MANAGER'S REPORT

FUND OBJECTIVE AND POLICY

What is the investment objective of the Fund?

The Fund aims to provide investment results that closely correspond to the performance of the Financial Times Stock Exchange ("FTSE") China 50 Index ("Benchmark Index"), regardless of its performance.

Has the Fund achieved its objective?

For the financial year under review, the Fund has met its objective in closely corresponding to the performance of the Benchmark Index.

What are the Fund investment policy and principal investment strategy?

A passive strategy whereby the Manager may adopt either a Replication Strategy or a Representative Sampling Strategy.

Replication Strategy

In managing the Fund, the Manager will generally adopt a Replication Strategy. Using a Replication Strategy, the Fund will invest in substantially all the Index Securities in substantially the same weightings (i.e. proportions) as the Benchmark Index (to the extent possible). If the Manager is of the opinion there exists liquidity constraints with the Index Securities, the Fund may substitute the Index Securities (in part or in whole) with one or more derivatives of the Index Securities which are likely to behave in a manner consistent with the investment objective of the Fund as determined by the Manager.

Representative Sampling Strategy

The Manager may decide to adopt a Representative Sampling Strategy if various circumstances make it impossible or impracticable to adopt a Replication Strategy.

Fund category/type

Exchange-traded Fund ("ETF")/Equity

When was the Fund launched?

9 July 2010*

* Listing date

What was the size of the Fund as at 30 June 2023?

RM5.46 million (4.55 million units)

What is the Fund's benchmark?

The FTSE China 50 Index or such replacement index as may be determined by the Manager, subject to the approval of the Securities Commission Malaysia ("SC").

What is the Fund distribution policy?

Annually, subject to the discretion of the Manager.

What was the net income distribution for the financial year ended 30 June 2023?

There was no distribution made for the financial year ended 30 June 2023.

MARKET REVIEW (1 JULY 2022 TO 30 JUNE 2023)

During the third quarter of 2022 in China, the debate centralised around what policymakers will do after the political dust settles post the 20th Party Congress in October 2022 (to begin in 16 October 2022). While in August 2022, the People’s Bank of China (“PBoC”) cut policy rates and in late August 2022, the State Council announced a Chinese Yuan Renminbi (“CNY”) 1 trillion fiscal stimulus.

Towards to end of 2022, China’s Coronavirus Disease (“COVID-19”) macroeconomic and regulatory policies are coordinated in favour of growth for the first time in 3 years. China made important policy shifts in November 2022 and December 2022, i.e., it abandoned its dynamic zero-COVID-19 policy and reversed its stance towards the property sector by launching a series of policies and injecting credit to support and stimulate real estate activities.

Peering into 2023, China’s policymaking is now returning to pro-business pragmatism. On foreign relations, policymakers have been downplaying recent geopolitical tensions while increasing efforts to attract foreign direct investment (“FDI”), e.g., with the European Union (“EU”). The most important recent development is budding signs of a stabilization in the housing market, e.g., home prices have stopped declining in January 2023. China’s economic recovery is on track with first quarter of 2023 Gross Domestic Product (“GDP”) growth at +2% quarter-on-quarter (“q-o-q”) seasonally adjusted. The Government is in a pro-growth mode for policies and regulation even though significant stimulus is unlikely.

In second quarter of 2023, China’s economic momentum has been weaker than expected. Manufacturing remains tepid (Purchasing Managers’ Index (“PMI”) at 49) with soft new orders and export orders. The property market has turned sluggish again with respect to prices and new home sales.

FUND PERFORMANCE (CONTINUED)

Since inception

Changes in NAV

	30.06.2023	30.06.2022	Changes %
NAV (RM Million)	5.46	6.30	(13.33)
NAV/Unit (RM)	1.2008	1.3840	(13.24)

For the financial year under review, the Fund’s NAV was lower at RM5.46 million as at 30 June 2023 compared to RM6.30 million on 30 June 2022. On the other hand, the NAV per unit decreased to RM1.2008 per unit from RM1.3840 per unit due to the negative investment performance during the period.

