EQUITY FUNDS

1.1.1. PRINCIPAL DALI EQUITY GROWTH FUND

Fund Category/Type	: Equity (Shariah-compliant) / Growth.
Investment Objective	: To achieve consistent capital growth over the medium to long-term. <i>We will require your approval if there is any material change to the Fund's investment objective.</i>
Benchmark	: FTSE Bursa Malaysia EMAS Shariah Index. Note: <i>The Fund's benchmark is for performance comparison purpose only. You are cautioned that the risk profile of the Fund is higher than the benchmark. Information on the benchmark can be obtained from www.bursamalaysia.com.</i>
Distribution Policy	: We have the discretion to distribute a part or all of the Class's distributable income. The distribution (if any) may vary from period to period depending on the investment objective and the performance of the Class.
Base currency	: MYR

Investment Policy and Strategy

The Fund may invest a minimum of 70% and up to a maximum of 98% of its NAV principally in Shariah-compliant equities aimed to provide growth and up to 28% of its NAV in other permissible Shariah-compliant investments, such as Sukuk with a minimum credit rating of "A3" or "P2" by RAM or equivalent rating by MARC or by local rating agency(ies) of the country of issuance; or "BBB-" by S&P or equivalent rating by any other international rating agencies. The Fund may also opt to seek investment exposure via Islamic CIS that is in line with the Fund's objective, subject to the requirements of the GUTF. In line with its objective, the investment strategy and policy of the Fund is to rebalance the portfolio to suit market conditions in order to reduce short-term volatility and provide consistency in capital growth. With effect from 28 April 2023, the Fund may invest up to 25% of its NAV in any Eligible Market globally with some operations or businesses in Malaysia to capture growth opportunities.

The asset allocation strategy for this Fund is as follows:

- between 70% to 98% (both inclusive) of the Fund's NAV will be invested in Shariah-compliant equities;
- up to 28% of the Fund's NAV in other permissible Shariah-compliant investments; and
- at least 2% of the Fund's NAV will be invested in Islamic liquid assets.

The asset allocation will be reviewed periodically depending on the country's economic and stock market outlook. In a rising market, the 98% limit may be exceeded. However, we will seek to adjust this within three (3) months from the date the limit is exceeded.

We combine a top-down asset and sector allocation process with a bottom-up stock selection process. The asset allocation decision is made after a review of macroeconomic trends in Malaysia and other global economies. In particular, we analyze the direction of GDP growth, interest rates, inflation, currencies and government policies. We will then assess their impact on corporate earnings and determine if there are any predictable trends. These trends form the basis for sector selection. Stock selection is based on the growth style of equity investing. As such, the criteria for stock selection would include improving fundamentals and growth at reasonable valuations. Stock valuation fundamentals considered are earnings per share growth rate, return on equity, price earnings ratio and net tangible assets multiples.

As part of its risk management strategy, the Fund is constructed and managed within pre-determined guidelines. We employ an active asset allocation strategy depending upon the equity market expectation. Where appropriate, we will also employ an active trading strategy with frequency that will depend on the market conditions and the market outlook.

The Fund adopts a liquidity risk management framework which sets out the governance standards, methodology and process for the oversight and management of liquidity risk. The framework outlines the responsibilities to assess and monitor liquidity risk of the Fund, and to ensure appropriate measures are taken to mitigate the risk. The liquidity risk management framework that we have put in place is as follows:

- Regular review by the designated fund manager on the Fund's investment portfolio to maintain its liquidity level.
- Periodic assessments are carried out on the Fund's liquidity profile (under both normal and stress market conditions) and on the concentration of unitholders. These assessments allow the Fund to be proactively managed to mitigate liquidity concerns that may arise in the ordinary course of portfolio management as well as in relation to the Fund's ability to meet unitholders' withdrawal requests.
- Suspension of withdrawal requests due to exceptional circumstances. During the suspension period, withdrawal requests will not be accepted and in the event we have earlier accepted the withdrawal requests prior to the suspension is declared, the withdrawal requests will be dealt on the next Business Day once the suspension is lifted. The action to suspend withdrawal requests from Unit holders shall be exercised only as a last resort by the Manager.

Note: Please refer to Section 3.10 for more information.

We may lower down the equity exposure when it feels that the equity market is close to its peak in term of valuations, and/or the market condition is unfavourable. In such circumstances, we may take a temporary defensive position by either (1) reducing its proportion of higher risk assets, such as Shariah-compliant equities and increase its asset allocation to lower risk assets, such as Sukuk and Islamic liquid assets, to safeguard the investment portfolio of the Fund, and/or (2) investing in Shariah-compliant stocks that have low correlation to market movements. When deemed necessary, we may also utilize Islamic derivative instruments, subject to the GUTF, for the purpose of hedging. In the event of a downgrade of a counter-party of an OTC Islamic derivative below the minimum long-term rating as per the GUTF, we reserve the right to deal with the OTC Islamic derivative in the best interest of the Unit holders.

If the Fund is an EPF-MIS approved fund, the investments made by the Fund will be subject to EPF's requirements. Please note there may be changes to the status of the Fund, you may refer to our website at www.principal.com.my or www.kwsp.gov.my for updated information.

Investment Policy and Strategy

The Fund is a Shariah-compliant equity growth fund and it may invest a minimum of 70% and up to a maximum of 98% of its NAV principally in Shariah-compliant equities aimed to provide growth and up to 28% of its NAV in other permissible Shariah-compliant investments, such as Sukuk with a minimum credit rating of "A3" or "P2" by RAM or equivalent rating by MARC or by local rating agency(ies) of the country of issuance; or "BBB-" by S&P or equivalent rating by any other international rating agencies. The Fund may opt to invest in foreign Shariah-compliant equities up to a maximum of 30% of its NAV. Such foreign Shariah-compliant equities may be securities of companies domiciled in, listed in and/or have significant operations in countries in the Asia Pacific ex Japan. 'Significant operations' means major businesses of the company. For example, the Fund can invest in a company with significant business and/or operations in Thailand but listed on the New York Stock Exchange. The threshold for 'significant operations' would be if more than 25% of total group revenue derives from countries in Asia Pacific ex Japan. The calculation would be based on the most recent financial reports released by the companies (e.g. interim and annual reports). Notwithstanding, up to 20% of the Fund's investment in foreign Shariah-compliant equities may be from companies that are listed globally with some operations or businesses within the Asia Pacific ex Japan region to capture growth opportunities with effect from 16 August 2021. The Fund may also opt to seek investment exposure via Islamic CIS that is in line with the Fund's objective, subject to the requirements of the GUTF. In line with its objective, the investment strategy and policy of the Fund is to rebalance the portfolio to suit market conditions in order to reduce short-term volatility and provide consistency in capital growth.

The asset allocation strategy for this Fund is as follows:

- between 70% to 98% (both inclusive) of the Fund's NAV will be invested in Shariah-compliant equities;
- up to 28% of the Fund's NAV in other permissible Shariah-compliant investments; and
- at least 2% of the Fund's NAV in Islamic liquid assets.

The asset allocation will be reviewed periodically depending on the country's economic and stock market outlook. In a rising market, the 98% limit may be exceeded. However, we will seek to adjust this within three (3) months from the date the limit is exceeded.

We combine a top-down asset and sector allocation process with a bottom-up stock selection process. The asset allocation decision is made after a review of macroeconomic trends in Malaysia and other global economies. In particular, we analyze the direction of GDP growth, interest rates, inflation, currencies and government policies. We will then assess their impact on corporate earnings and determine if there are any predictable trends. These trends form the basis for sector selection. Stock selection is based on the growth style of equity investing. As such, the criteria for stock selection would include improving fundamentals and growth at reasonable valuations. Stock valuation fundamentals considered are earnings per share growth rate, return on equity, price earnings ratio and net tangible assets multiples.

The Fund may invest up to 30% of its NAV in foreign Eligible Markets. Where necessary, we will obtain the licenses/permits for investments in countries that require licenses/permits. If we are unable to obtain the necessary licenses/permits, or the licenses/permits are revoked or not renewed (as the case may be), we will seek to invest in other accessible markets. Notwithstanding the aforesaid, we may decide not to invest in foreign securities.

We have appointed Principal Singapore as the Sub-Manager for the foreign investments of the Fund. The Sub-Manager will be investing and managing these foreign investments in accordance with the investment objective and within the investment restrictions. Nevertheless, we are equally responsible for the investments of the Fund. All costs of this appointment will be borne by us to ensure no additional fee is levied on you.

As part of its risk management strategy, the Fund is constructed and managed within pre-determined guidelines. We employ an active asset allocation strategy depending upon the equity market expectation. Where appropriate, we will also employ an active trading strategy with frequency that will depend on the market conditions and the market outlook.

The Fund adopts a liquidity risk management framework which sets out the governance standards, methodology and process for the oversight and management of liquidity risk. The framework outlines the responsibilities to assess and monitor liquidity risk of the Fund, and to ensure appropriate measures are taken to mitigate the risk. The liquidity risk management framework that we have put in place is as follows:

- Regular review by the designated fund manager on the Fund's investment portfolio to maintain its liquidity level.
- Periodic assessments are carried out on the Fund's liquidity profile (under both normal and stress market conditions) and on the concentration of unitholders. These assessments allow the Fund to be proactively managed to mitigate liquidity concerns that may arise in the ordinary course of portfolio management as well as in relation to the Fund's ability to meet unitholders' withdrawal requests.
- Suspension of withdrawal requests due to exceptional circumstances. During the suspension period, withdrawal requests will not be accepted and in the event we have earlier accepted the withdrawal requests prior to the suspension is declared, the withdrawal requests will be dealt on the next Business Day once the suspension is lifted. The action to suspend withdrawal requests from Unit holders shall be exercised only as a last resort by the Manager.

Note: Please refer to Section 3.10 for more information.

We may lower down the equity exposure when it feels that the equity market is close to its peak in term of valuations, and/or the market condition is unfavourable. In such circumstances, we may take a temporary defensive position by either (1) reducing its proportion of higher risk assets, such as Shariah-compliant equities and increase its asset allocation to lower risk assets, such as Sukuk and Islamic liquid assets, to safeguard the investment portfolio of the Fund, and/or (2) investing in Shariah-compliant stocks that have low correlation to market movements. When deemed necessary, we may also utilize Islamic derivative instruments, subject to the GUTF, for the purpose of hedging. In the event of a downgrade of a counter-party of an OTC Islamic derivative below the minimum long-term rating as per the GUTF, we reserve the right to deal with the OTC Islamic derivative in the best interest of the Unit holders.

If the Fund is an EPF-MIS approved fund, the investments made by the Fund will be subject to EPF's requirements. Please note there may be changes to the status of the Fund, you may refer to our website at www.principal.com.my or www.kwsp.gov.my for updated information.

Base currency	: MYR

Investment Policy and Strategy

The Fund seeks to achieve its objective by investing a minimum of 70% and up to 98% of its NAV in Shariah-compliant Malaysian equities. The Fund may also invest up to 30% of the Fund's NAV in other Shariah-compliant investments, such as Sukuk, and Islamic liquid assets, with at least 2% of the Fund's NAV maintained in the form of Islamic liquid assets such as Islamic money market instruments and/or Islamic Deposits for liquidity purpose. For this Fund, the investment in Sukuk must satisfy a minimum credit rating of "A3" or "P2" by RAM or equivalent rating by MARC; or "BBB-" by S&P or equivalent rating by any other international rating agencies. The Fund may also opt to seek investment exposure via Islamic CIS that is in line with the Fund's objective, subject to the requirements of the GUTF. In line with its objective, the investment strategy and policy of the Fund is to rebalance the portfolio to suit market conditions in order to reduce short-term volatility and provide consistency in capital growth.

The asset allocation strategy for this Fund is as follows:

- between 70% to 98% (both inclusive) of the Fund's NAV will be invested in Shariah-compliant Malaysian equities; and
- up to 30% of the Fund's NAV in other Shariah-compliant investments and Islamic liquid assets, with at least 2% of the Fund's NAV to be maintained in Islamic liquid assets.

The asset allocation will be reviewed periodically depending on the country's economic and stock market outlook. In a rising market, the 98% limit may be exceeded. However, we will seek to rectify this within three (3) months from the date the limit is exceeded.

We combine a top-down asset and sector allocation process with a bottom-up stock selection process. The asset allocation decision is made after a review of macroeconomic trends in Malaysia and other global economies. We will then assess their impact on corporate earnings and determine if there are any predictable trends. These trends form the basis for sector selection. Stock selection is based on the growth style of equity investing. As such, the criteria for stock selection would include improving fundamentals and growth at "reasonable valuations"*. Stock valuation fundamentals considered are earnings per share growth rate, return on equity, price earnings ratio and net tangible assets multiples.

