## PRS PROVIDER'S REPORT

### FUND OBJECTIVE AND POLICY

#### What is the investment objective of the Fund?

The Fund seeks to provide capital growth over the long-term by investing in a portfolio of primarily Shariah-compliant equities with some exposure in Sukuk.

#### Has the Fund achieved its objective?

The Fund did not perform in line with its objective during the financial period under review but has provided capital growth over the long-term.

#### What are the Fund investment policy and principal investment strategy?

The Fund will invest in a portfolio of mixed assets, primarily in Shariah-compliant equities with some exposure in Sukuk, to provide capital growth to the Fund. The fixed income portion will provide capital stability to the Fund whilst the equity portion will provide the added return in a rising market. The Fund may opt to invest in Sukuk and Shariah-compliant equities either directly or via Islamic collective investment scheme.

The investments by the Fund in Shariah-compliant equities which include foreign exposure may be up to 90% of the Fund's NAV and investments in local and/or foreign Sukuk will be at least 10% of the Fund's Net Asset Value ("NAV") with a minimum credit rating of "BBB3" or "P2" by RAM Rating Services Berhad ("RAM") or equivalent rating by Malaysian Rating Corporation Berhad ("MARC") or "BBB" or "A-2" by Standard & Poor's ("S&P") or equivalent rating by any other international rating agencies. Notwithstanding, the Fund may also invest up to 10% of its NAV in unrated Sukuk.

The asset allocation strategy for this Fund is as follows:

- At least 10% of the Fund's NAV will be invested in Sukuk;
- Up to 10% of the Fund's NAV may be invested in unrated Sukuk;
- Up to 90% of the Fund's NAV may be invested in Shariah-compliant equities; and
- Up to 5% of the Fund's NAV may be invested in Islamic liquid assets for liquidity purpose.

#### Fund category/type

Mixed asset (Shariah-compliant)

#### When was the Fund launched?

Name of Class	Launch Date
Class A	12 November 2012
Class C	12 November 2012

**MARKET REVIEW (1 SEPTEMBER 2024 TO 28 FEBRUARY 2025)**

**Equity**

For the financial period under review, FBMS Index (the "Index") fell by 7.12% from 12,286.67 points to 11,411.79 points.

The Index dropped 0.3% month-on-month ("m-o-m") in September 2024 which was in stark contrast to the stronger US market which recorded new highs following the US Federal Reserves (the "Fed") 50 basis points ("bps") cut during the month and greater confidence of a soft-landing scenario for the US economy. Most sectors were down except for Construction, Property and Healthcare, with Energy and Technology sold off the most.

In October 2024, the Index further fell 1.5% m-o-m as investors risk-off ahead of the US elections, despite the Fed very likely to cut another 25bps in the November 2024 Federal Open Market Committee ("FOMC") meeting given the recent inflation print and weak jobs data. Utilities and Telecommunication were sold off the most, while Construction, Real Estate Investment Trust ("REIT") and Healthcare posted modest gains.

**MARKET REVIEW (1 SEPTEMBER 2024 TO 28 FEBRUARY 2025) (CONTINUED)**

**Equity (continued)**

The Index slid another 0.2% m-o-m in November 2024 as investors continue to risk off due to uncertainties surrounding potential new policies under the new US administration, as well as the trajectory of the Fed rates given the recent economic data. Utilities, Commodities, Telecommunication, Transport and Consumer were sold off the most, while Healthcare, Property, Construction and Plantation posted modest gains.

The Index ended 2024 higher with December 2024 rising 4.6% m-o-m, aided by year-end window dressing and cash redeployment by domestic funds amidst another month of heavy foreign selling due to policy uncertainties under the new US administration and the trajectory of Fed rates coupled with rising bond yields. Utilities, Commodities, Telecommunication, Transport topped the leaderboard, while within the broader market, Technology, Property and Healthcare did well.

The Index fell 6.8% m-o-m in January 2025. The sell-off was largely caused by the recent US Artificial Intelligent (“AI”) diffusion rules, further exacerbated by the launch of Deep Seek by China which questioned global AI Capex and monetization prospects. This was largely concentrated on Data Centre (“DC”) - related plays domestically namely Construction, Utilities, Telcos and Properties. The shift in Fed rate expectations due to Trump’s tariff posture did not help. Within the broader market, Technology, Consumer and Healthcare also languished.

The Index further languished into February, down 2.8% m-o-m as investors re-assessed the impact of US AI diffusion rules, the launch of cost-effective AI models, US tariffs and the trajectory of Fed rates. Technology, Energy, Consumer Discretionary, Materials and Gloves languished whilst Consumer Staples and Telcos did well.

**Unquoted Sukuk**

There were no changes to the overnight policy rate throughout the period under review with Bank Negara Malaysia keeping the overnight policy rate at 3.00% for the 10<sup>th</sup> consecutive meeting in January 2025, in line with market expectations. At the current Overnight Policy Rate (“OPR”) level, the monetary policy stance remains supportive of the economy and is consistent with the current assessment of inflation and growth prospects.

