## Key Risks

General risks of investing in a collective investment scheme	
<b>Returns not guaranteed</b>	The investment of the fund is subject to market fluctuations and its inherent risk. There is <b>NO GUARANTEE</b> on the investment returns, nor any assurance that the fund's investment objective will be achieved.
<b>Market risk</b>	Market risk refers to the possibility that an investment will lose value because of a general decline in financial markets, due to economic, political and/or other factors, which will result in a decline in the fund's NAV.
<b>Inflation risk</b>	This is the risk that your investment in the fund may not grow or generate income at a rate that keeps pace with inflation. This would reduce your purchasing power even though the value of the investment in monetary terms has increased.
<b>Loan financing risk</b>	This risk occurs when you take a loan/financing to finance your investment. The inherent risk of investing with borrowed money includes you being unable to service the loan repayments. In the event units are used as collateral, you may be required to top-up your existing instalment if the price of units fall below a certain level due to market conditions. Failing which, the units may be sold at a lower NAV per Unit as compared to the NAV per Unit at the point of purchase towards settling the loan.
Specific risks of the Fund	
<b>Fund Manager's risk</b>	Since the Fund invests into a CIS managed by another manager, the Management Company has absolute discretion over the Target Fund's investment technique and knowledge, operational controls and management. In the event of mismanagement of the Target Fund, the NAV of the Fund, which invests into the Target Fund, would be affected negatively. Although the probability of such occurrence is minute, should the situation arise, we reserve the right to seek for an alternative CIS that is consistent with the objective of this Fund, subject to your approval.
<b>Currency risk</b>	<p>You should be aware that currency risk is applicable to Class(es) (e.g. Class MYR) which is in a different currency than the base currency of the Fund (i.e. USD). The impact of the exchange rate movement between the base currency of the Fund and the currency denomination of the respective Class(es) may result in a depreciation of the value of your holdings as expressed in the currency denomination of the Class(es).</p> <p>As for a hedged Class, the Class itself provides mitigation to the currency risk arising from the difference between the currency denomination of the Class and the base currency of the Fund. While we aim to fully hedge the currency risk for a hedged Class, you should note that it may not entirely eliminate currency risk. In addition, you should note that, as a result of hedging, a hedged Class will not be able to enjoy the full benefits of the currency movement in the event of a favourable movement of the currency denomination of the hedged Class against the base currency of the Fund. You should also note that hedging incurs costs, in which will impact the NAV of a hedged Class.</p>
<b>Country risk</b>	As the Fund invests in the Target Fund which is domiciled in Luxembourg, the Fund's investments in the Target Fund may be affected by risks specific to Luxembourg. Such risks include adverse changes in Luxembourg's economic fundamentals, social and political stability, laws and regulations and foreign investments policies. These factors may be an adverse impact on the prices of the Target Fund's investments, which will depress the Target Fund's NAV growth, and consequently depress the Fund's NAV growth.

For more details, please refer to the "Risk Factors" section of the Information Memorandum. You should be aware that an investment in a Wholesale Fund may be exposed to other risks from time to time. If in doubt, please consult professional advisers for a better understanding of the risks.

**Note:** Please take note that if your investments are made through the Distributor (i.e. the IUTA via a nominee system of ownership), you would not be deemed as a Unit holder under the Deed and as a result, you may not exercise all the rights ordinarily conferred to a Unit holder (e.g. the right to call for Unit holders' meetings and the right to vote at a Unit holders' meeting).
