MARKET REVIEW (1 SEPTEMBER 2023 TO 31 AUGUST 2024)

During the financial year under review, the sovereign yield moved lower across the curve by 6 basis points ("bps") to 17bps. The 3-year, 5-year, 7-year, 10-year, 15-year, 20-year and 30-year Government Investment Issues ("GII") closed at 3.39%, 3.53%, 3.70%, 3.79%, 3.95%, 4.09%, and 4.20% respectively in August 2024.

Budget 2024 was tabled in October 2023. It was the country's largest ever spending bill with RM393.8 billion, about 2% larger than that of Budget 2023. The Budget 2024 focuses on three main pillars: 1. enhancing governance and the public service delivery, 2. restructuring the economy to boost growth, and 3. uplifting the standard of life for the citizens. With a lower fiscal deficit target for 2024 at 4.3% of Gross Domestic Product ("GDP") (2023: -5.0%, 2022: -5.8%), the government maintains its gradual fiscal consolidation path set out in the updated Medium-Term Fiscal Framework ("MTFF") with an average fiscal deficit of 3.5% of GDP (2024 to 2026).

The year 2023 closed with the sovereign yield curve continued to move lower as the US Treasuries ("UST") continued to rally, largely fuelled by the expectations that the Federal Reserve (the "Fed") would start cutting interest rates soon. Sentiments continued to be supported during the month following the Fed December 2023 meeting, where it indicated an end to rate hikes and did not strongly oppose market bets on rate cuts in 2024.

The full year 2023 GDP growth was 3.7% as compared to the government's projection of 4% to 5% growth. Falling exports amid rising imports were the main cause of the downward revision. The decline in net exports deepened further to -35.6% year-on-year ("y-o-y") in fourth quarter of 2023 (Third quarter of 2023: -22.7% y-o-y) arising from a larger drop in exports of goods and services (-6.3% y-o-y) as compared to imports (-2.9% y-o-y). Overall, the 2023, growth moderated due mainly to slower global trade, the global tech downcycle, geopolitical tensions and tighter monetary policies.

The year 2024 began with the sovereign yield curve traded mixed. The movement in sovereign moved closely to the UST in January 2024 as a correction was seen after the strong rally at the end of 2023. The credit segment continued to outperform the sovereign segment in the first 2 months of 2024.

Bank Negara Malaysia ("BNM") released its Annual Report 2023 in March 2024 together with the Economic & Monetary Review and Financial Stability Review second half of 2023. On the economic front, BNM expects the Malaysian economy to expand by +4.0% to 5.0% in 2024, up from +3.7% reading for 2023, despite ongoing geopolitical tensions and potentially slower global growth. On the monetary front, BNM forecasts headline inflation between 2% to 3.5% (2023: 2.5%), incorporating fuel price adjustments from the fuel subsidy rationalization measures and core inflation between 2% to 3.0% (2023: 3.0%) for 2024. The full year inflation will only be marginally impacted from the new sales & services tax and utility tariffs. The central bank repeated that policy stance will remain conducive to a sustainable economic growth while safeguarding price stability.

Meanwhile, BNM kept the Overnight Policy Rate ("OPR") unchanged at 3.00% for the seventh consecutive Monetary Policy Committee ("MPC") meeting on In July 2024 amid "hold-for-longer" the Fed, as well as firmer economic growth, upside risk to domestic inflation and stable Ringgit.

On macro, Malaysia second half of 2024 GDP grew 5.9% y-o-y (First quarter of 2024: +4.2% y-o-y) higher than the advance estimates of 5.8%. The growth was mainly due to stronger domestic demand and further expansion in exports. On the demand side, private consumption rose 6% while private investment grew 12%. Net external demand turned positive at 3.4% (First quarter of 2024: -24.5%). On the supply side, growth was broad based with most sectors registering better growth momentum. The services sector, which account for more than half of Malaysia's economic output registered 5.9% from 4.8% y-o-y and manufacturing activity advanced by 4.7% from 1.9% y-o-y. The construction sector improved by 17.3% from 11.9% y-o-y. Meanwhile, inflation held steady at 2% in July 2024 for the third consecutive month. Prices continued to rise led by services related industries. This includes cost of healthcare, communication, recreation/culture, insurance & financial as well as restaurants & hotels. Core inflation was also unchanged at 1.9% y-o-y.

For the financial year, Class D NAV per unit is at RM1.0567.

For Class MYR, the Fund's NAV as at 31 August 2024 increased by 66.49% to RM1,248.95 million from RM750.17 million in 2024 due to injections and better performance of the underlying sukuk in the Fund. Meanwhile, the NAV per unit also increased by 2.80% to RM1.3198 per unit from RM1.2838 per unit.