Performance data represents the combined income and capital return as a result of holding units in the Fund for the specified length of time, based on NAV to NAV price. The performance data assumes that all earnings from the Fund are reinvested and are net of management and trustee fees. Past performance is not reflective of future performance and income distributions are not guaranteed. Unit prices and income distributions, if any, may fall and rise. All performance figures for the financial year have been extracted from Lipper.

MARKET OUTLOOK*

China's post-reopening recovery is weakening amid slowdown in property, the indebtedness of local Government, record high youth unemployment, and sluggish consumer and business confidence. A sustained consumption recovery will need to be supported by an improvement in employment as well as macro conditions. In the absence of significant fiscal stimulus, the economy should be sluggish going into the rest of 2023 (+5% GDP growth) and 2024 (+4.7% GDP growth). The upcoming 28 July 2023 Politburo Economic meeting is an important event as it sets the macro tone for second half of 2023.

* This market outlook does not constitute an offer, invitation, commitment, advice or recommendation to make a purchase of any investment. The information given in this article represents the views of Principal Asset Management Berhad ("Principal Malaysia") or based on data obtained from sources believed to be reliable by Principal Malaysia. Whilst every care has been taken in preparing this, Principal Malaysia makes no guarantee, representation or warranty and is under no circumstances liable for any loss or damage caused by reliance on, any opinion, advice or statement made in this market outlook.

INVESTMENT STRATEGY

As this is an ETF, the Fund will continue to remain fully invested in the Benchmark Index stocks with minimal cash kept for liquidity purposes in order to track the performance of the benchmark.

SOFT COMMISSIONS AND REBATES

Principal Asset Management Berhad (the "Manager") and the Trustee will not retain any form of rebate or soft commission from, or otherwise share in any commission with, any broker in consideration for directing dealings in the investments of the Principal Malaysia Funds ("Funds") unless the soft commission received is retained in the form of goods and services such as research and advisory services that assist in the decision making process relating to the Fund's investment. All dealings with brokers are executed on most favourable terms available for the Fund.

During the financial year under review, the Manager and the Trustee did not receive any rebates from the brokers or the dealers, but the Manager has retained soft commission in the form of goods and services such as financial wire services and stock quotations system incidental to investment management of the Funds.

SECURITIES FINANCING TRANSACTIONS

The Fund has not undertaken any securities lending or repurchase transactions during the financial year under review.

STATE OF AFFAIR OF THE FUND

There were no other significant changes in the state of affairs of the Fund during the year and up to the date of Manager's report, not otherwise disclosed in the financial statements.

CIRCUMSTANCES THAT MATERIALLY AFFECT ANY INTEREST OF UNIT HOLDERS

There were no circumstances that had materially affected the interest of the unit holders during the financial year under review.

CROSS TRADE

No cross-trade transactions have been carried out during the financial year under review.

UNIT SPLIT

No unit split exercise has been carried out during the financial year under review.

**INDEPENDENT AUDITORS' REPORT TO THE UNIT HOLDERS OF
PRINCIPAL FTSE CHINA 50 ETF**

Report on the audit of the financial statements

Opinion

We have audited the financial statements of Principal FTSE China 50 ETF (the "Fund"), which comprise the statement of financial position of the Fund as at 30 June 2023, and statement of comprehensive income, statement of changes in net assets attributable to unit holders and statement of cash flows of the Fund for the year then ended, and notes to the financial statements, including a summary of significant accounting policies, as set out on pages 8 to 35.

In our opinion, the accompanying financial statements give a true and fair view of the financial position of the Fund as at 30 June 2023, and of its financial performance and cash flows for the year then ended in accordance with Malaysian Financial Reporting Standards and International Financial Reporting Standards.

Basis for opinion

We conducted our audit in accordance with approved standards on auditing in Malaysia and International Standards on Auditing. Our responsibilities under those standards are further described in the *Auditors' responsibilities for the audit of the financial statements* section of our report. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Independence and other ethical responsibilities

We are independent of the Fund in accordance with the By-Laws (on Professional Ethics, Conduct and Practice) of the Malaysian Institute of Accountants ("By-Laws") and the International Code of Ethics for Professional Accountants (including International Independence Standards) ("IESBA Code"), and we have fulfilled our other ethical responsibilities in accordance with the By-Laws and the IESBA Code.