As part of its risk management strategy, the Fund is constructed and managed within pre-determined guidelines. We employ an active asset allocation strategy depending upon the equity market expectation. The action to suspend withdrawal requests from Unit holders shall be exercised only as a last resort by the Manager.

Note: Please refer to Section 3.10 for more information.

As this is an equity fund, it has a proportionally higher equity exposure. Thus, we are unable to take equity exposure down substantially even if it feels that the market is close to its peak. We will therefore take a defensive stance and invest in Shariah-compliant stocks that have low correlation to market movements. Notwithstanding the aforesaid, in times of adversity in equity markets and as part of its risk management strategy, we may from time to time reduce its proportion of higher risk assets, such

as Shariah-compliant equities and increase its asset allocation to lower risk assets, such as Sukuk and Islamic liquid assets, to safeguard the investment portfolio of the Fund. When deemed necessary, we may also utilize Islamic derivative instruments, subject to the GUTF, for the purpose of hedging. In the event of a downgrade of a counter-party of an OTC Islamic derivative below the minimum long-term rating as per the GUTF, we reserve the right to deal with the OTC Islamic derivative in the best interest of the Unit holders.

Investment Policy and Strategy

The Fund may invest a minimum of 70% and up to a maximum of 98% of the Fund's NAV in Shariah-compliant stocks of emerging companies*. The investment policy and strategy of the Fund will therefore focus on investments in Shariah-compliant instruments of such emerging companies* with potential growth and hands-on management policies but may be lacking in track records. The Fund may also invest up to 28% of its NAV in other permissible Shariah-compliant investments such as Islamic fixed income securities for the purpose of cash management. The Fund may also opt to seek investment exposure via Islamic CIS that is in line with the Fund's objective, subject to the requirements of the GUTF. In addition, Islamic liquid assets may be strategically used if we feel that the market downside risk is high in the short-term. With effect from 28 April 2023, the Fund may invest up to 25% of its NAV in emerging companies* that are listed in any Eligible Markets globally with some operations or businesses in Malaysia to capture growth opportunities.

Before 28 April 2023,

**Emerging companies in this context refers to companies that are listed on Bursa Malaysia with market capitalization of up to three (3) billion MYR at the point of purchase. However, should there be lack of liquidity or when we deem necessary to reduce volatility of the Fund, the Fund may invest up to 20% of its NAV in companies with market capitalization above three (3) billion MYR at the point of purchase.*

With effect from 28 April 2023,

**Emerging companies in this context referring to the following:*

*(a) companies with market capitalization of up to five (5) billion MYR at the point of purchase; or
(b) stocks of companies which form the bottom 15% of the cumulative market capitalisation of the market which the Shariah-compliant stock is listed on at the point of purchase.*

However, the Fund may invest up to 20% of its NAV in companies with market capitalization above five (5) billion MYR at the point of purchase.

The asset allocation strategy for this Fund is as follows:

- between 70% to 98% (both inclusive) of the Fund's NAV will be invested in Shariah-compliant equities;
- up to 28% of the Fund's NAV in other permissible Shariah-compliant investments; and
- at least 2% of the Fund's NAV in Islamic liquid assets.

The asset allocation will be reviewed periodically depending on the country's economic and stock market outlook. In a rising market, the 98% limit may be exceeded. However, we will seek to adjust this within three (3) months from the date the limit is exceeded.

We combine a top-down asset and sector allocation process with a bottom-up stock selection process. The asset allocation decision is made after a review of macroeconomic trends in Malaysia and other global economies. In particular, we analyze the direction of GDP growth, interest rates, inflation, currencies and government policies. We will then assess their impact on corporate earnings and determine if there are any predictable trends. These trends form the basis for sector selection. Stock selection is based on the growth style of equity investing. As such, the criteria for stock selection would include improving fundamentals and growth at reasonable valuations. Stock valuation fundamentals considered are earnings per share growth rate, return on equity, price earnings ratio and net tangible assets multiples.

As Shariah-compliant small cap stocks tend to be under-researched, we will depend upon proprietary research and selected research from brokers. In particular, stock selection will depend upon the growth potential of the company and its industry, management quality, franchise value and corporate governance considerations. The key strategy is to invest in Shariah-compliant companies that are trading below their intrinsic values and selling them when the share price has passed their intrinsic values.

As part of its risk management strategy, the Fund is constructed and managed within pre-determined guidelines. We employ an active asset allocation strategy depending upon the equity market expectation. Where appropriate, we will also employ an active trading strategy with frequency that will depend on the market conditions and market outlook.

Up to 30% of the Fund may also invest into Sukuk and Islamic Deposits. For this Fund, the investments in Sukuk must satisfy a minimum rating requirement of at least a "BBB3" or "P2" rating by RAM or equivalent rating by MARC or by local rating agency(ies) of the country of issuance; or "BB" by S&P or equivalent rating by any other international rating agencies.

The asset allocation strategy for this Fund is as follows:

- at least 70% of the Fund's NAV will be invested in Shariah-compliant equities;
- up to 30% of the Fund's NAV in Sukuk and Islamic Deposits; and
- at least 2% of the Fund's NAV in Islamic liquid assets.

We have appointed Principal Singapore as the Sub-Manager for the foreign investments of the Fund. The Sub-Manager will be investing and managing these foreign investments in accordance with the investment objective and within the investment restrictions. Nevertheless, we are equally responsible for the investments of the Fund. All costs of this appointment will be borne by us to ensure no additional fee is levied on you.

We and/or the Sub-Manager will adopt an active investment strategy. The countries and securities invested in this Fund will undergo a rigorous research exercise before they are included in the respective portfolios. Even though the combination of both bottom-up and top-down investment approaches ultimately drive the process, we believe long-term investment performance can be achieved by employing a rigorous research process that enables us to identify companies that generate superior returns as well as by identifying companies that are undervalued.

Fundamental and valuation analysis (bottom-up) forms an integral part of our research effort. Key elements of this include:

- fundamental evaluation;
- valuation analysis; and
- financial models.

In addition, company visits, meetings with management and participation in conference calls are important to our research effort. In the stock screening process, we will actively screen reasonable number of equities from a larger universe. The top-down assessment of the markets and asset allocation involves a detailed quarterly review of market conditions and risk adjusted expectations across asset classes and regions in order to establish internal targeted allocations for the various portfolios. We may invest the assets of the Fund, from time to time, in any industry or sector, which in its opinion offers good growth opportunity and investment value provided that the investments are within the investment objective of this Fund.

As part of its risk management strategy, the Fund is constructed and managed within pre-determined guidelines. We employ an active asset allocation strategy depending upon the equity market expectations. Where appropriate, we will also employ an active trading strategy with frequency that will depend on the market conditions and the market outlook.

The Fund adopts a liquidity risk management framework which sets out the governance standards, methodology and process for the oversight and management of liquidity risk. The framework outlines the responsibilities to assess and monitor liquidity risk of the Fund, and to ensure appropriate measures are taken to mitigate the risk. The liquidity risk management framework that we have put in place is as follows:

- Regular review by the designated fund manager on the Fund's investment portfolio to maintain its liquidity level.
- Periodic assessments are carried out on the Fund's liquidity profile (under both normal and stress market conditions) and on the concentration of unitholders. These assessments allow the Fund to be proactively managed to mitigate liquidity concerns that may arise in the ordinary course of portfolio management as well as in relation to the Fund's ability to meet unitholders' withdrawal requests.
- Suspension of withdrawal requests due to exceptional circumstances. During the suspension period, withdrawal requests will not be accepted and in the event we have earlier accepted the withdrawal requests prior to the suspension is declared, the withdrawal requests will be dealt on the next Business Day once the suspension is lifted. The action to suspend withdrawal requests from Unit holders shall be exercised only as a last resort by the Manager.

Note: Please refer to Section 3.10 for more information.

In response to adverse conditions and as part of its risk management strategy, we may from time to time reduce its proportion of higher risk assets, such as equities and increase its asset allocation to lower risk assets, such as Sukuk and Islamic liquid assets, to safeguard the investment portfolio of the Fund provided that such investments conform to the Shariah principles. When deemed necessary, we may also utilize Islamic derivative instruments, subject to the GUTF, for the purpose of hedging. In the event of a downgrade of a counter-party of an OTC Islamic derivative below the minimum long-term rating as per the GUTF, we reserve the right to deal with the OTC Islamic derivative in the best interest of the Unit holders.

If the Fund is an EPF-MIS approved fund, the investments made by the Fund will be subject to EPF's requirements. Please note there may be changes to the status of the Fund, you may refer to our website at www.principal.com.my or www.kwsp.gov.my for updated information.

Investment Policy and Strategy

The Fund aims to invest in a diversified portfolio of Shariah-compliant equities and Islamic fixed income securities. In line with its objective, the investment policy and strategy will be to maintain a balanced portfolio between Shariah-compliant equities and Islamic fixed income securities in the ratio of 60:40. The fixed income portion of the Fund is to provide some capital stability to the Fund whilst the equity portion will provide the added return in a rising market. The investments by the Fund in Shariah-compliant equities shall not exceed 60% of the NAV of the Fund and investments in Islamic fixed income securities and Islamic liquid assets shall not be less than 40% of the NAV of the Fund with a minimum credit rating of "BBB3" or "P2" by RAM or equivalent rating by MARC or by local rating agency(ies) of the country of issuance; or "BBB-" by S&P or equivalent rating by any other international rating agencies. The Fund may invest up to 40% of its NAV in Unrated Islamic fixed income securities. The Fund may opt to invest in foreign Shariah-compliant equities up to a maximum of 30% of its NAV. Such foreign Shariah-compliant equities may be of securities of companies domiciled in, listed in, and/or have significant operations in countries in Asia Pacific ex Japan. 'Significant operations' means major businesses of the company. For example, the Fund can invest in a company with significant business and/or operations in Thailand but listed on the New York Stock Exchange. The threshold for 'significant operations' would be if more than 25% of total group revenue derives from countries in Asia Pacific ex Japan. The calculation would be based on the most recent financial reports released by the companies (e.g. interim and annual reports). Notwithstanding, up to 20% of the Fund's investment in foreign Shariah-compliant equities may be from companies that are listed globally with some operations or businesses within the Asia Pacific ex Japan region to capture growth opportunities with effect from 16 August 2021. The Fund may also opt to seek investment exposure via Islamic CIS that is in line with the Fund's objective, subject to the requirements of the GUTF.

The asset allocation strategy for this Fund is as follows:

- the Shariah-compliant equities will not exceed 60% of the NAV of the Fund, subject to a minimum of 40%;
- investments in Islamic fixed income securities and Islamic liquid assets shall not be less than 40% of the NAV of the Fund, subject to a maximum of 60%;
- up to 40% of the Fund's NAV in Unrated Islamic fixed income securities; and
- at least 2% of the Fund's NAV in Islamic liquid assets.

The asset allocation will be reviewed periodically depending on the country's economy and stocks market outlook. In a rising market, the 60% limit may be exceeded. However, we will seek to adjust this within three (3) months from the date the limit is exceeded.

We will adopt an active trading strategy with frequency that will depend on the market conditions and market outlook. For the equities portion, we combine a top-down asset and sector allocation process with a bottom-up stock selection process. The asset allocation decision is made after a review of macroeconomic trends in Malaysia and other global economies. In particular, we analyze the direction of GDP growth, interest rates, inflation, currencies and government policies. We will then assess their impact on corporate earnings and determine if there are any predictable trends. These trends form the basis for sector selection. Stock selection is based on the growth style of equity investing. As such, the criteria for stock selection would include improving fundamentals and growth at reasonable valuations. Stock valuation fundamentals considered are earnings per share growth rate, return on equity, price earnings ratio and net tangible assets multiples.

As for the fixed income portion, we formulate an interest rate outlook by considering factors such as the Malaysian inflation rate, monetary policies and economic growth. With an interest rate outlook and yield curve analysis, we identify the weighting of the investment tenor and credit for the Fund. In the unlikely event of a credit rating downgrade, we reserve the right to deal with the security in the best interest of the Unit holders. As an active fund manager, we have in place flexible tolerance limits to cater to

such situations. We can for example, continue to hold the downgraded security if the immediate disposal of the security would not be in the best interest of the Unit holders.