After inflation started to tick upwards in the middle of 2024, it started to gradually move lower as consumer price index (“CPI”) registered 1.8% for the month of September and at 1.9% in October 2024. In November and December 2024, the inflation rate was at 1.8% and 1.7%, respectively. The annual inflation rate for 2024 stood at 1.8% for the year, marking a two-year consecutive decline in inflation since 2022. Meanwhile, in January 2025, inflation rate registered at 1.7% with increase for the month being driven by an increase in the main groups of restaurant and accommodation services, personal care, social protection, recreating and education. It registered lower at 1.5% in February 2025 with the Statistics Department (“DoSM”) stating that increase was driven by slower rises in key groups, including housing, water, electricity, recreation, sport & culture, health, transport, furnishings, household equipment and routine household maintenance.

For full year 2024, the Bond Pricing Agency Malaysia (“BPAM”) Corporates All Bond (7-year over) Index kept its position as the best performer with returns of 5.50%, while the BPAM All Bond Index – Malaysian Government Securities (“MGS”) – 1 Year – 3 Year was the worst performer for the year with returns of 3.55%. The best performers in the month of February 2025 were the BPAM Corporates All Bond (7 year over) Index and BPAM Corporates All Sukuk (7 year over) Index with returns of 0.63% and 0.61% respectively, while the worst performing index was the Quantshop GII Short Index with returns of 0.23%.

MARKET REVIEW (1 SEPTEMBER 2024 TO 28 FEBRUARY 2025) (CONTINUED)

**Unquoted Sukuk**

Foreign investors holdings in Malaysian debt securities decreased by RM1.12 billion in February 2025, reversing the first increase in January 2025. By debt instruments, MGS, Government Investment Issues (“MGII”) and discounted instruments saw outflow of RM0.2 billion, RM1.4 billion and RM0.1 billion respectively. Total foreign holdings in February dropped to RM275.2 billion from RM276.4 billion in January 2025. As of February 2025, total foreign holdings in MGS stood at RM206.1 billion, representing approximately 32.1% (January 2024: 32.2%).

Corporate bond trading volume in February 2025 increased by 64.04% m-o-m to RM16.46 billion from RM10.03 billion in January 2025. For full year 2024, corporate bond issuance swelled to RM124.2 billion in 2024, surpassing the previous year’s RM118.3 billion. The financial (RM51.7 billion) and real estate (RM19.9 billion) sectors continued to be the primary drivers of issuance, mirroring trends observed in 2023.

Total gross issuances for 2024 were estimated to be at RM178 billion comprising a total of 36 auctions. In December 2024, there was only one auction as Bank Negara Malaysia (“BNM”) announced changes in this year’s auction calendar. BNM rescheduled the 10-year MGS auction to December from November 2024 and cancelled the 3-year GII auction initially planned for December 2024. With the revised auction schedule, the total government auction for the year was smaller than expected at RM175 billion gross issuance.

In 2024, the MGS yield curve saw flattening in the long-end of the curve as the 20-year 30-year moved lower by 4 bps to 6 bps. Meanwhile, the 5-10y moved higher by 1 bps to 11 bps, with the 10-year MGS moving the most as it ended at 3.84% at the end of December 2024. (2023: 3.72%). Local government bonds market continued to be supported with marginal movements amid the low US Treasury (“UST”) yield levels in February 2025. The MGS yield curve steepened mildly with the 3-year to 10-year moving lower by 1 bps to 3 bps, apart from the 20-year which closed marginally higher by 1 bps. Meanwhile, the 15-year MGS remained unchanged and the 30-year adjusted lower by 1 bps towards for the month.

**FUND PERFORMANCE (CONTINUED)**

For the financial period under review, the Fund’s Class A, C and X has underperformed the benchmark by 1.5%, 1.56% and 1.48% respectively. In the last 1 year, the Fund’s Class A, C and X has underperformed by 8.72%, 8.84% and 8.72% respectively. While over the last 3 years, Class A, C and X has underperformed by 6.35%, 6.66% and 6.31%. And over the last 5 years, Class A, C and X has underperformed by 13.42%, 13.97% and 13.38%.

**Since Inception**

\* Performance of Class A, Class C and Class X are almost the same. Slight variation was due to different timing of units created for each of the class.

**MARKET OUTLOOK\***

**Equity**

Malaysia’s manufacturing sector improved markedly in February 2024 with a The Purchasing Managers’ Index (“PMI”) reading of 49.7 points versus 48.7 points in the previous month and was the highest reading since August 2024. S&P Global noted that firms recorded a rise in new order intakes for the first time in four months which contributed to a softer moderation in production volumes, while business confidence at the highest since October 2024. That said, several respondents are still seeing challenging business conditions. Employment was scaled back fractionally, while cost inflation remains subdued and allowed firms to reduce selling prices for the second consecutive month. The latest PMI data suggests modest growth in Gross Domestic Product (“GDP”) for first quarter of 2025 sustaining the trend seen in second half of 2024. To recap, Malaysia’s GDP grew by 5% in fourth quarter of 2024 and 5.1% for 2024. BNM projects GDP to grow by 4.5% to 5.5% in 2025.

BNM maintained OPR at 3.00% during the recent MPC meeting and we expect the Central Bank to hold rates steady given muted inflation and modest economic growth. Inflation rose 1.7% in January 2025, similar to December 2024. There appears to be sufficient headroom to central bank’s latest 2.0-3.5% Consumer Price Index (“CPI”) forecast for 2025 with the impending subsidy rationalization plans.

