MANAGER'S REPORT

FUND OBJECTIVE AND POLICY

What is the investment objective of the Fund?

The Fund aims to provide investors with liquidity and regular income, whilst maintaining capital stability by investing primarily in deposits that comply with the Shariah principles.

Has the Fund achieved its objective?

For the financial year under review, the Fund was in line with its stated objective.

What are the Fund investment policy and principal investment strategy?

The Fund seeks to achieve its objective by investing at least 95% of the Fund's Net Asset Value ("NAV") in Islamic deposits, which have a remaining maturity period of less than 397 days. Up to 5% of the Fund's NAV may be maintained in cash. The investment policy is to invest in liquid and low risk short-term investments for capital preservation*.

*The Fund is neither a capital guaranteed fund nor a capital protected fund

The Fund will be actively managed by undertaking duration strategies (i.e. placing in short-term versus long-term deposits) according to our assessment of the interest rate outlook and market conditions at that point in time. In addition, we also analyze the Fund injection and redemption patterns to actively manage the liquidity of the Fund.

The asset allocation strategy for this Fund is as follows:

- at least 95% of the Fund's NAV will be invested in Islamic Deposits; and
- up to 5% of the Fund's NAV in cash.

MARKET REVIEW (1 FEBRUARY 2024 TO 31 JULY 2024)

Bank Negara Malaysia ("BNM") kept the Overnight Policy Rate ("OPR") at 3.00% for the seventh consecutive Monetary Policy Committee ("MPC") meeting on 10-11 July 2024 amid "hold-for-longer" US Fed, as well as firmer economic growth, upside risk to domestic inflation and stable Malaysia Ringgit ("MYR/RM").

Headline inflation rate and core inflation remained unchanged in June 2024 at 2% and 1.9%, respectively. Transport inflation increased to 1.2% (May 2024: 0.9%), mainly due to diesel price adjustment. Food & Beverages ("F&B") inflation was slightly higher at +2.0% in June 2024 (May 2024: +1.8%) while other key Consumer Price Index ("CPI") components were steady. Housing, Water, Electricity, Gas & Other Fuels ("HWEGOF") inflation stays elevated at +3.2% (May 2024: +3.2%) following water tariff hike on 1 February 2024.

The unemployment rate remained unchanged at 3.3% in May 2024 (April 2024: 3.3%) for the seventh consecutive month, amid sustained growth in employment (May 2024: +1.8%; April 2024: +1.9%) and labour force (May 2024: +1.7%, April 2024: +1.7%). According to the Department of Statistics, two-thirds of jobs growth were in the Services sector.

Advance estimates for Malaysia's second quarter of 2024 ("2Q2024") Gross Domestic Product ("GDP") suggest the economy expanded by 5.8% (first quarter of 2024 ("1Q2024"): 4.2% year-of-year ("Y-o-Y")). The actual number will be released on 16 August 2024. The growth was supported by faster expansions in services, manufacturing, agriculture and construction amid slower mining.

The Fund was fully invested in deposit placements with Shariah-compliant financial institutions.

MARKET OUTLOOK*

We remain positive on the local bond market as we believe that the tightening trend on monetary policy has reached its peak with the OPR at 3.00% for 2024.

BNM forecasts headline inflation between 2.0% - 3.5% (2023: 2.5%) – incorporating fuel price adjustments from the fuel subsidy rationalisation measures – and core inflation between 2.0% - 3.0% (2023: 3.0%) for 2024. The full year inflation will only be marginally impacted from the new sales & services tax and utility tariffs. The MPC will continue to ensure that the monetary policy stance remains consistent with the current assessment of the inflation and growth prospects.

INVESTMENT STRATEGY

The Fund's objective is to provide investors with liquidity and regular income hence it will continue to maintain its investment primarily in deposits with licensed financial institutions.

SOFT COMMISSIONS AND REBATES

Principal Malaysia (the "Manager") and the Trustee will not retain any form of rebate from, or otherwise share in any commission with, any broker or dealer in consideration for directing dealings in the investments of the Principal Malaysia Funds ("Funds"). Accordingly, any rebate or shared commission will be directed to the account of the Fund. The Manager may retain goods and services (soft commission) provided by any broker or dealer if the following conditions are met:

- (a) the soft commission brings direct benefit or advantage to the management of the Fund and may include research and advisory related services;
- (b) any dealings with the broker or dealer is executed on terms which are the most favourable for the Fund; and
- (c) the availability of soft commission is not the sole or primary purpose to perform or arrange transactions with such broker or dealer, and we and the fund the manager will not enter into unnecessary trades in order to achieve a sufficient volume of transactions to qualify for soft commission.