The Fund may invest up to 30% of its NAV in foreign Eligible Markets. Where necessary, we will obtain the licenses/permits for investments in countries that require licenses/permits. If we are unable to obtain the necessary licenses/permits, or the licenses/permits are revoked or not renewed (as the case may be), we will seek to invest in other accessible markets. Notwithstanding the aforesaid, we may decide not to invest in foreign securities.

We have appointed Principal Singapore as the Sub-Manager for the foreign investments of the Fund. The Sub-Manager will be investing and managing these foreign investments in accordance with the investment objective and within the investment restrictions. Nevertheless, we are equally responsible for the investments of the Fund. All costs of this appointment will be borne by us to ensure no additional fee is levied on you.

As part of its risk management strategy, the Fund is constructed and managed within pre-determined guidelines. Essentially, we employ an active asset allocation strategy depending upon the equity market expectation, and at the same time monitors the Islamic fixed income securities portfolio according to three (3) parameters: tenure, credit ratings and sector. The duration of the Islamic fixed income securities portfolio is also monitored and modified according to our interest rate outlook (i.e. the sensitivity of the portfolio to interest rate changes).

The Fund adopts a liquidity risk management framework which sets out the governance standards, methodology and process for the oversight and management of liquidity risk. The framework outlines the responsibilities to assess and monitor liquidity risk of the Fund, and to ensure appropriate measures are taken to mitigate the risk. The liquidity risk management framework that we have put in place is as follows:

The action to suspend withdrawal requests from Unit holders shall be exercised only as a last resort by the Manager.

Note: Please refer to Section 3.10 for more information.

In response to adverse conditions and as part of its risk management strategy, we may from time to time reduce its proportion of higher risk assets, such as Shariah-compliant equities and increase its asset allocation to lower risk assets, such as Islamic fixed income securities and Islamic liquid assets, to safeguard the investment portfolio of the Fund. Additionally, for investments in debt markets, we may reduce holdings in long tenured assets and channel these moneys into short-term Islamic Deposits. When deemed necessary, we may also utilize Islamic derivative instruments, subject to the GUTF, for the purpose of hedging. In the event of a downgrade of a counter-party of an OTC Islamic derivative below the minimum long-term rating as per the GUTF, we reserve the right to deal with the OTC Islamic derivative in the best interest of the Unit holders.

--	--	--	--

The global exposure of the Funds is calculated based on the following:

Commitment approach

The global exposure of the Funds to Islamic derivatives is calculated as the sum of the:

- absolute value of the exposure of each individual Islamic derivative not involved in netting or hedging arrangements;
- absolute value of the net exposure of each individual Islamic derivative after netting or hedging arrangement; and
- the values of cash collateral received pursuant to:
 - (i) the reduction of exposure to counterparties of OTC Islamic derivatives; and
 - (ii) efficient portfolio management techniques relating to securities lending and repurchase transactions (if applicable).

Netting arrangements

Netting arrangements may be taken into account to reduce the Fund's exposure to Islamic derivatives.

The Fund may net positions between:

- (a) Islamic derivatives on the same underlying constituents, even if the maturity dates are different; or
- (b) Islamic derivatives and the same corresponding underlying constituents, if those underlying constituents are Shariah-compliant transferable securities, Islamic money market instruments, or units or shares in Islamic collective investment schemes.

Hedging arrangements

Hedging arrangements may be taken into account to reduce the Fund's exposure to Islamic derivatives.

The marked-to-market value of Shariah-compliant transferable securities, Islamic money market instruments, or units or shares in Islamic collective investment schemes involved in hedging arrangements may be taken into account to reduce the exposure of the Fund to Islamic derivatives.

The hedging arrangement must:

- (a) not be aimed at generating a return;
- (b) result in an overall verifiable reduction of the risk of the Funds;
- (c) offset the general and specific risks linked to the underlying constituent being hedged;
- (d) relate to the same asset class being hedged; and
- (e) be able to meet its hedging objective in all market conditions.

Note: The above restrictions and limits do not apply to Shariah-compliant instruments issued or guaranteed by the Malaysian government or BNM.

Note 1:

Not applicable for **ILI-ES** and **ILI-S**. Instead, the following apply:

- (17) The value of the Fund's investments in Sukuk and Islamic Money Market Instruments issued by any single issuer must not exceed 20% of the Fund's NAV ("single issuer limit"). In determining the single issuer limit, the value of the fund's investments in instruments in (1) by the same issuer must be included in the calculation.
- (18) The single issuer limit in (16) may be increased to 30% if the Sukuk are rated by any Malaysian or global rating agency to have the highest long-term credit rating.
- (19) Where the single issuer limit is increased to 30% pursuant to (17), the single issuer aggregate limit of 25% in (5) may be raised to 30% of the fund's NAV.
- (20) The value of the Fund's investments in Sukuk and Islamic Money Market Instruments issued by any group of companies must not exceed 30% of the Fund's NAV. In determining the group limit, the value of the fund's investments in instruments in (1) issued by the issuers within the same group of companies must be included in the calculation.

- (21) Where the Sukuk or Islamic Money Market Instruments are issued, or the issue is guaranteed by, either a foreign government, foreign government agency, foreign central bank or supranational, that has a minimum long-term credit rating of investment grade (including gradation and subcategories) by an international rating agency, the fund manager may apply the limits in paragraphs (9) and (10).

In respect of the above investment restrictions and limits, the GUTF provides that any breach of the restrictions and limits due to appreciation or depreciation in value of the Fund's investments, repurchase of units or payment made out of the Fund, or change in capital of a corporation in which the Fund has invested in, or downgrade in or cessation of a credit rating need not be reported to the SC but we must rectify as soon as practicable within three (3) months from the date of breach unless stated otherwise in the GUTF. However, the three-month period may be extended if it is in the best interest of Unit holders and Trustee's consent is obtained. Such extension must be subject to at least a monthly review by the trustee.

Islamic liquid assets include cash, Islamic deposits with licensed Islamic financial institutions, Islamic money market instruments and Sukuk with a remaining maturity of less than one (1) year.

(a) Principal Islamic Lifetime Enhanced Sukuk Fund

Principal Malaysia has obtained approval from the SC for a variation of Clause 10.38 of the GUTF dated 3 March 2008 which allow Principal Malaysia to calculate withdrawal based on several valuation points (instead of the next valuation point upon receipt of withdrawal request i.e. forward pricing).

The Fund currently adopt a single pricing method based on forward price. Hence, the variation of Clause 10.38 no longer applicable.

(b) Principal Islamic Lifetime Sukuk Fund, Principal Islamic Small Cap Opportunities Fund, and Principal Islamic Lifetime Enhanced Sukuk Fund

Principal Malaysia has obtained approval from the SC for a variation of Clause 10.16 (a) of the GUTF dated 11 June 2020 which allow Principal Malaysia to pay Unit holder(s) within fifteen (15) days of receipt of the withdrawal notice, when the Fund's total withdrawal amount is 15% or more of the total NAV of the Fund.

Based on the Clause 8.19(c) in the GUTF dated 21 December 2021, a fund that utilises liquidity risk management tool may extend the payment period as prescribed in Clause 8.18(a) of the GUTF dated 21 December 2021. Hence, this variation is no longer applicable. Please refer to Section 3.6.1. for more information.

(c) Principal Islamic Asia Pacific Dynamic Equity Fund, Principal DALI Equity Fund, Principal Islamic Lifetime Balanced Fund, Principal Islamic Lifetime Enhanced Sukuk Fund and Principal Islamic Lifetime Sukuk Fund

Principal Malaysia has obtained approval from the SC for an exemption to comply with Schedule C: Valuation of other unlisted bonds of the GUTF which allow Principal Malaysia to obtain the price of any unlisted non MYR-denominated Sukuk from the ICE for valuation purpose subject to these conditions:

1. the Manager is to keep abreast of the development of ICE's pricing methodology; and
2. the Manager is to continuously keep track on the acceptability of ICE's prices in the market place.

Based on the revised Schedule C: Valuation of other unlisted bonds in the GUTF dated 21 December 2021, the Clause has been removed and amended to provide for a principle-based approach to prescription of requirement. Hence, the variation is no longer applicable.

1.6.2. Rules on divestment of Shariah non-compliant investments

In the event the following investment instances occur in the Funds, the rules below shall be executed by Manager or its fund management delegate:

(a) Wrong Investment

This refers to Shariah non-compliant investment made by the Manager and the external investment manager, if applicable. The said investment will be disposed of or withdrawn with immediate effect or within a month of knowing the status of the investment. In the event of the investment resulted in gain (through capital gain, dividend, and/or profit) received before or after the disposal of the investment, the gain is to be channeled to baitulmal and/or any other charitable bodies as advised by the Shariah Adviser. The Fund has a right to retain only the investment cost if the disposal of the investment resulted in losses to the Fund(s), the losses are to be borne by the Manager.

(b) Reclassification of Shariah status of the Funds' investment

These refer to securities which were earlier classified as Shariah-compliant but due to certain factors, such as changes in the companies' business operations and financial positions, are subsequently reclassified as Shariah non-compliant. In this regard, if on the date the Shariah-compliant securities turned Shariah non-compliant, the respective market price of Shariah non-compliant securities exceeds or is equal to the investment cost, Funds that hold such Shariah non-compliant securities must dispose them off. Any dividends received up to the date of the announcement/review and capital gains arising from the disposal of the Shariah non-compliant securities on the date of the announcement/review can be kept by the Funds.

However, any dividends received and excess capital gain from the disposal of Shariah non-compliant securities after the date of the announcement/review at a market price that is higher than the closing price on the date of the announcement/review should be channeled to baitulmal and/or charitable bodies approved by the Shariah Adviser.

On the other hand, Funds are allowed to hold its investment in the Shariah non-compliant securities if the market price of the said securities is below the Funds' investment costs. It is also permissible for the Funds to keep the dividends received during the holding period until such time when the total amount of dividends received and the market value of the Shariah non-compliant securities held equal the investment cost. At this stage, they are advised to dispose of their holding.

In addition, during the holding period, Funds are allowed to subscribe to:

- (a) any issue of new Shariah-compliant securities by a company whose Shariah non-compliant securities are held by the Funds, for example rights issues, bonus issues, special issues and warrants (excluding Shariah-compliant securities whose nature is Shariah non-compliant e.g. loan stocks); and
- (b) Shariah-compliant securities of other companies offered by the company whose Shariah non-compliant instruments are held by the Funds.

on condition that they expedite the disposal of the Shariah non-compliant instruments.

Where the Funds invest in instruments (save for money market instruments, deposit and equities or equities related i.e. warrants, right issue etc) earlier classified as Shariah-compliant but considered to have become Shariah non-compliant (by the Shariah adviser appointed by the issuer of that security) then guidance from the Shariah Adviser should be obtained.

Where the Funds invest in money market instruments, deposits or equities or equities related earlier classified as Shariah-compliant that are subsequently determined, regarded or deemed to be Shariah non-compliant as a result of a new or previously unknown fatwa/ruling and/or upon advice by the Shariah Adviser, the Manager would be required to sell such money market instruments and equities or equities related or withdraw such deposits, as soon as practicable of having notice, knowledge or advice of the status of such instruments. Any profit/gain received from such instruments prior to the occurrence of the aforesaid event shall be retained by the Fund. Any profit/gain received subsequent to the occurrence of the aforesaid event shall be channelled to baitulmal and/or charitable bodies, as endorsed by the Shariah Adviser.

1.6.3. Payment of Zakat

This refers to the purification by way of payment of zakat by Muslims. The Funds do not pay zakat on behalf of Muslim Unit holders. Thus, Muslim Unit holders are advised to pay zakat on their own.

1.6.4. Periodic review

The Shariah Adviser will review the Funds on a monthly basis to ensure the Funds' operating procedures and investments comply with the Shariah principles. Upon completion of each review, the Shariah Adviser will deliver its opinion on the Shariah compliancy.

1.6.5. The Funds' compliance to the Shariah principles

The Shariah Adviser is of the view that, given the prevailing circumstances, the Islamic Funds and their respective investments as disclosed and presented are acceptable and within the principles of Shariah, subject to proper execution of the legal documents and other transactions related to the Funds.

The investment portfolio of the Funds comprises instruments which have been classified as Shariah-compliant by the SAC of the SC and, where applicable the SAC of the BNM. For instruments that are not classified as Shariah-compliant by the SAC of the SC and, where applicable the SAC of BNM, the status of the instruments will be determined in accordance with the ruling of the Shariah Adviser and Shariah Investment Guidelines.

1.7. FINANCING

However, the Funds may obtain financing for the purpose of meeting withdrawal requests for units and for short-term bridging requirements provided always that all the financing complied with the Shariah requirements.