Performance data represents the combined income and capital return as a result of holding units in the Fund for the specified length of time, based on NAV to NAV price. The performance data assumes that all earnings from the Fund are reinvested and are net of management and trustee fees. Past performance is not reflective of future performance and income distributions are not guaranteed. Unit prices and income distributions, if any, may fall and rise. All performance figures for the financial year have been extracted from Lipper.

For the financial year under review, the Fund is 95.10% invested in Unquoted sukuk with 8.37% in cash and other assets holding as liquidity maintained for participation in primary issuances and secondary offers.

MARKET OUTLOOK*

BNM kept the OPR at 3.00% for the seventh consecutive Monetary Policy Committee meeting in July 2024 amid "hold-for-longer" the Fed, as well as firmer economic growth, upside risk to domestic inflation and stable Malaysian Ringgit. The better-than-expected second half of 2024 GDP growth at 5.9% y-o-y which brings the first half of 2024 growth to +5.1% y-o-y (First half of 2023:+4.1% y-o-y) was broad based driven. With upbeat first half of 2024 performance, some economists have revised upwards their 2024 GDP growth forecast above 5%. The official guidance on real GDP growth remains unchanged at 4% to 5%. The slightly lower gross sovereign securities supply for 2024 should provide positive catalyst for the local bond market. Meanwhile, credit spreads remained significantly below their long-term averages. Demand for corporate bonds remained healthy as investors continued to seek yields.

*This market outlook does not constitute an offer, invitation, commitment, advice or recommendation to make a purchase of any investment. The information given in this article represents the views of Principal Asset Management Berhad ("Principal Malaysia") or based on data obtained from sources believed to be reliable by Principal Malaysia. Whilst every care has been taken in preparing this, Principal Malaysia makes no guarantee, representation or warranty and is under no circumstances liable for any loss or damage caused by reliance on, any opinion, advice or statement made in this market outlook.

INVESTMENT STRATEGY

With stable interest rate outlook and positive supply -demand dynamics, we remain cautiously optimistic on the domestic bond market. We continue to maintain our preference on the credit segment for better yield pickup with focus on primary issuances.

SOFT COMMISSIONS AND REBATES

Principal Asset Management Berhad (the "Manager") and the Trustee will not retain any form of rebate or otherwise share in any commission with, any broker or dealer in consideration for directing dealings in the investments of the Principal Malaysia Funds ("Funds"). Accordingly, any rebates or shared commission will be directed to the account of the Fund. The Manager may retain goods and services (soft commission) provided by any broker or dealer if the following conditions are met:

- (a) the soft commission bring direct benefit or advantage to the management of the Fund and may include research and advisory related services;
- (b) any dealings with the broker or dealer is executed on terms which are the most favourable for the Funds; and
- (c) the availability of soft commissions is not the sole or primary purpose to perform or arrange transactions with such broker or dealer, and the Manager will not enter into unnecessary trades in order to achieve a sufficient volume of transactions to qualify for soft commissions.

During the financial year under review, the Manager and the Trustee did not receive any rebates from the brokers or dealers, but the Manager has retained soft commission in the form of goods and services such as financial wire services and stock quotations system incidental to investment management of the Funds. The Manager confirms that the goods and services received were for the benefit of the Fund, the trades were made on a best execution basis and there was no churning of trades.

SECURITIES FINANCING TRANSACTIONS

The Fund has not undertaken any securities lending or repurchase transactions during the financial year under review.

STATE OF AFFAIR OF THE FUND

Effective 9 October 2023, the Fund has changed Trustee to HSBC (Malaysia) Trustee Berhad following the issuance of the First Supplemental Master Prospectus (Islamic Funds) dated 5 September 2023. We are of view that the changes above do not affect the existing unit holder to stay invested in the Fund and it is not a significant change.

There were no significant changes in the state of affairs of the Fund during the year and up to the date of Manager's report, not otherwise disclosed in the financial statements.

CIRCUMSTANCES THAT MATERIALLY AFFECT ANY INTEREST OF UNIT HOLDERS

There were no circumstances that had materially affected the interest of the unit holders during the financial year under review.

CROSS TRADE

No cross-trade transactions have been carried out during the financial year under review.

UNIT SPLIT

No unit split exercise has been carried out during the financial year under review.

Information other than the financial statements and auditors' report thereon

The Manager of the Fund (the "Manager") is responsible for the other information. The other information comprises the information included in the annual report of the Fund, but does not include the financial statements of the Fund and our auditors' report thereon.