The FBMS is now trading at a forward Price per earning of 16 times, below the 10-year historical mean. Sustained strength in domestic investments (both domestic Direct Investment (“DDI”) and Foreign Direct Investment (“FDI”)), fiscal consolidation gathering pace (in particular, subsidy rationalisation initiatives) and the strengthening of the Malaysian Ringgit (“MYR/RM”) are factors we see supportive of the further narrowing of risk premiums (current yield gap at -350 bps; pre-Coronavirus Disease-2019 (“COVID-19”) average of 250 bps and consequently higher valuation multiples.

Analysts are projecting 8-9% growth for 2025 and 2026, with low double-digit growth for most sectors except Banks and Autos at 5-6% growth respectively. Within the broader market, analysts remain hopeful of a strong recovery in earnings for Technology, Gloves and to some extent Petronas Chemicals Group Bhd (“PCHEM”), despite forecasts heavily slashed over the past two years.

## MARKET OUTLOOK\* (CONTINUED)

### Unquoted Sukuk

Budget 2025 targets 4.5% to 5.5% growth while focusing on fiscal consolidation, subsidy rationalization, and efficient resource management to reduce the fiscal deficit from 4.3% in 2024 to 3.8% in 2025. The Government will continue to enhance fiscal management through broadening of revenue measures, optimal use of resources and continue to pursue subsidy rationalization, particularly RON95. It is expected that the Government will implement the petrol subsidy rationalization programme beginning in mid-2025 and will be similar to the diesel subsidy rationalization mechanism. The implementation of the 15% Global Minimum Tax ("GMT") starting January 2025 is expected to strengthen Malaysia's financial position, targeting multinational companies with global revenues exceeding €750 million. This move aims to attract investments while signaling Malaysia's commitment to global tax compliance.

The Central Bank believes the outlook for inflation will depend on the implementation of further domestic policy measures on subsidies and price controls, as well as global commodity prices and financial market developments. Ministry of Finance ("MOF") also projects inflation to range between 2.0% to 3.5% for 2025, and unemployment rate to improve further to 3.1%. Generally, we expect some inflationary pressures arising from the execution of subsidy rationalization, particularly on RON95 by mid-2025, which could have an impact on bond yields. In addition, a change in spending patterns due to the hike in civil servants' minimum salary in February 2025 might give a boost to economic growth via a rise in domestic demand

## INVESTMENT STRATEGY

### Equity

We remain constructive on sectors that stand to gain from the National Energy Transition Roadmap ("NETR"), including Utilities, Construction, and Property. We are also optimistic about Financials and Consumer names given the strong investment momentum in Malaysia, as well as Obstetrics and Gynaecology ("O&G") services. We also like sectors that benefit from the stronger MYR/RM. Additionally, we remain highly selective on Technology favoring those with strong bargaining power. Key risks are the derailment of Malaysia's macroeconomic recovery and corporate earnings growth due to the larger-than-expected impact of rising inflation, slower global economic growth, and heightened geopolitical risks.

### Unquoted Sukuk

We continue to remain positive of the local bond market as we expect it to be strongly supported by strong liquidity and positive market sentiment. Overall, we prefer corporate bonds over government bonds due to the yield pick up and overall better total returns.

## SOFT COMMISSIONS AND REBATES

- (a) the soft commission brings direct benefit or advantage to the management of the Fund and may include research and advisory related services;

**SOFT COMMISSIONS AND REBATES (CONTINUED)**

- (b) any dealings with the broker or dealer is executed on terms which are the most favourable for the Fund; and
- (c) the availability of soft commission is not the sole or primary purpose to perform or arrange transactions with such broker or dealer, and we and the fund the manager will not enter into unnecessary trades in order to achieve a sufficient volume of transactions to qualify for soft commission.

During the financial period review, the Manager and Trustee did not receive any rebates from the brokers or dealers but the Manager has retained soft commission in the form of goods and services for the benefit of the fund such as financial wire services and stock quotations system incidental to investment management of the Funds. The PRS Provider confirms that the goods and services received were for the benefit of the Fund, the trades were made on a best execution basis and there was no churning of trades.

**SECURITIES FINANCING TRANSACTIONS**

The Fund has not undertaken any securities lending or repurchase transactions during the financial period under review.

**STATE OF AFFAIR OF THE FUND**

Effective 2 December 2024, the Fund has changed Trustee to HSBC (Malaysia) Trustee Berhad following the issuance of the Second Supplemental Disclosure Document dated 25 October 2024.

We are of view that the changes above do not affect the existing Members to stay invested in the Fund and it is not a significant change. Members may refer to Appendix 1 for the detailed list of changes.

There were no significant changes in the state of affairs of the Fund during the financial period and up to the date of PRS Provider report, not otherwise disclosed in the financial statements.

**CIRCUMSTANCES THAT MATERIALLY AFFECT ANY INTEREST OF MEMBERS**

There were no circumstances that had materially affected the interest of the unit holders during the financial period under review.

**CROSS TRADE**

No cross-trade transactions have been carried out during the financial period.

**UNIT SPLIT**

No unit split exercise has been carried out during the financial period.

**NOTES TO THE FINANCIAL STATEMENTS  
FOR THE SIX MONTHS FINANCIAL PERIOD ENDED 28 FEBRUARY 2025**

**1. THE FUND, THE PRS PROVIDER AND ITS PRINCIPAL ACTIVITIES**

Principal Islamic PRS Plus Growth (the “Fund”) is governed by a Deed dated 8 November 2012, a First Supplemental Deed dated 2 January 2014, a Second Supplemental Deed dated 25 November 2014, a Third Supplemental Deed dated 3 February 2020, a Fourth Supplemental Deed dated 17 December 2021, a Fifth Supplemental Deed dated 12 July 2022 and a Sixth Supplemental Deed 14 June 2023 (collectively referred to as the “Deeds”), made between Principal Asset Management Berhad (the “PRS Provider”) and Deutsche Trustees Malaysia Berhad (the “ Previous Trustee”) and a Seventh Supplemental Deed dated 31 July 2024 (collectively referred to as the “Deeds”) between the Manager and HSBC (Malaysia) Trustee Berhad (the “Trustee”).