1.8. SECURITIES LENDING

Subject to Shariah Adviser's approval, where practicable, the Funds may participate in the lending of securities under the GUTF on Securities Borrowing and Lending issued when we find it appropriate to do so with a view of generating additional income for the Funds with an acceptable degree of risk.

Bhd., Bursa Malaysia Securities Clearing Sdn. Bhd., SC guidelines and any other relevant authority.

1.9. RISK FACTORS

1.9.1. GENERAL RISKS OF INVESTING IN A FUND

Any investment carries with it an element of risk. Therefore, prior to making an investment, you should consider the following risk factors in addition to the other information set out in this Master Prospectus (Islamic Funds).

Returns and capital not guaranteed

The investment of the fund is subject to market fluctuations and its inherent risk. There is **NO GUARANTEE** on the investment which includes your investment capital and returns, nor any assurance that the fund's investment objective will be achieved. You should also note that the fund is neither a capital guaranteed fund nor a capital protected fund. However, we reduce this risk by ensuring diligent management of the assets of the fund based on a structured investment process.

Market risk

This risk refers to the possibility that an investment will lose value because of a general decline in financial markets, due to economic, political and/or other factors, which will result in a decline in the fund's NAV.

Inflation risk

This is the risk that your investment in the fund may not grow or generate income at a rate that keeps pace with inflation. This would reduce your purchasing power even though the value of the investment in monetary terms has increased.

Financing risk

This risk occurs when you obtain financing to finance your investment. The inherent risk of investing with money obtained from financing includes you being unable to service the financing payments. In the event units are used as collateral and if the prices of units fall below a certain level due to market conditions, you may be required to pay additional amounts on top of your existing instalment. If you fail to do so within the time prescribed, your units may be sold at an unfavourable price and the proceeds thereof will be used towards the settlement of your financing.

Manager risk

This risk refers to the day-to-day management of the fund by the manager which will impact the performance of the fund. For example, investment decisions undertaken by the manager, as a result of an incorrect view of the market or any non-compliance with internal policies, investment mandate, the deed, relevant law or guidelines due to factors such as human error or weaknesses in operational process and systems, may adversely affect the performance of the fund.

Liquidity risk

Liquidity risk refers to the ease of liquidating an asset without causing market dislocation. This depends on the supply and demand as well as the asset's volume or amount traded in the market. If the fund holds assets that are illiquid or difficult to dispose or liquidity policy applied by the Islamic CIS (e.g. suspension of the Islamic CIS), the value of the Fund and consequently the value of unitholders' investment in the fund may be negatively affected.

Shariah non-compliance risk

This refers to the risk of the fund not conforming to Shariah Investment Guidelines due to investment in Shariah non-compliant instrument or reclassification of Shariah status. In the event that the manager is required to rectify any Shariah non-compliance by disposing the related instrument, any losses from disposal due to investment in Shariah non-compliant instrument will be borne by the manager whereas any losses from disposal due to reclassification of Shariah status will be borne by the fund. In any circumstances, gain received from disposal shall be channeled to baitulmal and/or charitable bodies as approved by the Shariah Adviser.

Please refer to page 29 for more information on Shariah Investment Guidelines.

1.9.2. SPECIFIC RISKS ASSOCIATED WITH THE INVESTMENT PORTFOLIO OF THE FUNDS

There are specific risks associated with the investment portfolio of each fund which include but are not limited to the following:

1.9.2.1. Stock specific risk Prices of a particular stock may fluctuate in response to the circumstances affecting individual companies such as adverse financial performance, news of a possible merger or loss of key personnel of a company. Any adverse price movements of such stock will adversely affect the Fund's NAV.	<ul style="list-style-type: none">▪ Principal DALI Equity Growth Fund▪ Principal DALI Equity Fund▪ Principal Islamic Malaysia Opportunities Fund▪ Principal DALI Asia Pacific Equity Growth Fund▪ Principal Islamic Enhanced Opportunities Fund▪ Principal Islamic Small Cap Opportunities Fund▪ Principal Islamic Asia Pacific Dynamic Equity Fund▪ Principal Islamic Lifetime Balanced Fund▪ Principal Islamic Lifetime Balanced Growth Fund▪ Principal Islamic Lifetime Enhanced Sukuk Fund
1.9.2.2. Risks associated with investment in Shariah-compliant warrants and/or Islamic options There are inherent risks associated with investment in Shariah-compliant warrants and/or Islamic options. The value of Shariah-compliant warrants and/or Islamic options are influenced by the	<ul style="list-style-type: none">▪ Principal DALI Equity Growth Fund▪ Principal DALI Equity Fund▪ Principal Islamic Malaysia Opportunities Fund▪ Principal DALI Asia Pacific Equity Growth Fund▪ Principal Islamic Enhanced Opportunities Fund

<p>current market price of the underlying security, the exercise price of the contract, the time to expiration of the contract and the estimate of the future volatility of the underlying security's price over the life of the contract. Generally, the erosion in value of Shariah-compliant warrants and/or Islamic options accelerates as it approaches its expiry date. Like securities, we will undertake fundamental research and analysis on these instruments with an aim to mitigate its risks.</p>	<ul style="list-style-type: none"> ▪ Principal Islamic Small Cap Opportunities Fund ▪ Principal Islamic Asia Pacific Dynamic Equity Fund ▪ Principal Islamic Lifetime Balanced Fund ▪ Principal Islamic Lifetime Balanced Growth Fund ▪ Principal Islamic Lifetime Enhanced Sukuk Fund ▪ Principal Islamic Lifetime Sukuk Fund
<p>1.9.2.3. Interest rate risk Interest rate risk refers to the impact of interest rate changes on the valuation of Sukuk and Islamic money market instruments. When interest rates rise, Sukuk and Islamic money market instruments prices generally decline and this may lower the market value of the Fund's investment in Sukuk and Islamic money market instruments. In managing the Sukuk, we take into account the coupon rate and time to maturity of the Sukuk with an aim to mitigate the interest rate risk. As for Islamic money market instruments, the typical tenor of these instruments are less than 12-month maturity and unlike Sukuk, any change to interest rate will only have a minor impact to the prices of these instruments.</p> <p>Please note that although Sukuk is a non-interest bearing instrument, its price movement is correlated to the movement in the interest rates. As such, investment in Sukuk will have an exposure to the movement of the interest rates. Even though the Fund does not invest in interest bearing instruments, the interest rate referred herein is to the general interest rate of the country, which may affect the value of the investment of the Fund.</p>	<ul style="list-style-type: none"> ▪ Principal DALI Equity Growth Fund ▪ Principal DALI Equity Fund ▪ Principal Islamic Malaysia Opportunities Fund ▪ Principal DALI Asia Pacific Equity Growth Fund ▪ Principal Islamic Enhanced Opportunities Fund ▪ Principal Islamic Small Cap Opportunities Fund ▪ Principal Islamic Asia Pacific Dynamic Equity Fund ▪ Principal Islamic Lifetime Balanced Fund ▪ Principal Islamic Lifetime Balanced Growth Fund ▪ Principal Islamic Lifetime Enhanced Sukuk Fund ▪ Principal Islamic Lifetime Sukuk Fund
<p>1.9.2.4. Risk associated with investing in Islamic CIS Since the Fund may invest into Islamic CIS, there is a risk of concentration into Islamic CIS, in which the Islamic CIS's management company has absolute discretion over the Islamic CIS's investment technique and knowledge, operational controls and management. In the event of mismanagement of the Islamic CIS and/or the management company, the NAV of the Fund, which invests into those Islamic CIS would be affected negatively. Should the situation arise, we will seek for another Islamic CIS that is consistent with the objective of the Fund.</p>	<ul style="list-style-type: none"> ▪ Principal DALI Equity Growth Fund ▪ Principal DALI Equity Fund ▪ Principal Islamic Malaysia Opportunities Fund ▪ Principal DALI Asia Pacific Equity Growth Fund ▪ Principal Islamic Enhanced Opportunities Fund ▪ Principal Islamic Small Cap Opportunities Fund ▪ Principal Islamic Asia Pacific Dynamic Equity Fund ▪ Principal Islamic Lifetime Balanced Fund ▪ Principal Islamic Lifetime Balanced Growth Fund ▪ Principal Islamic Lifetime Enhanced Sukuk Fund ▪ Principal Islamic Lifetime Sukuk Fund
<p>1.9.2.5. Country risk Investments of the Fund in any country may be affected by changes in the economic and political climate, restriction on currency repatriation or other developments in the law or regulations of the countries in which the Fund invests in. For example, the deteriorating economic condition of such countries may adversely affect the value of the investments undertaken by the Fund in those affected countries. This in turn may cause the NAV of the Fund to fall.</p>	<ul style="list-style-type: none"> ▪ Principal DALI Equity Growth Fund ▪ Principal DALI Equity Fund ▪ Principal DALI Asia Pacific Equity Growth Fund ▪ Principal Islamic Small Cap Opportunities Fund ▪ Principal Islamic Asia Pacific Dynamic Equity Fund ▪ Principal Islamic Lifetime Balanced Fund ▪ Principal Islamic Lifetime Balanced Growth Fund ▪ Principal Islamic Lifetime Enhanced Sukuk Fund ▪ Principal Islamic Lifetime Sukuk Fund
<p>1.9.2.6. Currency risk As the investments of the Fund may be denominated in currencies other than the base currency of the Fund, any fluctuation in the exchange rate between the base currency of the Fund and the currencies in which the investments are denominated may have an impact on the value of these investments. You should be aware that if the currencies in which the investments are denominated in depreciate against the base currency of the Fund, this will have an adverse effect on the NAV of the Fund and vice versa. You should note that any gains or losses arising from the fluctuation in the exchange rate may further increase or decrease the returns of the investment.</p>	<ul style="list-style-type: none"> ▪ Principal DALI Equity Growth Fund ▪ Principal DALI Equity Fund ▪ Principal DALI Asia Pacific Equity Growth Fund ▪ Principal Islamic Small Cap Opportunities Fund ▪ Principal Islamic Asia Pacific Dynamic Equity Fund ▪ Principal Islamic Lifetime Balanced Fund ▪ Principal Islamic Lifetime Balanced Growth Fund ▪ Principal Islamic Lifetime Enhanced Sukuk Fund ▪ Principal Islamic Lifetime Sukuk Fund
<p>1.9.2.7. Risk of investing in emerging markets In comparison with investments in the developed markets, investments in emerging markets may involve a higher degree of risk due to the greater possibility of political or economic instability and societal tensions. Emerging markets are markets that are, by definition, "in a state of transition" and are therefore exposed to rapid political change and economic declines. The Shariah-compliant securities in the emerging markets may face a higher risk of price drop while the exchange rates in these emerging markets are generally more volatile than those of developed markets. As such, you should be aware that</p>	<ul style="list-style-type: none"> ▪ Principal DALI Equity Fund ▪ Principal DALI Asia Pacific Equity Growth Fund ▪ Principal Islamic Asia Pacific Dynamic Equity Fund ▪ Principal Islamic Lifetime Balanced Fund ▪ Principal Islamic Lifetime Enhanced Sukuk Fund ▪ Principal Islamic Lifetime Sukuk Fund

<p>investments in emerging markets may be subject to higher price volatility and therefore will tend to have a higher investment risk that will affect the Fund's growth. We attempt to mitigate these risks through active asset allocation management and diversification across different countries and sectors, in addition to our continuous bottom-up and top-down research and analysis.</p>	
<p>1.9.2.8. Credit and default risk The Fund will be exposed to a certain degree of credit and default risk of issuers or counterparties when the Fund invests in Sukuk, Islamic money market instruments and/or places in Islamic Deposits. Credit risk relates to the creditworthiness of an issuers or counterparties and their expected ability to make timely payment of profit and/or principal. Any adverse situations faced by the issuer or counterparties may impact the value as well as liquidity of the investments. In the case of rated Sukuk and Islamic money market instruments, this may lead to a credit downgrade. Default risk relates to the risk that an issuer or counterparties either defaulting on payments or failing to make payments in a timely manner which will in turn adversely affect the value of the investments. This could adversely affect the value of the Fund. We aim to mitigate this risk by performing bottom-up and top-down credit research and analysis to determine the creditworthiness of the issuers or counterparties, and impose investment limits on exposures for issuers or counterparties with different credit profiles as a precautionary step to limit any loss that may arise directly or indirectly as a result of a defaulted transaction.</p>	<ul style="list-style-type: none"> ▪ Principal DALI Equity Growth Fund ▪ Principal DALI Equity Fund ▪ Principal Islamic Malaysia Opportunities Fund ▪ Principal DALI Asia Pacific Equity Growth Fund ▪ Principal Islamic Enhanced Opportunities Fund ▪ Principal Islamic Small Cap Opportunities Fund ▪ Principal Islamic Asia Pacific Dynamic Equity Fund ▪ Principal Islamic Lifetime Balanced Fund ▪ Principal Islamic Lifetime Balanced Growth Fund ▪ Principal Islamic Lifetime Enhanced Sukuk Fund ▪ Principal Islamic Lifetime Sukuk Fund

1.9.3. RISKS ASSOCIATED WITH INVESTMENT IN CLASS D

Cyber security risk

This is the risk arising from cyber-attack on e-Wallet App. Should the e-Wallet App be compromised, it may result in unauthorised transactions pertaining to the Fund. Further to that, your investment-related information and personal data may be leaked. All transactions through e-Wallet App and/or the Fund may be temporarily suspended, in which you may not be able to transact through e-Wallet App or in the Fund due to cyber-attack.

