIPAL ACTIVITIES

Principal PRS Plus Equity (the “Fund”) is governed by a Deed dated 8 November 2012, a First Supplemental Deed dated 2 January 2014, a Second Supplemental Deed dated 25 November 2014, a Third Supplemental Deed dated 3 February 2020, a Fourth Supplemental Deed dated 17 December 2021, a Fifth Supplemental Deed dated 12 July 2022 and a Sixth Supplemental Deed dated 14 June 2023 (collectively referred to as the “Deeds”) between Principal Asset Management Berhad (the “PRS Provider”) and Deutsche Trustees Malaysia Berhad (the “Trustee”).

The Fund offers three classes of units known respectively as Class A, Class C and Class X. In accordance with the Disclosure Document, subject to the PRS Provider’s absolute discretion, Class A and Class C are for an individual who has attained the age 18 years as of the date of opening a private pension account while Class X is for Member who participates via his/her employer. Class A and Class C have different Sales Charge and Management Fee while Class X has no Sales Charge.

The Fund is managed to achieve a defined target return over the long-term through investments in the domestic market. The Fund will invest between 70% to 99.8% (both inclusive) of the Fund’s Net Asset Value (“NAV”) in equities.

However, the Fund may take temporary defensive positions that may detract from the Fund’s prescribed asset allocation when we believe that the equity market is experiencing excessive volatility, expected prolonged declines or when the outlook of the equity market is unfavourable. Under these circumstances, the Fund may reduce its equity exposure and increase its investment in money market instruments to protect the Fund’s investment objective in bearish or non-performing equity market.

The asset allocation strategy for this Fund is as follows:

- Between 70% to 99.8% (both inclusive) of the Fund’s NAV will be invested in equities; and
- At least 0.2% of the Fund’s NAV will be invested in liquid assets for liquidity purpose.

With effect from 1 June 2020, Principal Asset Management (S) Pte Ltd (“Principal Singapore”) has been appointed as the Sub-Adviser of the Fund. Principal Singapore will provide investment research and recommendation to us in accordance with the investment objective and within the investment restrictions of the Fund.

All investments are subjected to the Securities Commission Malaysia (“SC”) Guidelines on Private Retirement Schemes (“PRS”), SC requirements, the Deeds, except where exemptions or variations have been approved by the SC, internal policies and procedures and the Fund’s objective.

The Fund had issued the First Supplemental Disclosure Document dated 30 August 2023.

The PRS Provider, is a joint venture between Principal Financial Group®, a member of the FORTUNE 500® and a Nasdaq-listed global financial services and CIMB Group Holdings Berhad, one of Southeast Asia’s leading universal banking groups. The principal activities of the PRS Provider are the establishment and management of unit trust funds and fund management activities.

2. MATERIAL ACCOUNTING POLICIES

The following accounting policies have been used consistently in dealing with items which are considered material in relation to the financial statements:

(a) Basis of preparation

The financial statements have been prepared in accordance with the provisions of the MFRS as issued by the Malaysian Accounting Standards Board (“MASB”) and IFRS as issued by the International Accounting Standards Board (“IASB”).

The financial statements have been prepared under the historical cost convention, as modified by financial assets at fair value through profit or loss.

The preparation of financial statements in conformity with MFRS and IFRS requires the use of certain critical accounting estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reported year.

It also requires the PRS Provider to exercise their judgement in the process of applying the Fund’s accounting policies. Although these estimates and judgement are based on the PRS Provider’s best knowledge of current events and actions, actual results may differ.

The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements are disclosed in Note 2(l).

There are no other standards, amendments to standards or interpretations that are effective for financial year beginning on 1 February 2023 that have a material effect on the financial statements of the Fund.

None of the standards, amendments to standards or interpretations that are effective for the financial year beginning on/after 1 February 2024 are applicable to the Fund.

(b) Financial assets and financial liabilities

Classification

The Fund classifies its financial assets in the following measurement categories:

- those to be measured subsequently at fair value through profit or loss, and
- those to be measured at amortised cost.