The Fund offers three classes of units known respectively as Class A, Class C and Class X. In accordance with the Disclosure Document, subject to the PRS Provider’s absolute discretion, Class A and Class C are for an individual who has attained the age 18 years as of the date of opening a private pension account while Class X is for Member who participates via his/her employer. Class A and Class C have different Sales Charge and Management Fee while Class X has no Sales Charge.

The Fund will invest in a portfolio of mixed assets, primarily in Shariah-compliant equities with some exposure in Sukuk, to provide capital growth to the Fund. The fixed income portion will provide capital stability to the Fund whilst the equity portion will provide the added return in a rising market. The Fund may opt to invest in Sukuk and Shariah-compliant equities either directly or via Islamic collective investment scheme.

The investments by the Fund in Shariah-compliant equities which include foreign exposure may be up to 90% of the Fund’s NAV and investments in local and/or foreign Sukuk will be at least 10% of the Fund’s NAV with a minimum credit rating of “BBB3” or “P2” by RAM or equivalent rating by MARC or “BBB” or “A-2” by S&P or equivalent rating by any other international rating agencies. Notwithstanding, the Fund may also invest up to 10% of its NAV in unrated Sukuk

The asset allocation strategy for this Fund is as follows:

- At least 10% of the Fund’s NAV will be invested in Sukuk;
- Up to 10% of the Fund’s NAV may be invested in unrated Sukuk;
- Up to 90% of the Fund’s NAV may be invested in Shariah-compliant equities; and
- Up to 5% of the Fund’s NAV may be invested in Islamic liquid assets for liquidity purpose.

With effect from 1 June 2020, Principal Singapore has been appointed as the Sub-Adviser of the Fund. Principal Singapore will provide investment research and recommendation to the PRS Provider in accordance with the investment objective and within the investment restrictions of the Fund.

The Fund had issued the Second Supplemental Disclosure Document is dated 25 October 2024.

All investments are subjected to the SC Guidelines on Private Retirement Schemes (“PRS”), SC requirements, the Deeds, except where exemptions or variations have been approved by the SC, internal policies and procedures and the Fund’s objective.

The PRS Provider, is a joint venture between Principal Financial Group®, a member of the FORTUNE 500® and a Nasdaq-listed global financial services and CIMB Group Holdings Berhad, one of Southeast Asia’s leading universal banking groups. The principal activities of the PRS Provider are the establishment and management of unit trust funds and fund management activities.

## 2. MATERIAL ACCOUNTING POLICY INFORMATION

The following accounting policies have been used consistently in dealing with items which are considered material in relation to the financial statements:

### (a) Basis of preparation

The financial statements have been prepared in accordance with the provisions of the MFRS Accounting Standards as issued by the Malaysian Accounting Standards Board (“MASB”) and IFRS Accounting Standards as issued by the International Accounting Standards Board (“IASB”).

The financial statements have been prepared under the historical cost convention, as modified by financial assets at fair value through profit or loss.

The preparation of financial statements in conformity with MFRS Accounting Standards and IFRS Accounting Standards requires the use of certain critical accounting estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reported period.

It also requires the PRS Provider to exercise their judgement in the process of applying the Fund’s accounting policies. Although these estimates and judgement are based on the PRS Provider’s best knowledge of current events and actions, actual results may differ.

The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements are disclosed in Note 2(l).

There are no other standards, amendments to standards or interpretations effective for financial period beginning on 1 September 2024 that have a material effect on the financial statements of the Fund.

None of the standards, amendments to standards or interpretations that are effective for the financial period beginning on/after 1 March 2025 are applicable to the Fund.

### (b) Financial assets and financial liabilities

#### Classification

The Fund classifies its financial assets in the following measurement categories:

- those to be measured subsequently at fair value through profit or loss, and
- those to be measured at amortised cost.

The Fund classifies its investments based on both the Fund’s business model for managing those financial assets and the contractual cash flow characteristics of the financial assets. The portfolio of financial assets is managed and performance is evaluated on a fair value basis. The Fund is primarily focused on fair value information and uses that information to assess the assets’ performance and to make decisions. The Fund has not taken the option to irrevocably designate any equity securities as fair value through other comprehensive income (“OCI”).

**2. MATERIAL ACCOUNTING POLICY INFORMATION (CONTINUED)****(b) Financial assets and financial liabilities (continued)**Classification (continued)

The contractual cash flows of the Fund's debt securities are solely principal and interest<sup>1</sup> ("SPPI"). However, these securities are neither held for the purpose of collecting contractual cash flows nor held both for collecting contractual cash flows and for sale. The collection of contractual cash flows is only incidental to achieving the Fund's business model's objective. Consequently, all investments are measured at fair value through profit or loss.

The Fund classifies cash and cash equivalents, amount due from stockbrokers, amount due from the PRS Provider - Creation of units and dividends receivable as financial assets at amortised cost as these financial assets are held to collect contractual cash flows consisting of the amount outstanding.