Functionality risk

This is the risk that the e-Wallet App does not operate as intended due to factors including but not limited to connectivity and interface issues. If the e-Wallet App does not function as expected, your transaction through the e-Wallet App may not be correctly processed and/or completed.

Risk associated with discontinuation risk on e-Wallet Provider

As all the transactions are done through e-Wallet App developed by the e-Wallet Provider, the continuous operation of the e-Wallet Provider is crucial. The discontinuation of services provided by e-Wallet Provider may be due to but not limited to revocation of the license. Should such event happen, withdrawal from the Fund may be delayed.

The above summary of risks does not purport to be an exhaustive list of all the risk factors relating to investments in the Fund and are not set out in any particular order of priority. You should be aware that an investment in a unit trust fund may be exposed to other risks from time to time. If in doubt, you should consult professional advisers for a better understanding of the risks.

2. FEES, CHARGES AND EXPENSES

2.1. CHARGES

The following describes the charges that you may **directly** incur when you buy or withdraw units of the Classes.

2.1.1. Application Fee

When applying unit of a Class, you may be charged an Application Fee based on the NAV per unit of the respective Class, which may differ between distribution channels. The table below shows the maximum Application Fee that may be charged.

Class	Maximum Application Fee (% of the NAV per unit)		
	Principal Distributors	IUTAs	Class D
Equity Funds			
Principal DALI Equity Growth Fund	6.50	6.50	N/A
Principal DALI Equity Fund	6.50	6.50	N/A
Principal Islamic Malaysia Opportunities Fund	6.50	5.50	N/A
Principal DALI Asia Pacific Equity Growth Fund	6.50	6.50	N/A
Principal Islamic Enhanced Opportunities Fund	5.00	5.00	N/A
Principal Islamic Small Cap Opportunities Fund	6.50	6.50	N/A
Principal Islamic Asia Pacific Dynamic Equity Fund	5.00	5.00	5.00
Mixed Asset Funds			
Principal Islamic Lifetime Balanced Fund	6.50	6.50	N/A
Principal Islamic Lifetime Balanced Growth Fund	6.00	5.00	N/A
Sukuk Funds			
Principal Islamic Lifetime Enhanced Sukuk Fund	2.00	2.00	2.00
Principal Islamic Lifetime Sukuk Fund	2.00	2.00	N/A

Despite the maximum Application Fees disclosed above, you may negotiate with us or our Distributors for lower charges.

We and our Distributors reserve our sole and absolute discretion to accept or reject your request and without having to assign any reason. Subject always to the provisions of the Deed and GUTF, we reserve our sole and absolute discretion without providing any reason whatsoever and at any time to amend, vary, waive and/or reduce the fees and charges (except for the Trustee Fee), whether payable by the Fund or Class, payable by you to the Fund or payable by any other investors to the Fund.

If the Fund is an EPF-MIS approved fund and you have invested via EPF-MIS, the investor may be charged an Application Fee of up to 3.00% of the NAV per unit, or such other rate as the EPF may determine.

Below is an illustration on how the Application Fee is calculated:-

	Class ABC (for e-Wallet App user)	Class XYZ
Investment amount	MYR 10,000	USD 10,000
NAV per unit	MYR 1.0000	MYR 1.0000
Application Fee (NAV per unit)	5.00%	5.00%
Units issued to Unit holder = $\frac{\text{Investment amount}}{\text{NAV per unit}}$	= $\frac{\text{MYR } 10,000.00}{\text{MYR } 1.0000}$ = 10,000 units	= $\frac{\text{MYR } 10,000.00}{\text{MYR } 1.0000}$ = 10,000 units
Total Application Fee = Units issued to Unit holder x NAV per unit x Application Fee (%)	= 10,000 units x MYR 1.0000 x 5% = MYR 500.00	= 10,000 units x MYR 1.0000 x 5% = MYR 500.00

Note: Please note that the above example is for illustration purpose only. The Application Fee imposed will be rounded to two (2) decimal places.

2.1.2. Withdrawal Fee

Nil

2.1.3. Switching Fee

Switching is treated as a withdrawal from a Class and an investment into another Class or Principal Malaysia's fund (or its classes). You may be charged a Switching Fee equal to the difference (if any) between the Application Fees of the Class and the Application Fee of the other Class or Principal Malaysia's fund (or its classes). Switching Fee will not be charged if the Class or Principal Malaysia's fund (or its classes) to be switched into has a lower Application Fee. In addition to the Switching Fee, you may be charged MYR100 as the administrative fee for every switch. You may negotiate to lower the Switching Fee and/or administrative fees. We also have the discretion to waive the Switching Fee and/or administrative fee.

Switching from Islamic fund to conventional fund is discouraged for Muslim investors. The term 'discouraged' is not a Shariah ruling imposed by the Shariah Adviser of the Funds to the investor, rather a suggestion for the Muslim investor to continue practicing the Islamic conducts, ie: Shariah investing.

2.1.4. Transfer Fee

You may be charged Transfer Fee of not more than MYR50.00 for each transfer.

2.2. FEES AND EXPENSES

All fees and expenses of the Fund will generally be apportioned to each Class currently available for sale based on the MCR except for Management Fee and those that are related to the specific Class only, such as, the cost of Unit holders meeting held in relation to the respective Class. If in doubt, you should consult professional advisers for a better understanding.

The following describes the fees that you may **indirectly** incur when you invest in a Class.

2.2.1. Management Fee

Please note that the Management Fee is charged to the respective Class at the Class level, based on the NAV of the Class. Table below stipulates the annual Management Fee charged for the respective Class, based on the NAV of the Class. The Management Fee shall be accrued daily and paid monthly.

Funds	Maximum Management Fee (% p.a. of the NAV of the Class)
Equity Funds	
Principal DALI Equity Growth Fund	1.50
Principal DALI Equity Fund	1.85
Principal Islamic Malaysia Opportunities Fund	1.50
Principal DALI Asia Pacific Equity Growth Fund	1.50
Principal Islamic Enhanced Opportunities Fund	1.50
Principal Islamic Small Cap Opportunities Fund	1.85
Principal Islamic Asia Pacific Dynamic Equity Fund	1.80
Mixed Asset Funds	
Principal Islamic Lifetime Balanced Fund	1.50
Principal Islamic Lifetime Balanced Growth Fund	1.50
Sukuk Funds	
Principal Islamic Lifetime Enhanced Sukuk Fund	1.00
Principal Islamic Lifetime Sukuk Fund	0.95

Below is an illustration on how the Management Fee is calculated, assuming Management Fee is 1.00% per annum and 1.50% per annum for Class ABC and Class XYZ respectively:-

	Class ABC (for e-Wallet App user) (Denominated in MYR) (MYR)	Class XYZ (Denominated in MYR) (MYR)
Management Fee	1.00% per annum	1.50% per annum
NAV of the Class	MYR 150 million	MYR 150 million

Management Fee for the day = NAV of the Class x Management Fee rate for the Class (%) / 365 days	= MYR 150 million x 1.00% / 365 = MYR 4109.59	= MYR 150 million x 1.50% / 365 = MYR 6164.38
---	--	--

Note: In the event of a leap year, the computation will be based on 366 calendar days.

2.2.2. Trustee Fee

The table below stipulates the annual Trustee Fee and custodian fee for the respective Funds, based on the NAV of the Fund. The Trustee Fee and custodian fee shall be accrued daily based on the NAV of the Fund and paid monthly.

Funds	Trustee	Maximum Trustee Fee (% p.a. of the NAV of the Fund)
Equity Funds		
Principal DALI Equity Growth Fund	MTrustee	0.06
Principal DALI Equity Fund	UTMB	0.06
Principal Islamic Malaysia Opportunities Fund	ART	0.05
Principal DALI Asia Pacific Equity Growth Fund	ART	0.06
Principal Islamic Enhanced Opportunities Fund	ART	0.09
Principal Islamic Small Cap Opportunities Fund	UTMB	0.06
Principal Islamic Asia Pacific Dynamic Equity Fund	HSBCT	0.07
Mixed Asset Funds		
Principal Islamic Lifetime Balanced Fund	UTMB	0.10
Principal Islamic Lifetime Balanced Growth Fund	MTB	0.07
Sukuk Funds		
Principal Islamic Lifetime Enhanced Sukuk Fund	HSBCT	0.07
Principal Islamic Lifetime Sukuk Fund	ART	0.06

Note: The Trustee Fee includes local custodian fee but excludes foreign sub-custodian fee (if any). Foreign sub-custodian fee is dependant on the country invested and is charged monthly in arrears.

Below is an illustration on how the Trustee Fee is calculated:

Trustee Fee for the day = NAV of the Fund x annual Trustee Fee rate for the Fund (%) / 365 days

If the NAV of the Fund is MYR500 million, then

Trustee Fee for the day = MYR500 million x 0.06% per annum / 365 days
= MYR821.92

Note: In the event of a leap year, the computation will be based on 366 calendar days.

2.2.3. Other Expenses

The Deeds also provide for payment of other expenses. The major expenses recoverable directly from the Funds include:

- expenses incurred in the sale, purchase, insurance/Takaful, custody and any other dealings of investments including commissions/fees paid to brokers and costs involved with external specialists approved by the Trustees in investigating and evaluating any proposed investment;
- (where the foreign custodial function is delegated by the Trustees), charges/fees paid to the sub-custodian;
- expenses incurred in the printing of, the purchasing of stationery and postage for the annual and interim (if any) reports;
- tax and other duties imposed by the government and other authorities and bank fees;
- Shariah Adviser's fee and expenses;
- tax agent's and auditor's fees and expenses in relation to the Funds;
- fees incurred for the fund valuation and accounting of the Fund performed by a fund valuation agent;
- costs incurred in modifying the Deeds for your benefit; and
- cost of convening and holding meetings of Unit holders (other than those meetings convened for our benefit or the benefit of the Trustees); and
- all costs, bank charges and expenses related to income distribution of the Funds; for example, postage and printing of all cheques, statements and notices to you.
- remuneration and out of pocket expenses of the person(s) undertaking the oversight functions of the Fund and/or the members of the Shariah committee or advisers (if any) of the Funds, unless we decide to bear the same;

Expenses not authorised by the Deeds must be paid by us or the respective Trustees out of our own funds if incurred for our own benefit.

2.2.4. We and the Trustees are required to ensure that any fees or charges payable are reasonable and in accordance with the Deeds which stipulates the maximum rate in percentage terms that can be charged. All expenses of the Fund will generally be apportioned to each Class currently available for sale based on the MCR except for the Management Fee and those that are related to the specific Class only, such as, the cost of Unit holders meeting held in relation to the respective Class. Should the Fund invest into units of other CIS that are managed by us or our related corporation, we will ensure that all initial charges are waived and there is no double charging of management fees. You should consult your professional advisers for a better understanding.

Subject always to the provisions of the Deed and GUTF, we reserve our sole and absolute discretion without providing any reason whatsoever and at any time to amend, vary, waive and/or reduce the fees and charges (except for the Trustee Fee), whether payable by the Fund or Class, payable by you to the Fund or Class or payable by any other investors to the Fund.

We may for any reason and at any time, waive or reduce: (a) any fees (except for the Trustee Fee); (b) other charges payable by you to the Funds; and/or (c) transactional values including but not limited to the units or amount, for any Unit holder and/or investments made via any distribution channels or platform.

2.3. REBATES AND SOFT COMMISSIONS

We, the Sub-Manager and the Trustees will not retain any form of rebate or otherwise share in any commission with, any broker or dealer in consideration for directing dealings in the investments of the Funds. Accordingly, any rebates or shared commission will be directed to the account of the Fund.