During the financial period under review, the Manager and Trustee did not receive any rebates from the brokers or dealers but the Manager has retained soft commission in the form of goods and services for the benefit of the fund such as financial wire services and stock quotations system incidental to investment management of the Funds and there was no churning of trades.

^{*} This market outlook does not constitute an offer, invitation, commitment, advice, or recommendation to make a purchase of any investment. The information given in this article represents the views of Principal Asset Management Berhad ("Principal Malaysia") or based on data obtained from sources believed to be reliable by Principal Malaysia. Whilst every care has been taken in preparing this, Principal Malaysia makes no guarantee, representation or warranty and is under no circumstances liable for any loss or damage caused by reliance on, any opinion, advice or statement made in this market outlook.

SECURITIES FINANCING TRANSACTIONS

The Fund has not undertaken any securities lending or repurchase transactions during the financial period under review.

STATE OF AFFAIR OF THE FUND

There were no other significant changes in the state of affairs of the Fund during the period and up to the date of Manager's report, not otherwise disclosed in the financial statements.

In relation to this Fund, we have issued the first Supplement Prospectus dated 16 May 2023.

CIRCUMSTANCES THAT MATERIALLY AFFECT ANY INTEREST OF UNIT HOLDERS

There were no circumstances that had materially affected the interest of the unit holders during the financial period under review.

NOTES TO THE FINANCIAL STATEMENTS FOR THE SIX MONTHS FINANCIAL PERIOD ENDED 31 JULY 2024

1. THE FUND, THE MANAGER, AND ITS PRINCIPAL ACTIVITIES

Principal Islamic Deposit Fund (the "Fund") is governed by a Tenth Supplemental Master Deed dated 23 July 2009, a Fourteenth Supplemental Master Deed dated 26 June 2012, a Fifteen Supplemental Master Deed dated 21 September 2012, a Seventeenth Supplemental Master Deed dated 25 March 2015, a Nineteenth Supplemental Master Deed dated 18 June 2019, a Twentieth Supplemental Master Deed dated 9 April 2021 and a Twenty First Supplemental Master Deed dated 15 April 2021 (collectively referred to as the "Deeds"), made between Principal Asset Management Berhad (the "Manager") and HSBC (Malaysia) Trustee Berhad (the "Trustee").

The Fund seeks to achieve its objective by investing at least 95% of the Fund's NAV in Islamic deposits, which have a remaining maturity period of less than 397 days. Up to 5% of the Fund's NAV may be maintained in cash. The investment policy is to invest in liquid and low risk short-term investments for capital preservation*.

*The Fund is neither a capital guaranteed fund nor a capital protected fund.

The Fund will be actively managed by undertaking duration strategies (i.e. placing in short-term versus long-term deposits) according to our assessment of the interest rate outlook and market conditions at that point in time. In addition, we also analyze the Fund injection and redemption patterns to actively manage the liquidity of the Fund.

The asset allocation strategy for this Fund is as follows:

- at least 95% of the Fund's NAV will be invested in Islamic Deposits; and
- up to 5% of the Fund's NAV in cash.

In relation to this Fund, we have issued the first Supplement Prospectus dated 16 May 2023.

All investments are subjected to the Guidelines on Unit Trust Funds ("GUTF") issued by the Securities Commission Malaysia ("SC"), SC requirements, the Deeds, except where exemptions or variations have been approved by the SC, internal policies and procedures and the Fund's objective.

The Manager is a joint venture between Principal Financial Group®, a member of the FORTUNE 500® and a Nasdaq-listed global financial services and CIMB Group Holdings Berhad, one of Southeast Asia's leading universal banking groups. The principal activities of the Manager are the establishment and management of unit trust funds and fund management activities.

2. MATERIAL ACCOUNTING POLICIES

The following accounting policies have been used consistently in dealing with items which are considered material in relation to the financial statements:

(a) Basis of preparation

The financial statements have been prepared in accordance with the provisions of the MFRS as issued by the Malaysian Accounting Standards Board ("MASB") and International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB").

The financial statements have been prepared under the historical cost convention, as modified by financial assets at fair value through profit or loss.

(a) Basis of preparation (continued)

The preparation of financial statements in conformity with MFRS and IFRS requires the use of certain critical accounting estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reported period.