All of the Fund's financial liabilities (other than net assets attributable to members) are measured at amortised cost.

Recognition and measurement

Regular purchases and sales of financial assets are recognised on the trade-date, the date on which the Fund commits to purchase or sell the asset. Shariah-compliant investments are initially recognised at fair value. Transaction costs are expensed in the statement of comprehensive income.

Financial instruments are recognised in the statement of financial position when, and only when, the Fund becomes a party to the contractual provisions of the financial instrument.

Financial assets are derecognised when the rights to receive cash flows from the Shariah-compliant investments have expired or have been transferred and the Fund has transferred substantially all risks and rewards of ownership.

Financial liabilities are derecognised when it is extinguished, i.e., when the obligation specified in the contract is discharged or cancelled or expired.

Unrealised gains or losses arising from changes in the fair value of the financial assets at fair value through profit or loss are presented in the statement of comprehensive income within net gain or loss on financial assets at fair value through profit or loss in the financial period which they arise.

Dividend income from financial assets at fair value through profit or loss is recognised in the statement of comprehensive income as part of gross dividend income when the Fund's right to receive payments is established.

Shariah-compliant quoted securities in Malaysia are valued at the last traded market price quoted on Bursa Malaysia Securities Bhd ("Bursa Securities") at the date of the statement of financial position.

Foreign Shariah-compliant quoted securities are valued at the last traded market price quoted on the respective foreign stock exchanges at the close of the business day of the respective foreign stock exchanges.

<sup>1</sup> For the purposes of this Fund, interest refers to profits earned from Shariah-compliant investments

**2. MATERIAL ACCOUNTING POLICY INFORMATION (CONTINUED)****(b) Financial assets and financial liabilities (continued)**Recognition and measurement (continued)

If a valuation based on the market price does not represent the fair value of the Shariah-compliant quoted securities, for example during abnormal market conditions or when no market price is available, including in the event of a suspension in the quotation of the Shariah-compliant quoted securities for a period exceeding 14 days, or such shorter period as agreed by the Trustee, then the Shariah-compliant quoted securities are valued as determined in good faith by the PRS Provider, based on the methods or basis approved by the Trustee after appropriate technical consultation.

Unquoted Sukuk denominated in MYR/RM are revalued on a daily basis based on fair value prices quoted by a Bond Pricing Agency ("BPA") registered with the SC as per the SC Guidelines on PRS. Refer to Note 2(l) for further explanation.

Shariah-compliant deposits with licensed Islamic financial institutions are stated at cost plus accrued profit calculated on the effective profit method over the period from the date of placement to the date of maturity of the respective deposits.

Financial assets at amortised cost and other financial liabilities are subsequently carried at amortised cost using the effective profit method.

Impairment for assets carried at amortised costs

The Fund measures credit risk and expected credit losses ("ECL") using probability of default, exposure at default and loss given default. The PRS Provider consider both historical analysis and forward-looking information in determining any ECL. The PRS Provider consider the probability of default to be close to zero as these instruments have a low risk of default and the counterparties have a strong capacity to meet their contractual obligations in the near term. As a result, no loss allowance has been recognised based on 12-month ECL as any such impairment would be wholly insignificant to the Fund.

Significant increase in credit risk

A significant increase in credit risk is defined by the PRS Provider as any contractual payment which is more than 30 days past due.

Definition of default and credit-impaired financial assets

Any contractual payment which is more than 90 days past due is considered credit impaired.

Write-off

The Fund writes off financial assets, in whole or in part, when it has exhausted all practical recovery efforts and has concluded there is no reasonable expectation of recovery. The assessment of no reasonable expectation of recovery is based on unavailability of debtor's sources of income or assets to generate sufficient future cash flows to repay the amount. The Fund may write-off financial assets that are still subject to enforcement activity. Subsequent recoveries of amounts previously written off will result in impairment gains. There are no write-offs/recoveries during the financial period.

## 2. MATERIAL ACCOUNTING POLICY INFORMATION (CONTINUED)

### (c) Income recognition

Dividend income is recognised on the ex-dividend date when the right to receive payment is established.

Profit income from Shariah-compliant deposits with licensed Islamic financial institutions and unquoted Sukuk are recognised on a time proportionate basis using the effective profit method on an accrual basis.

Profit income is calculated by applying the effective profit rate to the gross carrying amount of a financial asset except for financial assets that subsequently become credit impaired. For credit-impaired financial assets the effective profit rate is applied to the net carrying amount of the financial asset (after deduction of the loss allowance).

Realised gain or loss on disposal of Shariah-compliant quoted securities is accounted for as the difference between the net disposal proceeds and the carrying amount of Shariah-compliant quoted securities, determined on a weighted average cost basis.

Realised gain or loss on disposal of unquoted Sukuk is accounted for as the difference between the net disposal proceeds and the carrying amount of unquoted Sukuk, determined on cost adjusted for accretion of discount or amortisation of premium.

### (d) Foreign currency

#### Functional and presentation currency

Items included in the financial statements of the Fund are measured using the currency of the primary economic environment in which the Fund operates (the “functional currency”). The financial statements are presented in MYR/RM, which is the Fund’s functional and presentation currency.