We and the Sub-Manager may retain goods and services (soft commission) provided by any broker or dealer if the following conditions are met:

- (a) the soft commission bring direct benefit or advantage to the management of the Fund and may include research and advisory related services;
- (b) any dealings with the broker or dealer is executed on terms which are the most favourable for the Funds; and
- (c) the availability of soft commissions is not the sole or primary purpose to perform or arrange transactions with such broker or dealer, and we or the Sub-Manager will not enter into unnecessary trades in order to achieve a sufficient volume of transactions to qualify for soft commissions.

There are fees and charges involved and you are advised to consider them before investing in the Funds.

All fees and charges payable by you and/or the Funds are subject to any applicable taxes and/or duties as may be imposed by the government or other authorities (if any) from time to time. As a result of changes in any rule, regulation, directive, notice and/or law issued by the government or relevant authority, there may be additional cost to the fees, expenses, charges and/or taxes payable to and/or by the Funds and/or you as disclosed or illustrated in this Master Prospectus (Islamic Funds).

We have the discretion to amend the amount, rate and/or terms and conditions for the above-mentioned fees, charges, expenses, and/or transaction information from time to time, subject to the requirements stipulated in the Deeds. Where necessary, we will notify the Trustee and communicate to you and/or seek your approval on the amendments to the fees, charges, and transaction information.

3. TRANSACTION INFORMATION

3.1. VALUATION OF INVESTMENTS PERMITTED BY THE FUND

We will carry out the valuation of the Funds in a fair manner in accordance with applicable law and guidelines. The valuation bases for the investments permitted by the Funds are as below:

- **Listed Shariah-compliant securities**
The value of any Shariah-compliant permitted investments, which are quoted on an approved exchange, shall be calculated daily by reference to the last transacted price on that approved exchange. If the last transacted price does not represent the fair value of the securities, then the securities should be valued at fair price as determined in good faith by us, based on the methods or bases approved by the Trustee after appropriate technical consultation, such as the mean of bid and offer prices at the close of trading. Suspended Shariah-compliant securities will be valued at their last done price unless there is conclusive evidence to show that the value has gone below the suspended price or where the quotation of the securities has been suspended for a period exceeding fourteen (14) days or such shorter period as agreed by the trustee, whereupon their fair value will be determined in good faith by us based on the methods or bases approved by the Trustee after appropriate technical consultation.
- **Unlisted Shariah-compliant securities**
The valuation of Shariah-compliant securities not listed or quoted on a stock exchange but have been approved by the relevant regulatory authority for such listing or quotation and are offered directly to the Fund by the issuer shall be valued daily at the issue price of such Shariah-compliant securities. The value will be determined by the financial institution that issued the securities.
- **Unlisted Sukuk**
The value of any unlisted MYR-denominated Sukuk shall be calculated on a daily basis using prices quoted by a bond pricing agency (“BPA”) registered with the SC. Where such prices are not available or where the Manager is of the view that the price quoted by the BPA for a specific Sukuk differs from the market price by more than twenty (20) basis points, the Manager may use the market price by reference to the last available quote provided such quote was obtained within the previous thirty (30) days and the Manager records its basis for using a non-BPA price, obtained necessary internal approvals to use the non-BPA price and keeps an audit trail of all decisions and basis for adopting the market yield.

For **iDY-APDE, DALI2, iLI-B, iLI-ES, and iLI-S**, the value of any unlisted non-MYR-denominated Sukuk shall be calculated daily using prices quoted by ICE using its proprietary methodology. The Sukuk prices are calculated using prices contributed by financial institutions and other market inputs listed in approximate order of priority, include: benchmark yields, reported trades, broker/dealer quotes, issuer spreads, two-sided markets, benchmark securities, bids, offers and reference data (e.g. corporate action announcements and ratings). Where the prices from ICE are not available on any business day, these Sukuk will be valued by reference to the average indicative yield quoted by three (3) independent and reputable financial institutions. However, where quotations are still not available, such unlisted non-MYR-denominated Sukuk will be valued daily at fair price determined in good faith by us, based on the methods or bases, which have been verified by the auditor of the Fund and approved by the Trustee.

- **Unlisted Islamic derivative instruments**
For unlisted Islamic derivative instruments, the Manager shall ensure that the valuation of the investment is valued daily at fair value as determination in good faith by the Manager, on methods and bases which have been verified by the auditor of the Fund and approved by the Trustee.
- **Islamic collective investment schemes**
The value of any investment in Islamic CIS which are quoted on an approved exchange shall be calculated daily in the same manner as other listed Shariah-compliant instruments described above. When investing in unlisted Islamic CIS, the value shall be determined daily by reference to the last published repurchase/redemption price for that Islamic CIS.
- **Islamic money market instruments**
Valuation of Islamic money market instruments such as negotiable instrument of deposits and commercial papers shall be valued by reference to the quotes provided by independent and reputable pricing source(s), which is deemed fair value, includes but not limited to Bond Pricing Agency (“BPA”) registered by the SC. Where the quotes are provided by financial institutions, the valuation of the money market instruments will be based on the average of bid and offer prices quoted by three (3) independent and reputable financial institutions of similar standing at the close of trading. The valuation method is verified by the auditor and approved by the Trustee.
- **Islamic Deposits**
The value of Islamic Deposits shall be determined each day by reference to the principal value of such Shariah-compliant permitted investments and the profit accrued thereon for the relevant period.

If the value of the Fund’s asset is denominated in a foreign currency, the assets are translated on a daily basis to MYR. Currently, the assets are translated using the bid foreign exchange rate quoted by either Refinitiv or Bloomberg, at UK 4:00 p.m. on the same day (Malaysian time 11:00 p.m. or 12:00 a.m.), or such other time as stipulated in the IMS.

3.2. UNIT PRICING

We adopt a single pricing method for any transactions (i.e. applications, withdrawals, switches and/or transfers) based on forward prices. This means that we will process your transactions request based on the NAV per unit at the next valuation point after we receive the completed relevant transaction forms from you.

If the transactions are made by 4:00 p.m. on a Business Day, we will process the transactions using the NAV per unit for that Business Day. For transactions made after 4:00 p.m., we will process the transactions using NAV per unit on the next Business Day.

For Class D

If the transactions are made by 1:00 p.m. on a Business Day, we will process the transactions using the NAV per unit on that the same Business Day. For transactions made after 1:00 p.m. on a Business Day, we will process the transactions using the NAV per unit on the next Business Day.

The valuation point of the Funds for a Business Day will depend on whether the portfolio consists of foreign investments.

For Funds without foreign investments:

We will carry out the valuation for the Classes for a Business Day at the end of that Business Day (T day). The NAV per unit for a Business Day is available on our website at www.principal.com.my after 10:00 a.m. on the following Business Day (T+1).

For Funds with foreign investments:

We will carry out the valuation for the Classes for a Business Day on the next Business Day (T+1) by 4:00 p.m. This is to cater for the currency translation of the foreign Shariah-compliant instruments or Shariah-compliant instruments to the Funds' base currency. Currently, the currency translation is based on the bid exchange rate quoted by Bloomberg or Refinitiv at UK time 4:00 p.m. on the same day (Malaysian time 11:00 p.m. or 12:00 a.m.), or such other time as stipulated in the IMS. The NAV per unit for a Business Day is available on our website at www.principal.com.my after 5:30 p.m. on the following Business Day (T+1).

Illustration (for Funds with foreign investments):

For a transaction request received by us by 4:00 p.m. on a Business Day

At the end of the Business Day on 4 April 2022, your units will be based on the NAV per unit on 4 April 2022, which will be calculated on 5 April 2022. The NAV per unit will be available on our website after 5:30 p.m. on 5 April 2022.

For a transaction request received by us after 4:00 p.m. on a Business Day

At the end of the Business Day on 4 April 2022, your units will be based on the NAV per unit on 5 April 2022, which will be calculated on 6 April 2022. The NAV per unit will be available on our website after 5:30 p.m. on 6 April 2022.

Illustration for Class D (with foreign investment):

For transaction request received by us by 1:00 p.m. on a Business Day

At the end of the Business Day on 4 April 2022, your units will be based on the NAV per unit on 4 April 2022, which will be calculated on 5 April 2022. The NAV per unit will be made known on our website after 5:30 p.m. on 5 April 2022.

For transaction request received by us after 1:00 p.m. on a Business Day

At the end of the Business Day on 4 April 2022, your units will be based on the NAV per unit on 5 April 2022, which will be calculated on 6 April 2022. The NAV per unit will be made known on our website after 5:30 p.m. on 6 April 2022.

Each Fund must be valued at least once for every Business Day except during the initial offer period. The method of determining NAV per unit is calculated as follows:

$$\text{NAV per unit of the Class} = \frac{\text{NAV of the Class}}{\text{Number of units in issue of the Class}}$$

The NAV of the Fund is the sum of the value of all investments and cash held by the Fund (calculated in accordance with the Deeds) including income derived by the Fund which has not been distributed to our Unit holders, less all amounts owing or payable in respect of the Fund which also including any provisions that we and the Trustees consider should be made. For example, a provision may be made for possible future losses on an investment which cannot be fairly determined.

The valuation of the Fund is in the base currency i.e. MYR. The NAV per unit of each Class will be the NAV of the Fund attributable for each Class divided by the number of units in circulation of that Class, at the same valuation point.

3.2.1. Multi-class Ratio (MCR)

MCR is the apportionment of the NAV of each Class over the Fund's NAV based on the size of each Class. The MCR is calculated by dividing the NAV of the respective Class by the NAV of the Fund before income and expenses for the day. The apportionment is expressed as a ratio and calculated as a percentage.

Below is an illustration on computation of the NAV of the Fund:

Fund	Class ABC (for e-Wallet App user)	Class XYZ

3.2.2. Calculation of investment amount and units entitlement

The calculation below is for illustration only and does not represent the actual percentage or amount that you may incur in each Class.

Illustrations:

Calculation of number of units received, Application Fee and total amount paid by you

Assumptions:

NAV per unit of Class XYZ denominated in MYR = MYR0.5000 (truncated to 4 decimal places)
Application Fee = 5.50%
You wish to invest MYR10,000 in the Fund.

Calculation of total number of units that you will receive*

= Investment amount / NAV per unit
= MYR10,000 / MYR0.5000
= 20,000 units

Calculation of Application Fee[#] that you will incur (payable in addition to the investment amount)

= NAV per unit of Class XYZ x number of units received x Application Fee rate
= MYR0.5000 x 20,000 units x 5.50%
= MYR550.00

Calculation of total amount that you will have to pay

= Investment amount + Application Fee paid
= MYR10,000 + RM550
= MYR10,550.00

* The number of units that you will receive will be rounded to two (2) decimal places.

[#] The Application Fee imposed will be rounded to two (2) decimal places.

Calculation of investment value

Assuming you have 20,000 units Class XYZ of the Fund and the NAV per unit for the Business Day is MYR0.5110 (truncated to 4 decimal places).

Calculation of investment value

= Number of units x NAV per unit of Class XYZ
= 20,000 units x MYR0.5110
= MYR10,220.00

Calculation of withdrawal value and amount payable to you

Assuming you request for a 10,000 units withdrawal. Your withdrawal request is received by us by 4:00 p.m. or 1:00 p.m. (for Class D) on a Business Day. NAV per unit of Class XYZ for that Business Day is MYR0.5230 (truncated to 4 decimal places).

Calculation of amount payable to you

= Number of units withdrawn x NAV per unit of Class XYZ
= 10,000 units x MYR0.5230
= MYR5,230.00

3.3. INCORRECT PRICING

We shall take immediate remedial action to rectify any incorrect valuation and/or pricing of the Class or units of the Class. Where such error has occurred, we shall reimburse the money in the following manner:

- (a) in the event of over valuation and/or pricing, we shall reimburse:
 - (i) the Class for any withdrawal of units; and/or
 - (ii) you, if you have purchase units of the Class at a higher price; or
- (b) in the event of under valuation and/or pricing, we shall reimburse:
 - (i) the Class for any subscription of units; and/or
 - (ii) you, if you have withdraw units of the Class at a lower price.

Notwithstanding the above, unless the Trustee otherwise directs, we shall make the reimbursement, only where an incorrect pricing:

- (i) is equal to or more than 0.50% of the NAV per unit; and
- (ii) results in a sum total of MYR10.00 (or in the case of a foreign currency Class, 10.00 denominated in the foreign currency denomination of the Class) or more to be reimbursed to a Unit holder for each sale or withdrawal transaction.