Our opinion on the financial statements of the Fund does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements of the Fund, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements of the Fund or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Manager and the Trustee for the financial statements

The Manager is responsible for the preparation of financial statements of the Fund that give a true and fair view in accordance with Malaysian Financial Reporting Standards and International Financial Reporting Standards. The Manager is also responsible for such internal control as the Manager determines is necessary to enable the preparation of financial statements of the Fund that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements of the Fund, the Manager is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Manager either intends to liquidate the Fund or to cease operations, or have no realistic alternative but to do so.

The Trustee is responsible for overseeing the Fund's financial reporting process. The Trustee is also responsible for ensuring that the Manager maintains proper accounting and other records as are necessary to enable true and fair presentation of these financial statements.

INDEPENDENT AUDITORS' REPORT TO THE UNIT HOLDERS OF PRINCIPAL ISLAMIC LIFETIME SUKUK FUND (CONT'D.)

Report on the audit of the financial statements (cont'd.)

Auditors' responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements of the Fund as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with approved standards on auditing in Malaysia and International Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with approved standards on auditing in Malaysia and International Standards on Auditing, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements of the Fund, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Manager.
- Conclude on the appropriateness of the Manager's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial statements of the Fund or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements of the Fund, including the disclosures, and whether the financial statements of the Fund represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the Manager regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

NOTES TO THE FINANCIAL STATEMENTS FOR THE FINANCIAL YEAR ENDED 31 AUGUST 2024

1. THE FUND, THE MANAGER AND ITS PRINCIPAL ACTIVITIES

Principal Islamic Lifetime Sukuk Fund (the "Fund") is governed by a Principal Master Deed dated 15 May 2008, a Fourth Supplemental Master Deed dated 25 June 2008, a Fifth Supplemental Master Deed dated 25 June 2008, a Sixth Supplemental Master Deed dated 14 July 2008, a Seventh Supplemental Master Deed dated 19 November 2008, a Twelfth Supplemental Master Deed dated 14 June 2010, a Fourteenth Supplemental Master Deed dated 26 June 2012, a Seventeenth Supplemental Master Deed dated 25 March 2015, a Nineteenth Supplemental Master Deed dated 18 June 2019, a Twentyfirst Supplemental Master Deed dated 15 April 2021, a Twentysecond Supplemental Master Deed dated 7 December 2021, a Twentythird, Supplemental Master Deed dated 27 June 2022, a Twentyfourth Supplemental Master Deed dated 20 September 2022 (collectively referred to as the "Deeds"), made between Principal Asset Management Berhad (the "Manager") and AmanahRaya Trustees Berhad (the "Previous Trustee") and a Twenty Fifth Supplemental Master Deed dated 26 May 2023 (collectively referred to as the "Deeds") between the Manager and HSBC (Malaysia) Trustee Berhad (the "Trustee"). In line with its objective, the investment strategy and policy of the Fund is to invest in a diversified portfolio of Islamic fixed income securities consisting principally of Sukuk, which aim to provide a steady stream of income from the profit of Sukuk. A minimum of 70% and up to a maximum of 98% of the Fund's NAV may be invested in Sukuk carrying at least a "BBB3" or "P2" rating by RAM or equivalent rating by MARC or by local rating agency(ies) of the country of issuance; or "BBB-" by S&P or equivalent rating by any other international rating agencies. The Fund may invest up to 40% of its NAV in Unrated Sukuk and up to 28% of its NAV in other permissible Shariah-compliant investments. The Fund may also opt to seek investment exposure via Islamic collective investment scheme that is in line with the Fund's objective, subject to the requirement of the Guidelines on Unit Trust Funds ("GUTF"). The rest of the Fund is maintained in the form of Islamic liquid assets to meet any withdrawal payments to unit holders.

The asset allocation strategy for this Fund is as follows:

- between 70% to 98% (both inclusive) of the Fund's NAV in Sukuk;
- up to 28% of the Fund's NAV in other permissible Shariah-compliant investments;
- up to 40% of the Fund's NAV in Unrated Sukuk; and
- at least 2% of the Fund's NAV in Islamic liquid assets.

All investments are subjected to the GUTF, SC requirements, the Deeds, except where exemptions or variations have been approved by the SC, internal policies and procedures and the Fund's objective.

The Fund had issued the First Supplemental Master Prospectus (Islamic Funds) dated 5 September 2023.

The Manager is a joint venture between Principal Financial Group®, a member of the FORTUNE 500® and a Nasdaq-listed global financial services and CIMB Group Holdings Berhad, one of Southeast Asia's leading universal banking groups. The principal activities of the Manager are the establishment and management of unit trust funds and fund management activities.