The Fund classifies its investments based on both the Fund’s business model for managing those financial assets and the contractual cash flow characteristics of the financial assets. The portfolio of financial assets is managed and performance is evaluated on a fair value basis. The Fund is primarily focused on fair value information and uses that information to assess the assets’ performance and to make decisions. The Fund has not taken the option to irrevocably designate any equity securities as fair value through other comprehensive income (“OCI”).

2. MATERIAL ACCOUNTING POLICIES (CONTINUED)**(b) Financial assets and financial liabilities (continued)**Classification (continued)

The contractual cash flows of the Fund's debt securities are solely payment of principal and interest ("SPPI"). However, these securities are neither held for the purpose of collecting contractual cash flows nor held both for collecting contractual cash flows and for sale. The collection of contractual cash flows is only incidental to achieving the Fund's business model's objective. Consequently, all investments are measured at fair value through profit or loss.

The Fund classifies cash and cash equivalents, amount due from the PRS Provider – creation of units, amount due from stockbrokers and dividends receivable at amortised cost as these financial assets are held to collect contractual cash flows consisting of the amount outstanding.

All of the Fund's financial liabilities are measured at amortised cost.

Recognition and measurement

Regular purchases and sales of financial assets are recognised on the trade-date, the date on which the Fund commits to purchase or sell the asset. Investments are initially recognised at fair value. Transaction costs are expensed in the statement of comprehensive income.

Financial instruments are recognised in the statement of financial position when, and only when, the Fund becomes a party to the contractual provisions of the financial instrument.

Financial assets are derecognised when the rights to receive cash flows from the investments have expired or have been transferred and the Fund has transferred substantially all risks and rewards of ownership.

Financial liabilities are derecognised when it is extinguished, i.e. when the obligation specified in the contract is discharged or cancelled or expired.

Unrealised gains or losses arising from changes in the fair value of the financial assets at fair value through profit or loss are presented in the statement of comprehensive income within net gain or loss on financial assets at fair value through profit or loss in the financial year which they arise.

Dividend income from financial assets at fair value through profit or loss is recognised in the statement of comprehensive income as part of gross dividend income when the Fund's right to receive payments is established.

Quoted securities in Malaysia are valued at the last done market price quoted on Bursa Malaysia Securities Bhd ("Bursa Securities") at the date of the statement of financial position.

If a valuation based on the market price does not represent the fair value of the quoted securities, for example during abnormal market conditions or when no market price is available, including in the event of a suspension in the quotation of the quoted securities for a period exceeding 14 days, or such shorter period as agreed by the Trustee, then the quoted securities are valued as determined in good faith by the PRS Provider, based on the methods or basis approved by the Trustee after appropriate technical consultation.

2. MATERIAL ACCOUNTING POLICIES (CONTINUED)**(b) Financial assets and financial liabilities (continued)**Recognition and measurement (continued)

Deposits with licensed financial institutions are stated at cost plus accrued interest calculated on the effective interest method over the period from the date of placement to the date of maturity of the respective deposits.

Financial assets at amortised cost and other financial liabilities are subsequently carried at amortised cost using the effective interest method.

Impairment for assets carried at amortised costs

The Fund measures credit risk and expected credit losses ("ECL") using probability of default, exposure at default and loss given default. The PRS Provider considers both historical analysis and forward-looking information in determining any ECL. The PRS Provider considers the probability of default to be close to zero as these instruments have a low risk of default and the counterparties have a strong capacity to meet their contractual obligations in the near term. As a result, no loss allowance has been recognised based on 12-month ECL as any such impairment would be wholly insignificant to the Fund.

Significant increase in credit risk

A significant increase in credit risk is defined by the PRS Provider as any contractual payment which is more than 30 days past due.

Definition of default and credit-impaired financial assets

Any contractual payment which is more than 90 days past due is considered credit impaired.

Write-off

The Fund writes off financial assets, in whole or in part, when it has exhausted all practical recovery efforts and has concluded there is no reasonable expectation of recovery. The assessment of no reasonable expectation of recovery is based on unavailability of debtor's sources of income or assets to generate sufficient future cash flows to repay the amount. The Fund may write-off financial assets that are still subject to enforcement activity. Subsequent recoveries of amounts previously written off will result in impairment gains. There are no write-offs/recoveries during the financial year.