It also requires the Manager to exercise their judgement in the process of applying the Fund's accounting policies. Although these estimates and judgement are based on the Manager's best knowledge of current events and actions, actual results may differ.

The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements are disclosed in Note 2(i).

There are no other standards, amendments to standards or interpretations that are effective for financial periods beginning on 1 February 2024 that have a material effect on the financial statements of the Fund.

None of the standards, amendments to standards or interpretations that are effective for the financial period beginning on/after 1 August 2024 are applicable to the Fund.

(b) Financial assets and financial liabilities

Classification

The Fund classifies its financial assets in the following measurement categories:

- those to be measured subsequently at fair value through profit or loss, and
- those to be measured at amortised cost.

The Fund classifies its investments based on both the Fund's business model for managing those financial assets and the contractual cash flow characteristics of the financial assets. The portfolio of financial assets is managed, and performance is evaluated on a fair value basis. The Fund is primarily focused on fair value information and uses that information to assess the assets' performance and to make decisions.

The contractual cash flows of the Fund's debt securities are solely principal and interest¹ ("SPPI"). However, these securities are neither held for the purpose of collecting contractual cash flows nor held both for collecting contractual cash flows and for sale. The collection of contractual cash flows is only incidental to achieving the Fund's business model's objective. Consequently, all investments are measured at fair value through profit or loss.

The Fund classifies cash and cash equivalents and amount due from Manager as financial assets at amortised cost as these financial assets are held to collect contractual cash flows consisting of the amount outstanding.

All of the Fund's financial liabilities are measured at amortised cost.

Recognition and measurement

Regular purchases and sales of financial assets are recognised on the trade date, the date on which the Fund commits to purchase or sell the asset. Investments are initially recognised at fair value.

¹ For the purposes of this Fund, interest refers to profits earned from Shariah-compliant investments.

(b) Financial assets and financial liabilities (continued)

Recognition and measurement (continued)

Financial instruments are recognised in the statement of financial position when, and only when, the Fund becomes a party to the contractual provisions of the financial instrument.

Financial assets are derecognised when the rights to receive cash flows from the Shariah-compliant investments have expired or have been transferred and the Fund has transferred substantially all risks and rewards of ownership.

Shariah-compliant deposits with licensed Islamic financial institutions are stated at fair value. Due to the short-term nature of the deposits, the cost plus accrued interest¹ calculated based on the effective profit method over the period from the date of placement to the date of maturity of the respective deposits is a reasonable estimate of fair value.

Financial liabilities are derecognised when it is extinguished, i.e. when the obligation specified in the contract is discharged or cancelled or expired.

Financial assets at amortised cost and other financial liabilities are subsequently carried at amortised cost using the effective profit method.

Impairment for assets carried at amortised costs

The Fund measures credit risk and expected credit loss ("ECL") using probability of default, exposure at default and loss given default. The Manager consider both historical analysis and forward-looking information in determining any ECL. The Manager consider the probability of default to be close to zero as these instruments have a low risk of default and the counterparties have a strong capacity to meet their contractual obligations in the near term. As a result, no loss allowance has been recognised based on 12-month ECL as any such impairment would be wholly insignificant to the Fund.

Significant increase in credit risk

A significant increase in credit risk is defined by the Manager as any contractual payment which is more than 30 days past due.

Definition of default and credit-impaired financial assets

Any contractual payment which is more than 90 days past due is considered credit impaired.

Write-off

The Fund writes off financial assets, in whole or in part, when it has exhausted all practical recovery efforts and has concluded there is no reasonable expectation of recovery. The assessment of no reasonable expectation of recovery is based on unavailability of debtor's sources of income or assets to generate sufficient future cash flows to repay the amount. The Fund may write-off financial assets that are still subject to enforcement activity. Subsequent recoveries of amounts previously written off will result in impairment gains. There are no write-offs/recoveries during the financial period.

(c) Income recognition

Profit income from Shariah-compliant deposits with licensed Islamic financial institutions is recognised on a time proportionate basis using effective profit rate method on an accrual basis.

Profit income is calculated by applying the effective profit rate to the gross carrying amount of a financial asset except for financial assets that subsequently become credit impaired. For credit-impaired financial assets the effective profit rate is applied to the net carrying amount of the financial asset (after deduction of the loss allowance).

(d) Functional and presentation currency

Items included in the financial statements of the Fund are measured using the currency of the primary economic environment in which the Fund operates (the "functional currency"). The financial statements are presented in Malaysian Ringgit ("MYR" or "RM"), which is the Fund's functional and presentation currency.