2. MATERIAL ACCOUNTING POLICIES

The following accounting policies have been used consistently in dealing with items which are considered material in relation to the financial statements:

(a) Basis of preparation (continued)

The financial statements have been prepared in accordance with the provisions of the MFRS as issued by the Malaysian Accounting Standards Board ("MASB") and International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB"). The financial statements have been prepared under the historical cost convention, as modified by financial assets at fair value through profit or loss. The preparation of financial statements in conformity with MFRS and IFRS requires the use of certain critical accounting estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reported year. It also requires the Manager to exercise their judgement in the process of applying the Fund's accounting policies. Although these estimates and assumptions are based on the Manager's best knowledge of current events and actions, actual results may differ.

The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements are disclosed in Note 2(k).

There are no other standards, amendments to standards or interpretations that are effective for financial year beginning on 1 September 2023 that have a material effect on the financial statements of the Fund.

None of the standards, amendments to standards or interpretations that are effective for the financial year beginning on/after 1 September 2024 are applicable to the Fund.

(b) Financial assets and financial liabilities

Classification

The Fund classifies its financial assets in the following measurement categories:

- those to be measured subsequently at fair value through profit or loss, and
- those to be measured at amortised cost.

The Fund classifies its investments based on both the Fund's business model for managing those financial assets and the contractual cash flow characteristics of the financial assets. The portfolio of financial assets is managed and performance is evaluated on a fair value basis. The Fund is primarily focused on fair value information and uses that information to assess the assets' performance and to make decisions. The Fund has not taken the option to irrevocably designate any equity securities as fair value through other comprehensive income ("OCI"). The contractual cash flows of the Fund's debt securities are solely payment of principal and interest¹ ("SPPI"). However, these securities are neither held for the purpose of collecting contractual cash flows nor held both for collecting contractual cash flows and for sale. The collection of contractual cash flows is only incidental to achieving the Fund's business model's objective. Consequently, all investments are measured at fair value through profit or loss.

The Fund classifies cash and cash equivalents, amount due from dealer and amount due from Manager as financial assets at amortised cost as these financial assets are held to collect contractual cash flows consisting of the amount outstanding.

All of the Fund's financial liabilities are measured at amortised cost.

¹ For the purposes of this Fund, interest refers to profits earned from Shariah-compliant investments.

(b) Financial assets and financial liabilities (continued)

Recognition and measurement

Regular purchases and sales of financial assets are recognised on the trade-date, the date on which the Fund commits to purchase or sell the asset. Shariah-compliant investments are initially recognised at fair value.

Financial instruments are recognised in the statement of financial position when, and only when, the Fund becomes a party to the contractual provisions of the financial instrument.

Financial assets are derecognised when the rights to receive cash flows from the Shariahcompliant investments have expired or have been transferred and the Fund has transferred substantially all risks and rewards of ownership.

Financial liabilities are derecognised when it is extinguished, i.e. when the obligation specified in the contract is discharged or cancelled or expired.

Unrealised gains or losses arising from changes in the fair value of the financial assets at fair value through profit or loss are presented in the statement of comprehensive income within net gain or loss on financial assets at fair value through profit or loss in the financial year which they arise.

Unquoted Sukuk denominated in Ringgit Malaysia ("MYR" or "RM") are revalued on a daily basis based on fair value prices quoted by a Bond Pricing Agency ("BPA") registered with the SC as per the GUTF. Refer to Note 2(k) for further explanation.

Shariah-compliant deposits with licensed Islamic financial institutions are stated at cost plus accrued profit calculated on the effective profit method over the year from the date of placement to the date of maturity of the respective deposits.

Financial assets at amortised cost and other financial liabilities are subsequently carried at amortised cost using the effective profit method.

Impairment for assets carried at amortised costs

The Fund measures credit risk and expected credit loss ("ECL") using probability of default, exposure at default and loss given default. The Manager consider both historical analysis and forward looking information in determining any ECL. The Manager consider the probability of default to be close to zero as these instruments have a low risk of default and the counterparties have a strong capacity to meet their contractual obligations in the near term. As a result, no loss allowance has been recognised based on 12 month ECL as any such impairment would be wholly insignificant to the Fund.

Significant increase in credit risk

A significant increase in credit risk is defined by the Manager as any contractual payment which is more than 30 days past due.

(b) Financial assets and financial liabilities (continued)

Definition of default and credit-impaired financial assets

Any contractual payment which is more than 90 days past due is considered credit impaired.