We shall have the right to amend, vary or revise the abovesaid limits from time to time subject to any regulatory or governing body's requirements.

For first time individual investor investing with us, you have six (6) Business Days after your initial investment (i.e. from the date the completed application is received and accepted by us or any of our Distributors) to reconsider its appropriateness and suitability for your investment needs. Within this period, you may withdraw your investment at the same NAV per unit when the units were purchased or prevailing NAV per unit at the point of cooling-off (whichever is lower) (“Refund Amount”). We will pay the Refund Amount including the Application Fee (if any) to you in the currency of the respective Class within seven (7) Business Days from the date we receive the complete documentations. Please note that the cooling-off right is only given to first time investor investing with us or our Distributors. However, Principal Malaysia’s staff and person(s) registered with a body approved by the SC to deal in unit trust funds are not entitled to the cooling-off right.

For transaction through e-Wallet App, cooling-off right is not applicable if you have withdrawn all or parts of your investment from Class D either to your e-Wallet or your bank account. Request for cooling-off can be made directly through Principal Malaysia and/or through the e-Wallet App (where available).

If the Fund is an EPF-MIS approved fund and you have invested via EPF-MIS, your cooling-off right is subject to EPF's terms and conditions.

3.8. SWITCHING

Where available, we process a switch between the Classes of the Fund or between a Class and other Principal Malaysia's fund (or its classes) which should be denominated in the same currency. You may contact our Customer Care Centre under the "Corporate Directory" section for more information on the availability of switching. The switching is based on the value of your investments in the Class, at the point of exercising the switch.

Switching will be conducted based on the value of your investment in the Class. The minimum amount for a switch is subject to:

- For switching out of the Class:
 - the minimum withdrawal applicable to the Class;
 - the minimum balance required for the Class, unless you are withdrawing from the Class in entirety; and
 - the Withdrawal Fee of the Class (if any).
- For switching into the Class:
 - the minimum initial investment amount or the minimum additional investment amount (as the case may be) applicable to the Class; and
 - the Switching Fee applicable for the proposed switch (if any).

To switch, simply complete a switch application and send to our Distributors, Principal Malaysia's office, e-Wallet App (where available), or such other channel. Currently, there is no restriction on the frequency of switches. However, we have the discretion to allow or to reject any switching into (or out of) the Fund or Class, either generally (for all investors) or specifically (for any particular investor, a group of investors or investments made via any digital platform).

For more information on Class D, you may refer to the frequently asked questions and terms and conditions which are available on the e-Wallet App. Alternatively, you may contact our Customer Care Centre under the "Corporate Directory" section or the e-Wallet Provider to understand the service and their terms and conditions.

We may for any reason and at any time, waive or reduce: (a) any fees (except for the Trustee Fee); (b) other charges payable by you in respect of the Funds; and/or (c) transactional values including but not limited to the units or amount, for any Unit holder and/or investments made via any distribution channels or platform.

Note: *Switching into another fund is ultimately at the investor's personal choice and option. However, Muslim investors are encouraged to switch into any other Islamic fund rather than into any other conventional fund as it is not permitted from the Shariah perspective.*

3.8.1. Processing a switch

Where available, we process a switch as a withdrawal from one fund or class and an investment into another fund or class within Principal Malaysia's funds. If we receive a complete switch request by 4:00 p.m. or 1:00p.m. (for Class D) on a Business Day, we will process the switch-out using the NAV per unit for that Business Day. If we receive the request after 4:00 p.m. or 1:00 p.m. (for Class D) on a Business Day, the switch-out will be processed using the NAV per unit of the Class for the next Business Day.

However, you should note that switch-in may be processed at a later Business Day, generally within one (1) to four (4) Business Days.

3.9. TRANSFER FACILITY

Where available, you may transfer your units to another investor subject to terms and conditions as may be stipulated in the respective Deeds. A Transfer Fee of not more than MYR50.00 may be charged for each transfer. However, we may refuse to register a transfer of unit at our absolute discretion.

3.10. TEMPORARY SUSPENSION

Subject to the requirements in the GUTF and/or the Deed, we and the Trustee may temporarily suspend the dealing in units of the Fund or Class when there is good and sufficient reason to do so.

To avoid suspension of the Fund, the Fund will hold adequate liquid assets and if the liquid assets are insufficient to meet redemption requests, we will either liquidate the investments of the Fund or seek temporary financing, considering which is in the best interests of Unit Holders. Before carrying out any suspension of the Fund after we have taken all considerations under liquidity risk management framework, we will ensure that we have exhausted all possible avenues to avoid a suspension of the Fund, and only as a last resort, and in consultation with the Trustee and having considered the interests of the Unit Holders, suspend the sale (if applicable) and repurchase of Units where it is impractical for us to calculate the NAV of the Fund when material portion of the asset of the Fund is affected due to but not limited to the following:

- (i) the closure of a securities exchange or trading restrictions in the securities exchange; or

- (ii) an emergency or other state of affairs; or
- (iii) the declaration of a moratorium in a country where that Fund has assets; or
- (iv) for the purpose of conversion of any currency, a closure or restrictions on trading in the relevant foreign market exchange; or
- (v) the realisation of the assets of the Fund not being able to be effected at prices which are fair to the Fund and/or within a reasonable period as a result of an unstable or disorderly market.

Please note that during the suspension period, there will be no NAV per unit available and hence, we will not accept any transactions for the applications, withdrawals, switches and/or transfers of units. If we have earlier accepted your request for applications, withdrawals, switches, and/or transfers of units before the suspension is declared, please note that your request will only be processed on the next Business Day after the cessation of suspension of the Fund. You will also be notified of the suspension and when the suspension is lifted. In such case, you will not be able to redeem your units and will be compelled to remain invested in the Fund for a longer period of time than original timeline. Hence, your investments will continue to be subjected to the risks inherent to the Fund (please refer to the “Risk Factors” section).

3.11. DISTRIBUTION PAYMENT

Depending on the distribution policy of the respective Class, distribution (if any) will be made at the end of each distribution period to the Class(es) according to its distribution policy. Each unit of the Class will receive the same distribution for a distribution period regardless of when those units were purchased. The distribution amount you will receive is calculated by multiplying the total number of units held by you in the Class with the distribution amount in cent per unit. On the distribution date, the NAV per unit will adjust accordingly. For more information on the distribution policy of each Class, please see the respective Fund under “Funds information” chapter.

All distributions (if any) will be automatically reinvested into additional units in the Class at the NAV per unit of the Class on the distribution date (the number of units will be rounded to two (2) decimal places), unless written instructions to the contrary are communicated to us in which you should have first furnished us with details of your valid and active bank account in the currency denomination of that Class, that all distribution payment shall be paid into (the cost and expense will be borne by you). No Application Fee is payable for the reinvestment.

If units are issued as a result of the reinvestment of a distribution or other circumstance after you have withdrawn your investment from the Class, those additional units will then be withdrawn and the proceeds will be paid to you.

You should note that distribution payments, if any, will be made in the respective currency for the Class(es). As such, the distribution amount may be different for each Class as a result of exchange rate movement between the base currency of the Fund and the denominated currency of the Class(es). The distribution will be paid into your bank account (which shall be in the respective currency of the Class(es)) in our records (at your cost and expense).

IOP-EO and iLI-BG may distribute from realised income, realised capital gains, unrealised income, unrealised capital gains, capital or combination of any of the above. Distributions are at our discretion and are not guaranteed, and the making of any distribution does not imply that further distributions will be made and we reserve the right to vary the frequency and/or amount of distributions. Distribution out of capital is to allow the Fund the ability to distribute more income or to pursue the investment strategy of the Fund. The effects of making distribution out of capital has a risk of eroding the capital of the Fund.

Distribution out of capital is subject to the following:

- (a) for the purpose of managing the fund more efficiently;
- (b) to reduce the cost incurred in buying and selling of shares;
- (c) stability and sustainability of distribution of income;
- (d) cash flow for distribution; and
- (e) taking into consideration the level of capital and performance of the fund.

Distribution out of capital represent a return or withdrawal of part of the amount of your original investment and/or capital gains attributable to the original investment and will result in a reduction in the NAV per Unit of the Classes and reduce the capital available for future investment and capital growth. Future capital growth may therefore be constrained and the value of future returns would be diminished.

Note: Please note that for Class(es) that provide distribution, we have the right to make provisions for reserves in respect of distribution of the Class. If the income available is too small or insignificant, any distribution may not be of benefit to you as the total cost to be incurred in any such distribution may be higher than the amount for distribution. We have the discretion to decide on the amount to be distributed to you. We also have the discretion to make income distribution on an ad-hoc basis, taking into consideration the level of its realised income and/or realised gains, as well as the performance of the Funds.

3.12. UNCLAIMED MONEYS

Any moneys payable to you which remain unclaimed after twelve (12) months as prescribed by Unclaimed Moneys Act 1965 (“UMA”), will be surrendered to the Registrar of Unclaimed Moneys by us in accordance with the requirements of the UMA. Thereafter, all claims need to be made by you with the Registrar of Unclaimed Moneys.

For income distribution payout to you by cheque, if any, which remains unclaimed for six (6) months will be reinvested into the Class within thirty (30) Business Days after the expiry of the cheque’s validity period based on the prevailing NAV per unit on the

day of the reinvestment provided that you still hold units of the Class. As for income distribution payout to you by bank transfer, if any, which remained unsuccessful and unclaimed for six (6) months, it will be reinvested into the Class within thirty (30) Business Days after the six (6) months period based on the prevailing NAV per unit on the day of the reinvestment provided that you still holds units of the Class. No Application Fee is payable for the reinvestment. In the event that you no longer hold any unit in the Class, the distribution money would be subject to the same treatment mentioned in the above paragraph as prescribed by the UMA.

Unit prices and distributions payable, if any, may go down as well as up.

We have the discretion to amend the amount, rate and/or terms and conditions of the transaction information herein, subject to the requirements stipulated in the respective Deeds. Where necessary, we will notify the Trustee and communicate to you on the amendments to the transaction information.

8.7.2. Material Litigation and Arbitration

As at 30 September 2019, save for the suit mentioned herein below, the Trustee is not engaged in any material litigation as plaintiff or defendant and the Trustee is not aware of any proceedings, pending or threatened or of any facts likely to give rise to any proceedings which might materially and adversely affect its financial position or business.

Several holders of the bonds ("Bondholders") issued by Aldwich Berhad [In Receivership] ("Aldwich") had sued Aldwich for its failure to settle its indebtedness to the Bondholders following the default of the said bonds in 2010 and named the Trustee as one of 6 co-defendants under Kuala Lumpur High Court Civil Suit No. D-22NCC-1622-11/2012 ("Aldwich Bondholders' Suit"). The claim against the Trustee is for the sum of MYR177,248,747.31 or any other sum that the Court deems fit and proper. The other co-defendants are the holding company of Aldwich ("Holding Company"), the Chief Executive Officer of the holding company of Aldwich ("CEO"), the Security Agent and the Reporting Accountant. The Trustee denied all allegations and claimed trial.

The High Court had on 24 July 2017 delivered its judgement on the Aldwich Bondholders' Suit ("Judgement") that (a) all the defendants [i.e. Aldwich, Holding Company, CEO, Security Agent, Trustee and Reporting Accountant] are liable to the Bondholders for the sum of MYR177,248,747.31 ("Judgement Sum"); (b) Aldwich, Holding Company and CEO are 100% liable for the Judgement Sum; and (c) among Security Agent, Trustee and Reporting Accountant, liability is apportioned in the proportion of 50%, 30% and 20% of the Judgement Sum respectively.

The High Court had on 5 October 2017 decided in respect of the outstanding matters arising from the Judgement that (a) the quantum of the Judgement Sum is maintained, and (b) interest is payable based on the reduced sum of MYR148,653,953.20 at the rate of 5% per annum from 1 November 2011 to the date of payment.

The Trustee had filed an appeal against the Judgement ("Appeal") at the Court of Appeal.

On 18 September 2019, the Court of Appeal dismissed the Appeals and affirmed the decision of the High Court and awarded further costs of MYR100,000.00 against the Trustee. On 16 October 2019, the Trustee had filed its Leave Motion to the Federal Court. The Leave Motion was partially heard on 21 January 2021, 3 September 2021, and 16 February 2022. The Leave Motion was unanimously dismissed by the Federal Court.

The Aldwich Bondholders' Suit will not materially affect the business or financial position of the Trustee.

Dear Sirs

Taxation of the unit trust fund and unit holders

This letter has been prepared for inclusion in this Replacement Master Prospectus (Islamic Funds) Issue No. 13 in connection with the offer of units in the unit trust funds managed by Principal Asset Management Berhad as listed in Attachment 1 (hereinafter referred to as “the Funds”).