(c) Income recognition

Dividend income is recognised on the ex-dividend date when the right to receive payment is established.

Interest income from deposits with licensed financial institutions is recognised on a time proportionate basis using effective interest rate method on an accrual basis.

Interest income is calculated by applying the effective interest rate to the gross carrying amount of a financial asset except for financial assets that subsequently become credit-impaired. For credit-impaired financial assets the effective interest rate is applied to the net carrying amount of the financial asset (after deduction of the loss allowance).

2. MATERIAL ACCOUNTING POLICIES (CONTINUED)**(c) Income recognition (continued)**

Realised gain or loss on disposal of quoted securities are accounted for as the difference between the net disposal proceeds and the carrying amount of quoted securities, determined on a weighted average cost basis.

(d) Functional and presentation currency

Items included in the financial statements of the Fund are measured using the currency of the primary economic environment in which the Fund operates (the “functional currency”). The financial statements are presented in MYR/RM, which is the Fund’s functional and presentation currency.

(e) Members’ contributions

The members’ contributions to the Fund meet the definition of puttable instruments classified as financial liability under MFRS 132 “Financial Instruments: Presentation”.

The Fund issues cancellable units, in three classes of units, known respectively as the Class A, Class C and Class X, which are cancelled at the member’s option and do not have identical features subject to restrictions as stipulated in the Disclosure Document and SC Guidelines on PRS. The units are classified as financial liabilities. Cancellable units can be reinvested to the Fund at any time for cash equal to a proportionate share of the Fund’s NAV of respective classes. The outstanding units are carried at the redemption amount that is payable at the date of statement of financial position if the member exercises the right to reinvest the unit to the Fund.

Units are created and cancelled at the member’s option at prices based on the Fund’s NAV per unit of respective classes at the close of business on the relevant dealing day. The Fund’s NAV per unit of respective classes is calculated by dividing the net assets attributable to members of respective classes with the total number of outstanding units of respective classes.

(f) Distribution

Distributions to members are recognised in the statement of comprehensive income as the members’ contribution are classified as financial liability. Distribution is reinvested into the PRS on the ex-date. Reinvestment of units is based on the NAV per unit on the ex-date, which is also the time of creation. Proposed distributions are recognised as a liability in the financial year in which it is approved by the Trustee.

(g) Transactions cost

Transaction costs are costs incurred to acquire or dispose financial assets or liabilities at fair value through profit or loss. They include fees and commissions paid to agents, advisors, brokers and dealers. Transaction costs, when incurred, are immediately recognised in the statement of comprehensive income as expenses.

(h) Cash and cash equivalents

For the purpose of statement of cash flows, cash and cash equivalents comprise bank balance and deposit with licensed financial institutions held in highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

2. MATERIAL ACCOUNTING POLICIES (CONTINUED)**(i) Taxation**

Current tax expense is determined according to Malaysian tax laws at the current rate based upon the taxable profit earned during the financial year.

Withholding taxes on investment income from investment are based on tax regime of the respective countries that the Fund invests in. Such withholding taxes are not "income tax" in nature and are recognised and measured based on the requirements of MFRS 137. They are presented within other expenses line in the statement of comprehensive income.

(j) Amount due from/to stockbrokers

Amount due from and amount due to stockbrokers represent receivables for quoted securities sold and payables for quoted securities purchased that have been contracted for but not yet settled or delivered on the statement of financial position date respectively.

(k) Realised and unrealised portions of profit or loss after taxation

The analysis of realised and unrealised profit/loss after taxation as presented on the statement of comprehensive income is prepared in accordance with SC Guidelines on PRS.

(l) Critical accounting estimates and judgements in applying accounting policies

The Fund makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, rarely equal the related actual results. To enhance the information content of the estimates, certain key variables that are anticipated to have material impact to the Fund's results and financial position are tested for sensitivity to changes in the underlying parameters.

Estimates and judgements are continually evaluated by the PRS Provider and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

In undertaking any of the Fund's investment, the PRS Provider will ensure that all assets of the Fund under management will be valued appropriately, that is at fair value and in compliance with the SC Guidelines on PRS.