Write-off

The Fund writes off financial assets, in whole or in part, when it has exhausted all practical recovery efforts and has concluded there is no reasonable expectation of recovery. The assessment of no reasonable expectation of recovery is based on unavailability of debtor's sources of income or assets to generate sufficient future cash flows to repay the amount. The Fund may write-off financial assets that are still subject to enforcement activity. Subsequent recoveries of amounts previously written off will result in impairment gains. There are no write-offs/recoveries during the financial year.

(c) Income recognition

Profit income from Shariah-compliant deposits with licensed Islamic financial institutions and unquoted Sukuk are recognised on a time proportionate basis using the effective profit method on an accrual basis. Profit income is calculated by applying the effective profit rate to the gross carrying amount of a financial asset except for financial assets that subsequently become credit impaired.

For credit-impaired financial assets the effective profit rate is applied to the net carrying amount of the financial asset (after deduction of the loss allowance).

Realised gain or loss on disposal of unquoted Sukuk is accounted for as the difference between the net disposal proceeds and the carrying amount of Shariah-compliant investments, determined on cost adjusted for accretion of discount or amortisation of premium.

(d) Functional and presentation currency

Items included in the financial statements of the Fund are measured using the currency of the primary economic environment in which the Fund operates (the "functional currency"). The financial statements are presented in Malaysian Ringgit ("MYR" or "RM"), which is the Fund's functional and presentation currency.

(e) Cash and cash equivalents

For the purpose of statement of cash flows, cash and cash equivalents comprise bank balances and Shariah-compliant deposits held in highly liquid investments with original maturities of three months or less that are readily convertible to known amount of cash and which are subject to an insignificant risk of changes in value.

(f) Taxation

Current tax expense is determined according to Malaysian tax laws at the current rate based upon the taxable profit earned during the financial year.

(g) Distribution

Distributions to unit holders are recognised in the statement of comprehensive income as the unit holders' contribution are classified as financial liability for the current financial year. Distribution is reinvested into the Fund on the ex-date. Reinvestment of units is based on the NAV per unit on the ex-date, which is also the time of creation. Proposed distributions are recognised as a liability in the financial year in which it is approved by the Trustee.

In the previous financial years prior to issuance of different classes of units, a distribution to the Fund's unit holders is accounted for as a deduction from realised reserve before deduction from realised reserves as the unit holders' contributions were classified as equity.

(h) Unit holder's contributions

For the current financial year, the unit holders' contributions to the Fund meet the definition of puttable instruments classified as financial liability under MFRS 132 "Financial Instruments: Presentation".

The Fund issues cancellable units, in two classes of units, known respectively as the Class MYR and Class D which are cancelled at the unit holders' option and do not have identical features subject to restrictions as stipulated in the Prospectus and GUTF. The units are classified as financial liabilities. Cancellable units can be put back to the Fund at any time for cash equal to a proportionate share of the Fund's NAV of respective classes. The outstanding units are carried at the redemption amount that is payable at the date of the statement of financial position if the member exercises the right to put back the unit to the Fund's NAV per unit of respective classes at the close of business on the relevant dealing day. The Fund's NAV per unit of respective classes is calculated by dividing the net assets attributable to members of respective classes with the total number of outstanding units of respective classes.

In the previous financial years prior to issuance of different classes of units, the unit holders' contributions to the Fund meet the criteria to be classified as equity instruments under MFRS 132 "Financial Instruments: Presentation". Those criteria include:

- the units entitle the holder to a proportionate share of the Fund's NAV;
- the units are the most subordinated class and class features are identical;
- there is no contractual obligations to deliver cash or another financial asset other than the obligation on the Fund to repurchase; and
- the total expected cash flows from the units over its life are based substantially on the profit or loss of the Fund.

The outstanding units are carried at the redemption amount that is payable at each financial year if unit holder exerises the right to put the unit back to the Fund.

Units are created and cancelled at prices based on the Fund's NAV per unit at the time of creation and cancellation. The Fund's NAV per unit is calculated by dividing the net assets attributable to unit holders with the total number of outstanding units.

(i) Amount due from/to dealers

Amounts due from and amount due to dealers represent receivables for unquoted Sukuk sold and payables for unquoted Sukuk purchased that have been contracted for but not yet settled or delivered on the reporting date respectively.

(j) Realised and unrealised portions of profit or loss after tax

The analysis of realised and unrealised portions of profit or loss after tax as presented on the statement of comprehensive income is prepared in accordance with GUTF.