Key audit matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial statements of the Fund for the current year. These matters were addressed in the context of our audit of the financial statements of the Fund as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Description	Our responses
<p><u>Valuation and existence of investments</u></p> <p>The investment portfolio at the year-end comprised listed equity securities valued at RM5,383,109 (2022: RM6,172,663), representing approximately 98.50% of the total net asset value of the Fund.</p> <p>The relevant accounting disclosures are provided in accounting policies in Note 2(b) and Note 3(e) and Note 9 to the financial statements.</p> <p>A discrepancy in the valuation or existence of the investment portfolio could cause the net asset value to be materially misstated which impacts the Funds' reported performance and, therefore, the returns generated for unitholders.</p>	<p>Our audit work included, but was not restricted to, confirming our understanding of the Fund's processes and controls over the existence and valuation of investments in order to assess compliance with relevant accounting standards, by performing walkthrough procedures.</p> <p>We appropriately selected samples to test the operating effectiveness of the relevant controls identified.</p> <p>We agreed the valuation of all investments as at the year-end to an independent source of market prices. We also obtained confirmation of the existence and ownership of the investments as at the year-end directly from the Fund's independent custodian.</p>

Report on the audit of the financial statements (cont'd)

Information other than the financial statements and auditors' report thereon

The Manager of the Fund (the "Manager") is responsible for the other information. The other information comprises the information included in the annual report of the Fund, but does not include the financial statements of the Fund and our auditors' report thereon.

Our opinion on the financial statements of the Fund does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements of the Fund, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements of the Fund or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Manager and the Trustee for the financial statements

The Manager is responsible for the preparation of financial statements of the Fund that give a true and fair view in accordance with Malaysian Financial Reporting Standards and International Financial Reporting Standards. The Manager is also responsible for such internal control as the Manager determines is necessary to enable the preparation of financial statements of the Fund that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements of the Fund, the Manager is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Manager either intends to liquidate the Fund or to cease operations, or have no realistic alternative but to do so.

The Trustee is responsible for overseeing the Fund's financial reporting process. The Trustee is also responsible for ensuring that the Manager maintains proper accounting and other records as are necessary to enable true and fair presentation of these financial statements.

**INDEPENDENT AUDITORS' REPORT TO THE UNIT HOLDERS OF
PRINCIPAL FTSE CHINA 50 ETF (cont'd.)****Report on the audit of the financial statements (cont'd)***Auditors' responsibilities for the audit of the financial statements*

Our objectives are to obtain reasonable assurance about whether the financial statements of the Fund as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with approved standards on auditing in Malaysia and International Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with approved standards on auditing in Malaysia and International Standards on Auditing, we exercise professional judgement and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements of the Fund, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Manager.
- Conclude on the appropriateness of the Manager's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial statements of the Fund or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Fund to cease to continue as a going concern, and
- Evaluate the overall presentation, structure and content of the financial statements of the Fund, including the disclosures, and whether the financial statements of the Fund represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the Manager regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

**NOTES TO THE FINANCIAL STATEMENTS
FOR THE FINANCIAL YEAR ENDED 30 JUNE 2023****1. THE FUND, THE MANAGER AND ITS PRINCIPAL ACTIVITIES**

Principal FTSE China 50 ETF (the “Fund”) is governed by a Deed dated 19 April 2010, a First Supplemental Deed dated 8 December 2010, a Second Supplemental Deed dated 30 July 2014 and a Third Supplemental Deed dated 2 August 2019 (collectively referred to as the “Deeds”) between Principal Asset Management Berhad (the “Manager”) and Deutsche Trustees Malaysia Berhad (the “Trustee”).

The Manager may adopt either a Replication Strategy or a Representative Sampling Strategy. In managing the Fund, the Manager will generally adopt a Replication Strategy. Using a Replication Strategy, the Fund will invest in substantially all the Index Securities in substantially the same weightings (i.e. proportions) as the Benchmark Index (to the extent possible). If the Manager is of the opinion there exists liquidity constraints with the Index Securities, the Fund may substitute the Index Securities (in part or in whole) with one or more derivatives of the Index Securities which are likely to behave in a manner consistent with the investment objective of the Fund as determined by the Manager. Meanwhile, the Manager may decide to adopt a Representative Sampling Strategy if various circumstances make it impossible or impracticable to adopt a Replication Strategy.