(e) Cash and cash equivalents

For the purpose of statement of cash flows, cash and cash equivalents comprise bank balance which are subject to an insignificant risk of changes in value.

(f) Taxation

Current tax expense is determined according to Malaysian tax laws at the current rate based upon the taxable profit earned during the financial period.

(q) Distribution

A distribution to the Fund's unit holders is accounted for as a deduction from realised reserve except where dividend is sourced out of distribution equalisation which is accounted for as a deduction from unitholders' contributions. A proposed distribution is recognised as a liability in the financial period in which it is approved by the Trustee.

(h) Unit holders' contributions

The unit holders' contributions to the Fund meet the criteria to be classified as equity instruments under *MFRS 132 "Financial Instruments: Presentation"*. Those criteria include:

- the units entitle the holder to a proportionate share of the Fund's NAV;
- the units are the most subordinated class and class features are identical:
- there is no contractual obligations to deliver cash or another financial asset other than the obligation on the Fund to repurchase; and
- the total expected cash flows from the units over its life are based substantially on the profit or loss of the Fund.

The outstanding units are carried at the redemption amount that is payable at each financial period if unit holder exercises the right to put the unit back to the Fund.

Units are created and cancelled at prices based on the Fund's NAV per unit at the time of creation or cancellation. The Fund's NAV per unit is calculated by dividing the net assets attributable to unit holders with the total number of outstanding units.

(i) Realised and unrealised portions of profit or loss after tax

The analysis of realised and unrealised portions of profit or loss after tax as presented on the statement of comprehensive income is prepared in accordance with GUTF.

(j) Critical accounting estimates and judgements in applying accounting policies

The Fund makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, rarely equal the related actual results. To enhance the information content of the estimates, certain key variables that are anticipated to have material impact to the Fund's results and financial position are tested for sensitivity to changes in the underlying parameters.

Estimates and judgement are continually evaluated by the Manager and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

In undertaking any of the Fund's investment, the Manager will ensure that all assets of the Fund under management will be valued appropriately, that is at fair value and in compliance with the GUTF.

However, the Manager is of the opinion that there are no accounting policies which require significant judgement to be exercised.

3. RISK MANAGEMENT OBJECTIVES AND POLICIES

The Fund aims to provide investors with liquidity and regular income, whilst maintaining capital stability by investing primarily in deposits that comply with the Shariah principles.

The Fund is exposed to a variety of risks which include market risk (inclusive of interest rate risk), liquidity risk and credit risk.

Financial risk management is carried out through internal control process adopted by the Manager and adherence to the investment restrictions as stipulated in the Deeds and GUTF.

(a) Market risk

(i) Interest rate risk

Interest rate is a general economic indicator that will have an impact on the management of the Fund. Fair value interest rate risk is the risk that the value of a financial instrument will fluctuate due to changes in market interest rates.

It does not in any way suggest that this Fund will invest in conventional financial instruments. All investment carried out for the Fund including placements and deposits are in accordance with Shariah.

The Fund's exposure to fair value interest rate risk arises from Shariah-compliant investment in money market instruments. The interest rate risk is expected to be minimal as the Fund's investments comprise mainly Shariah-compliant short-term deposits with approved licensed Islamic financial institutions.

Cash flow interest rate risk is the risk that the future cash flows of a financial instrument will fluctuate because of changes in market interest rates.

The Fund is not exposed to cash flow interest rate risk as the Fund does not hold any financial instruments at variable interest rate.

As at the end of each financial period, the Fund is not exposed to a material level of interest rate risk.

3. RISK MANAGEMENT OBJECTIVES AND POLICIES (CONTINUED)

(b) Credit risk

Credit risk refers to the risk that a counter party will default on its contractual obligation resulting in financial loss to the Fund.

The credit risk arising from placements of Shariah-compliant deposits with licensed Islamic financial institutions is managed by ensuring that the Fund will only place Shariah-compliant deposits in reputable licensed Islamic financial institutions.

For amount due from Manager, the settlement terms of the proceeds from the creation of units receivable from the Manager are governed by the GUTF.

(c) Liquidity risk

Liquidity risk is the risk that the Fund will encounter difficulty in meeting its financial obligations.

The Manager manages this risk by maintaining sufficient level of liquid assets to meet anticipated payments and cancellations of the units by unit holders. Liquid assets comprise bank balances, Shariah-compliant deposits with licensed Islamic financial institutions and other instruments, which are capable of being converted into cash within 7 business days. This is expected to reduce the risks for the entire portfolio without limiting the Fund's growth potentials.