(k) Critical accounting estimates and judgements in applying accounting policies

The Fund makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, rarely equal the related actual results. To enhance the information content of the estimates, certain key variables that are anticipated to have material impact to the Fund's results and financial position are tested for sensitivity to changes in the underlying parameters. Estimates and judgement are continually evaluated by the Manager and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

Estimate of fair value of unquoted Sukuk

In undertaking any of the Fund's investment, the Manager will ensure that all assets of the Fund under management will be valued appropriately, that is at fair value and in compliance with the GUTF.

MYR/RM-denominated unquoted Sukuk are valued using fair value prices quoted by a BPA. Where the Manager is of the view that the price quoted by BPA for a specific unquoted Sukuk differs from the market price by more than 20 bps the Manager may use market price, provided that the Manager records its basis for using a non-BPA price, obtains necessary internal approvals to use the non-BPA price, and keeps an audit trail of all decisions and basis for adopting the use of non-BPA price.

3. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT OBJECTIVES AND POLICIES

Financial instruments of the Fund were as follows:

	Financial assets at fair value through profit or loss RM	Financial assets at amortised cost RM	Total RM
2024	-	92,337,245	92,337,245
Cash and cash equivalents (Note 9)	1,187,791,135	-	1,187,791,135
Unquoted Sukuk (Note 8)	-	4,285,849	4,285,849
Amount due from dealer	-	7,890,274	7,890,274
Amount due from Manager	1,187,791,135	104,513,368	1,292,304,503

Unquoted Sukuk (Note 8)	-	2,961,487	2,961,487
Amount due from Manager	721,594,104	34,737,104	756,331,208

All liabilities are financial liabilities which are carried at amortised cost.

The Fund aims to gain higher than average income over the medium to long-term by investing in a diversified portfolio consisting principally of Sukuk, certificates of deposit, short-term money market instruments and other permissible investments under the Shariah principles.

The Fund is exposed to a variety of risks which include market risk (inclusive of price risk and interest rate risk), credit risk and liquidity risk.

Financial risk management is carried out through internal control process adopted by the Manager and adherence to the investment restrictions as stipulated in the Deeds and GUTF.

(a) Market risk

(i) Price risk

This is the risk that the fair value of an investment in unquoted Sukuk will fluctuate because of changes in market prices (other than those arising from interest rate risk).

The Fund is exposed to price risk arising from profit rate fluctuation in relation to its investments of RM1,187,791,135 (2023: RM721,594,104) in unquoted Sukuk. The Fund's exposure to price risk arising from profit rate fluctuation and the related sensitivity analysis are disclosed in "interest rate risk" below.

(ii) Interest rate risk

In general, when interest rates rise, unquoted Sukuk prices will tend to fall and vice versa. Therefore, the NAV of the Fund may also tend to fall when interest rates rise or are expected to rise. However, investors should be aware that should the Fund holds an unquoted Sukuk till maturity, such price fluctuations would dissipate as it approaches maturity, and thus the growth of the NAV shall not be affected at maturity. In order to mitigate interest rates exposure of the Fund, the Manager will manage the duration of the portfolio via shorter or longer tenured assets depending on the view of the future interest rate trend of the Manager, which is based on its continuous fundamental research and analysis.

Although unquoted Sukuk is a non-interest bearing instrument, investors should note that the movement in prices of unquoted Sukuk are correlated to the movement in interest rates. As such, the investments in unquoted Sukuk are exposed to the movement of the interest rates. Even though the Fund does not invest in interest bearing instruments, the interest rate referred herein is to the general interest rate of the country, which may affect the value of the investment of the Fund. However, it does not in any way suggest that this Fund will invest in conventional financial instruments. All investments carried out for the Fund including placement and deposits are in accordance with Shariah.

This risk is crucial since unquoted Sukuk portfolio management depends on forecasting interest rate movements. Prices of unquoted Sukuk move inversely to interest rate movements, therefore as interest rates rise, the prices of unquoted Sukuk decrease and vice versa. Furthermore, unquoted Sukuk with longer maturity and lower yield coupon rates are more susceptible to interest rate movements.

Such investments may be subject to unanticipated rise in interest rates which may impair the ability of the issuers to meet the obligation under the instrument, especially if the issuers are highly leveraged. An increase in interest rates may therefore increase the potential for default by an issuer.

The table below summarises the sensitivity of the Fund's profit or loss and NAV to movements in prices of unquoted Sukuk held by the Fund as a result of movement in interest rate at the end of each reporting year.

(a) Market risk (continued)

(ii) Interest rate risk (continued)

The analysis is based on the assumptions that the interest rate changed by 1% with all other variables held constant. This represents management's best estimate of a reasonable possible shift in the interest rate, having regard to the historical volatility of the interest rate.