However, the PRS Provider is of the opinion that there are no accounting policies which require significant judgement to be exercised.

3. FINANCIAL INSTRUMENTS RISK MANAGEMENT OBJECTIVES AND POLICIES

Financial instruments of the Fund are as follows:

	Financial assets at fair value through profit or loss RM	Financial assets at amortised cost RM	Total RM
2024			
Cash and cash equivalents (Note 9)	-	853,565	853,565
Quoted securities (Note 8)	13,436,687	-	13,436,687
Amount due from the PRS Provider

Dividends receivable	-	498	498
	11,865,654	948,883	12,814,537

All liabilities are financial liabilities which are carried at amortised cost.

The investment objective of the Fund is to provide capital growth over the long-term by investing in the domestic market.

The Fund is exposed to a variety of risks which include market risk (inclusive of price risk and interest rate risk), credit risk and liquidity risk.

Financial risk management is carried out through internal control process adopted by the PRS Provider and adherence to the investment restrictions as stipulated in the Deeds and SC Guidelines on PRS.

(a) Market risk

(i) Price risk

This is the risk that the fair value of the Fund's investment will fluctuate because of changes in market prices (other than those arising from interest rate risk). The value of investment may fluctuate according to the activities of individual companies, sector and overall political and economic conditions. Such fluctuation may cause the Fund's NAV and prices of units to fall as well as rise, and income produced by the Fund may also fluctuate.

The price risk is managed through diversification and selection of quoted securities and other financial instruments within specified limits according to the Deeds.

3. FINANCIAL INSTRUMENTS RISK MANAGEMENT OBJECTIVES AND POLICIES (CONTINUED)

(a) Market risk (continued)

(i) Price risk (continued)

The Fund's overall exposure to price risk was as follows:

	2024 RM	2023 RM
Financial assets at fair value through profit or loss:		
- Quoted securities	<u>13,436,687</u>	<u>11,865,654</u>

The table below summarises the sensitivity of the Fund's profit or loss and NAV to movements in prices of quoted securities at the end of each reporting year. The analysis is based on the assumptions that the price of the quoted securities fluctuates by 5% with all other variables held constant. This represents the PRS Provider's best estimate of a reasonable possible shift in the quoted securities, having regard to the historical volatility of the prices.

% Change in price of quoted securities	Market value RM	Impact on profit or loss/NAV RM
2024		
-5%	12,764,853	(671,834)
0%	13,436,687	-
+5%	<u>14,108,521</u>	<u>671,834</u>
2023		
-5%	11,272,371	(593,283)
0%	11,865,654	-
+5%	<u>12,458,937</u>	<u>593,283</u>

(ii) Interest rate risk

Interest rate is a general economic indicator that will have an impact on the management of the Fund.

Fair value interest rate risk is the risk that the value of a financial instrument will fluctuate due to changes in market interest rates.

The Fund's exposure to fair value interest rate risk arises from investment in money market instruments. The interest rate risk is expected to be minimal as the Fund's investments comprise mainly short-term deposits with approved licensed financial institutions.

Cash flow interest rate risk is the risk that the future cash flows of a financial instrument will fluctuate because of changes in market interest rates.

The Fund is not exposed to cash flow interest rate risk as the Fund does not hold any financial instruments at variable interest rate.

3. FINANCIAL INSTRUMENTS RISK MANAGEMENT OBJECTIVES AND POLICIES (CONTINUED)

(a) Market risk (continued)

(ii) Interest rate risk (continued)

As at the end of each financial year, the Fund is not exposed to a material level of interest rate risk.

The weighted average effective interest rate per annum is as follows:

	2024 %	2023 %
Deposits with licensed financial institutions	<u>3.20</u>	<u>2.80</u>

(b) Credit risk

Credit risk refers to the risk that a counter party will default on its contractual obligation resulting in financial loss to the Fund.

The credit risk arising from cash and cash equivalents is managed by ensuring that the Fund will only place deposits in reputable licensed financial institutions.