All investments will be subjected to the Securities Commission Malaysia (“SC”) Guidelines on ETFs, SC requirements, Main Market Listing Requirements of Bursa Malaysia Securities Berhad, the Deed, except where exemptions or variations have been approved by the SC, internal policies and procedures and the Fund’s objective.

The Manager, is a joint venture between Principal Financial Group®, a member of the FORTUNE 500® and a Nasdaq-listed global financial services and CIMB Group Holdings Berhad, one of Southeast Asia’s leading universal banking groups. The principal activities of the Manager are the establishment and management of unit trust funds and fund management activities.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The following accounting policies have been used consistently in dealing with items which are considered material in relation to the financial statements:

(a) Basis of preparation

The financial statements have been prepared in accordance with the provisions of the MFRS as issued by the Malaysian Accounting Standards Board (“MASB”) and IFRS as issued by the International Accounting Standards Board (“IASB”).

The financial statements have been prepared under the historical cost convention, as modified by financial assets at fair value through profit or loss.

The preparation of financial statements in conformity with MFRS and IFRS requires the use of certain critical accounting estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reported year.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(a) Basis of preparation (continued)

It also requires the Manager to exercise their judgement in the process of applying the Fund's accounting policies. Although these estimates and judgement are based on the Manager's best knowledge of current events and actions, actual results may differ.

The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements are disclosed in Note 2(k).

There are no other standards, amendments to standards or interpretations effective for financial year beginning on 1 July 2022 that have a material effect on the financial statements of the Fund.

None of the standards, amendments to standards or interpretations that are effective for the financial year beginning on/after 1 July 2023 are applicable to the Fund.

(b) Financial assets and financial liabilities

Classification

The Fund classifies its financial assets in the following measurement categories:

- those to be measured subsequently at fair value through profit or loss, and
- those to be measured at amortised cost.

The Fund classifies its investments based on both the Fund's business model for managing those financial assets and the contractual cash flow characteristics of the financial assets. The portfolio of financial assets is managed and performance is evaluated on a fair value basis. The Fund is primarily focused on fair value information and uses that information to assess the assets' performance and to make decisions. The Fund has not taken the option to irrevocably designate any equity securities as fair value through other comprehensive income ("OCI").

The contractual cash flows of the Fund's debt securities are solely principal and interest ("SPPI"). However, these securities are neither held for the purpose of collecting contractual cash flows nor held both for collecting contractual cash flows and for sale. The collection of contractual cash flows is only incidental to achieving the Fund's business model's objective. Consequently, all investments are measured at fair value through profit or loss.

The Fund classifies cash and cash equivalents, and dividends receivable as financial assets at amortised cost as these financial assets are held to collect contractual cash flows consisting of the amount outstanding.

All of the Fund's financial liabilities are measured at amortised cost.

Recognition and measurement

Regular purchases and sales of financial assets are recognised on the trade-date, the date on which the Fund commits to purchase or sell the asset. Investments are initially recognised at fair value. Transaction costs are expensed in the statement of comprehensive income.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(b) Financial assets and financial liabilities (continued)

Recognition and measurement (continued)

Financial instruments are recognised in the statement of financial position when, and only when, the Fund becomes a party to the contractual provisions of the financial instrument.

Financial assets are derecognised when the rights to receive cash flows from the investments have expired or have been transferred and the Fund has transferred substantially all risks and rewards of ownership.

Financial liabilities are derecognised when it is extinguished, i.e. when the obligation specified in the contract is discharged or cancelled or expired.

Unrealised gains or losses arising from changes in the fair value of the financial assets at fair value through profit or loss are presented in the statement of comprehensive income within net gain or loss on financial assets at fair value through profit or loss in the financial year which they arise.

Dividend income from financial assets at fair value through profit or loss is recognised in the statement of comprehensive income as part of gross dividend income when the Fund's right to receive payments is established.

Foreign quoted securities are valued at the last traded market price quoted on the respective foreign stock exchanges at the close of the business day of the respective foreign stock exchanges.