% Change in	Impact on profit or loss/NAV		
interest rate	2024	2023	
	RM	RM	
+1%	(3,067,701)	(1,663,431)	
-1%	3,089,369	1,669,623	

Cash flow interest rate risk is the risk that the future cash flows of a financial instrument will fluctuate because of changes in market interest rates.

The Fund is not exposed to cash flow interest rate risk as the Fund does not hold any financial instruments at variable interest rate

The weighted average effective profit rate per annum was as follows:

	2024	2023
	%	%
Shariah-compliant deposits with licensed		
Islamic financial institutions	3.10	2.95

As at the end of each financial year, the Fund is not exposed to a material level of interest rate risk.

(b) Credit risk

Credit risk refers to the risk that counterparty will default on its contractual obligation Credit risk refers to the risk that counterparty will default on its contractual obligation resulting in financial loss to the Fund.

Investment in unquoted Sukuk may involve a certain degree of credit/default risk with regards to the issuers. Generally, credit risk or default risk is the risk of loss due to the issuer's non-payment or untimely payment of the investment amount as well as the returns on investment. This will cause a decline in value of the defaulted unquoted Sukuk and subsequently depress the NAV of the Fund. Usually credit risk is more apparent for an investment with a longer tenure, i.e. the longer the duration, the higher the credit risk.

Credit risk can be managed by performing continuous fundamental credit research and analysis to ascertain the creditworthiness of its issuer. In addition, the Manager imposes a minimum rating requirement as rated by either local and/or foreign rating agencies and manages the duration of the investment in accordance with the objective of the Fund. For this Fund, the unquoted Sukuk investments must satisfy a minimum rating requirement of at least "BBB3" or "P2" rating by RAM or equivalent rating by MARC or by local rating agency(ies) of the country of issuance; "BBB-" by S&P or equivalent rating by by any other international rating agencies.

(b) Credit risk (continued)

The credit risk arising from bank balance and placements of Shariah-compliant deposits in licensed Islamic financial institutions is managed by ensuring that the Fund will only place Shariah-compliant deposits in reputable licensed Islamic financial institutions.

For amount due from Manager, the settlement terms of the proceeds from the creation of units' receivable from the Manager are governed by the GUTF.

The following table sets out the credit risk concentration of the Fund:

Shariah-compliant deposits with licensed Islamic financial institutions of the Fund have an average maturity of 3 days (2023: 2 days).

(c) Liquidity risk

Liquidity risk is the risk that the Fund will encounter difficulty in meeting its financial obligations. The Manager manages this risk by maintaining sufficient level of liquid assets to meet anticipated payments and cancellations of the units by unit holders. Liquid assets comprise bank balance and Shariah-compliant deposits with licensed Islamic financial institutions, which are capable of being converted into cash within 7 business days. Generally, all investments are subject to a certain degree of liquidity risk depending on the nature of the investment instruments, market, sector and other factors.

(c) Liquidity risk (continued)

For the purpose of the Fund, the Manager will attempt to balance the entire portfolio by investing in a mix of assets with satisfactory trading volume and those that occasionally could encounter poor liquidity. This is expected to reduce the risks for the entire portfolio without limiting the Fund's growth potentials.

The table below summarises the Fund's financial liabilities into relevant maturity groupings based on the remaining year as at the statement of financial position date to the contractual maturity date. The amounts in the table are the contractual undiscounted cash flows.

* Outstanding units are redeemed on demand at the holder's option. However, the Manager does not envisage that the contractual maturity disclosed in the table above will be representative of the actual cash outflows, as holders of these instruments typically retain them for the medium to long term.

(d) Capital risk management

The capital of the Fund is net assets attributable to unit holders of RM1,248,946,972 (2023: RM750,173,160). The amount of capital can change significantly on a daily basis as the Fund is subject to daily subscriptions and redemptions at the discretion of unit holders. The Fund's objective when managing capital is to safeguard the Fund's ability to continue as a going concern in order to provide returns to unit holders and benefits for other stakeholders and to maintain a strong capital base to support the development of the investment activities of the Fund.

(e) Fair value estimation

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e. an exit price).

The fair value of financial assets traded in active markets (such as trading securities) are based on quoted market prices at the close of trading on the financial year end date. The Fund utilises the last traded market price for financial assets where the last traded market price falls within the bid-ask spread. In circumstances where the last traded price is not within the bid-ask spread, the Manager will determine the point within the bid-ask spread that is most representative of the fair value.

An active market is a market in which transactions for the asset or liability take place with sufficient frequency and volume to provide pricing information on an ongoing basis.