For amount due from stockbrokers, the settlement terms are governed by the relevant rules and regulations as prescribed by respective stock exchanges. The credit risk is minimal as all transactions in quoted securities are settled/paid upon delivery using approved stockbrokers.

For amount due from the PRS Provider, the settlement terms of the proceeds from the creation of units receivable from the PRS Provider are governed by the SC Guidelines on PRS.

The following table sets out the credit risk concentration of the Fund:

	Cash and cash equivalents RM	Amount due from the PRS Provider - creation of unit RM	Amount due from stockbrokers RM	Dividends receivable R.2M	Total RM

3. FINANCIAL INSTRUMENTS RISK MANAGEMENT OBJECTIVES AND POLICIES (CONTINUED)

(c) Liquidity risk

Liquidity risk is the risk that the Fund will encounter difficulty in meeting its financial obligations.

The PRS Provider manages this risk by maintaining sufficient level of liquid assets to meet anticipated payments and cancellations of the units by members. Liquid assets comprise bank balances and deposits with licensed financial institutions, which are capable of being converted into cash within 7 business days. Generally, all investments are subject to a certain degree of liquidity risk depending on the nature of the investment instruments, market, sector and other factors. For the purpose of the Fund, the PRS Provider will attempt to balance the entire portfolio by investing in a mix of assets with satisfactory trading volume and those that occasionally could encounter poor liquidity. This is expected to reduce the risks for the entire portfolio without limiting the Fund's growth potential.

The table below summarises the Fund's financial liabilities into relevant maturity groupings based on the remaining financial year as at the statement of financial position date to the contractual maturity date. The amounts in the table are the contractual undiscounted cash flows.

* Outstanding units are redeemed on demand at the member's option. However, the PRS Provider does not envisage that the contractual maturity disclosed in the table above will be representative of the actual cash outflows, as holders of these instruments typically retain them for the medium for long term.

3. FINANCIAL INSTRUMENTS RISK MANAGEMENT OBJECTIVES AND POLICIES (CONTINUED)

(d) Capital risk management

The capital of the Fund is represented by net asset attributable to members of RM14,372,236 (2023: RM12,302,202). The amount of net asset attributable to members can change significantly on a daily basis as the Fund is subject to daily subscriptions and redemptions at the discretion of members. The Fund's objective when managing capital is to safeguard the Fund's ability to continue as a going concern in order to provide returns to members and benefits for other stakeholders and to maintain a strong capital base to support the development of the investment activities of the Fund.

(e) Fair value estimation

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e. an exit price).

The fair values of financial assets traded in active markets (such as trading securities) are based on quoted market prices at the close of trading on the financial year end date. The Fund utilises the last traded market price for financial assets where the last traded price falls within the bid-ask spread. In circumstances where the last traded price is not within the bid-ask spread, the PRS Provider will determine the point within the bid-ask spread that is most representative of the fair value.

An active market is a market in which transactions for the asset or liability take place with sufficient frequency and volume to provide pricing information on an ongoing basis.

The fair value of financial assets that are not traded in an active market is determined by using valuation techniques.

(i) Fair value hierarchy

The table below analyses financial instruments carried at fair value. The different levels have been defined as follows:

- Quoted prices (unadjusted) in active market for identical assets or liabilities (Level 1)
- Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) (Level 2)
- Inputs for the asset and liability that are not based on observable market data (that is, unobservable inputs) (Level 3)

The level in the fair value hierarchy within which the fair value measurement is categorised in its entirety is determined on the basis of the lowest level input that is significant to the fair value measurement in its entirety. For this purpose, the significance of an input is assessed against the fair value measurement in its entirety.

If a fair value measurement uses observable inputs that require significant adjustment based on unobservable inputs, that measurement is a Level 3 measurement.

3. FINANCIAL INSTRUMENTS RISK MANAGEMENT OBJECTIVES AND POLICIES (CONTINUED)

(e) Fair value estimation (continued)

(i) Fair value hierarchy (continued)

Assessing the significance of a particular input to the fair value measurement in its entirety requires judgement, considering factors specific to the asset or liability.

The determination of what constitutes ‘observable’ requires significant judgement by the Fund. The Fund considers observable data to be that market data that is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market.