If a valuation based on the market price does not represent the fair value of the quoted securities, for example during abnormal market conditions or when no market price is available, including in the event of a suspension in the quotation of the quoted securities for a period exceeding 14 days, or such shorter period as agreed by the Trustee, then the quoted securities are valued as determined in good faith by the Manager, based on the methods or basis approved by the Trustee after appropriate technical consultation.

Financial assets at amortised cost and other financial liabilities are subsequently carried at amortised cost using the effective interest method.

Impairment for assets carried at amortised costs

The Fund measures credit risk and expected credit losses ("ECL") using probability of default, exposure at default and loss given default. The Manager considers both historical analysis and forward-looking information in determining any ECL. The Manager considers the probability of default to be close to zero as these instruments have a low risk of default and the counterparties have a strong capacity to meet their contractual obligations in the near term. As a result, no loss allowance has been recognised based on 12-month ECL as any such impairment would be wholly insignificant to the Fund.

Significant increase in credit risk

A significant increase in credit risk is defined by the Manager as any contractual payment which is more than 30 days past due.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**(b) Financial assets and financial liabilities (continued)**Definition of default and credit-impaired financial assets

Any contractual payment which is more than 90 days past due is considered credit impaired.

Write-off

The Fund writes off financial assets, in whole or in part, when it has exhausted all practical recovery efforts and has concluded there is no reasonable expectation of recovery. The assessment of no reasonable expectation of recovery is based on unavailability of debtor's sources of income or assets to generate sufficient future cash flows to repay the amount. The Fund may write-off financial assets that are still subject to enforcement activity. Subsequent recoveries of amounts previously written off will result in impairment gains. There are no write-offs/recoveries during the financial year.

(c) Income recognition

Dividend income is recognised on the ex-dividend date when the right to receive payment is established.

Realised gain or loss on disposal of quoted securities is accounted for as the difference between the net disposal proceeds and the carrying amount of quoted securities, determined on a weighted average cost basis.

(d) Foreign currencyFunctional and presentation currency

Items included in the financial statements of the Fund are measured using the currency of the primary economic environment in which the Fund operates (the "functional currency"). The financial statements are presented in Malaysian Ringgit ("MYR" or "RM"), which is the Fund's functional and presentation currency.

Due to mixed factors in determining the functional currency of the Fund, the Manager has used its judgement to determine the functional currency that most faithfully represents the economic effects of the underlying transactions, events and conditions and have determined the functional currency to be in MYR primarily due to the following factors:

- i) Units of the Fund are denominated in MYR; and
- ii) Significant portion of the Fund's expenses are denominated in MYR.

Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions or valuation where items are remeasured. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at financial year-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in statement of comprehensive income.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**(e) Cash and cash equivalents**

For the purpose of statement of cash flows, cash and cash equivalents comprise bank balances which are subject to an insignificant risk of changes in value.

(f) Taxation

Current tax expense is determined according to Malaysian tax laws at the current rate based upon the taxable profit earned during the financial year.

Tax on dividend income from foreign quoted securities is based on the tax regime of the respective countries that the Fund invests in.

Pursuant to Finance Act 2021, income derived by a resident person from sources outside Malaysia and received in Malaysia from 1 January 2022 will no longer be exempt from tax. Foreign-sourced income ("FSI") received in Malaysia during the transitional period from 1 January 2022 to 30 June 2022 will be taxed at 3% of gross. From July 2022 onwards, FSI received in Malaysia will be taxed at prevailing tax rate(s) of the taxpayer and based on applicable tax rules. Bilateral or unilateral tax credits may be allowed if the same income has suffered foreign tax, and where relevant conditions are met.

(g) Transactions costs

Transaction costs are costs incurred to acquire or dispose financial assets or liabilities at fair value through profit or loss. They include fees and commissions paid to agents, advisers, brokers and dealers. Transaction costs, when incurred, are immediately recognised in the statement of comprehensive income as expenses.

(h) Unit holders' contributions

The unit holders' contributions to the Fund meet the criteria to be classified as equity instruments under MFRS 132 "*Financial Instruments: Presentation*". Those criteria include:

- the units entitle the holder to a proportionate share of the Fund's NAV;
- the units are the most subordinated class and class features are identical;
- there is no contractual obligations to deliver cash or another financial asset other than the obligation on the Fund to repurchase; and
- the total expected cash flows from the units over its life are based substantially on the profit or loss of the Fund.