The fair value of financial assets that are not traded in an active market is determined by using valuation techniques.

(i) <u>Fair value hierarchy</u>

The table below analyses financial instruments carried at fair value. The different levels have been defined as follows:

- Quoted prices (unadjusted) in active market for identical assets or liabilities (Level 1)
- Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) (Level 2)
- Inputs for the asset and liability that are not based on observable market data (that is, unobservable inputs) (Level 3)

The level in the fair value hierarchy within which the fair value measurement is categorised in its entirety is determined on the basis of the lowest level input that is significant to the fair value measurement in its entirety. For this purpose, the significance of an input is assessed against the fair value measurement in its entirety.

If a fair value measurement uses observable inputs that require significant adjustment based on unobservable inputs, that measurement is a Level 3 measurement.

Assessing the significance of a particular input to the fair value measurement in its entirety requires judgement, considering factors specific to the asset or liability.

The determination of what constitutes 'observable' requires significant judgement by the Fund. The Fund considers observable data to be that market data that is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market.

(e) Fair value estimation (continued)

(i) Fair value hierarchy (continued)

	Level 1 RM	Level 2 RM	Level 3 RM	Total RM
2024 Financial assets at fair value through profit or loss: - Unquoted Sukuk		1,187,791,135	<u> </u>	1,187,791,135
2023 Financial assets at fair value through profit or loss: - Unquoted Sukuk	_	721,594,104	_	721,594,104

Financial instruments that trade in markets that are not considered to be active but are valued based on quoted market prices, dealer quotations or alternative pricing sources supported by observable inputs are classified within Level 2. This includes unquoted Sukuk. As Level 2 instruments include positions that are not traded in active markets and/or are subject to transfer restrictions, valuations may be adjusted to reflect illiquidity and/or non-transferability, which are generally based on available market information. The Fund's policies on valuation of these financial assets are stated in Note 2(b).

(ii) The carrying values of cash and cash equivalents, amount due from dealer, amount due from Manager and all current liabilities are a reasonable approximation of their fair values due to their short-term nature.

4. MANAGEMENT FEE

In accordance with the Deeds, the Manager is entitled to a maximum management fee of 3.00% per annum, calculated daily based on the NAV of the Fund.

For the financial year ended 31 August 2024, the management fee is recognised at a rate of 0.95% per annum (2023: 0.95% per annum).

There was no further liability to the Manager in respect of management fee other than the amount recognised above.

5. TRUSTEE FEE

In accordance with the Deeds, the Trustee is entitled to a maximum fee of up to 0.06% per annum, calculated daily based on the NAV of the Fund. The Trustee fee includes local custodian fee but excludes foreign sub-custodian fee (if any).

5. TRUSTEE FEE (CONTINUED)

For the financial period from 1 September 2023 to 8 October 2023, the Trustee fee is recognised at a rate of 0.06%. Effective 9 October 2023, the Trustee fee is recognised at a rate of 0.03% per annum (2023: 0.06% per annum).

There was no further liability to the Trustee in respect of Trustee fee other than the amount recognised above.

Distribution on 6 July 2023			-	1.22

* Distribution income has been accrued as at the end of the prior financial year but is not declared and paid as distribution.

Gross distribution was derived using total income less total expenses. Net distribution above was sourced from current and prior financial years' realised income.

Gross distribution per unit is derived from gross realised income less expenses, divided by the number of units in circulation. Net distribution per unit is derived from gross realised income less expenses and taxation, divided by the number of units in circulation.

There were no unrealised losses during the financial year ended 31 August 2024 (2023: Nil).

12. TOTAL EXPENSE RATIO ("TER")

	2024 %	2023 %
TER	0.99	1.01

TER is derived based on the following calculation:

TER	=	<u>(A + B + C + D + E) x 100</u>
		F

- A = Management fee
- B = Trustee fee
- C = Audit fee
- D = Tax agent's fee
- E = Other expenses
- F = Average NAV of the Fund calculated on a daily basis

The average NAV of the Fund for the financial year calculated on a daily basis is RM970,072,780 (2023: RM736,798,546).

13. PORTFOLIO TURNOVER RATIO ("PTR")

	2024	2023
PTR (times)	0.47	0.42

PTR is derived from the following calculation:

<u>(Total acquisition for the financial year + total disposal for the financial year) \div 2 Average NAV of the Fund for the financial year calculated on a daily basis</u>

where: total acquisition for the financial year = RM679,876,122 (2023: RM353,659,230) total disposal for the financial year = RM234,239,984 (2023: RM259,238,439)