Due to mixed factors in determining the functional currency of the Fund, the PRS Provider has used its judgement to determine the functional currency that most faithfully represents the economic effects of the underlying transactions, events and conditions and have determined the functional currency to be in MYR/RM primarily due to the following factors:

- i) The Fund’s units are denominated in MYR/RM;
- ii) Significant portion of the Fund’s expenses are denominated in MYR/RM; and
- iii) Significant portion of the Fund’s NAV is invested in investment denominated in MYR/RM.

### (d) Foreign currency

#### Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions or valuation where items are remeasured. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at financial period end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in statement of comprehensive income.

**2. MATERIAL ACCOUNTING POLICY INFORMATION (CONTINUED)****(e) Members' contributions**

The members' contributions to the Fund meet the definition of puttable instruments classified as financial liability under MFRS 132 "Financial Instruments: Presentation".

The Fund issues cancellable units, in three classes of units, known respectively as the Class A, Class C and Class X, which are cancelled at the member's option and do not have identical features subject to restrictions as stipulated in the Disclosure Document and SC Guidelines on PRS. The units are classified as financial liabilities. Cancellable units can be put back to the Fund at any time for cash equal to a proportionate share of the Fund's NAV of respective classes. The outstanding units are carried at the redemption amount that is payable at the date of statement of financial position if the member exercises the right to put back the unit to the Fund.

Units are created and cancelled at the member's option at prices based on the Fund's NAV per unit of respective classes at the close of business on the relevant dealing day. The Fund's NAV per unit of respective classes is calculated by dividing the net assets attributable to members of respective classes with the total number of outstanding units of respective classes.

**(f) Distribution**

Any distribution to the Fund's members is accounted for as a deduction in profit or loss from realised reserves and recognised in the statement of comprehensive income, as the members' capital are classified as financial liabilities as per Note 2(e). Distribution is reinvested into the PRS on the ex-date. Reinvestment of units is based on the NAV per unit on the ex-date, which is also the time of creation. Proposed distributions are recognised as a liability in the financial period in which it is approved by the Trustee.

**(g) Transaction costs**

Transaction costs are costs incurred to acquire or dispose financial assets or liabilities at fair value through profit or loss. They include fees and commissions paid to agents, advisors, brokers and dealers. Transaction costs, when incurred, are immediately recognised in the statement of comprehensive income as expenses.

**(h) Cash and cash equivalents**

For the purpose of statement of cash flows, cash and cash equivalents comprise bank balances and Shariah-compliant deposits held in highly liquid investments with original maturities of three months or less that are readily convertible to known amount of cash and which are subject to an insignificant risk of changes in value.

**(i) Taxation**

Current tax expense is determined according to Malaysian tax laws at the current rate based upon the taxable profit earned during the financial period.

Tax on investment income from foreign quoted securities is based on the tax regime of the respective countries that the Fund invests in.

**2. MATERIAL ACCOUNTING POLICY INFORMATION (CONTINUED)**

**(j) Amount due from/to stockbrokers**

Amount due from and amount due to stockbrokers represent receivables for Shariah-compliant quoted securities and unquoted Sukuk sold and payables for Shariah-compliant quoted securities and unquoted Sukuk purchased that have been contracted for but not yet settled or delivered on the statement of financial position date respectively.

**(k) Realised and unrealised portions of profit or loss after taxation**

The analysis of realised and unrealised portions of profit or loss after taxation as presented on the statement of comprehensive income is prepared in accordance with SC Guidelines on PRS.

**(l) Critical accounting estimates and judgements in applying accounting policies**

The Fund makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, rarely equal the related actual results. To enhance the information content of the estimates, certain key variables that are anticipated to have material impact to the Funds' results and financial position are tested for sensitivity to changes in the underlying parameters.

Estimates and judgement are continually evaluated by the PRS Provider and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

Estimate of fair value of unquoted Sukuk

In undertaking any of the Fund's Shariah-compliant investments, the PRS Provider will ensure that all assets of the Fund under management will be valued appropriately, that is at fair value and in compliance with the SC Guidelines on PRS.

MYR/RM-denominated unquoted Sukuk are valued using fair value prices quoted by a BPA. Where the PRS Provider is of the view that the price quoted by BPA for a specific unquoted Sukuk differs from the market price by more than 20 bps, the PRS Provider may use market price, provided that the PRS Provider records its basis for using a non-BPA price, obtains necessary internal approvals to use the non-BPA price, and keeps an audit trail of all decisions and basis for adopting the use of non-BPA price.

**3. RISK MANAGEMENT OBJECTIVES AND POLICIES**

All liabilities are financial liabilities which are carried at amortised cost except net assets attributable to members which are carried at fair value through profit or loss.

The investment objective of the Fund is to provide capital growth over the long-term by investing in a portfolio of primarily Shariah-compliant equities with some exposure in Sukuk.

The Fund is exposed to a variety of risks which include market risk (inclusive of price risk, interest rate risk and currency risk), credit risk and liquidity risk.

Financial risk management is carried out through internal control process adopted by the PRS Provider and adherence to the investment restrictions as stipulated in the Deeds and SC Guidelines on PRS.

**3. RISK MANAGEMENT OBJECTIVES AND POLICIES (CONTINUED)****(a) Market risk****(i) Price risk**

This is the risk that the fair value of an investment in Shariah-compliant quoted securities and unquoted Sukuk will fluctuate because of changes in market prices. The value of investments in Shariah-compliant quoted securities and unquoted Sukuk may fluctuate according to the activities of individual companies, sector and overall political and economic conditions. Such fluctuation may cause the Fund's NAV and prices of units to fall as well as rise, and income produced by the Fund may also fluctuate.