The outstanding units are carried at the redemption amount that is payable at each financial year if unit holder exercises the right to put the unit back to the Fund.

Units are created and cancelled at prices based on the Fund's NAV per unit at the time of creation or cancellation. The Fund's NAV per unit is calculated by dividing the net assets attributable to unit holders with the total number of outstanding units.

(i) Realised and unrealised portions of profit or loss after taxation

The analysis of realised and unrealised portions of profit or loss after taxation as presented on the statement of comprehensive income is prepared in accordance with SC Guidelines on ETFs.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(j) Segment information

Operating segments are reported in a manner consistent with the internal reporting used by the chief operating decision-maker. The chief operating decision-maker is responsible for allocating resources and assessing performance of the operating segments.

(k) Critical accounting estimates and judgements in applying accounting policies

The Fund makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, rarely equal the related actual results. To enhance the information content of the estimates, certain key variables that are anticipated to have material impact to the Fund's results and financial position are tested for sensitivity to changes in the underlying parameters.

Estimates and judgement are continually evaluated by the Manager and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

In undertaking any of the Fund's investment, the Manager will ensure that all assets of the Fund under management will be valued appropriately, that is at fair value and in compliance with the SC Guidelines on ETFs.

However, the Manager is of the opinion that in applying this accounting policy, no significant judgement was required.

3. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT OBJECTIVES AND POLICIES

Financial instruments of the Fund are as follows:

	Financial assets at fair value through profit or loss RM	Financial assets at amortised cost RM	Total RM
2023			
Cash and cash equivalents (Note 10)	-	136,542	136,542

Dividends receivable	-	54,171	54,171
	<u>6,172,663</u>	<u>224,043</u>	<u>6,396,706</u>

All current liabilities are financial liabilities which are carried at amortised cost.

The Fund aims to provide investment results that closely correspond to the performance of the Benchmark Index, regardless of its performance.

3. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT OBJECTIVES AND POLICIES (CONTINUED)

The Fund is exposed to a variety of risks which include market risk (inclusive of price risk and currency risk), credit risk and liquidity risk.

Financial risk management is carried out through internal control process adopted by the Manager and adherence to the investment restrictions as stipulated in the Deeds and SC Guidelines on ETFs.

(a) Market risk

(i) Price risk

This is the risk that the fair value of an investment in quoted securities will fluctuate because of changes in market prices (other than those arising from currency risk). The value of quoted securities may fluctuate according to the activities of individual companies, sector and overall political and economic conditions. Such fluctuation may cause the Fund's NAV and prices of units to fall as well as rise, and income produced by the Fund may also fluctuate.

The very nature of an ETF, however, helps mitigate this risk because a Fund would generally hold a well-diversified portfolio of securities from different market sectors so that the collapse of any one security or any one market sector would not impact too greatly on the value of the Fund.

The Fund's overall exposure to price risk was as follows:

	2023	2022
	RM	RM
Financial assets at fair value through profit or loss:		
- Quoted securities	<u>5,383,109</u>	<u>6,172,663</u>

The table below summarises the sensitivity of the Fund's profit or loss and NAV to movements in prices of the Benchmark Index. The analysis is based on the assumptions that the Benchmark Index fluctuates by 33.32% (2022: 36.23%), which is the standard deviation of the daily fluctuation of the Benchmark Index, with all other variables held constant, and that the fair value of the investments moved in the same quantum with the fluctuation in the Benchmark Index. This represents management's best estimate of a reasonable possible shift in the quoted securities, having regard to the historical volatility of the prices.

% Change in Benchmark Index	Benchmark Index	Market value RM	Impact on profit or loss/ NAV RM

3. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT OBJECTIVES AND POLICIES (CONTINUED)

(a) Market risk (continued)

(ii) Currency risk

Currency risk is associated with investments that are quoted and/or priced in foreign currency denomination. Foreign currency risk is the risk that the value of financial instruments will fluctuate due to changes in foreign exchange rates. The Manager will evaluate the likely directions of a foreign currency versus MYR based on considerations of economic fundamentals such as interest rate differentials, balance of payments position, debt levels, and technical chart considerations.