(d) Capital risk management

The capital of the Fund is represented by net assets attributable to unit holders. The amount of capital can change significantly on a daily basis as the Fund is subjected to daily subscriptions and redemptions at the discretions of unit holders. The Fund's objective when managing capital is to safeguard the Fund's ability to continue as a going concern in order to provide returns to unit holder and benefits for other stakeholders and to maintain strong capital base to support the development of the investment activities of the Fund.

(e) Fair value estimation

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e. an exit price).

The fair values of financial assets traded in active markets (such as trading securities) are based on quoted market prices at the close of trading on the financial period-end date. The Fund utilises the last traded market price for financial assets where the last traded price falls within the bid-ask spread. In circumstances where the last traded market price is not within the bid-ask spread, the Manager will determine the point within the bid-ask spread that is most representative of the fair value.

An active market is a market in which transactions for the asset or liability take place with sufficient frequency and volume to provide pricing information on an ongoing basis.

The fair value of financial assets that are not traded in an active market is determined by using valuation techniques.

3. RISK MANAGEMENT OBJECTIVES AND POLICIES (CONTINUED)

(e) Fair value estimation (continued)

(i) Fair value hierarchy

The table below analyses financial instruments carried at fair value. The different levels have been defined as follows:

- Quoted prices (unadjusted) in active market for identical assets or liabilities (Level 1)
- Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) (Level 2)
- Inputs for the asset and liability that are not based on observable market data (that is, unobservable inputs) (Level 3)

The level in the fair value hierarchy within which the fair value measurement is categorised in its entirety is determined on the basis of the lowest level input that is significant to the fair value measurement in its entirety. For this purpose, the significance of an input is assessed against the fair value measurement in its entirety.

If a fair value measurement uses observable inputs that require significant adjustment based on unobservable inputs, that measurement is a Level 3 measurement.

Assessing the significance of a particular input to the fair value measurement in its entirety requires judgement, considering factors specific to the asset or liability.

The determination of what constitutes 'observable' requires significant judgement by the Fund. The Fund considers observable data to be that market data that is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market.

3. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT OBJECTIVES AND POLICIES (CONTINUED)

(e) Fair value estimation (continued)

(i) Fair value hierarchy (continued)

Financial instruments that trade in markets that are not considered to be active but are valued based on quoted market prices, dealer quotations or alternative pricing sources supported by observable inputs are classified within Level 2. This includes Shariah-compliant deposits with licensed Islamic financial institutions.

As Level 2 instruments include positions that are not traded in active markets and/or are subject to transfer restrictions, valuations may be adjusted to reflect illiquidity and/or non-transferability, which are generally based on available market information. The Fund's policies on valuation of these financial assets are stated in Note 2(b).

(ii) The carrying values of cash and cash equivalents, amount due from Manager and all liabilities are a reasonable approximation of their fair values due to their short-term nature.

4. MANAGEMENT FEE

In accordance with the Deeds, the Manager is entitled to a maximum management fee of up to 3.00% per annum calculated daily based on the NAV of the Fund.

For the financial period ended 31 July 2024 and 31 July 2023, the management fee for Class AI and Class AR are recognised at a rate as per below table.

CLASS AI	CLASS AR
0.30%	0.30%

There was no further liability to the Manager in respect of management fee other than the amount recognised above.

5. TRUSTEE FEE

In accordance with the Deeds, the Trustee is entitled to a maximum fee of 0.04% per annum calculated daily based on the NAV of the Fund.

For the financial period ended 31 July 2024 and 31 July 2023, the Trustee fee for Class AI and Class AR are recognised at a rate as per below table.

CLASS AI	CLASS AR
0.015%	0.015%

There was no further liability to the Trustee in respect of Trustee fee other than the amount recognised above.

6. DISTRIBUTIONS (CONTINUED)

Gross distribution was derived using total income less total expenses. Net distributions above were sourced from current financial period's realised profit income.

Gross distribution per unit is derived from gross realised income less expenses, divided by the number of units in circulation. Net distribution per unit is derived from gross realised income less expenses and taxation, divided by the number of units in circulation.

Distribution equalisation represents the average amount of distributable income included in the creation and cancellation prices of units. It is computed as at each date of creation and cancellation of units. For the purpose of determining amount available for distribution, distribution equalisation is included in the computation of realised gains or income available for distribution.

7. TAXATION