The purpose of this letter is to provide prospective unit holders with an overview of the impact of taxation on the Funds and the unit holders.

Taxation of the Funds

The taxation of the Funds is subject to the provisions of the Malaysian Income Tax Act 1967 (MITA), particularly Sections 61 and 63B.

Subject to certain exemptions, the income of the Funds comprising profits and other investment income derived from or accruing in Malaysia after deducting tax allowable expenses, is subject to Malaysian income tax at the rate of 24% with effect from the year of assessment 2016.

Under Section 2(7) of the MITA, any reference to interest shall apply, *mutatis mutandis*, to gains or profits received and expenses incurred, in lieu of interest, in transactions conducted in accordance with the principles of *Syariah*.

The effect of this is that any gains or profits received (hereinafter referred to as “profits”) and expenses incurred, in lieu of interest, in transactions conducted in accordance with the principles of *Syariah*, will be accorded the same tax treatment as if they were interest.

Tax allowable expenses would comprise expenses falling under Section 33(1) and Section 63B of the MITA. Section 33(1) permits a deduction for expenses that are wholly and exclusively incurred in the production of gross income. In addition, Section 63B allows unit trusts a deduction for a portion of other expenses (referred to as ‘permitted expenses’) not directly related to the production of income, as explained below.

“Permitted expenses” refer to the following expenses incurred by the Funds which are not deductible under Section 33(1) of the MITA:

- the manager’s remuneration,
- maintenance of the register of unit holders,
- share registration expenses,
- secretarial, audit and accounting fees, telephone charges, printing and stationery costs and postage.

These expenses are given a partial deduction under Section 63B of the MITA, based on the following formula:

$$A \times \frac{B}{4C}$$

where A is the total of the permitted expenses incurred for that basis period;
B is gross income consisting of dividend¹, interest and rent chargeable to tax for that basis period; and

¹ Pursuant to Section 15 of the Finance Act 2011, with effect from the year of assessment 2011, dividend income is deemed to include income distributed by a unit trust which includes distributions from Real Estate Investment Trusts.

- C is the aggregate of the gross income consisting of dividend¹ and interest (whether such dividend or interest is exempt or not) and rent, and gains made from the realisation of investments (whether chargeable to tax or not) for that basis period,

provided that the amount of deduction to be made shall not be less than 10% of the total permitted expenses incurred for that basis period.

Exempt income

The following income of the Funds is exempt from income tax:

- **Malaysian sourced dividends**
All Malaysian-sourced dividends should be exempt from income tax.
- **Malaysian sourced interest**
 - (i) interest from securities or bonds issued or guaranteed by the Government of Malaysia;
 - (ii) interest from debentures or *sukuk*, other than convertible loan stock, approved or authorized by, or lodged with, the Securities Commission;
 - (iii) interest from Bon Simpanan Malaysia issued by Bank Negara Malaysia;
 - (iv) interest derived from Malaysia and paid or credited by banks licensed under the Financial Services Act 2013 or the Islamic Financial Services Act 2013²;
 - (v) interest derived from Malaysia and paid or credited by any development financial institution prescribed under the Development Financial Institutions Act 2002³; and
 - (vi) interest from *sukuk* originating from Malaysia, other than convertible loan stock, issued in any currency other than Ringgit and approved or authorized by, or lodged with, the Securities Commission or approved by the Labuan Financial Services Authority (LFSA)³; and
 - (vii) interest which is specifically exempted by way of statutory orders or any other specific exemption provided by the Minister.
- **Discount**
Tax exemption is given on discount paid or credited to any unit trust in respect of investments as specified in items (i), (ii) and (iii) above.

Foreign-sourced income

Pursuant to the Finance Act 2021, income derived by a resident person from sources outside Malaysia and received in Malaysia from 1 January 2022 will no longer be exempt from tax.

The Guidelines issued by the Malaysian Inland Revenue Board on 29 September 2022 define the term “received in Malaysia” to mean transferred or brought into Malaysia, either by way of cash⁴ or electronic funds transfer⁵.

Foreign-sourced income (FSI) received in Malaysia during the transitional period from 1 January 2022 to 30 June 2022 will be taxed at 3% of gross. From 1 July 2022 onwards, FSI received in Malaysia will be taxed at the prevailing tax rate(s) of the taxpayer and based on applicable tax rules. Bilateral or unilateral tax credits may be allowed if the same income has suffered foreign tax, and where relevant conditions are met.

Income Tax (Exemption) (No. 6) Order 2022 has been issued to exempt a “qualifying person”⁶ from the payment of income tax in respect of dividend income which is received in Malaysia from outside Malaysia, effective from 1 January 2022 to 31 December 2026. The exemption will however not apply to a person carrying on the business of banking, insurance or sea or air transport. As the definition of “qualifying person” does not include unit trust funds, it would mean that resident unit trust funds would technically not qualify for the exemption, unless there are further updates thereto.

Gains from the realisation of investments

Pursuant to Section 61(1) (b) of the MITA, gains from the realisation of investments will not be treated as income of the Fund and hence, are not subject to income tax. Such gains may be subject to real property gains tax (RPGT) under the Real Property Gains Tax Act 1976 (RPGT Act), if the gains are derived from the disposal of chargeable assets, as defined in the RPGT Act.

² Effective from 1 January 2019, the income tax exemption for a unit trust fund, pursuant to Paragraph 35A, Schedule 6 of the Income Tax Act, 1967 shall not apply to a wholesale fund which is a money market fund.

³ Effective from the year of assessment 2017, the exemption shall not apply to interest paid or credited to a company in the same group or interest paid or credited to a bank licensed under the Financial Services Act 2013 or the Islamic Financial Services Act 2013; or a development financial institution prescribed under the Development Financial Institutions Act 2002.

⁴ “Cash” in this context is defined as banknotes, coins and cheques.

⁵ “Electronic funds transfer” means bank transfers (e.g., credit or debit transfers), payment cards (debit card, credit card and charge card), electronic money, privately-issued digital assets (e.g., crypto-assets, stablecoins) and central bank digital currency.

⁶ “Qualifying person” in this context means a person resident in Malaysia who is:

(a) An individual who has dividend income received in Malaysia from outside Malaysia in relation to a partnership business in Malaysia;

(b) A limited liability partnership which is registered under the Limited Liability Partnerships Act 2012; or

(c) A company which is incorporated or registered under the Companies Act 2016.

Implementation of Sales and Service Tax (“SST”)

Sales and Service Tax (“SST”) was re-introduced effective 1 September 2018. Sales Tax of 10% (most common rate) or 5% is charged by Malaysian manufacturers of taxable goods or upon importation into Malaysia of such taxable goods, unless specifically exempted under the Sales Tax (Goods Exempted From Tax) Order 2018. Service Tax at the rate of 6% is charged on certain prescribed taxable services performed by taxable persons as stipulated under Service Tax Regulations 2018. The input tax recovery mechanism under the previous GST regime does not apply to SST. Therefore, any SST incurred is not recoverable and will form a cost element for businesses.

Based on the Service Tax Regulations 2018, a unit trust fund is neither regarded as a taxable person nor as providing taxable services and is therefore not liable for SST registration. Where the Fund incurs expenses such as management fees, the management services provided by asset and fund managers who are licensed or registered with Securities Commission Malaysia for carrying out the regulated activity of fund management under the Capital Markets and Services Act 2007, are specifically excluded from the scope of Service Tax. As for other fees, such as trustee fees and other administrative charges, these may be subject to 6% service tax provided they fall within the scope of service tax (i.e. are provided by a “taxable person”, who exceeds the required annual threshold (in most cases RM 500,000 per annum) and the services qualify as “taxable services”).

Taxation of unit holders

For Malaysian income tax purposes, unit holders will be taxed on their share of the distributions received from the Funds.

The income of unit holders from their investment in the Funds broadly falls under the following categories:

1. taxable distributions; and
2. non-taxable and exempt distributions.

In addition, unit holders may also realise a gain from the sale of units.

The tax implications of each of the above categories are explained below:

1. Taxable distributions

Distributions received from the Funds will have to be grossed up to take into account the underlying tax paid by the Funds and the unit holder will be taxed on the grossed up amount.

Such distributions carry a tax credit, which will be available for set-off against any Malaysian income tax payable by the unit holder. Should the tax deducted at source exceed the tax liability of the unit holder, the excess is refundable to the unit holder.

Please refer to the paragraph below for the income tax rates applicable to the grossed up distributions.

2. Non-taxable and exempt distributions

Tax exempt distributions made out of gains from the realisation of investments and exempt income earned by the Funds will not be subject to Malaysian income tax in the hands of the unit holders.

A retail money market fund is exempted from tax on its interest income derived from Malaysia, pursuant to Paragraph 35A of Schedule 6 of the ITA. Pursuant to the Finance Act 2021, with effect from 1 January 2022, distributions by a retail money market fund from such tax exempt interest income, to a unit holder other than an individual, will no longer be exempt from tax. The distribution to unit holders other than individuals will be subject to withholding tax at 24%. This would be a final tax for non-residents. Malaysian residents are required to include the distributions in their tax returns and claim a credit in respect of the withholding tax suffered. Individuals will continue to be exempt from tax on such distributions.

Rates of tax

The Malaysian income tax chargeable on the unit holders would depend on their tax residence status and whether they are individuals, corporations or trust bodies. The relevant income tax rates are as follows:

Unit holders	Malaysian income tax rates
<p>Malaysian tax resident:</p> <ul style="list-style-type: none"> • Individual and non-corporate unit holders (such as associations and societies) • Co-operatives⁷ • Trust bodies • Corporate unit holders <ul style="list-style-type: none"> (i) A company with paid up capital in respect of ordinary shares of not more than RM2.5 million (at the beginning of the basis period for the year of assessment) and gross income from a source or sources consisting of a business not exceeding RM50 million for the basis period for the year of assessment^{8 9} (ii) Companies other than (i) above 	<ul style="list-style-type: none"> • Progressive tax rates ranging from 0% to 30% • Progressive tax rates ranging from 0% to 24% • 24% • First RM600,000 of chargeable income @ 17% • Chargeable income in excess of RM600,000 @ 24% • 24%
<p>Non-Malaysian tax resident (Note 1):</p> <ul style="list-style-type: none"> • Individual and non-corporate unit holders • Corporate unit holders and trust bodies 	<ul style="list-style-type: none"> • 30% • 24%

Note 1:

Non-resident unit holders may be subject to tax in their respective countries depending on the provisions of the tax legislation in the respective countries and any existing double taxation arrangements with Malaysia.

Gains from sale of units

Gains arising from the realisation of investments will generally not be subject to income tax in the hands of unit holders unless they are insurance companies, financial institutions or traders / dealers in securities.

Unit splits and reinvestment of distributions

Unit holders may also receive new units as a result of unit splits or may choose to reinvest their distributions. The income tax implications of these are as follows:

- Unit splits – new units issued by the Funds pursuant to a unit split will not be subject to income tax in the hands of the unit holders.
- Reinvestment of distributions – unit holders may choose to reinvest their income distribution in new units by informing the Manager. In this event, the unit holder will be deemed to have received the distribution and reinvested it with the Funds.

⁷ Pursuant to Paragraph 12(1), Schedule 6 of the MITA, the income of any co-operative society—
(a) in respect of a period of five years commencing from the date of registration of such co-operative society; and
(b) thereafter where the members' funds [as defined in Paragraph 12(2)] of such co-operative society as at the first day of the basis period for the year of assessment is less than seven hundred and fifty thousand ringgit,
is exempt from tax.

⁸ A company would not be eligible for the 17% tax rate on the first RM600,000 of chargeable income if:-
(a) more than 50% of the paid up capital in respect of the ordinary shares of the company is directly or indirectly owned by a related company which has paid up capital in respect of ordinary shares of more than RM2.5 million at the beginning of a basis period for a year of assessment;
(b) the company owns directly or indirectly more than 50% of the paid up capital in respect of the ordinary shares of a related company which has paid up capital in respect of ordinary shares of more than RM2.5 million at the beginning of a basis period for a year of assessment;
(c) more than 50% of the paid up capital in respect of the ordinary shares of the company and a related company which has a paid up capital in respect of ordinary shares of more than RM2.5 million at the beginning of a basis period for a year of assessment is directly or indirectly owned by another company.

⁹ The above excludes a business trust and a company which is established for the issuance of asset-backed securities in a securitization transaction approved by the Securities Commission.