The price risk is managed through diversification and selection of Shariah-compliant quoted securities, unquoted Sukuk and other financial instruments within specified limits according to the Deeds.

**(ii) Interest rate risk**

In general, when interest rates rise, unquoted Sukuk prices will tend to fall and vice versa. Therefore, the NAV of the Fund may also tend to fall when interest rates rise or are expected to rise. However, investors should be aware that should the Fund holds an unquoted Sukuk till maturity, such price fluctuations would dissipate as it approaches maturity, and thus the growth of the NAV shall not be affected at maturity. In order to mitigate interest rates exposure of the Fund, the PRS Provider will manage the duration of the portfolio via shorter or longer tenured assets depending on the view of the future interest rate trend of the PRS Provider, which is based on its continuous fundamental research and analysis.

Although unquoted Sukuk is a non-interest-bearing instrument, note that the movement in prices of unquoted Sukuk are correlated to the movement in interest rates. As such, the investments in unquoted Sukuk are exposed to the movement of the interest rates. Even though the Fund does not invest in interest bearing instruments, the interest rate referred herein is to the general interest rate of the country, which may affect the value of the investment of the Fund. However, it does not in any way suggest that this Fund will invest in conventional financial instruments. All investments carried out for the Fund including placement and deposits are in accordance with Shariah.

This risk is crucial since unquoted Sukuk portfolio management depends on forecasting interest rate movements. Prices of unquoted Sukuk move inversely to interest rate movements, therefore as interest rates rise, the prices of unquoted Sukuk decrease and vice versa. Furthermore, unquoted Sukuk with longer maturity and lower yield interest rates are more susceptible to interest rate movements.

Such Shariah-compliant investments may be subject to unanticipated rise in interest rates which may impair the ability of the issuers to meet the obligation under the instrument, especially if the issuers are highly leveraged. An increase in interest rates may therefore increase the potential for default by an issuer.

**(iii) Currency risk**

Currency risk of the Fund is associated with Shariah-compliant investments that are quoted and/or priced in foreign currency denomination. Foreign currency risk is the risk that the value of financial instruments will fluctuate due to changes in foreign exchange rates.

**3. RISK MANAGEMENT OBJECTIVES AND POLICIES (CONTINUED)**

**(a) Market risk (continued)**

**(iii) Currency risk (continued)**

The PRS Provider will evaluate the likely directions of a foreign currency versus MYR/RM based on considerations of economic fundamentals such as profit rate differentials, balance of payments position, debt levels, and technical chart considerations.

**(b) Credit risk**

Credit risk refers to the risk that a counter party will default on its contractual obligation resulting in financial loss to the Fund.

Investment in unquoted Sukuk may involve a certain degree of credit/default risk with regards to the issuers. Generally, credit risk or default risk is the risk of loss due to the issuer's non-payment or untimely payment of the investment amount as well as the returns on investment. This will cause a decline in value of the defaulted unquoted Sukuk and subsequently depress the NAV of the Fund. Usually credit risk is more apparent for an investment with a longer tenure, i.e., the longer the duration, the higher the credit risk.

Credit risk can be managed by performing continuous fundamental credit research and analysis to ascertain the creditworthiness of its issuer. In addition, the PRS Provider imposes a minimum rating requirement as rated by either local and/or foreign rating agencies and manages the duration of the investment in accordance with the objective of the Fund. For this Fund, the unquoted Sukuk investments must satisfy a minimum credit rating of "BBB3" or "P2" by RAM or equivalent rating by MARC or "BBB" or "A-2" by S&P or equivalent rating by any other international rating agencies.

The credit risk arising from bank balances and placements of Shariah-compliant deposits in licensed Islamic financial institutions is managed by ensuring that the Fund will only place Shariah-compliant deposits in reputable licensed Islamic financial institutions.

For amount due from the PRS Provider, the settlement terms of the proceeds from the creation of units receivable from the PRS Provider are governed by the SC Guidelines on PRS.

**(c) Liquidity risk**

Liquidity risk is the risk that the Fund will encounter difficulty in meeting its financial obligations.

The PRS Provider manages this risk by maintaining sufficient level of liquid assets to meet anticipated payments and cancellations of the units by members. Liquid assets comprise bank balances and Shariah-compliant deposits with licensed Islamic financial institutions, which are capable of being converted into cash within 7 business days.

Generally, all Shariah-compliant investments are subject to a certain degree of liquidity risk depending on the nature of the investment instruments, market, sector and other factors. For the purpose of the Fund, the PRS Provider will attempt to balance the entire portfolio by investing in a mix of assets with satisfactory trading volume and those that occasionally could encounter poor liquidity. This is expected to reduce the risks for the entire portfolio without limiting the Fund's growth potentials.

### 3. RISK MANAGEMENT OBJECTIVES AND POLICIES (CONTINUED)

#### (d) Capital risk management

The capital of the Fund is represented by equity consisting of net assets attributable to members. The amount of capital can change significantly on a daily basis as the Fund is subjected to daily subscriptions and redemptions at the discretion of members. The Fund's objective when managing capital is to safeguard the Fund's ability to continue as a going concern in order to provide returns to members and benefits for other stakeholders and to maintain a strong capital base to support the development of the investment activities of the Fund.

#### (e) Fair value estimation

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e., an exit price).