The following table sets out the foreign currency risk concentrations arising from the denomination of the Fund's financial instruments in foreign currency:

Financial assets	Cash and cash equivalents RM	Financial assets at fair value through profit or loss RM	Dividends receivable RM	Total RM
2023				
HKD	<u>133,726</u>	<u>5,383,109</u>	<u>36,657</u>	<u>5,553,492</u>
2022				
HKD	<u>169,647</u>	<u>6,172,663</u>	<u>54,171</u>	<u>6,396,481</u>

The table below summarises the sensitivity of the Fund's profit or loss and NAV to changes in foreign exchange movements at the end of each reporting year. The analysis is based on the assumption that the foreign exchange rate fluctuates by 5.72% (2022: 3.42%), which is the standard deviation of the daily fluctuation of the exchange rate of HKD against MYR, with all other variables remain constants. This represents management's best estimate of a reasonable possible shift in the foreign exchange rate, having regard to historical volatility of this rate. Disclosures below are shown in absolute terms, changes and impacts could be positive or negative.

	Change in foreign exchange rate %	Impact on profit or loss/NAV RM
2023		
HKD	<u>+/-5.72</u>	<u>+/- 317,669</u>
2022		
HKD	<u>+/-3.42</u>	<u>+/-218,760</u>

3. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT OBJECTIVES AND POLICIES (CONTINUED)

(b) Credit risk

Credit risk refers to the risk that a counterparty will default on its contractual obligation resulting in financial loss to the Fund.

The credit risk arising from cash and cash equivalents is managed by ensuring that the Fund will only place deposits in reputable licensed financial institutions.

The following table sets out the credit risk concentration of the Fund at the end of each financial year:

	Cash and cash equivalents RM	Dividends receivable RM	Total RM
2023			
- AA1	136,542	-	136,542
- Not Rated	-	36,657	36,657
	<u>136,542</u>	<u>36,657</u>	<u>173,199</u>
2022			
- AA1	169,872	-	169,872
- Not Rated	-	54,171	54,171
	<u>169,872</u>	<u>54,171</u>	<u>224,043</u>

(c) Liquidity risk

Liquidity risk is the risk that the Fund will encounter difficulty in meeting its financial obligations.

The Manager manages this risk by maintaining sufficient level of liquid assets to meet anticipated payments and cancellations of the units by unit holders. Liquid asset comprises bank balances and other instruments which are capable of being converted into cash within 7 business days. Generally, all investments are subject to a certain degree of liquidity risk depending on the nature of the investment instruments, market, sector and other factors. For the purpose of the Fund, the Manager will attempt to balance the entire portfolio by investing in a mix of assets with satisfactory trading volume and those that occasionally could encounter poor liquidity. This is expected to reduce the risks for the entire portfolio without limiting the Fund's growth potentials.

The table below summarises the Fund's financial liabilities into relevant maturity groupings based on the remaining year as at the statement of financial position date to the contractual maturity date. The amounts in the table are the contractual undiscounted cash flows.

3. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT OBJECTIVES AND POLICIES (CONTINUED)

Contractual undiscounted cash flows	4,176	95,547	99,723

(d) Capital risk management

The capital of the Fund is represented by net assets attributable to unit holders of RM5,463,490 (2022: RM6,296,983). The amount of capital can change significantly on a daily basis as the Fund is subject to daily subscriptions and redemptions at the discretion of unit holders. The Fund's objective when managing capital is to safeguard the Fund's ability to continue as a going concern in order to provide returns to unit holders and benefits for other stakeholders and to maintain a strong capital base to support the development of the investment activities of the Fund.

(e) Fair value estimation

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e. an exit price).

The fair value of financial assets traded in active markets (such as trading securities) are based on quoted market prices at the close of trading on the financial year end date. The Fund utilises the last traded market price for financial assets where the last traded price falls within the bid-ask spread. In circumstances where the last traded price is not within the bid-ask spread, the Manager will determine the point within the bid-ask spread that is most representative of the fair value.

3. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT OBJECTIVES AND POLICIES (CONTINUED)

(e) Fair value estimation (continued)

An active market is a market in which transactions for the asset or liability take place with sufficient frequency and volume to provide pricing information on an ongoing basis.