	Level 1 RM	Level 2 RM	Level 3 RM	Total RM
2024				
Financial assets at fair value through profit or loss:				
- Quoted securities	13,436,687	-	-	13,436,687
2023				
Financial assets at fair value through profit or loss:				
- Quoted securities	11,865,654	-	-	11,865,654

Quoted securities whose values are based on quoted market prices in active markets, and are therefore classified within Level 1, include active listed equities. The Fund does not adjust the quoted prices for these instruments. The Fund’s policies on valuation of these financial assets are stated in Note 2(b).

- (ii) The carrying values of cash and cash equivalents, amount due from the PRS Provider - creation of units, amount due from stockbrokers, dividends receivable and all current liabilities are a reasonable approximation of their fair values due to their short-term nature.

4. MANAGEMENT FEE AND PRIVATE PENSION ADMINISTRATOR ADMINISTRATION FEE

In accordance with the Deeds, the PRS Provider is entitled to a maximum management fee of 3.00% per annum for each unit class, calculated daily based on the NAV of the Fund.

For the financial year ended 31 January 2024 and 31 January 2023, the management fee for the respective classes is recognised at the following rates:

Class A	Class C	Class X
1.40%	1.50%	1.40%

Nonetheless, no management fee is charged on the Fund for the financial year as the management fee has been waived by the PRS Provider.

4. MANAGEMENT FEE AND PRIVATE PENSION ADMINISTRATOR ADMINISTRATION FEE (CONTINUED)

The Private Pension Administrator administration fee is recognised at a rate of 0.04% per annum (2023: 0.04% per annum) for each unit class, calculated daily based on the NAV of the Fund.

There was no further liability in respect of management fee and Private Pension Administrator administration fee other than the amount recognised above.

5. TRUSTEE FEE

In accordance with the Deeds, the Trustee is entitled to a maximum fee of 0.04% per annum for each unit class, calculated daily based on the NAV of the Fund. The Trustee fee includes local custodian fees but excluding foreign custodian fee and charges (if any).

For the financial year ended 31 January 2024, the Trustee fee is recognised at a rate of 0.04% per annum (2023: 0.04% per annum) for each unit class.

There was no further liability to the Trustee in respect of Trustee fee other than the amount recognised above.

6. DISTRIBUTION

Breakdown of distribution were as follows:

Source of distribution	2024		2023	
	RM	%	RM	%
Distribution out of current year's income	-	-	186,489	28.08
Distribution out of prior year's income/capital*	-	-	477,707	71.92

Gross/Net distribution per unit (sen)

Distribution on 12 August 2022

- Class A	-	3.25
- Class C	-	3.25
- Class X	-	3.25

* Distribution income has been accrued as at the end of the prior financial year but is not declared and paid as distribution.

Gross distribution was derived using total income less total expenses. Net distribution above was sourced from current and prior financial years' realised income.

Gross distribution per unit was derived from gross realised income less expenses, divided by the number of units in circulation. Net distribution per unit was derived from gross realised income less expenses and taxation, divided by the number of units in circulation.

There were no unrealised losses during the financial year ended 31 January 2024 (2023: nil).

TER	0.25	0.29

TER is derived from the following calculation:

$$\text{TER} = \frac{(A + B + C + D + E) \times 100}{F}$$

- A = Private Pension Administrator administration fee
- B = Trustee fee
- C = Audit fee
- D = Tax agent’s fee
- E = Other expenses excluding withholding tax
- F = Average NAV of the Fund calculated on a daily basis

The average NAV of the Fund for the financial year calculated on a daily basis is RM12,463,177 (2023: RM11,529,734).

12. PORTFOLIO TURNOVER RATIO (“PTR”)

	2024	2023
PTR (times)	0.60	0.54

PTR is derived based on the following calculation:

$$\frac{(\text{Total acquisition for the financial year} + \text{total disposal for the financial year}) \div 2}{\text{Average NAV of the Fund for the financial year calculated on a daily basis}}$$

where:

- total acquisition for the financial year = RM7,695,842 (2023: RM7,028,704)
- total disposal for the financial year = RM7,330,045 (2023: RM5,485,403)