The fair values of financial assets traded in active markets (such as trading securities) are based on quoted market prices at the close of trading on the financial period end date. The Fund utilises the last traded market price for financial assets where the last traded price falls within the bid-ask spread. In circumstances where the last traded price is not within the bid-ask spread, the PRS Provider will determine the point within the bid-ask spread that is most representative of the fair value.

An active market is a market in which transactions for the asset or liability take place with sufficient frequency and volume to provide pricing information on an on-going basis.

The fair value of financial assets that are not traded in an active market is determined by using valuation techniques.

#### (i) Fair value hierarchy

The table below analyses financial instruments carried at fair value. The different levels have been defined as follows:

- Quoted prices (unadjusted) in active market for identical assets or liabilities (Level 1)
- Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) (Level 2)
- Inputs for the asset and liability that are not based on observable market data (that is, unobservable inputs) (Level 3)

The level in the fair value hierarchy within which the fair value measurement is categorised in its entirety is determined on the basis of the lowest level input that is significant to the fair value measurement in its entirety. For this purpose, the significance of an input is assessed against the fair value measurement in its entirety.

If a fair value measurement uses observable inputs that require significant adjustment based on unobservable inputs, that measurement is a Level 3 measurement.

Assessing the significance of a particular input to the fair value measurement in its entirety requires judgement, considering factors specific to the asset or liability.

3. RISK MANAGEMENT OBJECTIVES AND POLICIES (CONTINUED)

(i) Fair value hierarchy (continued)

The determination of what constitutes 'observable' requires significant judgement by the Fund. The Fund considers observable data to be that market data that is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market.

Shariah-compliant investments whose values are based on quoted market prices in active markets, and are therefore classified within Level 1, include active listed Shariah-compliant quoted equities. The Fund does not adjust the quoted prices for these instruments. The Fund's policies on valuation of these financial assets are stated in Note 2(b).

Financial instruments that trade in markets that are not considered to be active but are valued based on quoted market prices, dealer quotations or alternative pricing sources supported by observable inputs are classified within Level 2. This includes unquoted Sukuk. As Level 2 instruments include positions that are not traded in active markets and/or are subject to transfer restrictions, valuations may be adjusted to reflect illiquidity and/or non-transferability, which are generally based on available market information. The Fund's policies on valuation of these financial assets are stated in Note 2(b).

**4. MANAGEMENT FEE AND PRIVATE PENSION ADMINISTRATOR ADMINISTRATION FEE**

In accordance with the Deeds, the PRS Provider is entitled to a maximum management fee of 3.00% per annum for each unit class, calculated daily based on the NAV of the Fund.

For the six months financial period ended 28 February 2025 and 29 February 2024, the management fee for the respective classes is recognised at the following rates:

<b>Class A</b>	<b>Class C</b>	<b>Class X</b>
1.40%	1.50%	1.40%

The Private Pension Administrator administration fee is recognised at a rate of 0.04% per annum (29.02.2024: 0.04% per annum) for each unit class, calculated daily based on the NAV of the Fund.

There was no further liability in respect of management fee, and Private Pension Administrator administration fee other than the amount recognised above.

**5. TRUSTEE FEE**

In accordance with the Deeds, the Trustee is entitled to a maximum fee of 0.04% per annum for each unit class, calculated daily based on the NAV of the Fund. The Trustee fee includes local custodian fees and charges but excludes foreign sub-custodian fees and charges.

For the six months financial period ended 28 February 2025, the Trustee fee is recognised at a rate of 0.04% per annum (29.02.2024: 0.04% per annum) for each unit class.

There was no further liability to the Trustee in respect of Trustee fee other than the amount recognised above.

Potential Conflicts of Interests and Related Party Transactions</p> <p>We (including our directors) will at all times act in your best interests and will not conduct ourselves in any manner that will result in a conflict of interest or potential conflict of interest. In the unlikely event that any conflict of interest arises, such conflict shall be resolved such that the Funds are not disadvantaged. In the unlikely event that we face conflicts in respect of our duties as the PRS Provider to the Funds and to other Principal Malaysia’s funds that we manage, we are obliged to act in the best interests of all the Members and will seek to resolve any conflicts fairly and in accordance with the Deed.</p> <p>We shall not act as principal in the sale and purchase of any securities or investments to and from the Funds. We shall not make any investment for the Funds in any securities, properties or assets in which we or our officer has financial interest in or from which we or our officer derives a benefit, unless with the prior approval of the Scheme Trustee. We (including our directors) who hold substantial shareholdings or directorships in public companies shall refrain from any decision making relating to that particular investment of the Funds.</p> <p>The Funds may maintain Islamic Deposits with CIMB Bank Berhad, CIMB Islamic Bank Berhad and CIMB Investment Bank Berhad. We may enter into transactions with other companies within PFG and CIMB Group provided that the transactions are effected at market prices and are conducted at arm’s lengths.</p> <p>We generally discourage cross trades and prohibit any transactions between client(s) accounts and fund accounts. Any cross trade activity require prior approval with the relevant supporting justification(s) to ensure the trades are executed in the best interest of both funds and such transactions were executed at arm’s length. Cross trades will be reported to the person(s) or members of a committee undertaking the oversight function of the Funds to ensure compliance to the relevant regulatory requirements.</p> <p>The Distributor may be our related party and PGI is our related party. We will ensure that any arrangement made with the Distributors and PGI will be at arm’s length.</p>