The fair value of financial assets that are not traded in an active market is determined by using valuation techniques.

(i) Fair value hierarchy

The table below analyses financial instruments carried at fair value. The different levels have been defined as follows:

- Quoted prices (unadjusted) in active market for identical assets or liabilities (Level 1)
- Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) (Level 2)
- Inputs for the asset and liability that are not based on observable market data (that is, unobservable inputs) (Level 3)

The level in the fair value hierarchy within which the fair value measurement is categorised in its entirety is determined on the basis of the lowest level input that is significant to the fair value measurement in its entirety. For this purpose, the significance of an input is assessed against the fair value measurement in its entirety.

If a fair value measurement uses observable inputs that require significant adjustment based on unobservable inputs, that measurement is a Level 3 measurement.

Assessing the significance of a particular input to the fair value measurement in its entirety requires judgement, considering factors specific to the asset or liability.

The determination of what constitutes 'observable' requires significant judgement by the Fund. The Fund considers observable data to be that market data that is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market.

Investments whose values are based on quoted market prices in active markets, and are therefore classified within Level 1, include active listed equities. The Fund does not adjust the quoted prices for these instruments. The Fund's policies on valuation of these financial assets are stated in Note 2(b).

- (ii) The carrying values of cash and cash equivalents, dividends receivable and all current liabilities are a reasonable approximation of their fair values due to their short-term nature.

4. MANAGEMENT FEE

In accordance with the Deeds, the Manager is entitled to a management fee of up to 3.00% per annum calculated and accrued daily based on the NAV of the Fund.

For the financial year ended 30 June 2023 the management fee was recognised at a rate of 0.60% per annum (2022: 0.60% per annum).

There was no further liability to the Manager in respect of management fee other than the amount recognised above.

5. TRUSTEE AND CUSTODIAN FEES

In accordance with the Deeds, the Trustee is entitled to a fee not exceeding a maximum of 0.20% per annum, calculated daily based on the NAV of the Fund, subject to a minimum fee of RM18,000 per annum. However, the minimum Trustee fee was revised to RM12,000 per annum effective from 1 June 2022 based on the agreement between the Trustee and the Manager, excluding foreign sub-custodian fees and charges. The foreign sub-custodian fee and charges are dependent on the country invested and are charged monthly.

For the financial year ended 30 June 2023, the Trustee fee was recognised at a rate of 0.08% per annum (2022: 0.08% per annum), subject to a minimum fee of RM12,000 per annum, while the foreign sub-custodian fee is recognised at RM10,520 (2022: RM7,550).

There was no further liability to the Trustee and custodian in respect of Trustee and custodian fees other than the amounts recognised above.

6. LICENSE FEE

License fee is payable to FTSE International Limited, the Benchmark Index provider.

For the financial year ended 30 June 2023, the license fee was recognised at a rate of 0.04% per annum (2022: 0.04% per annum) of the NAV of the Fund, calculated on daily basis.

There is no further liability to the FTSE International Limited in respect of license fee other than the amounts recognised above.

18. SEGMENT INFORMATION

The internal reporting provided to the chief operating decision-maker for the Fund's assets, liabilities and performance is prepared on a consistent basis with the measurement and recognition principles of MFRS and IFRS. The chief operating decision-maker is responsible for the performance of the Fund and considers the business to have a single operating segment located in Malaysia. Asset allocation decisions are based on a single, integrated investment strategy and the Fund's performance is evaluated on an overall basis.

The investment objective of the Fund is to provide investment results that closely correspond to the performance of the Benchmark Index, regardless of its performance. In managing the Fund, the Manager attempts to achieve a high positive correlation and a low tracking error between the NAV of the Fund's portfolio and the Benchmark Index. The reportable operating segment derives its income by seeking investments to achieve targeted returns consummate with an acceptable level of risk within the portfolio. These returns consist of dividend income earned from investments and gains on the appreciation in the value of investments, which is derived from the 50 largest and most liquid Chinese stocks (Red Chips, H shares and P Chips) listed and trading on the HKEx, Hong Kong.

There were no changes in reportable operating segment during the financial year.

19. APPROVAL OF FINANCIAL STATEMENTS

The financial statements have been approved for issue by the Manager on 28 August 2023.
